- 8.6.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

The focus continues to be on accelerating revenue growth and increasing the receipts from customers whilst in parallel reducing operating cash outflows where possible.

The company is reviewing various sources of debt and equity funding and is working with its advisors to put in place any necessary facilities to support cashflow, if needed, in the short-term. Additional funding will be deployed to strengthen the balance sheet and provide cover for any potential timing gaps as revenue growth and cost reduction initiatives bear results and begin to deliver quarterly net operating cash inflows.

- 8.6.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

The company continues to work towards increasing net operating cash inflows and source additional funding as required. Courtesy of these measures, the company expects to be able to continue its operations.

Note: where item 8.5 is less than 2 quarters, all of questions 8.6.1, 8.6.2 and 8.6.3 above must be answered.
