Arvind Misra	Managing Director	8 June 2021
John Traicos	Non-Executive Director	1 June 2022
Simon Robertson	Non-Executive Director	1 June 2022

Principal activities

During the financial half-year the principal continuing activities of the Company consisted of exploration and evaluation of:

- The Belara project – a 643 square kilometre tenement package located in central NSW. The Belara project is a highly prospective near-term base-metal production opportunity, with potential for zinc, copper, silver lead, and gold in close proximity to well developed infrastructure; and
- The Bullabulling project – an early-stage gold exploration tenement package comprising of 26 granted prospecting licences located 30km west of Coolgardie in the Eastern Goldfields of WA, in close proximity to the Bullabulling gold mine.

Review of operations

The loss from continuing operations for the financial half year after providing for tax amounted to \$1,778,568 (December 2021 loss: \$548,534).

Exploration

During the period, Phase 1 resource drilling has been successfully concluded at Belara and Native Bee. A total of 38 holes for 5,871 m have been drilled, with 3 holes abandoned.

A maiden Mineral Resource Estimate (MRE) was completed in accordance with the JORC (2012) Code for Belara and Native Bee with Inferred Resources of 5.0 million tonnes (Mt) at 3.41% Zinc equivalent (ZnEq). The MRE includes: 1.82% Zinc; 0.33% Copper; 0.63% Lead; 17.5 g/t Silver and 0.21g/t Gold at a 0.85% ZnEq cut-off (see ASX announcement dated 3 November 2022).

Electromagnetic surveys (FLEM and DHEM) were conducted to test for extensions to known mineralisation within the broader Belara and Native Bee project. Downhole electromagnetic data confirmed the extension of mineralisation in and around Native Bee with localised zones of high conductance.

Geometallurgical, sequential open circuit flotation tests on low-grade composite from early Belara drilling confirms the potential for producing saleable Copper, Lead, and Zinc concentrate grades with recoveries to improve on more representative samples from recent drilling. Testwork was conducted at Auralia Metallurgical Laboratories under the management of JT Metallurgical Services with the key outcomes being the derivation of a flowsheet and reagent conditions capable of producing saleable copper (>20%), lead (>30%), and zinc (>50%) concentrates.

Planning for Phase 2 drilling program was completed. Phase 2 drilling aims to target down dip extensions to the Belara deposit, and the Native Bee mine and its southern extensions.

Additional activities included ongoing mapping and ground truthing of areas to the north of Belara and to the south of Native Bee to assess for the potential of extensions to known mineralisation.

Subsequent events

- Belararox announced execution of a non-binding terms sheet with Fomo Ventures No1 Pty Ltd to acquire its Toro – Malambo – Tambo (TMT) Project in Argentina. TMT is an extensive 32,000 hectare project with potential for large scale Base Metal mineralisation and untested porphyry targets.
- Belararox' NSW landholding increased by 300% with the grant of two pending ELAs. ELA6287 was granted as EL9523 and ELA6176 was granted as EL9538 during the month of February 2023 for 5 years.
- The Phase 2 drill campaign at Belara and Native Bee commenced.

INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of Belararox Limited

Report on the Half-Year Financial Report

Conclusion

We have reviewed the half-year financial report of Belararox Limited (the Company), which comprises the statement of financial position as at 31 December 2022, the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the half-year ended on that date, a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of the Company does not comply with the *Corporations Act 2001* including:

- (i) Giving a true and fair view of the Company's financial position as at 31 December 2022 and of its financial performance for the half-year ended on that date; and
- (ii) Complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to the audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be the same terms if given to the directors as at the time of this auditor's review report.

Responsibility of the directors for the financial report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibility for the review of the financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Company's financial position as at 31 December 2022 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
