DISCLAIMER

The material in this presentation has been prepared by Lindian Resources Limited ("Company").

This presentation may not be reproduced, redistributed or passed on, directly or indirectly, to any other person, or published, in whole or in part, for any purpose without prior written approval of the Company. This presentation and the material contained in it is for information purposes only. This presentation is not an offer or invitation for subscription or purchase of, or a recommendation in relation to, securities in the Company and neither this presentation nor anything contained in it shall form the basis of any contract or commitment.

This presentation may not be distributed in any jurisdiction except in accordance with the legal requirements applicable in such jurisdiction. Recipients should inform themselves of the restrictions that apply in their jurisdiction. Failure to do so may result in a violation of rules in such a jurisdiction.

This presentation is not financial product or investment advice. It does not consider the investment objectives, financial situation and particular needs of any investor. Before making an investment in the Company, an investor or prospective investor should consider whether such an investment is appropriate to their particular investment needs, objectives and financial circumstances, seek legal and taxation advice as appropriate and consult a financial adviser if necessary.

This presentation may contain forward-looking statements. Forward-looking statements include those containing such words as "anticipate", "estimates", "forecasts", "should", "could", "may", "ideal", "intends", "will", "expects", "plans" or similar expressions. Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties, assumptions and other important factors, many of which are beyond the control of the Company, its directors and management that could cause the Company's actual results to differ materially from the results expressed or anticipated in these statements. The Company cannot and does not give any assurance that the results, performance or achievements expressed or implied by the forward-looking statements contained in this announcement will actually occur and investors are cautioned not to place undue reliance on these forward looking statements. The Company does not undertake to update or revise forward looking statements, or to publish prospective financial information in the future regardless of whether new information, future events or any other factors affect the information contained in this presentation, except where required by applicable law or the ASX Listing Rules. It is believed that the expectations reflected in these statements are reasonable, but they may be affected by a range of variables and changes in underlying assumptions which could cause actual results or trends to differ materially. The Company does not make any representation or warranty as to the accuracy of such statements or assumptions.

This presentation has been prepared by the Company based on information currently available to it. No representation or warranty, express or implied, is made as to the fairness, accuracy, completeness or correctness of the information, opinions and conclusions contained in this presentation. To the maximum extent permitted by law, none of the Company or its subsidiaries or affiliates or the directors, employees, agents, representatives or advisers of any such party, nor any other person accepts any liability for any loss arising from the use of this presentation or its contents or otherwise arising in connection with it, including without limitation, any liability arising from fault or negligence on the part of the Company or its subsidiaries or affiliates or the directors, employees, agents, representatives or advisers of any such party.

Competent Persons Statement

"The information in this Presentation that relates to Exploration Results is based on published information compiled by Mr. Alistair Stephens, who is a Fellow of the Australian Institute of Mining and Metallurgy (AusIMM). Mr. Stephens is the Chief Executive Officer of Lindian Resources Limited. Mr. Stephens has sufficient experience relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves' (JORC Code). Mr. Stephens consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

Unless otherwise stated, where reference is made to previous releases of exploration results in this announcement, the Company conforms that it is not aware of any new information or data that materially affects the information included in those announcements and all material assumptions and technical parameters underpinning the exploration results included in those announcements continue to apply and have not materially changed.

The information in this report that relates to previous Exploration Results was prepared and first disclosed under the JORC Code 2012 and has been properly and extensively cross-referenced in the text to the date of the original announcement to the ASX."

KANGANKUNDE - “THE KING”

- World’s most strategically important developing **REO project**
- Short runway to production - project advancing at fast-tracked pace
- **Destined** to be a major supplier of Rare Earths

BAUXITE*

- 1 Billion tonne of high-quality bauxite resources
- Excellent infrastructure of road, rail and deep-water bulk handling ports
- **Genuinely** shovel ready for commercialisation

KANGANKUNDE “**THE KING**” RARE EARTHS PROJECT

- **Size** ✓ Destined to be the world’s largest REO deposit
- **Tenure** ✓ Mining Licence + Environmental Certificate issued
- **Metallurgy** ✓ Simple gravity separation and processing
- **Environmental** ✓ Non-radioactive, net zero carbon capable
- **Development** ✓ Near-term ready asset
- **Project Mine Life** ✓ Long mine-life

SECTION VIEW: DRILL PROGRAM

Central carbonatite (high grade zone)

(Area of Resource definition drilling)

- Phase 1 Surface drilling to define an Inferred Resource
- Phase 3 (in planning only) to upgrade Inferred to Indicated Resource

Deep Drill holes to test mineralisation to 800m below surface (0rl)

Phase 2 Drilling Exploration Target

- Phase 2 drilling Exploration target for major extensions at depth and evaluate mixed breccia mineralisation around the central carbonatite

ANATOMY OF A WORLD LEADING REO DEPOSIT

CATEGORY	HURDLE	KANGANKUNDE
Tonnes of Resources	≥500,000,000	Capable with further drilling success
TREO contained	≥10,000,000 tonne	Average grade indicates this is possible
NdPr Ratio	≥20%	Already proven to be ~20.4%
Concentrate Recovery	~80%	Phase 1 test work achieved 70% recovery – improvements in progress
Concentrate grade	~60% TREO	Phase 1 achieved 60%
Radioactive content	Non-Radioactive	Proven to be non-radioactive
Carbon footprint	Net-zero carbon footprint	Capable with future programs
Output Capability	>30,000 tpa TREO	Stage 2 Strategic plan
Expandable	Long mine life >50 years	Capable with future development programs
