Financial Performance Analysis

MGH Managing Director and CEO Wes Maas, commented that the strong first half of the year results were especially pleasing given operational challenges which existed relating to inclement weather events, rising interest rates and increasing cost pressures. Mr Maas noted that the performance of the business highlights its diversity and resilience, with a demonstrated ability to grow despite challenging external conditions.

Mr Maas stated that the business delivered solid results and cash conversion for the first half noting:

- Growth of 64.8% in Proforma EBITDA compared to the corresponding period last year, for the combined operating segments.
- Cash flow conversion of 89.0%³, compared to 72.0% for the corresponding period last year with liquidity of approximately \$240m as at 31 December 2022.
- MGH is well positioned for a solid FY 23 result and reaffirms its guidance of Proforma EBITDA in the range of \$150m-\$180m. The outlook for its core markets remain strong. Residential Real Estate continues to face head winds with lower enquiry levels as a result of continued interest rate increases.
- The Company expanded its operating footprint with recent investments in the Construction Materials segment through the acquisition of Dandy Premix in Victoria in December 2022, which provides the Company with a significant growth platform.
- MGH continues to make strong progress on the execution of its strategy, with the Company's strategic investment discipline and value focus, providing the foundations for MGH to achieve long term growth.

<u>Dividend</u>

The Board has declared an interim dividend of 3 cents per share fully franked. The Board of MGH has determined that the MGH Dividend Reinvestment Program will not apply to the interim dividend.

Further details in relation to the dividend and key dates will be released separately.

Capital Management

As noted in recent ASX announcements, MGH has commenced an on-market share buyback.

The implementation of the share buyback program reflects the MGH Board's belief in the underlying performance of the business and its strong capital position and supports MGH's ambition to increase sustainable return on equity benefits to shareholders.

This ASX announcement was authorised by The Board of Directors of MGH.
