1H FY23: DOING WHAT WE SAID WE WOULD DO

Simplify

- Global operating model fully implemented with four global businesses now operating with end-to-end accountability
- PEXA in-specie distribution implemented on 10 January 2023, delivering an implied \$0.27 per share in value creation for shareholders¹
- Link Group is in exclusive negotiations with the Waystone Group in respect of the sale of the whole of its FS business, excluding Woodford related liabilities
- Link Group and LFSL are in advanced confidential discussions with the FCA to settle the FCA investigation against LFSL

Deliver

- Delivered on 1H FY23 Operating EBIT guidance provided at the FY22 AGM. 1H FY23 Operating EBIT up 14.1%
- 1H FY23 Operating NPATA ex-PEXA up 4.9% on 1H FY22
- RSS contract renewals and extensions – Rest (in principle agreement for 5 year extension), AMIST (renewed for 4 years), AustralianSuper (extended for 2 years), HESTA (extended for 1 year), Prime Super (extended for 2 years), RBF (extended for 5 years)
- Link Group Board has declared an interim dividend of 4.5 cents, 80% franked

Grow

- Connecting over 110 million people globally with their assets
- Link Group 1H FY23 revenues were up 1.9% on 1H FY22 on constant currency
- Corporate Markets 1H FY23 revenues up 2.5% on 1H FY22 on constant currency. Corporate Markets in India 1H FY23 revenues up 35% on 1H FY22
- RSS has entered Hong Kong and will provide digital pension administration and value-added services to HSBC's Occupational Retirement Scheme Ordinance (ORSO) clients for a 10 year term

1. Reflects the difference between (a) the Link Group share price on 29 December 2022 (the day immediately prior to the ex-date for the distribution) of \$3.29 and (b) the sum of the Link Group share price on 30 December 2022 (the ex-date for the distribution) of \$1.98 and the distributed PEXA share value attributable per Link Group share of \$1.59 (being the PEXA share price on 30 December 2022 of \$11.95 divided by the distribution exchange ratio of 7.52).

Revenue Contribution¹

Operating EBITDA Contribution¹

1. Divisional revenue contribution percentage based on Gross Revenue prior to eliminations. Divisional EBITDA contribution percentage excludes Group costs.

2. On 21 November 2022, Link Group sold down 10% of its PEXA shareholding for proceeds of \$102.4 million.

Revenue decreased by 0.2%, +1.9% on constant currency

- Member growth for RSS clients and indexation helped RSS recurring revenue with non-recurring revenue in line with expectations
- CM saw growth in India and higher margin income offset by FX movement, normalisation of print and mail volumes and lower corporate activity in Australia and the UK
- FS revenue impacted by market volatility and UK investment market trends
- BCM revenue impacted by NPL run off, with higher interest rates impacting origination volumes

Operating costs decreased by 2.3%

- Benefits from now completed Global Transformation Program and India Hub offset some of the inflationary pressures experienced in staff and vendor costs

Operating NPATA of \$48.0 million

- PEXA contributed \$9.9 million

Statutory Loss of \$410.1 million

- Included non-cash impairment charge of \$448.9 million related to FS assets
- Included non-cash impairment charge of \$15.4 million related to BCM goodwill
- Includes gain on sale of \$47.9 million on the PEXA sell-down²
- Includes Significant Items of \$14.4 million (net of tax) related to acquisition and transaction costs

IMPORTANT NOTICE

This presentation has been prepared by Link Administration Holdings Limited (Company) together with its related bodies corporate (Link Group). The material contained in this presentation is intended to be general background information on Link Group and its activities.

The information is supplied in summary form and is therefore not necessarily complete. It should be read in conjunction with Link Group's other periodic and continuous disclosure announcements filed with the Australian Securities Exchange, and in particular, Link Group's Interim Financial Report for the period ended 31 December 2022. It is not intended that it be relied upon as advice to investors or potential investors, who should consider seeking independent professional advice depending upon their specific investment objectives, financial situation or particular needs. The material contained in this presentation may include information derived from publicly available sources that have not been independently verified. No representation or warranty is made as to the accuracy, completeness or reliability of the information.

All amounts are in Australian Dollars unless otherwise indicated. Figures presented in the presentation may also be subject to rounding.

Unless otherwise noted, financial information in this presentation is based on A-IFRS. Link Group uses certain measures to manage and report on its business that are not recognised under Australian Accounting Standards or IFRS. These measures are collectively referred to in this presentation as 'non-IFRS financial measures' under Regulatory Guide 230 'Disclosing non-IFRS financial information' published by ASIC. Management uses these non-IFRS financial measures to evaluate the performance and profitability of the overall business and Link Group believes that they are useful for investors to understand Link Group's financial condition and results of operations. Non-IFRS measures are defined in Appendix 1. The principal non-IFRS financial measures that are referred to in this presentation are Operating EBITDA, Operating EBIT, Operating NPATA, Operating earnings per share and Net operating cash flow. Management uses Operating EBITDA to evaluate the operating performance of the business and each operating segment prior to the impact of significant items, the non-cash impact of depreciation and amortisation and interest and tax charges, which are significantly impacted by the historical capital structure and historical tax position of Link Group. Management uses Operating EBITDA to evaluate the cash generation potential of the business because it does not include significant items or the non-cash charges for depreciation and amortisation. However, Link Group believes that it should not be considered in isolation or as an alternative to net operating cash flow. Other non-IFRS financial measures used in the presentation may include Recurring Revenue, non-recurring Revenue, gross revenue, EBITDA, EBITA, EBIT, working capital, capital expenditure, net operating cash flow, net operating cash flow conversion ratio and net debt. Significant items comprise business combination costs, integration costs, IT business transformation and client migration costs. Unless otherwise specified those non-IFRS financial measures have not been subject to audit or review in accordance with Australian Accounting Standards.

Any past performance information included in the presentation is given for illustrative purposes only and should not be relied upon as (and is not) an indication of future performance.

Forward-looking statements are statements about matters that are not historical facts. Forward-looking statements appear in a number of places in this presentation and include statements regarding Link Group's intent, belief or current expectations with respect to business and operations, prospects, market conditions, results of operations and financial condition, including, without limitation, future loan loss provisions, financial support to certain borrowers, indicative drivers, forecasted economic indicators and performance metric outcomes.

This presentation contains words such as 'will', 'may', 'expect', 'indicative', 'intend', 'seek', 'would', 'should', 'could', 'continue', 'plan', 'probability', 'risk', 'forecast', 'likely', 'estimate', 'anticipate', 'believe', or similar words to identify forward-looking statements. These forward-looking statements reflect Link Group's current views with respect to future events and are subject to change, certain known and unknown risks, uncertainties, contingencies and assumptions which are, in many instances, beyond the control of Link Group, and have been made based upon Link Group's current expectations and beliefs concerning future developments and their potential effect upon us. These forward-looking statements may involve significant elements of subjective judgement and assumptions as to future events which may ultimately prove to be materially incorrect. There is no assurance or guarantee that future developments will be in accordance with Link Group's current expectations or that the effect of future developments on Link Group will be those currently anticipated. Actual results could differ materially from those which Link Group currently expects, depending on the outcome of various factors. Factors that may impact on the forward-looking statements made include, but are not limited to, general economic conditions in Australia; exchange rates; competition in the markets in which Link Group will operate and the inherent regulatory risks in the businesses of Link Group.

Accordingly actual events, results, outcomes and achievements may be materially greater or less than estimated. The information in this presentation (including any forward-looking statement) is not intended to be relied on and does not take into account any individual financial objectives, situation or needs.

When relying on forward-looking statements to make decisions with respect to Link Group, investors and others should carefully consider such factors and other uncertainties and events and form their own views and make their own enquiries. Link Group is under no obligation to update any forward-looking statements contained in this presentation, where as a result of new information, future events or otherwise, after the date of this presentation.

DEFINED TERMS

IMPORTANT NOTICE: Link Group uses a number of non-IFRS financial measures in this presentation to evaluate the performance and profitability of the overall business. Although Link Group believes that these measures provide useful information about the financial performance of Link Group, they should be considered as supplemental to the information presented in accordance with Australian Accounting Standards and not as a replacement for them. Because these non-IFRS financial measures are not based on Australian Accounting Standards, they do not have standard definitions, and the way Link Group calculated these measures may differ from similarly titled measures used by other companies. The principal non-IFRS financial measures that are referred to in this presentation are as follows:

Recurring Revenue is revenue arising from contracted core administration servicing and registration services, corporate and trustee services, transfer agency, stakeholder engagement services, share registry services and shareholder management and analytics services that are unrelated to corporate actions. Recurring Revenue is expressed as a percentage of total revenue. Recurring Revenue is revenue the business expects to generate with a high level of consistency and certainty year-on-year. Recurring Revenue includes contracted revenue which is based on fixed fees per member, per client or shareholder. Clients are typically not committed to a certain total level of expenditure and as a result, fluctuations for each client can occur year-on-year depending on various factors, including number of member accounts in individual funds or the number of shareholders of corporate market clients.

Non-recurring Revenue is revenue the business expects will not be earned on a consistent basis each year. Typically, this revenue is project related and can also be adhoc in nature. Non-Recurring Revenue includes corporate actions (including print and mail), call centre, capital markets investor relations analytics, investor relations web design, extraordinary general meetings, share sale fees, off-market transfers, employee share plan commissions and margin income revenue. Non-Recurring Revenue also includes fee for service (FFS) project revenue, product revenue, revenue for client funded FTE, share sale fees, share dealing fees, one-off and other variable fees.

Gross Revenue is the aggregate segment revenue before elimination of intercompany revenue and recharges such as Technology and Innovation recharges for IT support, client-related project development and communications services on-charged to clients. Link Group management considers segmental Gross Revenue to be a useful measure of the activity of each segment.

Operating EBITDA is earnings before interest, tax, depreciation and amortisation and Significant items. Management uses Operating EBITDA to evaluate the operating performance of the business and each operating segment prior to the impact of Significant items, the non-cash impact of depreciation and amortisation and interest and tax charges, which are significantly impacted by the historical capital structure and historical tax position of Link Group. Link Group also presents an Operating EBITDA margin which is Operating EBITDA divided by revenue, expressed as a percentage. Operating EBITDA margin for business segments is calculated as Operating EBITDA divided by segmental Gross Revenue, while Link Group Operating EBITDA margin is calculated as Operating EBITDA divided by revenue. Management uses Operating EBITDA to evaluate the cash generation potential of the business because it does not include Significant items or the non-cash charges for depreciation and amortisation. However, the Company believes that it should not be considered in isolation or as an alternative to net Operating free cash flow.

EBITDA is earnings before interest, tax, depreciation and amortisation.

Operating EBIT is earnings before interest, tax and Significant items. Link Group also presents an Operating EBIT margin which is Operating EBIT divided by revenue, expressed as a percentage. Operating EBIT margin for business segments is calculated as Operating EBIT divided by segmental Gross Revenue, while Link Group Operating EBIT margin is calculated as Operating EBIT divided by revenue.

EBIT is earnings before interest and tax.

Operating NPATA is net profit after tax and after adding back tax affected Significant items and acquired amortisation. Acquired amortisation comprises the amortisation of client lists and the revaluation impact of acquired intangibles such as software assets, which were acquired as part of business combinations. Link Group management considers Operating NPATA to be a meaningful measure of after-tax profit as it excludes the impact of Significant items and the large amount of non-cash amortisation of acquired intangibles reflected in NPAT. This measure includes the tax effected amortisation expense relating to acquired software which is integral to the ongoing operating performance of the business. Link Group also presents Operating NPATA margin which is Operating NPATA divided by revenue, expressed as a percentage. Operating NPATA margin is a measure that Link Group management uses to evaluate the profitability of the overall business.

Operating earnings per share is Operating NPATA divided by the weighted average number of ordinary shares outstanding for the period. Link Group management considers Operating earnings per share to be a meaningful measure of after-tax profit per share as it excludes the impact of Significant items and the large amount of non-cash amortisation of acquired intangibles reflected in basic earnings per share. This measure includes the tax effected amortisation expense relating to acquired software which is integral to the ongoing operating performance of the business.

Significant items refer to items which are considered to have a material financial impact and are not part of the normal operations of the Group. Significant items are used in both profit and loss and cash flow presentation. These items typically relate to events that are considered to be 'one-off' and are not expected to re-occur. Significant items are broken down into: Business combination/acquisition & divestment costs, Global Transformation costs, and other one-off costs.

Net operating cash flow is Cash receipts in the course of operations less Cash payments in the course of operations (excludes Significant items, interest and tax).
