DIRECTORS' REPORT

The Directors present their report, together with the financial statements, on the consolidated entity (referred to hereafter as the 'Group') consisting of Pivotal Metals Limited (formerly Raffaella Resources Limited) (referred to hereafter as the 'Company' or 'parent entity' or 'Pivotal Metals') and the entities it controlled at the end of, or during, the half-year ended 31 December 2022 ('H1 FY23').

DIRECTORS

The following persons were Directors of Pivotal Metals Limited during the whole of the financial half-year and up to the date of this report, unless otherwise stated:

PRINCIPAL ACTIVITIES

The principal activity of the Group is exploration for and development of copper, nickel, platinum group metals (PGM), tungsten and tin deposits. Pivotal Metals holds the Horden Lake copper, nickel and PGM deposit in northwest Quebec, Canada, the Belleterre-Angliers nickel, copper and PGM exploration project in southwest Quebec, Canada and two tin and tungsten development projects, San Finx and Santa Comba in Galicia, northwestern Spain.

Company Focus and Mission

Pivotal Metals was established to explore and develop high-quality assets worldwide. In H2 FY22, the Company decided to refocus the strategy on battery metals in Canada, being critical commodities required to enable the energy transition to sustainable economies. This strategy was successfully executed with the consolidation of the exploration claims in H2 FY22 under the combined Belleterre-Angliers Greenstone Belt (BAGB) projects and in H1 FY23 the acquisition of the material Horden Lake copper, nickel, PGM deposit in northwest Quebec. The Company now holds a significant battery metals portfolio in a tier 1 mining jurisdiction. Furthermore, the Company is seeking third party capital to advance the Spanish tin and tungsten projects, such that all new funds from Pivotal Metals investors will be dedicated to the Canadian battery metals strategy.

CANADA

Horden Lake

Pivotal Metals completed the acquisition of the Horden Lake polymetallic deposit on 20 December 2022¹. Horden Lake is located 140km north of Matagami in northwest Quebec, close to the recently upgraded James Bay Highway, linking Matagami to the La Grande Hydroelectric Dam to the north, benefiting from HV power lines and fibre optic cable. The road runs within 18km of the property.

The Horden Lake acquisition complements the Company's Belleterre-Angliers Ni-Cu-PGM exploration project in the southwest of Quebec.

The deposit was discovered in the 1960s by INCO and has seen over 52,000m of drilling, with the most recent being in 2012. Pivotal Metals engaged Caracle Creek Consulting to remodel the resource using the extensive data base and on 14 November 2022 the Company released the pit constrained JORC compliant mineral resource estimate (MRE) of 27.8 Mt of 1.49% CuEq (0.3% CuEq Open Pit cut-off and 1.12% CuEq Underground cut-off applied), with 55% currently classified in the Indicated Resource category and 45% in the Inferred Category.^{2*}

¹ See ASX announcements dated 21 December 2022 "Acquisition of Horden Lake polymetallic deposit completed" and ASX announcement dated 13 September 2022 "Terms agreed over the Horden Lake copper-nickel PGM deposit in Quebec, Canada"

² See ASX announcement dated 16 November 2022 "JORC Compliant Mineral Resource Estimate at Horden Lake Deposit (Quebec), delivers an outstanding 27.8Mt at 1.49% CuEq."

Cautionary Statements

*There is a lower level of geological confidence associated with Inferred mineral resources and there is no certainty that further exploration work will result in the determination of Indicated mineral resources.

The graphic below shows the grade-tonnage curve and metal contribution, across a range of CuEq (%) cut-off grades, for the whole modelled deposit, i.e., the geological resource.

The resource estimate does not include all of the Au, nor any of the significant Co and Ag known to exist within the deposit. The planned drilling programme for 2023 will look to better define these various additional metals for inclusion in an updated MRE later in the year.

On 25 November the Company released the findings of initial metallurgical testwork conducted in 2012 following the last drilling campaign. The report concluded that the findings demonstrate the potential for excellent recoveries across the payable metals in the Horden Lake deposit further supporting the projections from a 1993 WGM report where historical test work produced copper concentrates grading 22-30% copper at recoveries ranging from 85-96%. It is the intention of the Company to conduct detailed metallurgical testwork during 2023.

Belleterre-Angliers Greenstone Belt (BAGB) Exploration Project

On 20 July, the Company announced that it had identified numerous new anomalies in the recently consolidated battery metals exploration project. Following a detailed review by SRK Exploration³,

³ See ASX release dated 20 July 2022 “Exploration Work Starts at Quebec PGM-Ni-Cu Projects with Field Mapping Highlighting Positive Geology and Delineation of New, Deeper Em Plates”

For personal use only

The Company's geological model suggests the relatively small but high-grade gabbroic intrusions point to a broader intrusive complex that could host substantial massive and semi-massive sulphide accumulations. Preliminary geophysical work has reprioritised the exploration targets, focusing on those previously overlooked for lying greater than 300m in depth. 137 new and reclassified EM anomalies have been identified with 20 of these being classified as Priority 1 for further investigation.

Importantly, confirmation of high-grade mineralisation within the magmatic system demonstrates a highly prospective geological environment with the potential to produce larger and deeper sulphide accumulations within the tenement portfolio, providing significant upside exposure to shareholders.

SPAIN

San Finx tin and tungsten project

On 6 October, the Company released a maiden JORC compliant mineral resource estimate (MRE) for the San Finx tin and tungsten project in north-west Spain⁴.

The MRE showed Inferred Resources* of 1.2Mt with a combined grade of 0.80% (0.30% WO₃ + 0.50% Sn) with total contained metal being 3,581t WO₃ and 5,786t Sn split between:

- ① the Pozo Nuevo zone, with 0.62 Mt at 1.00% combined (0.35% WO₃ + 0.65% Sn); and
- ② the Buenaventura zone with 0.56Mt at 0.56% combined (0.25% WO₃ and 0.31% Sn).

Furthermore, an Exploration Target** of 3.6Mt to 10.9Mt with a combined grade ranging between 0.70% to 1.17% (WO₃+Sn) for total contained metal of between 25,463t and 127,485t (WO₃+Sn) was calculated demonstrating enormous upside potential in a mineralised zone that has historically produced clean, high-grade tin and tungsten concentrates, as recently as 2017.

Cautionary Statements

**There is a lower level of geological confidence associated with Inferred mineral resources and there is no certainty that further exploration work will result in the determination of Indicated mineral resources.*

*** The potential quantity and grade of the Exploration Target is conceptual in nature; there has been insufficient exploration to estimate a Mineral Resource and it is uncertain if further exploration work will result in the estimation of a Mineral Resource.*

Santa Comba tungsten and tin project

On 23 November the Company announced that it had been notified by the Department of Mines in Galicia that it has commenced a review process that could eventually lead to the cancellation of the Santa Comba concessions. The Company believes that the decision by the Department of Mines is process driven without taking in to account certain health and safety and environmental concerns raised by the Company. The Company is continuing discussions with the relevant authorities and remains committed to complying with the terms of its permits.

CORPORATE

On 27 July 2022, the Company announced that it had successfully completed a \$2.1m private placement to support the ongoing activities across the two portfolios.⁵

On the 27 July 2022, the Company drew down in full a \$1m placement facility secured to assist in the financing of the Horden Lake acquisition.⁶

On 13 July 2022, the Company published its baseline Environmental, Social and Governance (ESG) report⁷. Disclosures are made in line with the World Economic Forum Stakeholder Capitalism ESG framework.

On 23 September 2022, the Company held an EGM at which all resolutions were passed.

On 10 October 2022 the Company announced that Daniel Rose had joined the Board as a non-executive director. Daniel brings an extensive network of financial investors on the back of a career in structured and commodity finance, primarily in the resource sector.

On 22 November 2022 the AGM was held and all resolutions were passed.

On 29 November 2022 the Company changed its name to Pivotal Metals Ltd with a corresponding change in the ASX ticker to 'PVT'. This change is significant in that it reflects the strategic shift by the Company to focus on those metals that are critical to economies transitioning to environmentally sustainable technologies. As part of the roll out of this strategic pivot, the Managing Director presented the Company's strategy at the London Mines and Money conference.

On 12 December 2022 the Company announced that it had raised \$3.3M through a non-brokered private placement at \$0.042/share ('Placement Price') to complete the Horden Lake acquisition. A further \$1.0M was raised through the execution of the Riverfort funding agreement detailed in the acquisition announcement of 13 September 2022. In addition, the vendor of the Horden Lake assets agreed a variation to the acquisition terms, accepting the issuance of C\$1.5M equivalent in shares at the Placement Price, rather than cash, in exchange for an increase in the total consideration of C\$500k to C\$4.5M, On 20 December the Company completed the Horden Lake acquisition.

In December 2022, the Company appointed Red Cloud Financial Services Inc. to help increase investor awareness for the Company and its Quebec assets and enable access to the highly cost-effective Canadian flow through share scheme.

COVID-19 Impacts

Operations continue at the Santa Comba mine site. Preventive measures have been taken including the extensive use of masks and hydroalcoholic gels as well as operational bubbles. Asset values, going concern and future funding of the business is not expected to be materially adversely affected by COVID 19.

SHARES ISSUED AS A RESULT OF THE EXERCISE OF OPTIONS

No shares as a result of the exercise of the options were issued as at the date of this report.

Waiver Securities

As required by the waiver from ASX Listing Rule 7.3.2 granted on 7 August 2019, the Company advises that 15,000,000 fully paid ordinary shares (Milestone 2 shares) remain to be issued. The details of these Milestone 2 shares were announced to the ASX on 27 May 2019 and 9 August 2019.

EVENTS SUBSEQUENT TO REPORTING DATE

There are no matters or circumstances have arisen since the end of the period which will significantly affect, or may significantly affect, the state of affairs or operations of the Group in future financial years other than the following:

- ① On 1 February 2023, the water authority, Aguas de Galicia awarded the water permit for San Finx. This award effectively unlocks the project and the Company is now commencing the execution of its restart plan, including the construction of the water treatment plant.⁸
- ① On 3 March 2023 the Company issued 7,142,858 fully paid shares at \$0.042 each to Steven Turner, Robert Wrixon and Daniel Roseas part of the placement announced on 12 December 2022, as approved by shareholders at the 2 March 2023 General Meeting.
- ① On 5 March 2023 1,000,000 performance rights expired unconverted.

1. Corporate information

This half year report covers Pivotal Metals Limited (formerly Rafaella Resources Limited) and the entities it controlled at the end of, or during, the half-year ended 31 December 2022 (the "Group"). The presentation currency of the Group is Australian Dollars ("A\$"). A description of the Group's operations is included in the review and results of operations in the Directors' Report. The Directors' Report is not part of the financial statements. The Group is a for-profit entity and limited by shares incorporated in Australia whose shares are traded under the ASX code "PVT". The financial statements were authorised for issue on 16 March 2023 by the Directors. The Directors have the power to amend and reissue the financial statements. The principal accounting policies adopted in the preparation of the financial statements are set out below.

2. Accounting policies**a. Basis of preparation**

These general purpose financial statements for the interim half-year reporting period ended 31 December 2022 have been prepared in accordance with Australian Accounting Standard AASB 134 'Interim Financial Reporting' and the Corporations Act 2001, as appropriate for for-profit oriented entities. Compliance with AASB 134 ensures compliance with International Accounting Standard 34 'Interim Financial Reporting'. These general purpose financial statements do not include all the notes of the type normally included in annual financial statements. Accordingly, these financial statements are to be read in conjunction with the annual report for the year ended 30 June 2022 and any public announcements made by the Company during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001. The principal accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, except for the policies stated below.

Borrowings

Loans and borrowings are initially recognised at the fair value of the consideration received, net of transaction costs. They are subsequently measured at amortised cost using the effective interest method. The component of the convertible notes that exhibits characteristics of a liability is recognised as a liability in the statement of financial position, net of transaction costs. On the issue of the convertible notes the fair value of the liability component is determined using a market rate for an equivalent non-convertible bond and this amount is carried as a non-current liability on the amortised cost basis until extinguished on conversion or redemption. The increase in the liability due to the passage of time is recognised as a finance cost. The remainder of the proceeds are allocated to the conversion option that is recognised and included in shareholders equity as a convertible note reserve, net of transaction costs. The carrying amount of the conversion option is not remeasured in the subsequent years. The corresponding interest on convertible notes is expensed to profit or loss.

Finance costs

Finance costs attributable to qualifying assets are capitalised as part of the asset. All other finance costs are expensed in the period in which they are incurred.

2. Accounting policies (continued)

b. New or amended Accounting Standards and Interpretations adopted

The Group has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period. Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

INDEPENDENT AUDITOR'S REVIEW REPORT

To the Members of Pivotal Metals Limited

Report on the Half-Year Financial Report

Conclusion

We have reviewed the accompanying half-year financial report of Pivotal Metals Limited which comprises the consolidated statement of financial position as at 31 December 2022, the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the half-year end or from time to time during the half-year.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Pivotal Metals Limited is not in accordance with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2022 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and *Corporations Regulations 2001*.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the Auditor's Responsibilities for the Review of the Financial Report section of our report. We are independent of Pivotal Metals Limited in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

THE POWER OF BEING UNDERSTOOD

AUDIT | TAX | CONSULTING

RSM Australia Partners is a member of the RSM network and trades as RSM. RSM is the trading name used by the members of the RSM network. Each member of the RSM network is an independent accounting and consulting firm which practices in its own right. The RSM network is not itself a separate legal entity in any jurisdiction.

RSM Australia Partners ABN 36 965 185 036

Liability limited by a scheme approved under Professional Standards Legislation

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Pivotal Metals Limited, would be in the same terms if given to the directors as at the time of this auditor's review report.

Directors' Responsibility for the Half-Year Financial Report

The directors of Pivotal Metals Limited are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2022 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
