CORVETTE NORTH & NORTHWEST STAKED IN JAMES BAY REGION, QUEBEC

HIGHLIGHTS

- An additional 21km² of land has been staked, increasing the Company's exploration footprint.
- The projects are located in upper James Bay, a region prospective for lithium.
- Proximal to notable existing James Bay Lithium Deposits.

Balkan Mining and Minerals Limited (ASX: BMM; "Balkan Mining" or the "Company") advises that it has directly staked two licenses, Corvette North and Corvette Northwest, in the emerging lithium district of James Bay in Quebec, Canada.

The two projects consist of 42 cells and cover approximately 21km² (Refer to Figures 1 and 2).

Managing Director, Ross Cotton, commented:

"We are pleased to add Corvette North and Corvette Northwest to our Canadian exploration portfolio, further demonstrating our commitment to the region.

These projects are in a highly prospective emerging lithium province. We aim to conduct an internal desktop study during the Winter, with the outcome of this work to guide our field programs in 2023."

Forward-looking Statements

Certain statements included in this release constitute forward-looking information. Statements regarding BMM's plans with respect to its mineral properties and programs are forward-looking statements. There can be no assurance that BMM's plans for development of its mineral properties will proceed as currently expected. There can also be no assurance that BMM will be able to confirm the presence of additional mineral resources, that any mineralisation will prove to be economic or that a mine will successfully be developed on any of BMM's mineral properties. The performance of BMM may be influenced by a number of factors which are outside the control of the Company and its Directors, staff, and contractors.

These statements include, but are not limited to statements regarding future production, resources or reserves and exploration results. All such statements are subject to certain risks and uncertainties, many of which are difficult to predict and generally beyond the control of the Company, that could cause actual results to differ materially from those expressed in, or implied or projected by, the forward-looking information and statements. These risks and uncertainties include, but are not limited to: (i) those relating to the interpretation of exploration sample, mapping and drill results, the geology, grade and continuity of mineral deposits and conclusions of economic evaluations, (ii) risks relating to possible variations in reserves and resources, grade, planned mining dilution and ore loss, or recovery rates and changes in project parameters as plans continue to be refined, (iii) the potential for delays in exploration or development activities or the completion of feasibility studies, (iv) risks related to commodity price and foreign exchange rate fluctuations, (v) risks related to failure to obtain adequate financing on a timely basis and on acceptable terms or delays in obtaining governmental approvals or in the completion of development or construction activities, and (vi) other risks and uncertainties related to the company's prospects, properties and business strategy.

There is continuing uncertainty as to the full impact of COVID-19 on BMM's business, the Australian economy, share markets and the economies in which BMM conducts business. Given the high degree of uncertainty surrounding the extent and duration of the COVID-19 pandemic, it is not currently possible to assess the full impact of COVID-19 on BMM's business or the price of BMM securities.
