Dear Sir/Madam

Pinnacle Investment Management Group Limited (ASX: PNI) FY2023 interim financial results

Pinnacle Investment Management Group Limited (**PNI**) is pleased to advise shareholders of the financial results for the six months ended 31 December 2022 (**1H FY23**) as follows:

- > Net profit after tax (NPAT) attributable to shareholders of \$30.5 million, down 24% from \$40.1 million in the Prior Corresponding Period (1H FY22, PCP)
- Basic earnings per share (EPS) attributable to shareholders of 15.7 cents, down 27% from 21.5 cents in 1H FY22
- > Diluted EPS attributable to shareholders of 15.6 cents, down 26% from 21.0 cents in 1H FY22
- > Fully franked interim dividend per share of 15.6 cents (down 11% from the fully franked 1H FY22 interim dividend of 17.5 cents), representing a payout ratio of 100% of diluted EPS
- > Pinnacle's share of Affiliates' NPAT was \$28.4 million, down 28% from \$39.2 million in 1H FY22
- Performance fees earned by Pinnacle Affiliates, post-tax, contributed only \$0.9m of Pinnacle's NPAT in 1H FY23 (\$6.4m in 1H FY22)
- > Aggregate Affiliates' funds under management (FUM) of \$83.2 billion at 31 December 2022 (at 100%), down \$0.5 billion or 1% from \$83.7 billion at 30 June 2022
- > Aggregate Retail FUM of \$20.8 billion at 31 December 2022 (at 100%), down \$0.3 billion or 1% from \$21.1 billion at 30 June 2022
- > Net outflows for 1H FY23 of \$1.5 billion:
  - > Domestic institutional net outflows of \$2.5 billion
  - > Retail net inflows of \$0.3 billion
  - > Offshore net inflows of \$0.7 billion
- > Continuing positive retail net inflows during 1H FY23, but much lower than FY21 and 1H FY22. Retail market conditions similar to 2H FY20

- > Continued Affiliate medium-term outperformance 85% of 5-Year Affiliate strategies have outperformed their respective benchmarks as at 31 December 2022
- > Cash and Principal Investments (PI) of \$179.1 million at 31 December 2022. CBA facility of \$120m fullydrawn and deployed into liquid funds managed by Affiliates until required. Total cash and PI, net of the CBA debt facility, was \$59.1 million at 31 December 2022

#### **Composition of Group Results**

The profit after tax attributable to shareholders for 1H FY23 was \$30.5 million, representing diluted earnings per share of 15.6 cents compared with 21.0 cents per share in 1H FY22.

Pinnacle's share of net profit after tax from its equity interests in Affiliates was \$28.4 million (down 28% from \$39.2 million in the PCP), which included performance fees of only \$0.9 million, Pinnacle share, after tax (1H FY22; \$6.4 million, Pinnacle share, after tax). Core Affiliate revenues, at 100% (excluding performance fees), were 0.6% lower than the PCP despite average FUM being 8% lower.

Pinnacle and Affiliates continue to actively pursue 'Horizon 2' growth initiatives, recognizing that these will moderate profits in the short-term, but are designed to provide growth opportunities over the medium-term (the return on these 'Horizon 2' investments in the past has been extremely high). The aggregate investment of NPAT of these initiatives, within Pinnacle and Affiliates, is estimated to have been ~\$6.5 million in 1H FY23, Pinnacle share, after tax (\$12m in the 2022 financial year, Pinnacle share, after tax).

Pinnacle Parent revenues were broadly similar in 1H FY23 to the PCP, with expenses higher on account of this ongoing investment.

Pinnacle made gains on its Principal Investments of \$3.8 million in 1H FY23 and had interest costs on the \$120 million CBA facility of \$2.7 million, such that the 'net' return was \$1.1 million. In 1H FY22, gains on PI were \$2.0 million and the interest cost \$1.0 million, for a 'net' return of \$1.0 million. The CBA facility is drawn in full and deployed in funds managed by Affiliates, until such time as it may be used as 'dry powder' for business investments.

Pinnacle has an excellent platform in place to continue to prosper – driven by growth within existing Affiliates and incubating new Affiliates and strategies, domestically and offshore, as well as careful acquisitive growth into new asset classes and markets.

# **O**1 Introduction and Highlights San Macoun, Managing Director

- Core revenues (ex-performance fees) resilient
- Earnings impacted by cost of Horizon 2 investment in both Pinnacle and Affiliates as investment for future growth continues
- During 1H FY23, market and style shifts significantly impacted Funds Under Management (FUM) in certain areas
- Quality and diversity of FUM has mitigated downside from volatile markets and dynamic fund flows including rotation from growth to value orientated strategies and pressure on REITS
- Continuing success in offshore markets, and in alternative strategies

Particularly in the Australian market and listed equities, challenging conditions for generating new business during the half

#### **1.** Core revenues (ex-performance fees) resilient

- Cycling to higher rate business still evident revenues (excluding performance fees) were 0.6% lower than the PCP despite average FUM being 8% lower
- Some revenues have not come through fully at the rates initially expected (short term timing/H1 v H2 seasonality issue)

## Earnings impacted by higher cost base in both Pinnacle and Affiliates as investment for future growth continues

- Pinnacle and Affiliates have continued to invest will drive strategic growth over the medium term; however, moderates profits in the short term (~\$6.5m investment of NPAT, Pinnacle share after tax, in 1H FY23)
- These initiatives create additional capacity, providing medium-term growth opportunities

## During 1H FY23, market and style shifts significantly impacted Funds Under Management (FUM) in certain areas

- Style shift away from high growth stocks continued to impact up to 31 December 2022. Signs of a reversion during January 2023, but early days
- REIT markets underperformed major equities markets in the half
- Whilst most equities markets (but not global growth stocks or REITs) ended the half slightly up, there was significant volatility throughout

1H FY23 – difficult conditions; diversification delivering resilience; ongoing investment for future growth (continued)

- 4. Quality and diversity of FUM has mitigated downside from volatile markets and dynamic fund flows
  - Affiliate quality, asset class diversity, style diversity and continuous product innovation ensures that we retain 'all-weather' relevance to investors as their preferences and the market conditions they operate in change through time

#### Continuing success in offshore markets, and in alternative strategies

- \$650m net flows from 17 countries outside of Australia, despite investors across the board remaining defensively positioned
- Over \$1.5bn in committed and drawn capital raised in private market asset classes in 1H FY23

## Particularly in the Australian market and listed equities, challenging conditions for generating new business during the half

- Whilst domestic institutional flows were negative, margin mix improved
- Largest institutional inflows into private credit and global equities; largest outflows from Australian equities and global REITs
- Domestic retail still net positive, but net inflows much lower than FY21 and 1H FY22. Retail market similar to 2H FY20

Pinnacle is not immune to market factors, but diversified platform provides resilience and will drive growth throughout the cycle

#### 1H FY23 Highlights:

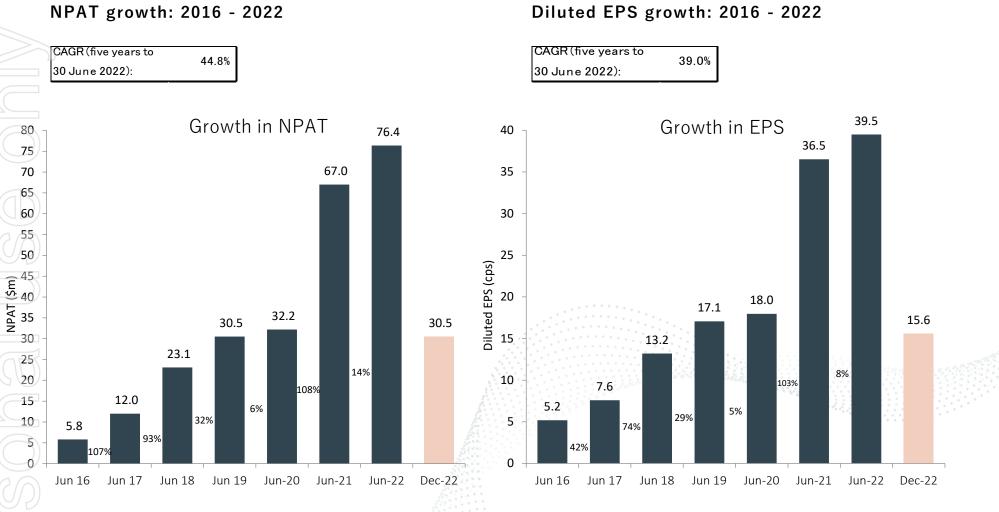

- · Langdon launched Global Smaller Companies AUT and Global Smaller Companies and Canadian Smaller Companies Canadian mutual funds
  - \$50m committed and invested capital raised from Canadian wealth channels
  - · Both Canadian funds added to 5 largest local wealth platforms inside 6 months
- · Palisade's expansion continued
  - · Palisade Impact exceeded \$400m of committed capital (vs. a \$250m target raise) for its maiden fund (note that these figures do not form part of reported FUM until such time as the funds are drawn and invested, but they do represent irrevocable commitments to invest)
  - Palisade Real Assets acquired UK bioenergy asset management company Eco2 and first biogas asset in Malaby, Wiltshire, UK, funded initially by Pinnacle's balance sheet
  - Palisade Americas entered into an agreement to acquire its first infrastructure asset, Rainier Connect, in Tacoma, WA, USA
  - Palisade acquired 49% of the largest operating wind farm in the National Electricity Market, Stockyard Hill
- · Completion of \$85m Share Purchase Plan for the Plato Income Maximiser Limited LIC (**PL8**) in December 2022

Metrics maintaining momentum with \$1bn+ net flows

- Founded in 2013. Pinnacle acquired a 25% interest in November 2021 via convertible redeemable preference shares, which convert into ordinary equity in certain situations
- FUM for Omega and Two Trees is reported under Plato, following their integration in FY22

- earns fees on the full AUM figure
- Founded in 2011. Pinnacle acquired equity in August 2018
- an additional 10% in September 2021
- 4. The percentage represents Pinnacle's total shareholding in the Affiliate Pinnacle currently holds less than 1% of the voting shares in the Affiliate. 6. however, it has full economic rights in respect of its holding

The strength of our platform and award-winning brands generates material earnings growth for our shareholders over the long-term

Fully franked dividends have grown at a CAGR of 38.0% over the same five-year period

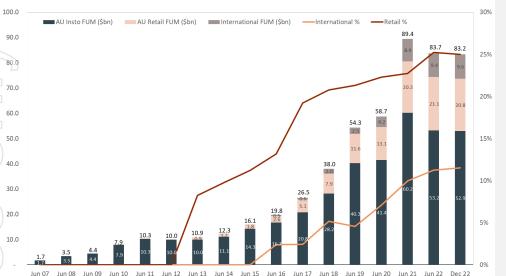

- Pinnacle Affiliate revenues are linked, in part, to movements in equity markets. During the half, market and style shift have significantly impacted Funds Under Management, and therefore revenues, in certain areas
- Pinnacle has pursued a deliberate strategy of diversification, incubating new Affiliates and strategies, enhanced by careful acquisitive growth into new asset classes and markets
- This has allowed us to deliver continued growth in profitability throughout market cycles, albeit at lower rates during periods of market downturn/turbulence
- Growth in FUM and profitability were suppressed in FY20 and again during calendar 2022 due to the dislocation in equity markets, but Pinnacle has grown strongly, on average, over the 3-year period to 31 December 2022, which encompasses both the COVID-19 'crisis period' and the sell-off during 2022:
  - NPAT CAGR of 25% over the three-year period to 31 December 2022
  - Diluted EPS CAGR of 21% over the three-year period to 31 December 2022
  - FUM CAGR of 11% over the three-year period to 31 December 2022
- Since listing as a 'pure play' funds management business in 2016, Pinnacle has delivered strong profit growth. Whilst we make no prediction for what lies ahead, we are confident that we have the platform in place to deliver continuing earnings growth over the medium to long term

Our industry leading portfolio of high performing Affiliates continues to outperform benchmarks and provides an engine for continued FUM growth and performance fee generation

#### Gross FUM $(\$bn)^1$

- FUM has grown at a CAGR of 22.4% p.a. over the last ten years (20.7% excluding \$6.8bn 'acquired' in July 2018, \$3.0bn 'acquired' in December 2019 and \$1.1bn 'acquired' in December 2021)
- Markets were mixed over 1H FY23:
  - S&P/ASX 300 index up 7.0%
  - MSCI World Index up 1.4%
  - NASDAQ down 5.1%
  - FTSE/EPRA NAREIT down 8.8%
  - Style shift away from high growth global stocks has continued to impact substantially
  - Market movements/investment performance added \$1.0bn to total FUM during 1H FY23, but reduced retail FUM by \$0.6bn
- Cycling to higher rate business still evident revenues (excluding performance fees) were similar to the PCP despite lower average FUM resulting from depressed markets, especially in REITs and global growth stocks
- Some revenues have not come through fully at the rates initially expected (short term timing/H1 v H2 seasonality issue)

#### Cumulative net flow history (\$bn)

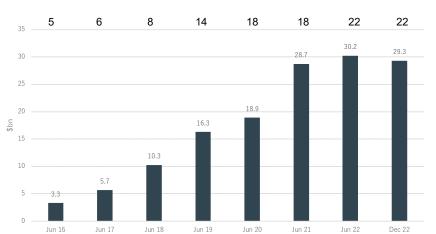

Jun 12 Dec 12 Jun 13 Dec 13 Jun 14 Dec 14 Jun 15 Dec 15 Jun 16 Dec 16 Jun 17 Dec 17 Jun 18 Dec 18 Jun 19 Dec 19 Jun 20 Dec 20 Jun 21 Dec 21 Jun 22 Dec 22

- FUM decreases due to net flows were \$1.5bn (domestic institutional net outflows were \$2.5bn; but retail net inflows were \$0.3bn, and offshore net inflows were \$0.7bn)
- Positive retail flows amidst market dislocation, albeit significantly lower than record result in 1H FY22
- Institutional pipeline remains strong and diversified onshore and offshore despite recent pressures in the domestic market
- Continuing to win business into private markets asset classes and from international investors

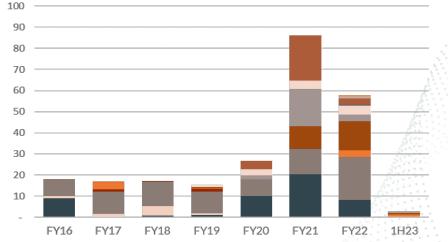

#### Performance fees

#### 22 strategies with the potential to deliver performance fees – surprisingly low this half, but future potential remains

#### Closing FUM & number of strategies subject to performance fees

#### Performance fees (at 100%) by Affiliate

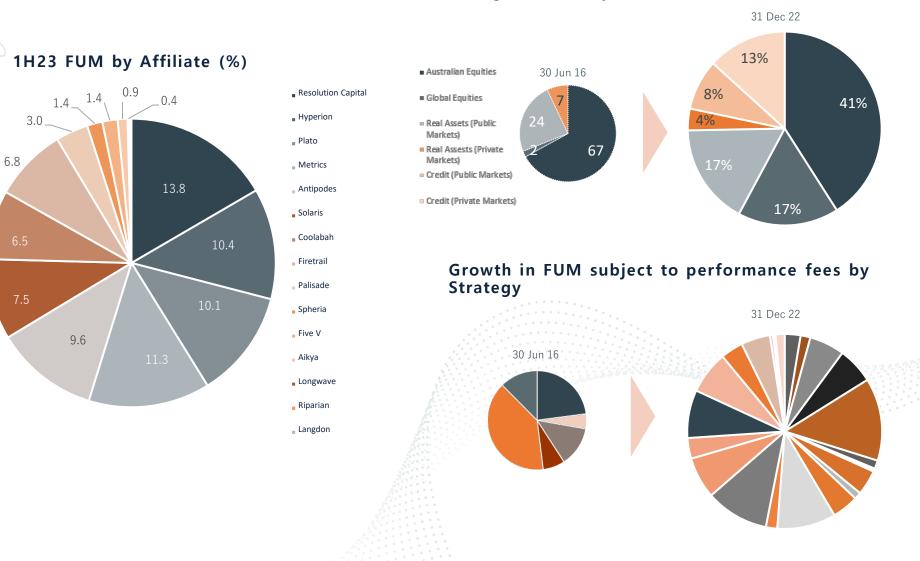

- The volume of FUM with performance fee potential has increased substantially in recent years
- The number and diversity of strategies with significant performance fee potential has increased in recent years (improving the annual reliability of overall performance fee revenue)
- Likelihood of performance fee success is generally not correlated to equity market levels – based on performance relative to individual hurdles
- Likelihood of performance fees is distinct between individual strategies
- However, performance relative to benchmarks can vary significantly over even quite short periods of time
- Several strategies which had the potential to produce performance fees during 1H FY23 outperformed their benchmarks but earned nil or lower performance fees as they entered the period behind the relevant high-water marks

 Six Affiliates earned performance fees totalling only \$3.2m (at 100%; Pinnacle post-tax share \$0.9m) in 1H FY23. In 1H FY22, four Affiliates earned performance fees totalling \$18.8m (at 100%; Pinnacle share post-tax \$6.4m)

- Of the now 22 strategies that have the potential to deliver significant performance fees, 15 crystallize at least half yearly, with all 22 crystallizing on at least an annual basis
- Performance fees crystallizing only in June each year include Metrics and Palisade
- Of the 22 strategies that have the potential to deliver performance fees in the second half, eight are at their high watermarks and a further four are within 2%

A broadly diversified platform in place to move ahead with sustained growth

- NPAT attributable to shareholders of \$30.5m (-24% on 1H FY22)
  - Performance fees earned by Pinnacle Affiliates, post-tax, contributed only \$0.9m of Pinnacle's NPAT in 1H FY23 (\$6.4m in 1H FY22)
  - 1H FY22 included the full write-down of Pinnacle's investment in Reminiscent Capital in FY22, of \$1.8m
  - Positive net return on Principal Investments (PI) of \$3.8m in 1H FY23 compared with \$2.0m in 1H FY22
  - Includes interest cost of the CBA facility of \$2.7m in 1H FY23 (\$1.0m in 1H FY22)
- Pinnacle Parent fee revenues broadly similar to the PCP
  - Retail flows, that drive certain distribution fee revenues, have continued to be positive (but very modest)
  - Impact of lower market and style-shift away from global growth stocks and REITs on certain FUM-linked revenues
- Pinnacle and Affiliates continue to actively pursue growth initiatives, recognizing that these will moderate profits in the short term
  - The aggregate annual net cost to Pinnacle of these initiatives, within Pinnacle and Affiliates, was approximately \$6.5m
     (Pinnacle share, after tax) in 1H FY23
- Basic EPS attributable to shareholders of 15.7 cents, -27% from 21.5 cents in PCP
- Diluted EPS attributable to shareholders of 15.6 cents, -26% from 21.0 cents in PCP
- Share of NPAT from Pinnacle Affiliates of \$28.4m, -28% from \$39.2m in PCP (-16% excluding performance fees)
- Fully franked interim dividend per share of 15.6 cents (down 11% from the fully franked 1H FY22 interim dividend of 17.5 cents), payable on 17 March 2023, representing a payout ratio of 100% of diluted EPS

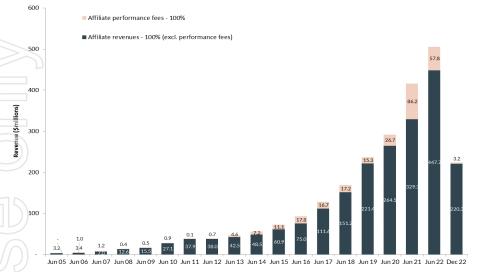

Includes dividends and distributions received on PI. These were \$2.9m in 1H FY23, compared with \$1.9m in 1H FY22

Includes interest cost on the CBA facility of \$2.7m in 1H FY23 (\$1.0m in 1H FY22) and amortization of the PL8 offer costs of \$0.2m in 1H FY23 (\$0.4m in 1H FY22)

Includes mark-to-market and realized gains/losses on PI, net of hedging. These were total net gains of \$0.8m in 1H FY23 (decreases 'expenses'), compared with total net gains of \$0.1m in 1H FY22 (decreases 'expenses')

Continuing improvement in average base rate fees and client diversity; 'Horizon 2' investment in growth initiatives moderates profits in the short term, but will drive strategic growth through the cycle

  - Includes \$140.2m invested in strategies managed by Pinnacle Affiliates
- CBA facility of \$120m fully-drawn and deployed into liquid funds managed by Affiliates until required
- Total cash and PI, net of the CBA debt facility, was \$59.1 million at 31 December 2022, compared with \$58.2 million at 30 June 2022
- Excludes impact of interim dividend of 15.6 cents per share payable on 17 March 2023 and dividends received or to be received from Affiliates since 31 December
- Investments in Affiliates represents the 'equity accounted' value, i.e., investment cost, plus Pinnacle's share of profits, less Pinnacle's share of dividends received. The balance is tested for impairment at each reporting period. Pinnacle's share of Affiliate performance fees that crystallized during 1H FY23 are included in Pinnacle's share of profits and increases the carrying value of the investments; any associated dividends will reduce the carrying value when paid
  - Includes \$75m paid to acquire a 25% interest in Five V capital in November 2021
  - Includes \$32.8m paid to acquire an additional 10% interest in Coolabah in October 2021
- Balance sheet strength provides ~\$110 million of 'dry powder' for future opportunities

03 Market Update – Institutional and Sector Chambers

#### 1H FY23 Review - Institutional investors remain defensively positioned

- Institutions accumulated higher cash holdings in the absence of compelling expected returns for risk assets and in response to the denominator effect
- Institutions continuing to rebalance away from public equities, both Australian and global
- Investors became increasingly constructive on government bonds and credit during the half as yields rose
- Private credit seen as appealing given floating rate returns and attractive credit spreads
- Private infrastructure viewed positively given inflation hedging characteristics however many investors are fully allocated
- Many investors in private real estate have reached their asset allocation limits so rebalancing has occurred at the expense of liquid, publicly traded REITs, despite material discounts to NAV
- Private real estate investors looking to lean away from large traditional sectors such as office and retail and towards logistics, data centres, healthcare and residential, however, illiquidity is making this problematic for all but the largest and fastest-growing funds
- Investors becoming more positively predisposed to natural capital given inflation hedging characteristics, global demand/supply imbalances and greater focus on food and energy security

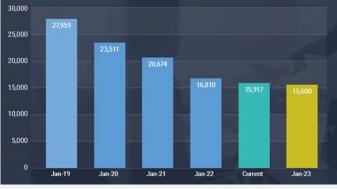

- International flows positive, domestic flows negative but margin mix improving
- International net flows
  - \$650m net flows from 17 countries outside of Australia
  - 5 largest net flow contributors were Japan, New Zealand, South Africa, South Korea, United Kingdom
  - Largest net inflows into global equities, global emerging markets and private credit
- Australian net flows
  - (\$2.47bn) net flows
  - Asset class rebalancing and a small number of wholesale portfolio changes drove short-term outflows
  - Largest inflows into private credit and global equities; largest outflows from Australian equities and global REITs
  - Several new mandates were previously managed inhouse by super funds
- Notable developments
  - \$1bn+ net institutional capital raised (drawn and undrawn commitments) for private markets Affiliates
    - Metrics achieved \$900m+ net institutional inflows
    - Palisade Impact 'start-up' exceeded \$400m of committed, 'undrawn' capital (vs \$250m target raise)
  - ~\$800m net institutional flows into global equity and emerging market equity
    - Antipodes sales momentum continued; new allocations from UK, US, NZ, Australia
    - Aikya securing new global consultant ratings and allocations from UK, Europe and South Africa

- Solid pipeline across Australian and International channels with notable searches in:
  - Australian equities
  - Global value equities
  - Global emerging markets
  - Private credit
  - Private real assets and natural capital
  - Sustainability and impact
- Affiliate quality, asset class diversity, style diversity and continuous product innovation ensures that we retain 'all-weather' relevance to investors as their preferences and the market conditions they operate in change through time
  - Higher inflation and base rates certain Affiliate offerings viewed as better hedges including private credit, alternative public credit, real assets, infrastructure, agriculture and water, global real estate securities, global value equities
  - Decarbonisation Affiliates offer a broad range of low carbon, decarbonisation, energy transition and renewable energy strategies
  - Increased allocations to private markets at the expense of public markets current offering encompasses the full spectrum across private credit, private equity, venture capital, infrastructure, real estate, real assets and natural capital

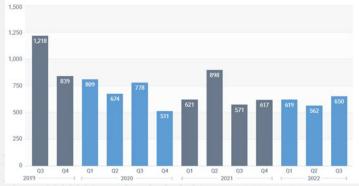

**O** A Market Update – Retail Ramsin Jajoo ersonal

### Positive 1H FY23 retail net inflows achieved amid volatile investing conditions and weak investor confidence

- Retail net inflows of \$0.3bn achieved in 1H FY23 (vs \$2.9bn PCP) in extremely weak retail market conditions
  - Unfavourable economic conditions, heightened geopolitical risks, pandemic, cyber security concerns and poor market
    performance across the board from the major asset classes, created a sense of apprehension amongst retail investors,
    causing industry wide retail flows to retract below the previous low levels experienced during the beginning of the COVID-19
    pandemic
  - There are some early signs that the secular headwinds in recent years leading to higher adviser exodus from the industry (Chart 1) and higher adviser switching (Chart 2) are stabilising; and with the recent completion of Treasury's Quality of Advice Review and the recommendations to further simplify, streamline and in some cases remove the regulatory burden imposed on advisers should deliver positive momentum over the medium to long term

Despite the uncertainties and headwinds facing the advice market in recent years, our retail distribution team has continued to improve and expand our distribution reach. At 30 November 2022, more than 10,298 advisers were actively investing with PNI Affiliates across major platforms (+281 new advisers relative to the 10,017 advisers investing with PNI Affiliate(s) at 31 December 2021)<sup>2</sup>

## Continued investment in retail distribution, high activity levels and innovative engagement initiatives provide the platform for growth as investor confidence returns

- Strategic hires have been made across mid-level sales roles to grow and expand our footprint across newer client segments (e.g., Family Offices, Industry Associations, etc.)
  - Client focused activities and engagement levels continue to be elevated as both inhouse and external 3<sup>rd</sup> party initiatives are being ramped up
  - As a result of good client experience, our top 20 wealth management clients are now invested with 3 or more Affiliates on average and across 5 or more strategies
- Engagement with research houses remains robust with new products receiving strong initial ratings and several incumbent products receiving upgrades. Our footprint with consultants also continues to expand with several new managed account allocations. Some recent examples include:
  - Strong Initial ratings for Aikya Emerging Markets Opportunities, Firetrail S3GO, Spheria SEC and Antipodes AGX1
  - Significant model portfolio win for Resolution Capitals RCAP product, and additional model portfolio allocations for Aikya and Firetrail S3 Global Opportunities Funds
  - Longwave Capital won Lonsec's prestigious 'Emerging Manager of the Year' award
- Products, marketing and services innovation to meet the changing needs of investors
  - We have continued to invest in our retail sales force, client engagement team and business intelligence capabilities to ensure we are well positioned to execute on sales opportunities
  - Successful participation in the growth of managed accounts, quoted unit products (dual structure) and tech-enabled platform services
  - Progress made towards appointing a platform provider for a Pinnacle and Affiliates investment solution that will better serve retail direct investors and pave the way for increased penetration of this channel

"The drop in the net inflow was driven much more by a dearth of buyers (orders fell by 15%) than an increase in selling (orders rose only 7%). Turnover, the value of all buy orders and all sell orders added together, was very similar in 2021 and 2022, however, so the large decline in the net inflow indicates much greater uncertainty in 2022 among investors over the likely direction of equity markets." <sup>1</sup> Teresa Walker, Head Of Australia And New Zealand, Calastone Ltd.

The Calastone Fund Flow Index (FFI) is a quarterly report that measures investor sentiment for Australian investors. It shows the net inflow and outflow of capital to and from managed funds relative to the total value of units bought and sold in those funds. Calastone has oversight of 95% of managed fund flow in Australia, and with the FFI, Calastone is able to share insights from their rich source of data, the Calastone Network, showing how investors are responding to market events.

Market-leading engagement and communications initiatives have helped drive business resilience through recent market volatility. Now primed for further growth in the 'return to normal'

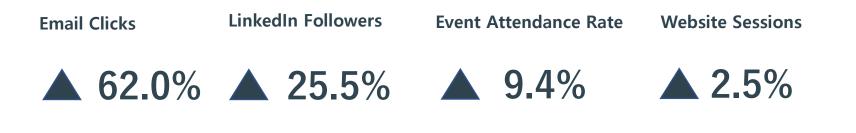

- COVID-19 has seen rapid acceleration in the development of multimedia communication capabilities, positioning Pinnacle a leading provider of high-quality thought leadership, investment insights and broader client communications
- Strategic planning for CY2023 is set to again provide robust engagement across key client and industry sectors, with early-year internal events seeing record in-person invitation acceptance/attendance
- The 'network effect' created by delivering superior insights and content across multiple Affiliates provides regular cross-promotion opportunities across valuable audiences
- Dedicated campaigns devoted to new Pinnacle Affiliates and alternative investment offerings to address the current investment landscape
  - Bespoke, large scale events
  - Highly targeted insights & marketing
- Group partnerships with key industry organisations continue to provide greater client reach and scale, with cost advantages for boutiques

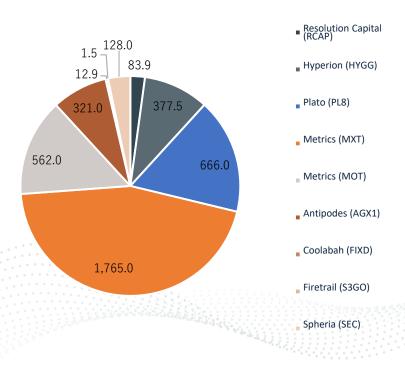

Year-on-Year engagement growth across marketing platforms:

- More clients are consuming Pinnacle & Affiliate content:
  - Mix of content and ongoing A/B testing is breaking through the clutter
  - · Network effect is helping generate greater media amplification
  - The return of in-person events are driving higher engagement

## Three Horizons of growth

Prepared for, and seeking, further expansion opportunities – committed to taking advantage of the significant offshore opportunity to evolve into a global multi-affiliate by 'exporting our model' – but maintaining discipline on quality and valuation

- Continue to build Pinnacle by taking a measured approach to growth
  - Support the growth of current Affiliates with increased investment in distribution channels (e.g., international and listed markets)
  - Invest in / seed new Affiliates and strategies where management teams have a strong track record and growth potential
  - Seeking to diversify into asset classes with substantial growth potential
- Offshore opportunities are becoming compelling – ability to 'export our model' – delayed somewhat to date by COVID-19
  - Disparity between trading multiples for public and private businesses

Pinnacle and Affiliates continue to actively pursue growth initiatives, recognizing that these will moderate profits in the short term but provide extremely lucrative growth opportunities over the medium term

Examples of previous Horizon 2 initiatives, within Pinnacle, include:

- Supporting start-up Affiliates (Plato, Palisade, Antipodes, Solaris, Spheria, Firetrail)
- Pinnacle Parent growth initiatives (built 'from scratch') institutional distribution, retail distribution, Responsible Entity services, domestic infrastructure

Current Horizon 2 initiatives, within Pinnacle, include:

- Supporting new Affiliates Pinnacle provides all distribution and infrastructure services for no cost, until Affiliates are profitable. During 1H FY23, Pinnacle supported the following Affiliates in this way:
  - Aikya
  - Langdon
  - Longwave
  - Plato Net Zero/Plato Systematic Global Macro
  - Riparian
- Pinnacle has deliberately 'resourced up' ahead of growth, and revenues, in three key areas:
  - Offshore distribution
  - Offshore infrastructure
  - International expansion

## Horizon 2 – Update

Examples of previous Horizon 2 initiatives, within Affiliates, include:

• Hyperion Global, Palisade Renewables, Plato Australian Income, Resolution Capital Global REITS, Solaris Long/Short

Current initiatives, within Affiliates, include:

Affiliate	Initiative
Firetrail	Global S3 Small Caps
Metrics	Real Estate Equity Sustainable Finance Business Finance
Palisade	Impact Real Assets Global Infrastructure
Plato	Global Income Global Net Zero Low Carbon Credit Global Macro
Resolution Capital	Real Assets Global Listed Infrastructure
Riparian	Sustainable Agriculture
Solaris	Equity Income
Spheria	Global

- The aggregate net cost to Pinnacle of these initiatives, within Pinnacle and Affiliates, was approximately \$6.5m in 1H
   FY23 (Pinnacle share, after tax)
- Each initiative is only entered into after careful consideration of the longer-term benefits and with reasonable limits set on both time to success and size of 'investment' required, given the drag on profitability
- Past Horizon 2 initiatives have delivered exceptional returns, within Pinnacle itself and through its share of the profits from Affiliate initiatives to date, contribution to Pinnacle profit has been over 10x the capital outlay (not including any consideration of increased capital value)
- Pinnacle and Affiliates will continue to pursue these initiatives where it is commercially sensible to do so
- Pinnacle and Affiliates also provide seed capital for new strategies (Pinnacle itself hedges a proportion of its direct market exposure). During FY22, given the market conditions, Pinnacle and Affiliates made aggregate losses on these seed commitments of approximately \$5.7m (in aggregate, Pinnacle share after tax). These mostly unrealized losses impacted Pinnacle's NPAT negatively in FY22. During 1H FY23, aggregate unrealized losses within Affiliates were \$3.7m, which reduced profit by in the order of \$1m, Pinnacle share after tax

Use of Pinnacle balance sheet is a highly valuable accelerator for new Affiliates and strategies

Incubations remain a highly attractive investment proposition for Pinnacle. We are continuing to look to incubate more outside of Australia and leverage off the operational infrastructure we have developed in the UK/Europe and in Canada

### Aikya (London)

- Commenced 2020
- Highly regarded investment team
- Profitable within 3 years with strong momentum
- FUM over A\$900m at 31 December 2022
- Well regarded by several global asset consultants with support and interest coming from investors in UK, Europe, South Africa, North America and Australia
- Aikya Global Emerging Markets Fund is Article 9 SFDR compliant one of the leaders in sustainability in their space

### Langdon Partners (Toronto)

- Commenced 2022
- Registered with the Ontario Securities Commission in June 22
- Launched Global Smaller Companies AUT and Global Smaller Companies and Canadian Smaller Companies Canadian
   mutual funds
  - \$50m committed and invested capital raised from Canadian wealth channels
  - Both Canadian funds added to 5 largest local wealth platforms inside 6 months

- We have explored many Horizon 3 opportunities with the following characteristics:
  - Strategically attractive and diversifying relative to current Affiliate composition
  - Internationally-based, plus select opportunities in Australia
  - High demand asset classes including Infrastructure, Property, and Hedge Funds, plus Equities and many other asset classes
- We have remained disciplined with quality and valuations
  - **Quality** While the universe of potential firms is significant, we remain focused on partnering only with founders and teams of the highest quality with the potential for a significant runway of growth
  - Valuations Transaction multiples remained elevated (especially in private markets asset classes and privately held firms)
  - This is an important strategic initiative and we are prepared to be patient and judicious with our capital. Our hurdle is high, but we continue to work on opportunities, both domestically and internationally

We established a cross-affiliate ESG Working Group to share knowledge and promote industry best practice ESG standards

#### Women in finance

#### Women in finance scholarships

We increased annual scholarships to 18 across 4 universities. This is the fourth year of the program, which commenced in 2018 with four scholarships. Seven scholars are currently in active employment in the Group

#### Pinnacle Group Women's Network

We formed a Women's Network to create a community of women and supporters in an industry that is traditionally male dominated

#### Public holiday swap policy

We introduced a flexible approach to public holidays to help create a more inclusive workplace

#### **Climate Strategy**

Certified carbon neutral We received carbon neutral certification (for organisations) by Climate Active for FY21

Reduced absolute carbon emissions by 28% Compared to FY20, our carbon emissions reduced from 739.3 tonnes to 531.0 tonnes in FY21

#### **ESG Charter**

We developed the Pinnacle Group ESG Charter to reflect Pinnacle and Affiliates' shared commitment to ensuring that sustainable principles and practices are integrated into the way we conduct business

#### **Community partnerships**

Over \$550,00 donated

Through partnerships with 14 not for profit (NFP) organisations and workplace giving, the Group supported community initiatives across the country

#### Human rights

Voluntary modern slavery statement We submitted our inaugural voluntary Statement to the Australian Border Force for the FY22 reporting period

Pinnacle Group Supplier Engagement Group We formed a collaboration within the Group aiming to maximise leverage in supplier engagements, generate efficiencies and promote key sustainable themes within our corporate supply chain, with a strong focus on modern slavery.

Introduced policies to support human rights We developed a Human Rights Policy and Supplier Code of Conduct

#### Partnered with The Freedom Hub

We worked with this inspiring NFP entity to provide bespoke training on modern slavery to our employees and to guide Pinnacle's modern slavery risk assessments The United Nations Sustainable Development Goals (SDGs) aim to address the biggest problems human beings face on this planet. We recognise the need for strategies that foster economic development, reduce gender inequalities and transition towards a more sustainable future.

By aligning our operational initiatives with the objectives of the UN SDGs and by supporting the Pinnacle Charitable Foundation to achieve these goals, we can begin to turn global challenges into opportunities. The following highlights the SDGs we sought to contribute to in 1H FY23:

- Pinnacle is passionate about enabling better lives through investment excellence. This belief is strongly reflected in Pinnacle's commitment together with Affiliates to the Pinnacle Charitable Foundation
- The Foundation's focus is on growing the reach, sustainability and impact of creative and clever Australian not-for-profit
  organisations. Partnerships align with the Foundation's six dedicated focus areas, which in turn reflect the Group's
  sustainability approach and address specific UN Sustainability Development Goals (SDGs) where the Group believes it
  can make a tangible impact
- Partners are actively sought out and invited to apply for support based around exploring new projects, programs, and services. In each case the aim is to facilitate the delivery of solutions which can be analysed and assessed, scaled and strengthened, with early stage backing often provided
- Financially underpinned by Pinnacle and with access to extensive in-house pro bono services across investment management, portfolio reporting, finance, marketing, compliance and IT, the Foundation operates with low overheads and high impact. Its investment strategy is designed to tolerate significant volatility, given the long-term horizon of the Foundation's corpus and the diversified nature of the investment portfolio. The focus is on longer-term investment strategies which can provide reasonable capital protection, whilst aiming to drive growth over an extended period

Investments are held in a range of Affiliate strategies which offer Australian and global equity exposure, franking credits, monthly income streams, plus a range of non-equity exposed assets. As part of their broad commitment to the Foundation, all Affiliates donate the equivalent of management fee rebates back to the Foundation, through cash or additional units in investments, and the portfolio is managed on a pro bono basis by Pinnacle.

- Total donations by the Foundation in calendar 2022 were over \$550,000, primarily directed towards 14 not for profit (NFP) partners. Support was also provided for initiatives aligned with employee volunteering and fundraising.
- Affiliates provided a further \$285,000 via direct support to 11 jointly funded charity partnerships, with employees actively taking part in major events and celebrations.
- In addition, established Workplace Giving Programs across the Group which offer employer matching, resulted in a further \$95,000 being donated to more than 60 charities across Australia.

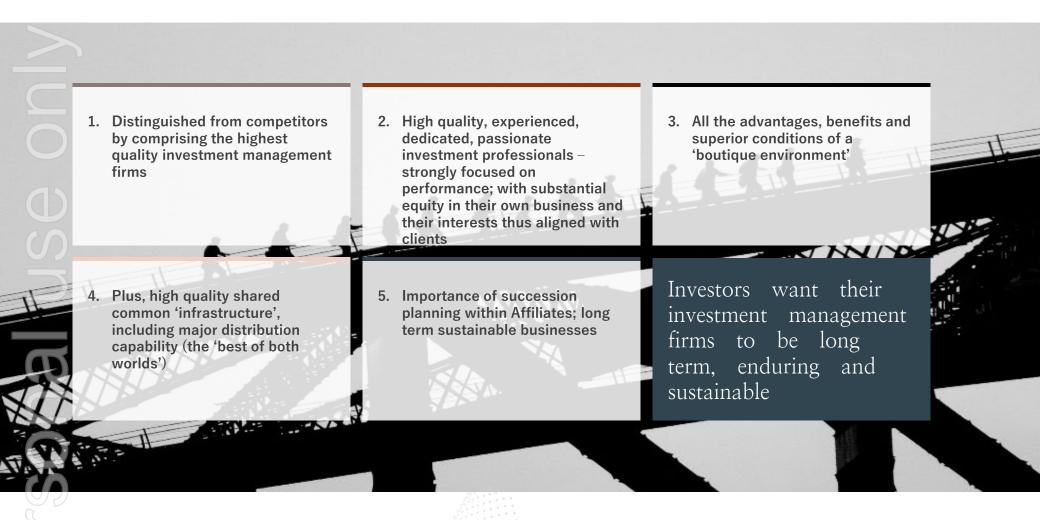

• Multiple partnerships with 14 NFPs are driving long term sustainable impact across six core categories:
