

## SUCCESSFUL A\$1.3M PLACEMENT TO ACCELERATE EXPLORATION

**Placement made solely to existing major shareholders, demonstrating the strong support for Labyrinth's strategy at its Canadian and WA projects**

Labyrinth Resources Limited (ASX: LRL) ('Labyrinth' or 'the Company') is pleased to announce it has received firm commitments for circa A\$1.3 million in a share placement to strategic existing major shareholders at a price of 1.7c per share (**Placement**).

The Placement price represents the 5-day volume weighted average price (VWAP) of the Company's shares at close of trade on 14 December 2022, with the closing price on that date also being 1.7c and therefore reflecting a non-discounted pricing mechanism.

The Placement was completed internally to existing Labyrinth shareholders, meaning all the proceeds will be directed towards the Company's core objectives without the requirement to pay Placement costs or fees.

The Placement is being made to sophisticated investors and the 75,470,588 new shares are expected to be settled on 23 December 2022 following receipt of funds. The new shares will rank equally with existing shares on issue and will be issued using the Company's existing placement capacity under ASX Listing Rule 7.1, accordingly shareholder approval is not required.

### Use Of Funds

Proceeds of the Placement will be used to:

- Accelerate surface exploration activities, including geophysical survey and regional on-ground works across the full tenure of the Company's flagship Labyrinth Gold Project in Quebec;
- Accelerate surface exploration activities, including RC drilling, at the Comet Vale gold-copper-nickel project in Western Australia;
- Complete the CAD\$500,000 payment to G.E.T.T Gold Inc related to the acquisition of the Company's Quebec projects (refer ASX Announcement 9 November 2022); and
- Working capital, including advancement of Labyrinth's strategic opportunities as highlighted in the Company's AGM presentation on 29 November 2022.

Labyrinth Chief Executive Matt Nixon said: "The demand for the Placement among our major shareholders reflects their strong belief in the exploration potential at the Company's Canadian and WA operations.

"We are grateful for this support, which enables us to rapidly progress exploration at our flagship gold project in Canada and multi commodity project in WA, both enviably located in highly sought-after mining jurisdictions.

"We are confident that this work will generate strong newsflow over coming months".

## Trading Halt

This announcement lifts the trading halt requested by the Company on 16 December 2022, the Company is not aware of any reason why the ASX should not allow trading to recommence immediately.
