

ASX Announcement

31 January 2023

**Quarterly Activity Report and Appendix 4C
Quarter Ended 31 December 2022**

Traffic Technologies Ltd (ASX: TTI) ('Traffic Technologies' or the 'Company') is pleased to provide its Quarterly Activity Report and Appendix 4C Cash Flow Statement for the quarter ended 31 December 2022.

Highlights

- Operating revenue up 19% to \$32.2m for the half year, representing a \$5.0m increase compared to the same period last year despite impact from global disruptions to supply chains.
- Increase in term contracts to \$36m, up by 19% over the 12 months to 31 December 2022, with visibility greater than 5 years.
- Debt refinancing, providing additional working capital and increasing cash flow management flexibility.
- Continued investment in research and development. Smart City Technology gaining traction and projected to drive increasing recurring annuity revenue.

Trading Update

Operating revenue increased to \$32.2m for the half year to 31 December 2022 (19% increase compared to the same period in 2021). This was achieved despite ongoing timing delays caused by global disruptions to the supply chain for electronic components, hardware equipment and freight. Whilst the Company continues to manage this with our suppliers, revenue has substantially grown from initiatives taken to grow our strong pipeline of new customer contracts and annuity streams.

The Company continues to be the major participant in the "Intelligent Transport Systems" market where the Company's proprietary "Traffic SmartCity Technology" (TST) platform, developed for the road industry, councils and power authorities, enables the integration of traffic management equipment to a central control management system via remote "Internet of Things" (IoT) sensors.

Demand for the Company's products and services is accelerating with the increased infrastructure spend of government and municipal councils, due to our position as the largest, most established and proactively innovative traffic solutions provider in Australia. The Company currently has \$36m in customer contracts and a strong order book which continues to grow.

The Company is strategically prepaying overseas suppliers to secure priority in componentry and logistic deliveries to ensure it can meet these and other major customer delivery requirements. In line with the macro environment, the Company has experienced cost increases across all supply chains caused by global shortages and the general inflationary environment including the depreciation in the Australian dollar during the period.

The Company's Smart City Technology emerging market opportunity continues to gain traction across several States, with contracts related to our customers' large-scale infrastructure projects going live in the past months. For both new and current contracts, the Group is targeting increasing multi-year (+5 year) recurring annuity revenue from Software-as-a-Service annual subscription and service fees.

Cash

December quarter (Q2) cash and deposits were \$2.1m, including pre-payments of \$0.8m in advance to overseas suppliers.

Net operating cash inflow was \$2.5m for the quarter (Q2). Receipts from customers for the quarter were \$16.6m. Cash flow continues to be impacted by the need to prepay overseas suppliers.

Net investing cash outflow was \$0.5m for the quarter, including investment to expand and develop the Company's Smart City software and product portfolio.

Net financing cash outflow was \$1.7m for the quarter, including repayment of borrowings.

Debt Refinancing

The Company announced in December 2022 that it had entered into facility agreements for a new \$10 million invoice finance facility and a \$5 million trade finance facility with Earlypay Ltd. The prior facility with Timelio has since been repaid and the facility with ADM Capital is expected to be repaid in the coming days.

Listing Rule 4.7C.3

In item 6.1 of the Appendix 4C Cash Flow Report for the quarter, payments to related parties were made of \$160,000 for fees to executive and non-executive directors.

This announcement was authorised for release to the market by the Board of Traffic Technologies Limited.

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
