Update on regulatory matters

EML Payments Limited (ASX:EML) ("EML"), a global payments company, will agree to temporarily cease onboarding new customers, agents and distributors in relation to its UK subsidiary, Prepaid Financial Services Limited ("PFS UK"), following concerns raised by the UK Regulator, the Financial Conduct Authority ("FCA").

The financial impact of this temporary measure on the EML Group is expected to reduce group revenue by less than \$5 million in FY23.

These measures will allow PFS UK to address concerns highlighted by the FCA which are similar in nature to those raised by the Central Bank of Ireland ("CBI") and disclosed to the ASX relating to our Irish subsidiary, PFS Card Services (Ireland) Limited ("PCSIL"), for which we are currently undertaking a remediation program.

The PFS UK business is part of EML's acquisition in 2020 of the Prepaid Financial Services group, which includes PCSIL and its businesses in France and Spain.

PCSIL is operating under a material growth cap which will expire in December 2022, as outlined to the ASX previously. Further regulatory direction or limitations are unknown, but the lifting of such would be subject to completing the remediation program and satisfactory third-party assessment. Similarly, PFS UK's agreement to cease onboarding will remain in place until the FCA is satisfied that PFS UK has successfully executed a remediation plan based on satisfactory third-party assessment.

Emma Shand, appointed EML Managing Director and Group Chief Executive Officer in July this year, said: "It has been my priority to work constructively with the Regulators. EML accepts that it has not moved quick enough in the past to address regulatory concerns in the PFS business. We need to do better, and we will.

We have made some key senior management appointments and are putting more resources into building capability in key areas including governance, risk management and regulatory compliance.

We understand we have an important role to play in tackling financial crime and to keep our customers safe, at a time that threats are ever increasing across the banking and payments sectors".

“We are also well underway with our strategic review to simplify our business, better integrate previous acquisitions into EML and to grow sustainably, which shareholders will be updated on at the AGM in late November,” Ms Shand said.
