

# Mixed Reality Game Development Partnership with Meta

**PlaySide Studios Limited** (ASX: PLY) ("PlaySide") is pleased to announce the signing of a game development agreement with **Meta Platforms Technologies, LLC** ("Meta").

Following a successful concept pitch, Meta has engaged PlaySide to design, develop and create a mixed reality interactive software product to be playable on its Quest suite of virtual reality devices.

PlaySide will receive payments for development of the game and will receive a share of net revenues from the game in perpetuity. The development payments will be received at agreed milestones which are consistent with industry benchmark requirements for progressing the game to launch. The agreement is effective immediately and work on the title is expected to commence in the current financial year.

*This deal marks the next evolution of our work in the studio, as we leverage our abilities to conceptualise and develop exciting games in a revenue-share arrangement with a leading global technology company.*

*Meta is bringing virtual reality and mixed reality into the mainstream with its Quest suite of products, and we are excited about the opportunity to demonstrate our domain expertise with this game.*
