Leading talent solutions business PeopleIn Limited (PeopleIN, ASX: PPE) today announced a record financial performance for the six months ended 31 December 2022, driven by organic growth across the business' targeted employment sectors and execution on its 2025 strategy.

PeopleIN reported revenue of \$596.7m and normalised EBITDA of \$32.5m, an increase of 88.9% and 50.5% respectively over the prior corresponding period (PCP). This included an organic growth contribution of 21.3% to revenue and 11.8% to normalised EBITDA.

Organic growth will continue to be driven by client base diversification, cross-selling through owned brands, and further investment in international recruitment across our three verticals – Healthcare & Community, Professional Services and Industrial and Specialist Services.

¹ Earnings Before Interest, Tax, Depreciation and Amortisation ("EBITDA") and Net Profit After Tax and before Amortisation ("NPATA") are non-IFRS terms which have not been subject to audit or review but have been determined using information presented in the Company's Interim Financial Reports.

² Normalised Earnings Before Interest, Depreciation and Amortisation ("Normalised EBITDA") and Normalised Net Profit After Tax and before Amortisation ("Normalised NPATA") represents the statutory NPAT and statutory EBIT adjusted for one-off expenses including costs associated with acquisitions, costs of employee options and performance rights and the associated tax deduction of these expenses. A reconciliation back to statutory EBIT and NPAT is contained in the Directors Report which forms part of the Interim Financial Report.

³ Normalised numbers have not been subject to audit or review and are based on numbers contained in the Company's Interim Financial Reports.

Recent strategic acquisitions have integrated well and benefited from the scale of the broader PeopleiN Group. Perigon increased its successful conversion of health work through cross-selling and networking opportunities from the Group's wider Healthcare & Community brands. FIP Group's performance was aided by new mandates from PeopleiN's larger and more diverse client base.

PeopleiN and the executive team have identified opportunities for further acquisitions but will remain disciplined in its approach and stringent in its investment criteria.

PeopleiN has declared a fully franked interim dividend of 7 cents per share. The Company's net debt position at 31 December 2022 was \$71.5m with a gearing of 1.13 times Normalised EBITDA.

PeopleiN CEO Ross Thompson said:

"We are pleased to announce a record result, which was driven by strong organic growth across our core businesses and favourable industry tailwinds, including record low unemployment."

"The sectors we operate in, such as healthcare, professional services and industrials, amongst others, continue to experience significant staff shortages and are largely downturn protected. We have been able to capitalise on this opportunity through our diversified network of businesses who are providing excellent experiences for both clients and candidates."

"Based on the operating results for the first half and the mid-range forecast for economic conditions to continue, PeopleiN expects this strong momentum to continue into the second half of the financial year."

"Looking ahead, key growth drivers for the Group will include the onshoring of talent, international recruitment and upskilling, as well as cross-selling opportunities across our 4,200 plus client base. We are also buoyed by faster visa processing times over recent months, and anticipate further improvement over the remained of the financial year."

For further information, please refer to the investor presentation and the PeopleiN Appendix 4D and Interim Financial Report, both of which have been released today.
