

Building the Hydrogen Eco System Half Year Financial Report

Pure Hydrogen Corporation Limited

March 2023 (ASX: PH2)

DISCLAIMER

Extent of Information

This document has been prepared by Pure Hydrogen Corporation Limited and subsidiaries ("Company").

This Presentation, including the information contained in this disclaimer, does not constitute an offer, invitation or recommendation to subscribe for or purchase any security and neither the Presentation, disclaimer nor anything contained in such forms the basis of any contract or commitment. This Presentation does not take into account your individual investment objective, financial situation or particular needs. You must not act on the basis of any other matter contained in this Presentation but must make your own assessment of the Company.

No representation, express or implied, is made as to the fairness, accuracy, completeness or correctness of the information contained in this Presentation, including the accuracy, likelihood of the achievement or reasonableness of any forecast, prospects, returns or statements in relation to future matters contained in the Presentation ("Forward-looking statements"). Any such forward-looking statements that are contained in this Presentation or can be implied by the same are by their nature subject to significant uncertainties and contingencies associated with the oil and gas industry and are based on a number of estimates and assumptions that are subject to change (and in many cases are outside the control of Pure Hydrogen and their directors) which may cause the actual results or performance of Pure Hydrogen to be materially different from any future results or performance expressed or implied by such forward-looking statements.

To the maximum extent permitted by law, none of Pure Hydrogen's related corporations, directors, employees, agents nor any other person accepts and liability, including without limitation arising from fault or negligence, for any loss arising from use of this Presentation or its content or otherwise arising in connection with it.

Exclusion of Financial Product Advice

This Presentation is for information purposes only and is not a prospectus or other offering under Australian law or under any other laws in the jurisdictions where the Presentation might be available. Nothing herein constitutes investment, legal, tax or other advice. This Presentation is not a recommendation to acquire shares and has been prepared without taking into account the investment objectives, financial situation or needs of individuals.

Independent Advice

You should consider the appropriateness of the information having regard to your own objectives, financial situation and needs and seek appropriate advice, including, legal and taxation advice appropriate to your jurisdiction. Pure Hydrogen are not licensed to provide financial advice in respect of its shares.

Geological Information

The geological information in this presentation relating to geological information and resources is based on information compiled by Mr Lan Nguyen, who is a Member of Petroleum Exploration Society of Australia and the Society of the Petroleum Engineers and has sufficient experience to qualify as a Competent Person. Mr Nguyen consents to the inclusion of the matters based on his information in the form and context in which they appear. The information related to the results of drilled petroleum wells has been sourced from the publicly available well completion reports. The Company has used a conversion factor of 1.05 to convert Bcf amounts to PJs equivalent.

Page 15 - Notes 1. As reported in Announcement dated 4 May 2021 – the 1C 87.7 Pj, 2C 130.3 Pj and 157.9 Pj – the remaining prospective resource was 536 Pj

The total of 1.1 TCF 3C AND 14.9 TCF Prospective is a combination of Windorah gas project 770 Bcf and 8.8 Tcf, Venus Gas Project 157.9Pj 3C and 536PJ Prospective and Serowe Gas Project 200.7 Bcf and 10.072 Bcf best estimate – Pure Hydrogen has a 30% working interest in the Serowe Project.

Note 2 – The Contingent resources is a summary of 2 reports for the Windorah Gas Project. One estimate prepared by DeGolyer and MacNaughton, a leading international petroleum industry consulting firm in June 2015 in respect of the Queenscliff Area and one estimate prepared by Aeon Petroleum Consultants in respect of the Tamarama area completed in August 2019. The Prospective estimate of 8.8 Tcf is based on the work by DeGolyer and MacNaughton adjusted for the permit that was relished by the Company.

Note 3 – As reported in the Announcement on the 12 April 2022 – the Serowe Project has contingent Resources of 1C 237.5, 2C 316.7 and 3C of 395.9 Bcf and best estimated of 10.07 Bcf – all figures 100%.

Half Year Financial Information

Half Year Financial information	Dec-22 \$'000s	Dec-21 \$'000s	Movement \$'000s
Revenue	6,131	206	↑ 5,925
Net Profit After Tax	4,285	(808)	↑ 5,093
Earnings per Share (cps)	1.23	(0.25)	↑ 1.48
Cash	14,655	12,215	↑ 2,440
Debt	-	-	-
Investments	7,377	2,500	↑ 4,877
Net assets	33,706	26,992	↑ 6,714

HALF YEAR HIGHLIGHTS

Well positioned for growth

- Net Profit After Tax increased to \$4.3 Million for the half year ended 31 December 2022
- Strong current cash position of circa \$14.7 Million
- Hydrogen Fuel Cell Powered Prime Mover and Garbage Trucks will be shown at the Brisbane Truck Show in May 2023
- Pure Hydrogen's 23.9% owned H2X Global wins orders in Sweden, Norway and is received the AWS Clean Energy Accelerator 3.0 award by Amazon
- Advances Moreton Bay Hydrogen Hub with agreements with CAC H2
- Pure Hydrogen's 19.9% interest in Botlala Energy gives it a 30% free carry in the Serowe CBM Project under development in Botswana

Building the Hydrogen Eco System

- Broadened its partner and collaborator network to significantly advance its Hydrogen-focused operations
- Received ~\$6M in R & D tax incentives and not required to repay claims already received – a turnaround of approximately \$13.1 M
- Maintained Contingent 2C resources of 453 PJ for its 100%-owned Queensland gas projects – Project Venus and Windorah Gas Project
- Advanced its Turquoise Hydrogen Project with a pilot to commence mid year
- JV with Aus Ships Group announced during period and continues to advance

HYDROGEN OPERATIONS - DOMESTIC AND EXPORT

H2 FUEL CELL TRUCK TRIALS: PEPSICO AND OTHERS

- Pepsico has signed up for trial program with Pure Hydrogen to build and deliver the first Hydrogen powered truck
- Will be displayed at the Brisbane Truck Show
- Potential of an initial order of 10 or more.
- Pure Hydrogen have exclusive rights to the truck design in Australia.
- Trial planned to commence Q2 CY2023 in Queensland.

MARKET OVERVIEW

HYDROGEN AS A ENERGY SOURCE

Pure Hydrogen is seeking to be the H2 supplier of choice in the Australian market.

- Similar to natural gas from a handling and safety perspective
- Hydrogen is vvery efficient when used in fuel cells for transport, vessels and power generation
- Hydrogen use today is dominated by industries such as oil refining, ammonia production, methanol production and steel production, with almost all of this hydrogen manufactured using fossil fuels (grey hydrogen),
- There is significant potential for emissions reductions from PureHydrogen's turquoise and emerald hydrogen manufacturing methods.

Hydrogen Manufacturing Methods

Grey	Produced by steam methane reforming without carbon capture, using natural gas	High carbon emissions
Blue	Produced by steam methane reforming with carbon capture, using natural gas	Low carbon emissions
Green	Produced by electrolysis, using water and renewable electricity	Zero carbon emissions
Turquoise	Produced by methane pyrolysis, using natural gas and 1/8 of electricity required for electrolysis	Zero carbon emissions
Emerald	Produced by waste to hydrogen technology, using biomass and heat	Net zero carbon emissions

Pure Hydrogen's will utilise clean energy green, turquoise and emerald hydrogen production techniques
