## Total Income Hits New High as % of UMS

#### TOTAL INCOME

#### UNDERLYING MERCHANT SALES (UMS)

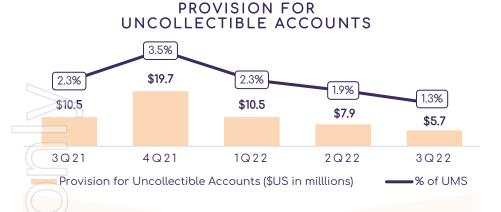

#### **3Q22** COMMENTARY

- Total Income increased 6.8% YoY to US\$30.4 million, representing a new high of 7.2% of UMS and a 103bps improvement compared to 3Q21.
- Consumer engagement remains healthy as repeat usage rose to 93.8%, representing 46 consecutive months of improvement.
- Marketplace drove 25% of Sezzle's quarterly UMS, compared to 7% in 3Q21.
- In 3Q22, more than 84,000 consumers joined Sezzle Up, with total enrollment up 71.6% YoY.
- A moderation in YoY UMS growth is attributed to a strategic shift in favor of profitability and the uncertainty caused by the announced merger with Zip (terminated).

## KEY INITIATIVES DRIVING CHANGE Renegotiating/Offboarding Unprofitable Sezzle Merchants and Network Partners Premium

## Significant Improvement in Provision for Uncollectible Accounts

#### 3Q22 COMMENTARY

Sezzle's improved and evolving underwriting strategies drove the provision for uncollectible accounts to 1.3% of UMS, lowest since 2Q20, a 92bps and 54bps improvement YoY and QoQ, respectively.

Consistent with the seasonality of the business (i.e., holiday season), the Company anticipates an increase in UMS and the provision for uncollectible accounts as a percentage of UMS in 4Q22. Nevertheless, the Company expects outperformance in the provision relative to 4Q21.

#### KEY INITIATIVES DRIVING CHANGE

Optimizing risk strategy (advancing risk models utilizing the Company's learnings from merchants and consumers)

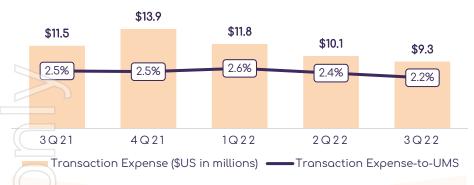

Offboarding unprofitable merchants

# Sezzle's risk strategy will remain focused on driving profitability over top-line growth

## Transaction Expense Reaches New Low

#### TRANSACTION EXPENSE

#### 3Q22 COMMENTARY

• Jransaction expense decreased to a record low 2.2% of UMS.

The shift by consumers to ACH continues to drive transaction expense to record lows as a percentage of UMS.

#### Key Initiatives Driving Change

Re-negotiating rates with network partners

Push to ACH

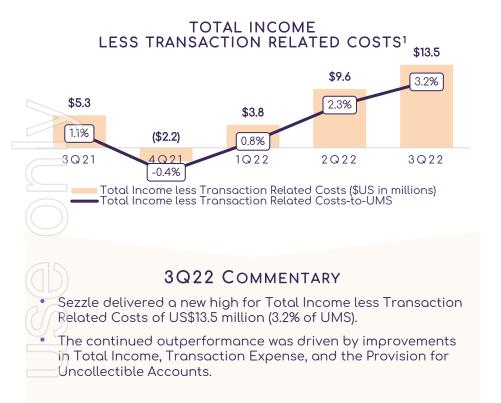

Fewer consumer and merchant service adjustments

These initiatives are in their preliminary stages with the expectation to reach full scale by 1H23

Transaction Related Costs is a non-GAAP financial measure equal to the sum of Transaction Expense, Provision for Uncollectible Accounts, and Net Interest Expense. See Appendix I for reconciliation of Transaction Related Costs and respective definitions.

## Closing the Gap

#### **3Q22** COMMENTARY

- GAAP Net Income for 3Q22 turned positive due to the US\$11.0 million payment received from Zip as part of the transaction termination.
- On an Adjusted EBTDA basis, the Company reported a negative US\$3.4 million Adjusted EBTDA in 3Q22 compared to a negative US\$13.1 million year prior.

#### 4Q22 COMMENTARY

- For 4Q22, due to the holiday season, the Company anticipates an increase in UMS and the provision for uncollectible accounts as a % of UMS.
- The performance of the Company's underwriting (measured by the provision) during the fourth quarter will be a key determinant if Sezzle's Adjusted EBTDA turns positive for the quarter.

Adjusted EBTDA is a non-GAAP measure. For a reconciliation of GAAP Net Income (Loss), EBITDA, and Adjusted EBTDA see Appendix II for reconciliation. Adjusted Operating Expense and Other Income (Expense) is a non-GAAP financial measurement equal to the sum of GAAP Operating Expense and Net Interest Expense less depreciation, amortization, and M&A related expenses. See Appendix I for reconciliation.

(18 October 2022)

#### 3Q22 COMMENTARY

- The Company had total cash on hand of US\$58.8 million, consisting of US\$57.9 million of bank balances and US\$0.9 million of restricted cash.
- Total cash on hand decreased US\$4.5 million during the third quarter, driven by net cash used in financing activities (US\$3.9 million) and movement in exchange rates on cash held (US\$1.4 million), partially offset by net cash from operating activities (US\$1.0 million).
- Subsequent to quarter end, Sezzle entered into a new US\$100 million credit agreement with Bastion Management II, LLC.

#### KEY TERMS OF THE FACILITY

- Rate: Secured Overnight Financing Rate (SOFR) + 11.5%.
- Term: 24 months.

## Non-GAAP Financial Measures

To supplement our operating results prepared in accordance with generally accepted accounting principles in the United States ("GAAP"), we present the following non-GAAP financial measures: Total income less transaction related costs; adjusted operating expense and other income and expenses; and adjusted earnings before taxes, depreciation, and amortization ("Adjusted EBTDA"). Definitions of these non-GAAP financial measures and summaries of the reasons why management believes that the presentation of these non-GAAP financial measures provide useful information to the company and investors are as follows:

- Total income less transaction related costs is defined as GAAP total income less transaction related costs. Transaction related costs is the sum of GAAP transaction expense, provision for uncollectible accounts, and net interest expense less non-recurring charges as detailed in the reconciliation table of total income less transaction related costs to GAAP total income. We believe that total income less transaction related costs is a useful financial measure to both management and investors for evaluating the economic value of orders processed on the Sezzle Platform;
  - Adjusted operating expense and other income and expenses is defined as GAAP operating expenses less transaction expense, provision for uncollectible accounts, depreciation and amortization, equity and incentive-based compensation, and other non-recurring charges as detailed in the reconciliation table of adjusted operating expense to GAAP operating expense. We believe that adjusted operating expense is a useful financial measure to both management and investors for evaluating our operating performance without the impact of non-recurring charges or items included in total income less transaction related costs, as defined above;
- Adjusted EBTDA is defined as GAAP net income (loss), adjusted for certain non-cash and non-recurring charges including depreciation, amortization, equity and incentive-based compensation, and
  merger-related costs as detailed in the reconciliation table of adjusted EBTDA to GAAP net income (loss) below. We believe that this financial measure is a useful measure for period-to-period comparison
  of our business by removing the effect of certain non-cash and non-recurring charges that may not directly correlate to the underlying performance of our business.

Additionally, we have included these non-GAAP measures because they are key measures used by our management to evaluate our operating performance, guide future operating plans, and make strategic decisions, including those relating to operating expenses and the allocation of resources. Therefore, we believe these measures provide useful information to investors and other users of this Form 10-Q to understand and evaluate our operating results in the same manner as our management and board of directors. However, non-GAAP financial measures have limitations, should be considered supplemental in nature, and are not meant as a substitute for the related financial information prepared in accordance with U.S. GAAP. These limitations include the followina:

• Total income less transaction related costs is not intended to be measures of operating profit or cash flow profitability as they exclude key operating expenses such as personnel, general and administrative, and third-party technology and data, which have been, and will continue to be for the foreseeable future, significant recurring expenses.

Adjusted operating expense and adjusted EBTDA exclude certain recurring, non-cash charges such as depreciation, amortization, and equity and incentive-based compensation, which have been, and will continue to be for the foreseeable future, recurring GAAP expenses. Further, these non-GAAP financial measures exclude certain significant cash inflows and outflows, such as merger-related costs (which are comprised of legal fees in connection with our terminated proposed merger with Zip Co Limited) and reimbursements for such merger-related costs, which have a significant impact on our working capital and cash.

Long-lived assets being depreciated or amortized may need to be replaced in the future, and these non-GAAP financial measures do not reflect the capital expenditures needed for such replacements, or for any new capital expenditures or commitments.

- 🚽 These non-GAAP financial measures do not reflect income taxes that may represent a reduction in cash available to us.
- Non-GAAP measures do not reflect changes in, or cash requirements for, our working capital needs.
- 🅖 Other companies, including companies in our industry, may calculate the non-GAAP financial measures differently or not at all, which reduces their usefulness as comparative measures.

Because of these limitations, you should not consider these non-GAAP financial measures in isolation or as substitutes for analysis of our financial results as reported under GAAP, and these non-GAAP financial measures should be considered alongside other financial performance measures, including net income (loss) and other financial results presented in accordance with GAAP. We encourage you to review the related GAAP financial measures and the reconciliations of these non-GAAP financial measures to their most directly comparable GAAP financial measures and not rely on any single financial measure to evaluate our business.
