

Smart Parking Ltd (ASX:SPZ)

A global company focused on delivering industry leading technology innovations and solutions within the parking industry

Revenue (\$000s)

Parking management services

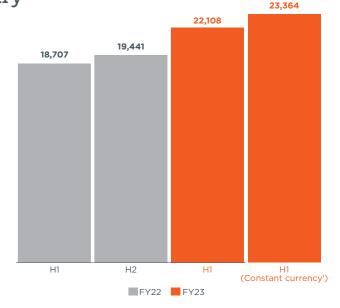

Provision of parking management solutions, predominantly servicing the retail sector, managing agents and land owners in the UK. SPZ has recently launched in three new territories, with accreditation achieved in NZ, Australia (Queensland) and Germany to run parking management services.

Technology

Proprietary technology to facilitate the growth of parking management services. Competitive advantage - SmartCloud allows successful plate matching with infringement business rules, mapping the full life cycle of a breach notice from issuance to payment or collection.

Research & development

Full migration of legacy UK systems to SmartCloud, completion in 2023.

Camera identifies the number plate of cars entering and leaving the premises

SmartCloud

Automates information and provides detailed reporting

ANPR: How it works

Automatic number / license plate recognition (ANPR) is a reliable, cost effective off-street parking management solution.

It is proven to serve a wide range of industries including supermarkets, retail, hotels, hospitals and leisure centres. Smart Parking's ANPR solution ensures greater compliance and increased parking revenue.

- Ticketless, barrier-free system, parking areas that are managed 24/7
- Automatically generated and issued parking charge notices
- Increased security, comprehensive reporting and account management

Glossary

Adjusted EBITDA - The Board assesses the underlying performance of the Group based on a measure of Adjusted EBITDA which takes into account costs incurred in the current period but which are non-operating and/or are not expected to occur in the future.

EBITDA - represents Earnings before interest, taxation, depreciation and amortisation, and profit/loss on disposal of plant and equipment.
