

Quarterly Report

For the period ending 31 December 2022, dated 25 January 2023

ABOUT THE COMPANY

Citigold Corporation Limited (ASX:CTO) is an Australian gold development and exploration company located in northeast Australia. The Company's prime focus is the high-grade Charters Towers Gold Project. It is production-ready after successfully completing 100,000 ounces of gold production¹ test mining and establishing its mine site. The Company continues to advance its core activities including broad regional exploration programs, mine design, engineering, and working to restart its gold mine.

Our aim is to be a 300,000 plus ounces per annum ultra-low-cost gold producer in five years using state-of-the-art technologies and efficiencies, all with the aim of returning substantial profits to shareholders in harmony with the local environment².

RESULTS OF RECENT EXPLORATION³

Highlights

- Anomalous values highlight areas well away from the current Company's Mining Leases.
- 51% of the samples taken were regarded as anomalous.
- Three samples exceeded 3 g/t Au with a high of 7.99 g/t Au in surface rock samples.

Post Quarter end, Citigold announced it had completed a further round of rock chip sampling, following up on previous stream sediment anomalies and aerial magnetic anomalies, and the results are presented below.

A total of 43 samples were taken on the Company's exploration tenements eight to ten kilometres to the southeast of Charters Towers. Of the 43 samples taken, 22 (51%) were regarded as anomalous. Values above 0.1 g/t gold, 1 ppm (g/t) silver and 100ppm copper, lead and zinc are regarded as anomalous. Three samples exceeded 3 g/t Au with a high of 7.99 g/t Au in surface rock samples.

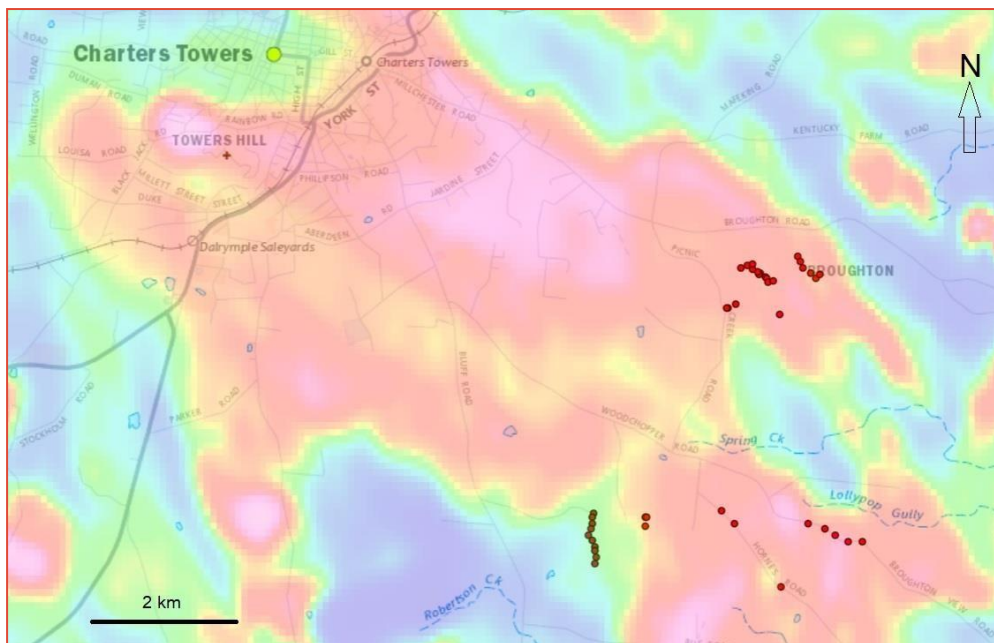

Figure 1. Rock chip sample locations 8 to 10 km southeast of Charters Towers.

The anomalous values highlight areas well away from current Company Mining Leases and some are associated with aeromagnetic lows in granitic rocks that may represent areas of mineral alteration that may be caused by metal-bearing fluids. These areas will be followed up with ground traverses, mapping and, if warranted, geophysical surveys prior to drilling.

The ongoing exploration program is following up on targets generated over the last two years, examining stream sediment geochemistry, geophysical surveys, satellite imagery and three-dimensional structural analysis aimed at determining the geological stress patterns that generate the faults and fracture systems within the Charters Towers goldfield that may host mineralisation.

See the detailed announcement titled [Results of Recent Exploration](#) released to the ASX on 19 January 2023.

The Company continues to optimise future plans for an intensive exploration program with priority areas identified from the current and previous exploration programs.

Exploration analysis, preparation of studies, review and maintenance of data, and other exploration activities continued. During the Quarter, no new exploration drilling was undertaken. Normal regulatory compliance reporting for exploration, mine and environmental continued during the Quarter.

MINE DESIGN AND ENGINEERING

Mine design work in the quarter focussed on optimising the positions of the main declines in the Central region.

Other Central Mine design and engineering activities continued to progress including planning, scheduling, and optimisation reviews.

GEOLOGY AND EXPLORATION

Geology & Mineral Resources

Mineral resources and reserves are summarised below⁴:

Citigold's Mineral Resources and Ore Reserves for the overall Gold Project are reported in accordance with the Australasian JORC Reporting Code 2012⁴. Mineral Resources and Ore Reserves remain

CATEGORY	TONNES	GRADE	CUT-OFF	CONTAINED GOLD OUNCES
Probable Ore Reserves (derived from and contained within Indicated Mineral Resource)	2,500,000	7.7 g/t	4.0 g/t	620,000
Indicated Mineral Resources (includes Probable Ore Reserves)	3,200,000	7.7 g/t	4.0 g/t	780,000
Inferred Mineral Resources	32,000,000	14 g/t	3.0 g/t	14,000,000

unchanged during the Quarter. The material assumptions and technical parameters underpinning the estimates continue to apply and have not materially changed⁴.

HEALTH, SAFETY, COMMUNITY AND ENVIRONMENT

There were no Lost Time Injuries, significant environmental, health, or safety issues during the quarter.

⁴ See ASX Announcement dated 9 December 2020, [Mineral Resources and Ore Reserves 2020](#).

CORPORATE

Financial Discussion

Shareholders have funded the Company over many years. Management seeks to structure funding beneficial to the funder(s) and shareholders. There is interest by entities to join Citigold in the development of the gold mine. Citigold is continuing to work with parties who are at various stages of discussions regarding funding opportunities.

The Company has in the past undertaken broad shareholder share purchase plans and share placements. The Company further has the ability to raise funds from the forward sale of gold, during the period raising \$600,000, and drawing on loan facilities.

Appendix 5B Disclosures

The Company's accompanying Appendix 5B (Quarterly Cash Flow Report) includes amounts in item 6.1 & 6.2 which constitute directors' accrued fee during the Quarter.

During the period, the Company made a payment of \$27,000 (capitalised), on exploration activities at its Charters Towers Gold Project, which included a regional exploration sampling program, assay results, review of historical data, and exploration technologies. Exploration payments totalling \$309,000 (expense) included tenement management costs, annual mining rent, financial assurance bond, and EA fee payments. Development payments totalling \$15,000 (capitalised) as reported in item 2.1(f) included mine design and engineering optimisation, scheduling, planning, reviewing data and economic evaluation etc. Development payments totalling \$22,000 (expense) included site management and maintenance costs. Payment for administration and corporate costs amounted to \$60,000 and included listing, compliance, consultants, and project marketing activities.

The above activities were summarised in this quarterly report.

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
