## ASX ANNOUNCEMENT

28 October 2022

# Q3 2022 Quarterly Report: Rafaella Resources agrees to acquire the Horden Lake battery metals deposit in Quebec

## INVESTMENT HIGHLIGHTS

### Horden Lake Acquisition, Canada

- Terms agreed to acquire major Ni-Cu-PGM project in Quebec.
- Deposit contains NI43-101 (2009) compliant resource\* of 16.55Mt comprising 8.76Mt of Indicated @ 0.88% Cu, 0.21% Ni, and 7.79Mt of Inferred at 0.87% Cu, 0.25%Ni.
- Drill holes subsequent to 2009 indicate excellent potential for precious metal credits and resource expansion.
- Located close to infrastructure and power.
- Cash consideration of C\$4m with 10% already paid.

### Belleterre-Angliers Project, Canada

- 137 anomalies with 20 high priority EM targets located at depths greater than 300m in recently consolidated project, in line with the Company's geological targeting of deeper VMS feeder systems.

### San Finx tin and tungsten project

- Proposal received from the water utility to approve the water discharge permit, subject to certain conditions. Approval of the water discharge permit will be a key milestone in the project's development.
- Maiden JORC compliant mineral resource estimate released showing Inferred Resources\*\* of 1.2Mt with a combined grade of 0.80% (0.30% WO<sub>3</sub> + 0.50% Sn) with total contained metal being 3,581t WO<sub>3</sub> and 5,786t Sn.

### Santa Comba tungsten and tin project

- Appointment of engineering consultancy, Mining Sense Global S.L., to complete scoping study examining synergies in processing Santa Comba ore with that of San Finx.

## Corporate

- Rafaella's cash position as at 30 September 2022 was \$2.017m.
- In July a private placement of \$2.1m was successfully completed at \$0.023/share.
- In September, a private placement facility of \$1m at \$0.035/share in support of the Horden Lake acquisition was fully drawn.
- The maiden baseline ESG report was published on the Company's website.

### Cautionary Statements

\*The estimates of Mineral Resources are not reported in accordance with the JORC Code 2012; a Competent Person has not done sufficient work to classify the estimates of Mineral Resources or Ore Reserves in accordance with the JORC Code 2012. It is possible that following evaluation and/or further exploration work the currently reported estimates may materially change and hence will need to be reported afresh under and in accordance with the JORC Code 2012. Nothing has come to the attention of the Company that causes it to question the accuracy or reliability of the former owner's estimates, but the acquirer has not independently validated the former owners' estimates and therefore is not to be regarded as reporting, adopting or endorsing those estimates.

\*\*There is a lower level of geological confidence associated with Inferred mineral resources and there is no certainty that further exploration work will result in the determination of Indicated mineral resources.

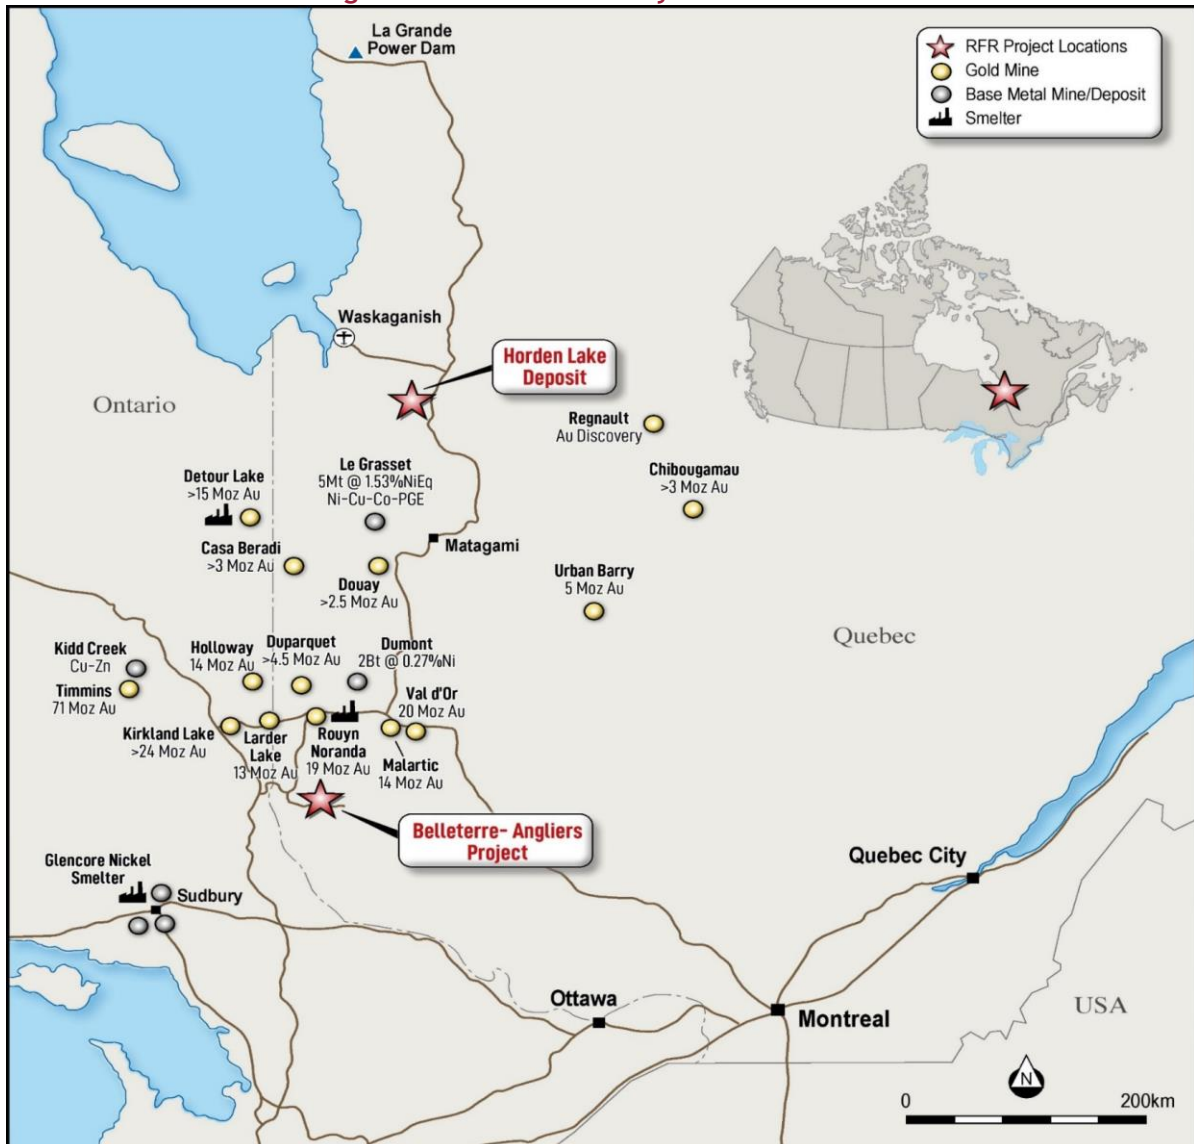

**Rafaella’s Managing Director Steven Turner said:** “This quarter has seen a remarkable change in the Company’s portfolio as we pivot towards a battery metals focus in Canada with the transformative acquisition of Horden Lake. At the same time, we have seen some positive developments in Spain, with a proposal to award the water discharge permit at San Finx, followed soon thereafter by the project’s maiden JORC mineral resource estimate showing enormous potential. As the Company transitions towards a battery metals company, having taken the Spanish projects to an advanced stage, we are now seeking partners to take these through to production.”

**Rafaella Resources Limited (ASX:RFR) (‘Rafaella’ or the ‘Company’)** is pleased to provide its Appendix 5B cash flow statement for the quarter ended 30 September 2022, along with the following operational summary.

Rafaella has spent the quarter completing the rebalancing of its portfolio by agreeing the acquisition of the transformational Horden Lake battery metals deposit in Quebec, Canada.

**CANADIAN BATTERY METALS PORTFOLIO**

**Figure 1: Canadian Battery Metals Portfolio**

### Horden Lake

On September 2<sup>nd</sup>, the Company executed a binding agreement to acquire the large Horden Lake Ni-Cu-PGM deposit located in northwest Quebec<sup>1</sup>. The acquisition is transformative in that it immediately makes Rafaela a significant player in the battery metals space with a large, defined deposit benefitting from extensive drilling (52,402m), a substantial mineral resource estimate, and a location close to key infrastructure, including a sealed road and high voltage power lines running from the Le Grange hydroelectric power dam.

In April of 2009 an independent technical resource estimate was completed on the Horden Lake Property by Caracle Creek International Consulting Inc. ('Caracle Creek') for Southampton Ventures Inc. The mineral resources disclosed in the National Instrument 43-101 Technical Report conformed to the Canadian Institute of Mining, Metallurgy and Petroleum (CIM) standards on Mineral Resources and Reserves as adopted by the CIM Council on December 11, 2005.

The result of this resource estimate using a 0.5% Cu Block Cut off are as follows:

Category	Tonnes	Cu%	Ni %	g Pd/t	g Au/t	g Ag/t
Indicated	8,759,200	0.88	0.21	0.15	0.15	10.44
Inferred	7,791,195	0.87	0.25			

#### Cautionary Statement

*The estimates of Mineral Resources are not reported in accordance with the JORC Code 2012; a Competent Person has not done sufficient work to classify the estimates of Mineral Resources or Ore Reserves in accordance with the JORC Code 2012. It is possible that following evaluation and/or further exploration work the currently reported estimates may materially change and hence will need to be reported afresh under and in accordance with the JORC Code 2012. Nothing has come to the attention of the Company that causes it to question the accuracy or reliability of the former owner's estimates but the acquirer has not independently validated the former owners' estimates and therefore is not to be regarded as reporting, adopting or endorsing those estimates.*

Acquisition terms are the payment of C\$4m, of which C\$400,000 has already been paid as a non-refundable deposit to secure the deal, and the provision of a 1% NSR. There is an existing 1% NSR already on the project. The balance of C\$3.6m is payable within 90 days of the signing of the acquisition agreement. Discussions are advanced with several parties to provide strategic investment in support of the costs of the acquisition and the forward programme.

On 17 October, post the quarter end, the Company released the drill results of a 2012 campaign that targeted the investigation of additional metals within the Horden Lake resource<sup>2</sup>. The 12 El Condor holes were laid out as confirmation/infill and step-out drilling and samples were analysed by multi-element ICP for 36 elements plus platinum (Pt), palladium (Pd) and gold (Au) by fire assay. The significant cobalt (Co) in the El Condor analyses, as well as precious metals, demonstrates the potential for adding value to the original 2009 Caracle Creek resource estimation. The samples were not assayed for rhodium, but the Company intends to do so in future.

Assay highlights include:

- HN-12-82: 7.7m averaging 2.75 % Cu, 0.45 % Ni, and 0.05 % Co, with 40.1 g/t Ag, 0.47 g/t Pd, 0.41 g/t Pt, and 1.30 g/t Au
- HN-12-84: 15.8m averaging 1.72 % Cu, 0.35 % Ni, and 0.03 % Co, with 25.9 g/t Ag, 0.33 g/t Pd, 0.05 g/t Pt, and 0.32 g/t Au

<sup>1</sup> See ASX announcement dated 13 September 2022 "Terms Agreed Over the Horden Lake Copper-Nickel-PGM Deposit in Quebec, Canada"

<sup>2</sup> See ASX announcement dated 17 October 2022 "Additional Historical Drill Holes from Horden Lake confirm Multi-Element and Expansion Potential"

- **HN-12-88:** 26.9m averaging 2.19 % Cu, 0.58 % Ni and 0.05 % Co, with 30.5 g/t Ag, 0.56 g/t Pd, 0.16 g/t Pt and 0.27 g/t Au
- **HN-12-91:** 12.3m averaging 1.10 % Cu, 0.25 % Ni, and 0.01 % Co, with 16.4 g/t Ag, 0.19 g/t Pd, 0.14 g/t Pt, and 0.15 g/t Au

The assays of the additional 12 holes suggests valuable by-product credits and expansion potential. The Company has engaged Caracle Creek to recalculate the 2009 mineral resource estimate according to JORC guidelines, updating the model with (i) the additional 12 holes and, (ii) the improved commodity price environment.

### **Belleterre-Angliers Project**

On 20 July, the Company announced that it had identified numerous new anomalies in the recently consolidated battery metals exploration project. Following a detailed review by SRK Exploration<sup>3</sup>,

The Company's geological model suggests the relatively small but high-grade gabbroic intrusions point to a broader intrusive complex that could host substantial massive and semi-massive sulphide accumulations. Preliminary geophysical work has reprioritised the exploration targets, focusing on those previously overlooked for lying greater than 300m in depth. 137 new and reclassified EM anomalies have been identified with 20 of these being classified as Priority 1 for further investigation.

In addition, the acquisition of the Alotta and Lorraine licences in the prior quarter has delivered more underexplored targets to the existing asset portfolio. Lorraine, in particular, provides many targets which have been modelled and drill tested. Down hole geophysics has already identified off-hole conductors for priority follow-up work.

Importantly, confirmation of high-grade mineralisation within the magmatic system demonstrates a highly prospective geological environment with the potential to produce larger and deeper sulphide accumulations within the tenement portfolio, providing significant upside exposure to shareholders.

---

<sup>3</sup> See ASX release dated 20 July 2022 "Exploration Work Starts at Quebec PGM-Ni-Cu Projects with Field Mapping Highlighting Positive Geology and Delineation of New, Deeper Em Plates"

**SPANISH CRITICAL METALS PORTFOLIO**
**Figure 2: Spanish tin and tungsten portfolio**

**San Finx**

On the 19 July, the Company announced that it had received a proposal from the water authority in Galicia, to issue the water discharge approval, necessary to recommence the development work at San Finx<sup>4</sup>. The proposal contained 18 conditions that have now been reviewed and commented by the Company. The water authority is currently reviewing the feedback and the Company is waiting on a response.

Post the quarter end, the Company announced a maiden JORC compliant underground mineral resource estimate as well as an exploration target<sup>5</sup>.

- ① Inferred Resources\* of 1.2Mt with a combined grade of 0.80% (0.30% WO<sub>3</sub> + 0.50% Sn) with total contained metal being 3,581t WO<sub>3</sub> and 5,786t Sn split between:
  - the Pozo Nuevo zone, with 0.62 Mt at 1.00% combined (0.35% WO<sub>3</sub> + 0.65% Sn); and
  - the Buenaventura zone with 0.56Mt at 0.56% combined (0.25% WO<sub>3</sub> and 0.31% Sn).
- ② An Exploration Target\*\* of 3.6Mt to 10.9Mt with a combined grade ranging between 0.70% to 1.17% (WO<sub>3</sub>+Sn) for total contained metal of between 25,463t and 127,485t (WO<sub>3</sub>+Sn) has been calculated demonstrating enormous upside potential in a mineralised zone that has historically produced clean, high-grade tin and tungsten concentrates, as recently as 2017.

<sup>4</sup> See ASX announcement dated 19 July 2022 “Proposal Received for the Approval of San Finx Water Discharge Permit”

<sup>5</sup> See ASX announcement dated 6 October 2022 “Maiden JORC Compliant Mineral Resource Estimate at San Finx of 1.2Mt at 0.80% combined WO<sub>3</sub> + Sn grade”

### Cautionary Statements

\*There is a lower level of geological confidence associated with Inferred mineral resources and there is no certainty that further exploration work will result in the determination of Indicated mineral resources.

\*\* The potential quantity and grade of the Exploration Target is conceptual in nature; there has been insufficient exploration to estimate a Mineral Resource and it is uncertain if further exploration work will result in the estimation of a Mineral Resource.

### Santa Comba

The Company has engaged mining engineering consultancy, Mining Sense Global S.L. to complete a scoping study to investigate synergies between San Finx and Santa Comba processing options to allow for an early commercial scale mining operation at the Santa Comba underground mine.

### Global Mineral Resource Estimate

Following the completion of the Santa Comba underground JORC resource in February and the San Finx underground resource estimate in July, the global Mineral Resource Estimate for the Company is summarised below.

Deposit	Date and Author	MT	WO <sub>3</sub> (%)	Sn (%)	WO <sub>3</sub> (t)	Sn (t)
<b>Measured</b>						
Santa Comba	2021 (Wardell Armstrong)	1.57	0.15	0.01	2,424	166
<b>Total Measured</b>		<b>1.57</b>	<b>0.15</b>	<b>0.01</b>	<b>2,424</b>	<b>166</b>
<b>Indicated</b>						
Santa Comba open pit	2021 (Wardell Armstrong)	7.11	0.15	0.01	10,629	695
<b>Total Indicated</b>		<b>7.11</b>	<b>0.15</b>	<b>0.01</b>	<b>10,629</b>	<b>695</b>
<b>Inferred</b>						
Santa Comba open pit	2021 (Wardell Armstrong)	1.29	0.23	0.01	3,010	133

Mina Carmen South	2016 (AWheeler)	0.23	0.95	0.23	2,752	662
San Finx Underground						
Buenaventura	2022 (Austermine)	0.56	0.25	0.35	1,389	1,746
Pozo Nuevo	2022 (Austermine)	0.62	0.35	0.65	2,192	4,040
<b>Total Inferred</b>		<b>2.76</b>	<b>0.36</b>	<b>0.24</b>	<b>9,875</b>	<b>6,587</b>
<b>Total Measured + Indicated + Inferred</b>		<b>11.4392</b>	<b>0.20</b>	<b>0.07</b>	<b>22,928</b>	<b>7,448</b>

*Santa Comba open pit 0.05% WO<sub>3</sub> cut-off*

*Santa Comba UG Inferred: Cut-off = 10Kg/m<sup>2</sup> = 0.53% WO<sub>3</sub>*

*San Finx Cut-off: WO<sub>3</sub>+Sn ≥ 0.265%, density: 2.7 g/cm<sup>3</sup>*

*Rounding as required by reporting guidelines may result in apparent summation differences between tonnes, grade and contained metal content. Where these occur, they are not considered material.*

### CORPORATE

Rafaella's cash position as at 30 September 2022 was \$2.017m.

On 27 July, the Company announced that it had successfully completed a \$2.1m private placement to support the ongoing activities across the two portfolios.<sup>6</sup>

<sup>6</sup> See ASX announcement dated 27 July 2022 "Rafaella Completes \$2.1m Private Placement."

On the 27 of July, the Company drew down in full a \$1m placement facility secured to assist in the financing of the Horden Lake acquisition.<sup>7</sup>

On 13 July 2022, the Company published its baseline Environmental, Social and Governance (ESG) report<sup>8</sup>. Disclosures are made in line with the World Economic Forum Stakeholder Capitalism ESG framework.

On 23 September 2022, the Company held and EGM at which all resolutions were passed.

### Financial commentary

The Appendix 5B for the quarter ended 30 September 2022 provides an overview of the Company’s financial activities. Exploration expenditure for the quarter was \$0.713m, including ongoing study work associated with the Santa Comba project. Corporate and other expenditure for the quarter was \$0.264m. The total amount paid to Directors of the Company, their associates and other related parties was \$0.040m and includes salary and fees.

Securities on issue at 30 September 2022:

	Listed on ASX	Unlisted	Total

## About Rafaella Resources

Rafaella Resources Limited (ASX:RFR) is an explorer and developer of world-class mineral deposits. Rafaella holds a battery metals exploration portfolio in Canada located within the prolific Belleterre-Angliers Greenstone Belt comprised of the Midrim, Laforce, Alotta and Lorraine high-grade nickel copper PGM sulphide projects in Quebec (together the 'Belleterre-Angliers Project'). These projects are now complemented by the flagship Horden Lake property, subject to a binding acquisition agreement, which contains a significant copper-nickel-PGM-gold-silver metal resource. The combination of these projects offers significant upside for the Company shareholders in a supportive mining jurisdiction as modern economies look to transition to renewables.

Rafaella also owns the Santa Comba and San Finx tungsten and tin development projects in Spain. The recently acquired San Finx project lies 50km south from the Company's Santa Comba tungsten and tin mine in Galicia, NW Spain, all within the same geological belt, strengthening the Company's strategic position in the Iberian Peninsula and its long-term goal of being a significant supplier of the critically listed metals of tungsten and tin.

## Forward Looking Statements Disclaimer

This announcement contains forward-looking statements that involve a number of risks and uncertainties. These forward-looking statements are expressed in good faith and believed to have a reasonable basis. These statements reflect current expectations, intentions or strategies regarding the future and assumptions based on currently available information. Should one or more of the risks or uncertainties materialise, or should underlying assumptions prove incorrect, actual results may vary from the expectations, intentions and strategies described in this announcement. No obligation is assumed to update forward looking statements if these beliefs, opinions and estimates should change or to reflect other future developments.

## Competent Persons Statement

The information in this release that relates to the Estimation and Reporting of Mineral Resources for the San Finx Project has been compiled by Mr Juan Antonio Fernandez Mining Engineer, Geological Engineer, Professional Engineer (COIMNE), EurGeol, Principal Geologist at Asturmine Ltd. Mr Juan Antonio Fernandez is a full-time employee of Asturmine Ltd. and has acted as an independent consultant on the San Finx Project Mineral Resource estimation. Mr Fernandez is an Eurogeologist with the European Federation of Geologist and has sufficient experience with the commodities, style of mineralisation and deposit type under consideration and to the activities undertaken to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves" (The JORC Code). Mr Fernandez consents to the inclusion in this report of the contained technical information relating the Mineral Resource Estimation in the form and context in which it appears.

The information in this announcement that relates to Belleterre-Angliers Project in Canada is based on, and fairly represents, information and supporting documentation compiled under the supervision of John Paul Hunt Pr.Sci.Nat.Geol. M.Sc, who has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the JORC Code. SRK ES has not independently verified this information for quality control or quality assurance nor been to the sites. John Paul Hunt is a Member of the South African Council for Natural Scientific Professions and a Fellow of the Geological Society of South Africa and is Principal Exploration Geologist of SRK Exploration Services Limited. John Paul Hunt consents to the inclusion in this report of the matters based on his information in the form and context in which it appears.

Technical information in this quarterly report that relates to Exploration Results for the Horden Lake deposit has been extracted from various reports presented and has been reviewed by Matthew Carter, P. Geo. of Dahrouge Geological Consulting Ltd., who has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the JORC Code. Mr. Carter has not independently verified this information for quality control or quality assurance nor been to the Horden Lake site. Mr. Carter is a member of the Association of Professional Engineers and Geoscientists of Alberta, and Professional Geoscientists Ontario. Mr. Carter consents to the inclusion in this report of the matters based on his information in the form and context in which it appears.

4.2	Net cash from / (used in) operating activities (item 1.9 above)	(314)	(314)
4.3	Net cash from / (used in) investing activities (item 2.6 above)	(713)	(713)
4.4	Net cash from / (used in) financing activities (item 3.10 above)	2,351	2,351

## Mining exploration entity or oil and gas exploration entity quarterly cash flow report

Consolidated statement of cash flows		Current quarter \$A'000	Year to date (3 months) \$A'000
4.5	Effect of movement in exchange rates on cash held	1	1
<b>4.6</b>	<b>Cash and cash equivalents at end of period</b>	<b>2,017</b>	<b>2,017</b>

5. Reconciliation of cash and cash equivalents at the end of the quarter (as shown in the consolidated statement of cash flows) to the related items in the accounts		Current quarter \$A'000	Previous quarter \$A'000
5.1	Bank balances	2,017	692
5.2	Call deposits	-	-
5.3	Bank overdrafts	-	-
5.4	Other (provide details)	-	-
<b>5.5</b>	<b>Cash and cash equivalents at end of quarter (should equal item 4.6 above)</b>	<b>2,017</b>	<b>692</b>

6. Payments to related parties of the entity and their associates		Current quarter \$A'000
6.1	Aggregate amount of payments to related parties and their associates included in item 1	40
6.2	Aggregate amount of payments to related parties and their associates included in item 2	-

*Note: if any amounts are shown in items 6.1 or 6.2, your quarterly activity report must include a description of, and an explanation for, such payments.*

Includes Director salaries, fees and allowances.

For personal use only

## Mining exploration entity or oil and gas exploration entity quarterly cash flow report

7. <b>Financing facilities</b> <i>Note: the term "facility" includes all forms of financing arrangements available to the entity. Add notes as necessary for an understanding of the sources of finance available to the entity.</i>	<b>Total facility amount at quarter end \$A'000</b>	<b>Amount drawn at quarter end \$A'000</b>
7.1 Loan facilities	-	-
7.2 Credit standby arrangements	-	-
7.3 Other (please specify)	-	-
7.4 <b>Total financing facilities</b>	-	-
7.5 <b>Unused financing facilities available at quarter end</b>		
7.6 Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.		
N/A		

8. <b>Estimated cash available for future operating activities</b>	<b>\$A'000</b>
8.1 Net cash from / (used in) operating activities (item 1.9)	(314)
8.2 (Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	(260)
8.3 Total relevant outgoings (item 8.1 + item 8.2)	(574)
8.4 Cash and cash equivalents at quarter end (item 4.6)	2,017
8.5 Unused finance facilities available at quarter end (item 7.5)	-
8.6 Total available funding (item 8.4 + item 8.5)	2,017
8.7 <b>Estimated quarters of funding available (item 8.6 divided by item 8.3)</b>	3.5
<i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i>	
8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
Answer: The Company has entered into an agreement to acquire the Horden Lake deposit in Canada. Following completion of the acquisition scheduled for December 2022, the Company will commence exploration and pre-feasibility studies which will see an increase in cash outflows for the following quarters.	
8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
Answer: The Company is in discussions with third parties to raise funds to complete the acquisition of the Horden Lake deposit and to fund the forward associated exploration activities. If the funds are not raised, the acquisition will not complete and the planned exploration activities will not go ahead.	

**Mining exploration entity or oil and gas exploration entity quarterly cash flow report**

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: Yes. Positive feedback from shareholders and potential strategic investors provides comfort that the funding will be available.

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.

**Compliance statement**

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Date: 28 October 2022

Authorised by: By the Board  
(Name of body or officer authorising release – see note 4)

**Notes**

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg *Audit and Risk Committee*]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
