

## Quarterly Activities Report – September 2022

Sydney, 28 October 2022: **Sustainability Solutions Company Simble Solutions Limited (ASX:SIS)** ('Simble' or 'the Company') is pleased to present its consolidated quarterly cash flow report and business update for the quarter ended 30 September 2022 (**September Quarter** or **Q3 FY22**).

### Highlights

- Sales activity across both Australia and UK gaining strong momentum.
- Receipts from Customers of \$463k, an 11% increase on the prior quarter.
- Team remains highly focused on revenue generation and new customer acquisition across both the CarbonView and SimbleSense product units, in Australia and the UK.
- Substantial increase in new sales activity and interest, particularly in the UK, for both products, from medium and large industrial companies.
- Strong pipeline of new customer and revenue opportunities being pursued by our business development teams.

### Sales & Marketing Update

Energy and Carbon Net Zero remain front-page news across the World, in particular in our core markets of Australia and the UK.

Accordingly, the Company is experiencing strong interest in its carbon accounting and energy metering software products, as well as newly implemented carbon consulting services.

Sales and marketing highlights for the quarter include:

- This quarter was another strong sales quarter with further orders from current and new customers such as Brownhills Glass, FM Conway, MPK Garages, Powercor and Sylvania Lighting in the UK, and Juice Capital and Solar Energy Enterprises in Australia.

- New partners have signed up to take the Simble sustainability solutions to market including Fidelity Energy and Glu-Group in the UK. Both those partners' sales teams have been trained and on-boarded with sales activities in progress.
- During the quarter there has been a continued ongoing investment into digital marketing social media and targeted online search advertising, leading to a broad funnel of sales leads for CarbonView in particular, with efforts going into ongoing pitches and proposals to various mid and large sized companies.
- Simble has continued participation at various major energy and carbon trade conferences and marketing events, including the All Energy Conference in Melbourne in late October, the London *Climate Tech Conference* in mid-October, and EMEX in London in November.

### Financial Highlights

- Receipts from Customers of \$463k across the Group for the Quarter, an 11% increase on the prior quarter.
- The Company continues to invest in ongoing operations to underwrite prospective revenue growth.
- Net cash used in operating activities for the quarter of \$462K was an improvement on net operating cash burn of \$468k in the prior June quarter, and \$602K in the prior March quarter.
- Operating cash outgoings for staff, admin & corporate, marketing and R&D (software product development) was \$705k, a 6% decrease on the prior quarter (\$754k).
- Product costs increased to \$197k, a 116% increase on the prior quarter (\$91k). These outflows are for third-party hardware bundled with the SimbleSense software product, and for the business productivity division, which in turn are directly related to revenues. The increase in outflows reflects higher sales of SimbleSense hardware + software bundles during the Quarter.
- Total headcount of 17 has been stable, with 14 FTEs and 3 part-time executives.
- As required under ASX listing rule 4.7C.3 payments to related parties in the quarter of \$65k are comprised of directors' fees of \$38K and consulting fees of \$27K paid pursuant to letters of appointment and a discreet consulting

agreement respectively, with the Company's directors. The basis and principles of director remuneration are consistent with the remuneration report included in the Company's Annual Report which was released to the ASX on 29 March 2022.

- End of quarter cash balance was \$847k.

### Strategic Update

The Company is firmly committed to two parallel strategies:

As previously advised the Company continues to undertake a strategic review and operating improvements, in particular focusing the whole organisation on customer acquisition and revenue traction, while seeking costs efficiencies. This process is ongoing and achieving results.

Also as previously indicated, the Company is engaged in ongoing corporate, partnership, and merger and acquisition discussions. These efforts are being led by the Company's investment banking advisers Tiger & Bear Partners in Sydney.
