(Detailed commentary on the Group financial results for H1 FY23 are set out in the Annexure)

Commentary

Managing Director and CEO Urs Meyerhans, said:

"After the strong start in the first quarter, we experienced a growing contraction in volumes in the second quarter, primarily in the residential renovation and replacement segment which resulted in substantial de-stocking by one of our key merchants.

"Detached housing completions and commercial new build and renovation activity remained broadly steady.

"The increase in sales for the half of 3% was driven by price increase and favorable product mix offset by a decline in volume.

"As disclosed at the AGM in October, we recorded group sales growth of 8% for the first quarter with sales in Australia up 7%.

"In addition to the anticipated increase in ocean freight of \$3.5m we experienced an increase in customer freight (fuel levy surcharge) of \$4.0m on the prior corresponding period.

"In response to the contraction in volumes and cost increases we instituted cost savings measures and will apply price increases in H2 in response to the increase in customer freight.

"We remain focused on disciplined operation in what is likely to be a subdued environment particularly renovation and replacement activity.

¹⁾ Normalised is a non-IFRS measure and is based on statutory IFRS information adjusted for significant items

Health & Safety

- We have worked to enhance our safety performance with the introduction of leading indicators (Worker Insight Frequency Rate), which will support our lag indicators.
- GWA's TIFR has slightly increased over 1H FY23 due to two minor injuries sustained in our NZ business but not reported by the employees on a timely basis. These injuries have presented an opportunity to improve our injury management practices and employee reporting obligations, and are not related to any change in GWA's risk profile.
- We are reviewing our WHS risk profile across all of GWA's business functions and geographies. This will include an assessment of GWA's Psychosocial Risk Profile and responding to the changing ways of working, including hybrid working.

Business Environment

- Demand in the Commercial new build and renovation segment is expected to continue with GWA's Commercial forward order book remaining strong up 6.5% in Australia since June 2022.
- Momentum in residential detached building is expected to continue in the second half with the residential Renovation & Replacement segment expected to remain subdued due to inflationary pressures and rising interest rates impacting consumer sentiment and behaviour.
- The supply chain remains robust and GWA is well placed to continue to service our customers throughout the year ahead.

Costs

- Input cost inflation will be managed through proactive price increases such as those scheduled to be implemented in Australia from 1 April 2023 (4%) and New Zealand from 1 March 2023 (5%).
- Business operations will be adjusted to respond to prevailing market conditions.
- Inventory will continue to be managed to meet demand with a reduction in current inventory levels expected over the second half.
- For the second half of FY23, approximately 80% of US dollar exposure is hedged at a blended rate of US70 cents.

Strategy

- GWA continues to make solid progress on the implementation of our strategy to drive revenue growth over the medium term.
- GWA launched new products during the period including new consumer smart bathroom and kitchen collections.
- Aged care remains a core growth focus and we continue to evolve our popular independent living range.
- GWA will continue to drive its strategy agenda in the second half with a focus on:
 - Profitable volume growth targeting new markets and customers;
 - Acceleration of ease of doing business initiatives with a focus on our merchant partners; and
 - > Continued focus on cost management.

ANNEXURE

Group Financial Performance Group Reported Results

A\$ million (unless specified)	1H FY23	1H FY22	% Change
Sales Revenue	207.1	201.3	+2.9%
EBIT	34.1	30.2	+12.9%
EBIT Margin (%)	16.5%	15.0%	+1.5 ppts
NPAT	21.3	18.6	+14.9%
Earnings per share	8.0	7.0	+14.3%

Group Normalised Results (Excludes Significant Items)

A\$ million (unless specified)	1H FY23	1H FY22	% Change
Sales Revenue	207.1	201.3	+2.9%
EBIT	34.1	35.6	(4.2%)
EBIT Margin (%)	16.5%	17.7%	(1.2 ppts)
NPAT	21.3	22.4	(4.6%)
Earnings per share	8.0	8.4	(4.8%)

The Group did not incur significant items in 1H FY23. Significant Items in 1H FY22 amounted to \$3.8 million (after tax) related to net costs associated with the implementation of the Group's Enterprise Resource Planning (ERP)/Customer Relationship Management (CRM) project.

Revenue increased by 8% in the first quarter, however a decline in market activity, primarily in residential renovation and replacement, resulted in a sales decline of 2.2% in the second quarter when compared to the prior comparative period.

For 1H FY23 Australian sales increased by 3.4%. GWA increased sales with three of its top four merchant partners, however the Group experienced a significant decline in sales in one merchant due to de-stocking.

Sales in New Zealand increased by 4.8% on a constant currency basis (a decline of 0.4% on a reported basis in AUD). International (UK) sales increased by 5% in constant currency, a decline of 1% on a reported basis.

Effective price increases of 5% were implemented in Australia/New Zealand in July 2022 and in the UK from 1 November 2022 in response to increasing input cost inflation.

Normalised Group EBIT declined by 4% to \$34.1 million compared to the prior corresponding period.

Volume declined during the half reflecting the net sales contraction experienced in the second quarter, partially offset by mix improvement in the Australian business.

Operating margins were impacted by higher freight and warehouse costs, partially offset by continued disciplined cost control in response to weaker market conditions experienced in the second quarter. Normalised EBIT margin was 16.5%, down 1.2 ppts from 1H FY22, primarily reflecting the impact of customer freight.

Continued strong financial position enables GWA to pay 6.0 cents per share dividend

The Board resolved to pay an interim dividend of 6 cents per share, fully franked, compared to 7.0 cents per share for the prior corresponding period.

The record date for entitlement to receive the interim dividend will be 24 February 2023 with the dividend being paid on 7 March 2023.

Financial metrics remain solid

Net debt as at 31 December 2022 was \$136.6 million, which was down from \$138.2 million as at 30 June 2022.

GWA's credit metrics remain solid. The Company's gearing ratio (net debt/net debt plus equity) of 26.1% compared to 26.2% at 30 June 2022, and leverage ratio (net debt/EBITDA) remains at 1.7 times.

GWA maintains a single three year multicurrency revolving facility of \$180 million which matures in October 2024.

GWA also maintains a separate \$40 million one-year multi-currency revolving bilateral facility which matures in October 2023 which is expected to be extended prior to this maturity.

Continued strong operating cashflow generation

GWA continues to generate strong operating cashflow, notwithstanding the decline in market activity, in the sectors in which we operate.

Normalised cashflow from operations was \$44.6 million for 1H FY23 compared to \$43.6 million for the prior corresponding period.

A favourable improvement in debtors was partially offset by an increase in inventory value.

The increase in inventory reflects rising freight and product costs. Stock on hand is predominantly "A" class stock, which comprises higher-demand and faster moving products. GWA expects a reduction in inventory over the second half.

Cash conversion remains solid with a cash conversion ratio of 103% for the half.

Capital expenditure for the half was \$1.4 million compared to \$1.6 million for the prior corresponding period. Total capital expenditure for FY23 is expected to be \$3-3.5 million.

1. Reporting entity

GWA Group Limited (the 'Company') is a for-profit company domiciled in Australia, limited by shares, which are publicly traded on the Australian Securities Exchange ("ASX") under ASX code "GWA". The consolidated interim financial report of the Company as at and for the half year period ended 31 December 2022 comprises the Company and its controlled entities (together referred to as the 'consolidated entity').

The consolidated annual financial report of the consolidated entity as at and for the year ended 30 June 2022 is available from the Company's website www.gwagroup.com.au.

Statement of compliance

The consolidated interim financial report has been prepared in accordance with Australian Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*.

The consolidated interim financial report does not include all of the information required for a full annual financial report, and should be read in conjunction with the consolidated annual financial report of the consolidated entity as at and for the year ended 30 June 2022.

This consolidated interim financial report was approved for issue by the Board of Directors on 20 February 2023.

The Company is of a kind referred to in ASIC Corporations (Rounding in Financial / Directors' Report) Instrument 2016/191 dated 24 March 2016 and in accordance with that Instrument, amounts in the financial report have been rounded to the nearest thousand dollars, unless otherwise stated.

3. Significant accounting policies

The accounting policies applied by the consolidated entity in this consolidated interim financial report are the same as those applied by the consolidated entity in its consolidated financial report as at and for the year ended 30 June 2022, except as noted below:

Standards and Interpretations affecting amounts reported in the current period

The following new and revised Standards and Interpretations have been adopted by the consolidated entity for the first time in the half year period ended 31 December 2022:

AASB 2020-3 – Narrow Scope amendments to AASB 16, AASB 137 and AASB 3. Annual improvements to AASB 16, AASB 1, AASB 9 and AASB 141.

The initial adoption of the above Standards and Interpretations have not had a material impact on the amounts reported, or disclosures made, in the consolidated interim financial report.

4. Estimates

The preparation of the interim financial report requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

In preparing this consolidated interim financial report, the significant judgements made by management in applying the consolidated entity's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial report as at and for the year ended 30 June 2022.

5. Operating segments

The consolidated entity has one continuing reportable segment, Water Solutions. This segment includes the sale of vitreous china toilet suites, basins, plastic cisterns, taps and showers, baths, kitchen sinks, laundry tubs, domestic water control valves, smart products and bathroom accessories. The CEO reviews internal management reports on a monthly basis.

Information regarding the results of each reportable segment is included below. Performance is measured based on segment profit before interest and income tax ('EBIT') and excludes certain project costs (e.g. costs in relation to the Group's ERP / CRM project), in line with management reports that are reviewed by the CEO. Segment profit is used to measure performance as management believes that such information is the most relevant in evaluating the results of the segment relative to other entities that operate in these industries.

Loans and borrowings

On 21 October 2021 the consolidated entity successfully completed the refinance of its syndicated banking facility. The facility comprises a single three year multicurrency revolving facility of \$180,000,000 which matures in October 2024. For the period 18 November 2020 to 20 October 2021 the facility was \$226,670,000.

On 6 October 2022, the consolidated entity extended its one year multicurrency revolving bilateral facility of \$40,000,000 which now matures in October 2023.

The loans bear interest at market rates and interest is typically payable every 30 to 90 days. The consolidated entity partially hedges its exposure to variable interest rates through interest rate swap transactions.

The consolidated entity has unsecured bank loans of \$184,006,000 drawn as at 31 December 2022 (30 June 2022: \$168,328,000). The notional amount of the interest-bearing loans is deemed to reflect the fair value. The facilities were drawn in the following currencies.

10. Financial instruments

Estimation of fair values

Financial assets and liabilities that are not measured at cost or amortised cost in the half year financial report comprise forward foreign exchange contracts, interest rate swaps and an investment in an unlisted company.

Forward exchange contracts are marked to market by discounting the contractual forward price and deducting the current spot rate. For interest rate swaps broker quotes are obtained. These quotes are back tested using discounted cash flow techniques.

The investment in an unlisted company is accounted for as a financial asset at fair value through other comprehensive income ('FVOCI') following an irrevocable election made at initial recognition. Fair value is based on the equity price established in the most recent round of equity financing and consideration of any other key changes in the investment which requires a level of judgement.

Where discounted cash flow techniques are used, estimated future cash flows are based on management's best estimates and the discount rate is a market related rate for a similar instrument at the balance sheet date. Where other pricing models are used, inputs are based on market related data at the balance sheet date.

Fair value hierarchy

The consolidated entity recognises the fair value of its financial instruments using the level 2 valuation method. The different levels have been defined as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs)

There were no transfers between levels during the half year.

Independent Auditor's Review Report

To the shareholders of GWA Group Limited

Conclusion

We have reviewed the accompanying **Interim Financial Report** of GWA Group Limited (the Group).

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the Interim Financial Report of GWA Group Limited does not comply with the *Corporations Act 2001*, including:

- giving a true and fair view of the Group's financial position as at 31 December 2022 and of its performance for the half-year ended on that date; and
- complying with Australian Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

The Interim Financial Report comprises:

- Consolidated statement of financial position as at 31 December 2022
- Consolidated statement of profit or loss and other comprehensive income, Consolidated statement of changes in equity and Consolidated statement of cash flows for the half-year ended on that date
- Notes 1 to 11 comprising a summary of significant accounting policies and other explanatory information
- The Directors' Declaration.

The *Group* comprises GWA Group Limited (the Company) and the entities it controlled at the Interim Period's end or from time to time during the Interim Period.

The *Interim Period* is the 6 months ended on 31 December 2022.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity.* Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report.

We are independent of the Group in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with these requirements.

Responsibilities of the Directors for the Interim Financial Report

The Directors of the Company are responsible for:

- the preparation of the Interim Financial Report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001
- such internal control as the Directors determine is necessary to enable the preparation of the Interim Financial Report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Review of the Interim Financial Report

Our responsibility is to express a conclusion on the Interim Financial Report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the Interim Financial Report does not comply with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2022 and its performance for the Interim Period ended on that date, and complying with *Australian Accounting Standard AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of an Interim Period Financial Report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with *Australian Auditing Standards* and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
