

ASX Announcement | 27 February 2023
Althea Group Holdings (ASX:AGH)

AGH Half-year Financial Report 2023

Financial Highlights:

- The Company achieved sales revenue of \$11.81m for the half, an increase of 25.9% from the previous corresponding period
- Cash receipts from customers totalled \$14.89 million, an increase of \$5.06 million, or 51.5% from the previous corresponding period
- Net cash used in operating activities continued to reduce as revenue increased and the Company maintained tight financial controls
- During the reporting period, AGH successfully raised \$2.2 million in capital (before costs) to support ongoing growth
- Subsequent to the reporting period, the Group secured a further \$4.32 million of funding during January and February 2023
- AGH remains fully funded and anticipates achieving group cashflow breakeven and operating profitability during March 2023

27 February 2023: **Althea Group Holdings Limited (ASX:AGH) ('AGH', 'the Group' or 'the Company')**, a global leader in the manufacturing, sales and distribution of cannabis-based medicines and recreational cannabis products, is pleased to announce that it has today released its first-half FY23 financial report.

Half-year Report highlights

The first half of FY23 was another record period for AGH, achieving sequential growth over the previous half and over the previous corresponding period.

Further Highlights:

- Sales revenue of \$11.81m for the half, an increase of 25.9% from the previous corresponding period
- Cash receipts from customers totalled \$14.89 million, an increase of \$5.06 million, or 51.5% from the previous corresponding period
- Althea's Australian customers totalled a record \$6.2 million for the half-year, representing an increase of 24.8% from the previous corresponding period
- Revenue from UK customers was \$955,000 for the reporting period
- Althea now services over 40,000 patients globally with the prescription of its cannabis-based medicines and the pharmaceutical business unit delivered positive EBITDA for the half-year
- Althea launched two new products during the half-year, Althea THC25, a high-THC (25%) cannabis dried flower product, and Althea CBD25, 25mg CBD soft gel capsules. Since the launch of Althea THC25 in Australia and the UK, cannabis dried flower unit sales have

increased by 178%. The Company envisions its soft gel capsules will overtake sales of its cannabis oils (tinctures) in the long term, given its superior performance and ease of use

- UK-based, fully owned subsidiary, MyAccess Clinics, contributed meaningfully to UK sales in the first half of FY23 with 1,089 patient appointments during the reporting period
- AGH's Canadian-based recreational cannabis business, Peak Processing Solutions ('Peak'), achieved revenue from customers of \$4.46 million for the interim period, an increase of 25.3% on the previous corresponding period
- Peak is expected to benefit significantly from the recent relaxing of Health Canada regulations, with adults in Canada now able to purchase and possess up to 48 x 355ml can of cannabis-infused beverages (up from a previous limit equal to 5 x 355ml cans). The announcement also highlights a growing cannabis beverage category in Canada and confirms the increasing demand for cannabis-infused products.

Financial Results

The Group recorded revenue of \$11.81 million for the period. The adjusted net loss of the Group was \$6.52 million (statutory \$9.36 million), with the previous corresponding period loss at \$7.045 million (December 2021). The underlying loss as adjusted in the table below shows information to provide shareholders a greater understanding of the performance of the Group.

Details	31-Dec-22
	(\$'000)
Net Profit / (Loss) After Tax	(\$9,360)
Exit Payments (Terminations)	\$623
Share Based Payments	\$888
Unrealised Forex (Gain) / Loss	\$1,064
Production Trials (One-Off)	\$264
Underlying Loss	(\$6,521)
Underlying EBITDA	(\$4,930)

Share based payments and unrealised foreign exchange gain/loss are non-cash expenses excluded to provide the underlying loss. Also excluded are significant one-off items such as staff exit payments as a result of cost cutting programs and a one-off expense relating to production trials.

AGH CEO, Joshua Fegan, commented: "The Company continued to grow revenue during the first half of FY23 despite encountering some transitory headwinds and supply chain issues in the second quarter. A seasonal (winter) dip in sales in the Canadian market along with the cessation of one of Peak's beverage customer supply agreements impacted our recreational sales, however, we expect sales figures to normalise over Q3 FY23.

Our pharmaceutical cannabis business continued growing from strength to strength. AGH is in a very solid position financially, is fast approaching its cash flow positive objective with improved margins, and envisions significant upside for shareholders in the short term and beyond.”

INTRODUCTION

Althea Group Holdings Ltd ('AGH' or 'the Group') continues to drive innovation in the emerging cannabis industry.

We are strategically positioned in the development, manufacturing and distribution of premium quality cannabis-based medicines and recreational cannabis products, operating three separate and distinct strategic business units: Althea, MyAccess Clinics and Peak Processing Solutions.

AGH offers shareholders unique access to international medical cannabis and recreational cannabis markets, with established and strong leadership positions in both.

CONSOLIDATED GROUP RESULTS

The first half of FY23 was another record period for AGH, achieving sequential growth over the previous half, as well as the previous corresponding period.

Further highlights from the half-year include::

- The Group achieved sales revenue of \$11.81 million, an increase of \$2.43 million, or 25.9% from the previous corresponding period.
- Cash receipts from customers totalled \$14.89 million, an increase of \$5.06 million, or 51.5%, from the previous corresponding period.

CEO LETTER (Continued)

- Net cash used in operating activities continued to reduce as revenue increased and the Group maintained tight financial controls, following the implementation of a significant cost cutting program.
 - The Group successfully raised \$2.2 million in capital (before costs) to support ongoing growth.
 - Subsequent to the reporting period, the Group secured a further \$4.32 million of funding during January and February 2023.
 - AGH remains fully funded and anticipates achieving cashflow breakeven and operating profitability during March 2023.
-

PHARMACEUTICAL CANNABIS – ALTHEA

Althea services over 40,000 patients globally with the prescription of its cannabis-based medicines and the business unit delivered positive EBITDA for the half-year.

Althea's gross profit margin reached an all time high of 61% during the second quarter of the reporting period, a result of falling biomass (cannabis flower) prices and the Group's increased purchasing power.

Australia

Revenue from Althea's Australian customers totalled a record \$6.2 million for the half-year, representing an increase of 24.8% from the previous corresponding period. The majority of sales were in the cannabis extracts (cannabis oils) category, where Althea has the dominant market share in Australia.

During the reporting period Althea entered the high-THC cannabis dried flower product category with the launch of Althea THC25. The Group expects sales to continue to grow at a rapid rate, as existing dried flower prescribers migrate customers to Althea products given our outstanding reputation in the medical community and our ethical approach to the sale and distribution of cannabis medicines.

United Kingdom

Revenue from UK customers totalled \$955,000 for the reporting period. Althea experienced some stock outages during the reporting period as a result of the Medicines and Healthcare products Regulatory Agency (MHRA) completing a review of the cannabis-based medicines supplied into the country by all industry participants.

All Althea products were cleared by the governing body, resulting in a temporary supply disruption. As a result of the review, a number of suppliers in the UK had products removed from sale due to a lack of conformity, a situation Althea intends to take full advantage of.

Germany

Sales of Althea products continue to build at a steady rate post the pandemic in Germany and the Group expects 2023 to be a breakout year for the brand as smaller competitors retreat and Althea's medical education program begins to bear fruit.

On 11 November 2022, the Group announced a non-binding memorandum of

CEO LETTER (Continued)

understanding with Nimbus Health GmbH, a wholly-owned medical cannabis focused subsidiary of the global pharmaceutical company Dr Reddy's Laboratories Ltd. Under the proposed transaction, Althea and Nimbus Health would join forces exclusively to promote, market, sell and distribute Althea products in further European and other jurisdictions.

Republic of Ireland

Althea expects to receive reimbursement approval for Althea CBD12:THC10 imminently, a product which has already been approved by the Health Products Regulatory Authority ('HPRA') for sale and distribution in Ireland.

The first shipment of product is scheduled for delivery in March 2023, with further products from the Althea range also expected to be approved by the HPRA in due course.

New Product Development

Althea launched two new products during the half-year, Althea THC25, a high-THC (25%) cannabis dried flower product, and Althea CBD25, 25mg CBD soft gel capsules. Since the launch of Althea THC25 in Australia and the UK, cannabis dried flower unit sales have increased by 178%.

The Group envisions its soft gel capsules will overtake sales of its cannabis oils (tinctures) in the long term, given its superior performance and ease of use. New product development remains critical to sustaining market leadership in a competitive and dynamic industry.

MYACCESS CLINICS

A fully owned subsidiary of AGH, MyAccess Clinics is a UK-based private health clinic specialising in treatments with medical cannabis, which delivers predictable and recurring sales of Althea products. The business contributed meaningfully to UK sales in the first half of FY23, a result of 1,089 patient appointments during the reporting period.

The business model requires minimal working capital and the Group is currently evaluating expanding MyAccess Clinics further into Europe, with Germany and Ireland potential new markets in 2023.

RECREATIONAL CANNABIS – PEAK PROCESSING SOLUTIONS

AGH's Canadian-based recreational cannabis business, Peak Processing Solutions ('Peak'), achieved revenue from customers of \$4.46 million for the interim period, an increase of 25.3% on the previous corresponding period.

Peak partners with consumer packaged goods companies to develop, manufacture and launch recreational cannabis products, which are then purchased by adult consumers in retail stores.

During the interim period, AGH announced the appointment of Barry Katzman as Managing Director of Peak (effective 1 October 2022). Mr Katzman brings a wealth of experience from both the alcohol and cannabis beverage sectors to Peak, and will focus on attracting further high profile customers to Peak's cannabis beverage business, maximising the utilisation of Peak's other productions lines, and expanding

CEO LETTER (Continued)

Peak's range of in-house brands, set to launch during the second half of FY23.

Peak is expected to benefit significantly from the recent relaxing of Health Canada regulations, with adults in Canada now being able to purchase and possess up to 48 x 355ml can of cannabis-infused beverages (up from a previous limit equal to 5 x 355ml cans). The announcement also highlights a growing cannabis beverage category in Canada and confirms the increasing demand for cannabis-infused products.

Peak is rapidly emerging as one of the world's leading recreational cannabis contract development and manufacturing organisations and has aspirations to expand operations into emerging adult-use cannabis markets, including Germany, which is slated to legalise the sale of recreational cannabis products in 2023/24

I would like to take this opportunity to thank all AGH employees for their continued dedication and contributions towards our goals and objectives, whilst also thanking shareholders for their continuing support, as we work towards building out one of the world's leading cannabis companies.

Yours sincerely,

Joshua Fegan

Althea Group Holdings Ltd CEO

CONCLUSION

The Group continued to grow revenue during the first half of FY23 despite encountering some transitory headwinds and supply chain issues in the second quarter. A seasonal (winter) dip in sales in the Canadian market along with the cessation of one of Peak's beverage customer supply agreements impacted our recreational sales – a situation to be remedied in Q3 FY23.

AGH is in a very solid position financially, is fast approaching cash flow positivity with improved margins and envisions significant upside for shareholders in the short term and beyond.

Notes to the consolidated financial statements

Note 1. Significant accounting policies

These general purpose financial statements for the interim half-year reporting period ended 31 December 2022 have been prepared in accordance with Australian Accounting Standard AASB 134 'Interim Financial Reporting' and the Corporations Act 2001, as appropriate for for-profit oriented entities. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 'Interim Financial Reporting'.

These general purpose financial statements do not include all the notes of the type normally included in annual financial statements. Accordingly, these financial statements are to be read in conjunction with the annual report for the year ended 30 June 2022 and any public announcements made by the company during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The principal accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, unless otherwise stated.

Comparative balances have been re-classified to conform with the presentation of the Group's 30 June 2022 Annual Report, which is reflective of the business operations for the current period.

NEW OR AMENDED ACCOUNTING STANDARDS AND INTERPRETATIONS ADOPTED

The consolidated entity has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

GOING CONCERN

The interim consolidated financial statements have been prepared on a going concern basis, which contemplates continuity of normal business activities and the realisation of assets and settlement of liabilities in the ordinary course of business.

As disclosed in the interim consolidated financial statements, the consolidated entity incurred a loss of \$9,360,000 and had net cash outflows from operating activities of \$5,377,000 for the half-year ended 31 December 2022.

Note 1. Significant accounting policies (continued)

GOING CONCERN (continued)

The Directors believe that it is reasonably foreseeable that the consolidated entity will continue as a going concern and that it is appropriate to adopt the going concern basis in the preparation of the financial report after consideration of the following factors:

- As disclosed in note 17, the company successfully secured \$4.32 million in funding during January and February 2023 in the form of a 12-month loan facility and convertible notes.
- The consolidated entity recorded its best financial half-year to date for the period ending 31 December 2022 with \$14.89 million in receipts from customers.
- Management have the ability to identify further reductions to overhead and administrative expenditure if required.
- The consolidated entity has demonstrated the ability to raise further capital, if required, pursuant to ASX listing rule 7.1 and 7.1A.

Note 2. Operating segments

Identification of reportable operating segments

The consolidated entity is organised into four operating segments: Australia, United Kingdom, Canada and other. These operating segments are based on the internal reports that are reviewed and used by the Board of Directors (who are identified as the Chief Operating Decision Makers ('CODM')) in assessing performance and in determining the allocation of resources. There is no aggregation of operating segments.

The CODM reviews EBITDA (earnings before interest, tax, depreciation and amortisation). The accounting policies adopted for internal reporting to the CODM are consistent with those adopted in the financial statements.

The information reported to the CODM is on a monthly basis.

Intersegment transactions

Intersegment transactions were made at market rates and are eliminated on consolidation.

Intersegment receivables, payables and loans

Intersegment loans are initially recognised at the consideration received. Intersegment loans receivable and loans payable that earn or incur non-market interest are not adjusted to fair value based on market interest rates. Intersegment loans are eliminated on consolidation.

Major customers

During the half-year ended 31 December 2022 approximately 15% (2021: 5%) of the consolidated entity's external revenue was derived from sales to one customer.

Impairment testing

Goodwill acquired through business combinations have been allocated to the following cash-generating units:

	Consolidated	
	31 December	30 June
	2022 \$'000	2022 \$'000
2682130 Ontario Limited ("Peak Processing Solutions")	17,737	17,737

Note 8. Non-current assets - intangibles (continued)

The recoverable amount of the consolidated entity's goodwill has been determined by a value-in-use calculation using a discounted cash flow model, based on a one year projection period approved by management and extrapolated for a further four years using a steady growth rate, together with a terminal value.

Key assumptions are those to which the recoverable amount of an asset or cash-generating units is most sensitive.

The following key assumptions were used in the discounted cash flow model for Peak Processing Solutions business:

- 23% post-tax discount rate;
- accelerated revenue growth of 35% in year two, representing expected volume growth from contracts executed with customers as at 31 December 2022 and product development revenue;
- projected revenue growth rates of 30% in years three to four, and 20% in year five
- gradual improvement in gross margins and EBITDA percentage of 13% in year two, gradually increasing to 20% per annum by year five; and
- 3% terminal growth rate.

The discount rate of 23% post-tax reflects management's estimate of the time value of money and the consolidated entity's weighted average cost of capital adjusted for the Peak Processing Solutions division, the risk free rate and the volatility of the share price relative to market movements.

Management believe projected revenue growth rates to be justified based on the

rapid and continued growth driven by the overall size of the recreational cannabis market in Canada. Management expect improvements in gross margins and EBITDA as production volumes increase and efficiencies are gained.

There were no other key assumptions for the Peak Processing Solutions business.

Based on the above, the recoverable amount of the Peak Processing Solutions business exceeded the carrying amount by CAD\$3,153,000.

Sensitivity

The Directors have made judgements and estimates in respect of impairment testing of goodwill. Should these judgements and estimates not occur the resulting goodwill carrying amount may decrease. The sensitivities are as follows:

- Forecasted cash flows would need to decrease by more than 12% for the Peak Processing Solutions business before the goodwill would need to be impaired, with all other assumptions remaining constant.
- The discount rate would be required to increase by more than 3.5% post-tax for the Peak Processing Solutions business before goodwill would need to be impaired, with all other assumptions remaining constant.

Management believes that other reasonable changes in the key assumptions on which the recoverable amount of Peak Processing Solutions business goodwill is based would not cause the cash-generating unit's carrying amount to exceed its recoverable amount.

Ordinary shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on the winding up of the company in proportion to the number of and amounts paid on the shares held. The fully paid ordinary shares have no par value and the

company does not have a limited amount of authorised capital.

On a show of hands every member present at a meeting in person or by proxy shall have one vote and upon a poll each share shall have one vote.

Note 10. Equity - issued capital (continued)

Share buy-back

There is no current on-market share buy-back.

Capital risk management

The consolidated entity's objectives when managing capital is to safeguard its ability to continue as a going concern, so that it can provide returns for shareholders and benefits for other stakeholders and to maintain an optimum capital structure to reduce the cost of capital.

Capital is regarded as total equity, as recognised in the statement of financial position, plus net debt. Net debt is calculated as total borrowings less cash and cash equivalents.

In order to maintain or adjust the capital structure, the consolidated entity

may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

The consolidated entity would look to raise capital when an opportunity to invest in a business or company was seen as value adding relative to the current company's share price at the time of the investment.

The consolidated entity is subject to certain financing arrangement covenants and meeting these is given priority in all capital risk management decisions. There have been no events of default on the financing arrangements during the financial half-year.

The capital risk management policy remains unchanged from the 2022 Annual Report.

Note 11. Equity - reserves

Foreign currency reserve

The reserve is used to recognise exchange differences arising from the translation of the financial statements of foreign

operations to Australian dollars. It is also used to recognise gains and losses on hedges of the net investments in foreign operations.

Note 12. Contingent liabilities

The consolidated entity has given bank guarantees as at 31 December 2022 of \$358,255 (30 June 2022: \$326,050) to various landlords for the operating and commercial leases of the consolidated entity's three premises located in

Melbourne, Australia and one premises in London, United Kingdom. Except for these, the consolidated entity currently has no contingent liabilities at the date of signing this report.

Note 13. Interests in subsidiaries

The consolidated financial statements incorporate the assets, liabilities and results of the following subsidiaries in accordance with the accounting policy described in note 1:

INDEPENDENT AUDITOR'S REVIEW REPORT To the Members of Althea Group Holdings Limited

Conclusion

We have reviewed the accompanying half-year financial report of Althea Group Holdings Limited which comprises the statement of financial position as at 31 December 2022, the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the half-year end or from time to time during the half-year.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Althea Group Holdings Limited is not in accordance with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2022 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and *Corporations Regulations 2001*.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the Auditor's Responsibilities for the Review of the Financial Report section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Althea Group Holdings Limited, would be in the same terms if given to the directors as at the time of this auditor's review report.

Directors' Responsibility for the Financial Report

The directors of the Althea Group Holdings Limited are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2022 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
