## ASX ANNOUNCEMENT

# LIONTOWN TO FARM INTO OLYMPIO'S MULLINE AND MULWARRIE LITHIUM PROJECTS

Two Stage Farm-In by a leading WA lithium developer

**Olympio Metals Limited (ASX:OLY) (Olympio or the Company)** is pleased to announce that it has agreed terms with Liontown Resources Limited (ASX:LTR) (**Liontown**) for Liontown to farm into Olympio's Mulline and Mulwarrie lithium projects (**the Projects**) (Figure 1) in the Eastern Goldfields of Western Australia.

### Highlights

- **Liontown to complete 1,100 soil samples across the Projects before progressing to Stage 1 earn-in**
- **Two-stage farm-in arrangement with Stage 1 to take Liontown to 51% interest within 1 year**
- **At that stage, Olympio can request to end the farm-in and to form a joint venture (JV), with Liontown funding 51% and Olympio 49%**
- **If Olympio elects to continue the farm-in, Liontown can earn a further 39% within three years in Stage 2**

### Olympio's Managing Director, Sean Delaney, commented:

*"We are very pleased to partner with Liontown, a well led Company that has significant lithium discovery and development experience. With Liontown's Kathleen Valley mine under construction, they recognise the importance of the discovery of further lithium deposits."*

*"The Mulwarrie and Mulline Projects contain a number of pegmatites that demonstrate the right geology but that have not been fully tested. We are excited by the plans that Liontown has for the projects."*

*"Importantly, Olympio retains significant exposure to discovery success with the ability to contribute to funding and remain at 49% once Liontown has completed the Stage 1 farm in."*

## Mulwarrie and Mulline Farm-In Terms

Following is a summary of the key terms of the farm-in and potential JV.

### Minimum Commitment

Liontown must complete a geochemical programme of 1,100 samples across the Projects to make an initial assessment before deciding to proceed to the Stage 1 earn-in. Liontown to use best endeavours to complete this program within four months and may decide to withdraw from the agreement at that time with no interest in the Projects.

### Stage 1 Farm-In

Liontown may elect to proceed to stage 1 once the minimum commitment has been met and can earn a 51% interest in the Mulwarrie and Mulline Projects by spending A\$400,000 on exploration over a period of twelve months (**Stage 1 Farm-In**).

At the completion of the Stage 1 Farm-In, Liontown will have earned the right to 51% equity in the Projects.

### Formation of Joint Venture

Once Liontown has earned a 51% interest in the Projects, Olympio can elect to end the farm-in and form a Joint Venture (**JV**), with Liontown holding 51% and Olympio 49% and each contributing pro rata to their share in the JV with Liontown being the manager of the JV. The JV agreement will be on standard commercial terms.

### Stage 2 Farm-In

If Olympio does not elect to end the farm-in and form a JV, Liontown may earn a further 39% interest in the Projects by sole funding a further \$1,000,000 on exploration within a three-year period from the completion of the minimum commitment (**Stage 2 Farm-In**). Stage 2 Farm-In will not occur if the JV has been formed.

At the completion of the Stage 2 Farm-In, Liontown will hold a 90% interest in the Projects and Olympio 10%. At this point Olympio can again elect to enter into a JV agreement and contribute pro rata to the exploration expenditure.

### Royalty

If Olympio does not elect to form a JV at the end of the Stage 2 Farm-In, then its 10% interest will convert to a 1% gross revenue royalty payable on product sold from the Projects. Liontown has the right to buy back half the royalty by making a \$2m payment to Olympio.

Liontown will commence work immediately on the areas subject to the Farm-in agreement at Mulwarrie and Mulline (Figure 1) and Olympio will continue its exploration in the other project areas.

The announcement is authorised by the Board of Olympio Metals.
