Complementing the digital-first operating model, on 21 October 2022, the Company announced that it had signed an exclusive sub-licence agreement with WH Smith High Street Limited (WHS HS) to trial nine Toys“R”Us store-in-store (SIS) implants in the United Kingdom. WHS HS will pay TOY a fixed percentage royalty fee based on sales revenue generated within these ‘beacon sites’ and the costs associated with operating SIS implants will be borne by WHS HS.

Outlook and Strategic Plan

Toys“R”Us ANZ Limited continues to pursue its aspirations of driving top line growth and deploying capital efficiently to achieve its medium-term goal of 5% market share penetration in the toys, baby and hobby markets in all licensed regions.

The Company continues to review strategic options to expand and realise its growth ambitions by identifying suitable business and commercial opportunities in addition to the growth initiatives outlined above.

Dr Louis Mittoni, CEO and Managing Director of Toys“R”Us ANZ, said:

"We are pleased with the order growth that Toys“R”Us delivered in November, and in particular Cyber Week, compared with the corresponding period last year. This has been achieved during this important trading period despite the constantly evolving challenges that exist in the post-COVID economy. Delivery network delays and supply disruptions last year also encouraged shoppers to bring forward their purchases to as early as October in 2021.

"The Company’s performance during this period aligns with our investment in entering the UK market, and we are delighted to report that our reintroduction of one of the world’s best-loved children’s brands to Australia and the UK remains well on track."
