Abercromby Gold Project - **WA's newest gold resource**

April 2023

ersonal use only

Important Notice & Disclaimer

Exploration Results

The information in this presentation that relates to potential Exploration Results and Mineral Resources has been reviewed by Ben Pollard, who is a Member of the Australasian Institute of Mining and Metallurgy. Mr Pollard has sufficient experience, which is relevant to the style of mineralisation and type of deposit under consideration and to the activity, which they are undertaking to qualify as an Expert and Competent Person as defined under the VALMIN Code and in the 2015 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr Pollard consents to the inclusion in this presentation of the matters based on the information in the form and context in which they appear.

Forward-Looking Statements

This document may include forward-looking statements. Forward-looking statements include, but are not limited to, statements concerning BMG Resources Limited's planned exploration program and other statements that are not historical facts. Although BMG Resources Limited believes that its expectations reflected in these forward-looking statements are reasonable, such statements involve risks and uncertainties and no assurance can be given that actual results will be consistent with these forward-looking statements.

No Offer of Securities

The information contained in this presentation is for informational purposes only and does not constitute an offer to issue, or arrange to issue, securities or other financial products. The information contained in this presentation is not investment or financial product advice and is not intended to be used as the basis for making an investment decision. The presentation has been prepared without taking into account the investment objectives, financial situation or particular needs of any particular person.

No Warranty of Accuracy or Completeness

No representation or warranty, express or implied, is made as to the fairness, accuracy, completeness or correctness of the information, opinions and conclusions contained in this presentation. To the maximum extent permitted by law, none of BMG Resources Limited, its directors, employees or agents, nor any other person accepts any liability, including, without limitation any liability arising out of fault or negligence, for any loss arising from the use of the information contained in this presentation. In particular, no representation or warranty, express or implied is given as to the accuracy, completeness or correctness, likelihood of achievement or reasonableness or any forecasts, prospects or returns contained in this presentation nor is any obligation assumed to update such information. Such forecasts, prospects or returns are by their nature subject to significant uncertainties and contingencies.

Abercromby – WA's newest gold resource

Maiden Mineral Resource of 518koz at Capital is just the beginning

Abercromby Gold Project – expedited development pathways

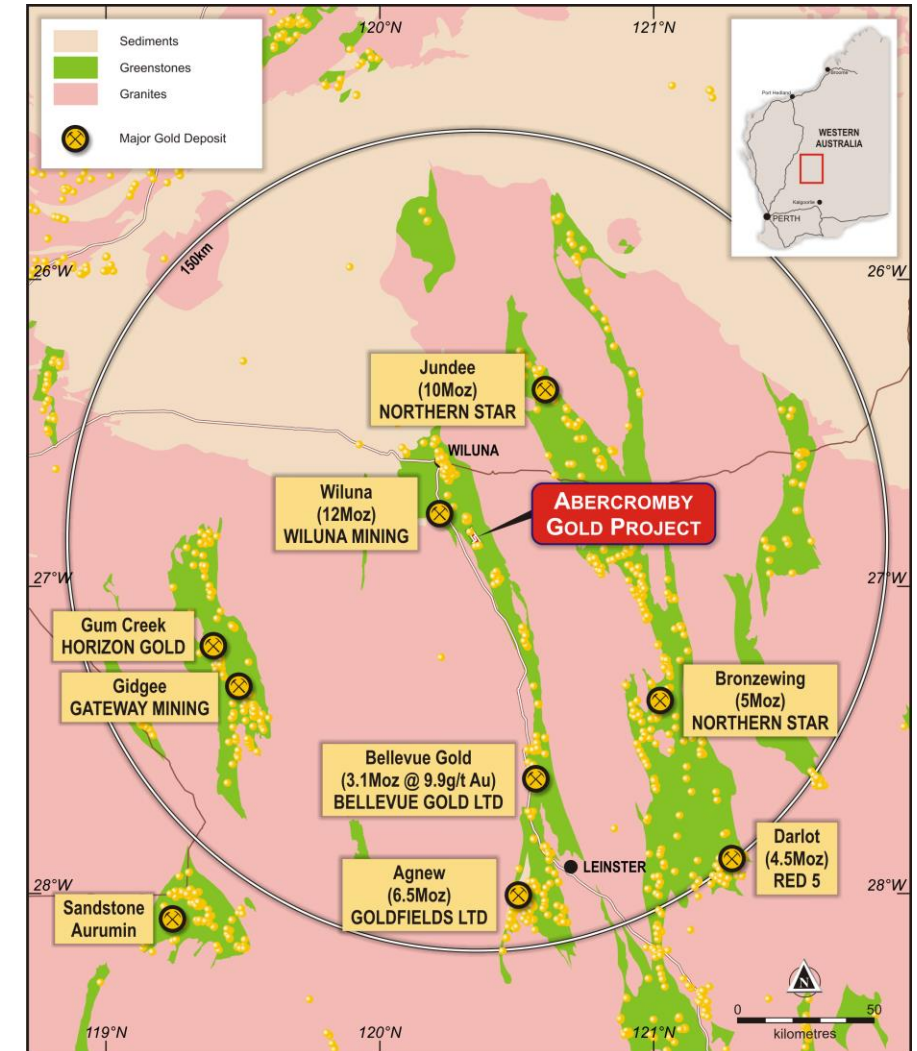

- Sits within 12km² of granted mining leases in the Tier 1 Agnew Wiluna Greenstone Belt
- Metallurgical test work confirms **Abercromby ore is free-milling** and amenable to conventional CIL processing, **with excellent gold recoveries**
- Project surrounded by mines, processing plants and infrastructure

Capital Deposit – one of multiple targets at Abercromby

- **Maiden Mineral Resource of 11.1Mt @ 1.45g/t for 518Koz Au**
- Open Pit area (c. 0–200mbs): 354koz @ 1.17g/t Au (c.70% of resource); Underground area (c.200–500mbs): 164koz @ 3.09g/t Au
- 68% Indicated resource and 32% Inferred resource
- Higher grade component of the resource is **430koz @ 2.01g/t Au** at a 1.0g/t lower cut-off
- **Low \$8.35/oz discovery cost**
- Mineralisation open at depth and along strike

Outstanding development opportunity

- Drilling programs in 2023 to focus on resource expansion at Capital and exploration at high-priority targets to the south of Capital
- Development studies planned to fast track approvals process

Corporate Snapshot

BMG Resources (ASX: BMG) is an ASX-listed gold exploration company with a portfolio of 100% owned gold projects, located in Tier 1 and emerging Western Australian gold districts – Abercromby, Invincible and South Boddington.

BMG's flagship Abercromby Project is located on the Agnew-Wiluna Greenstone Belt, which boasts a gold endowment of +40Moz Au.

Abercromby – WA's newest gold resource

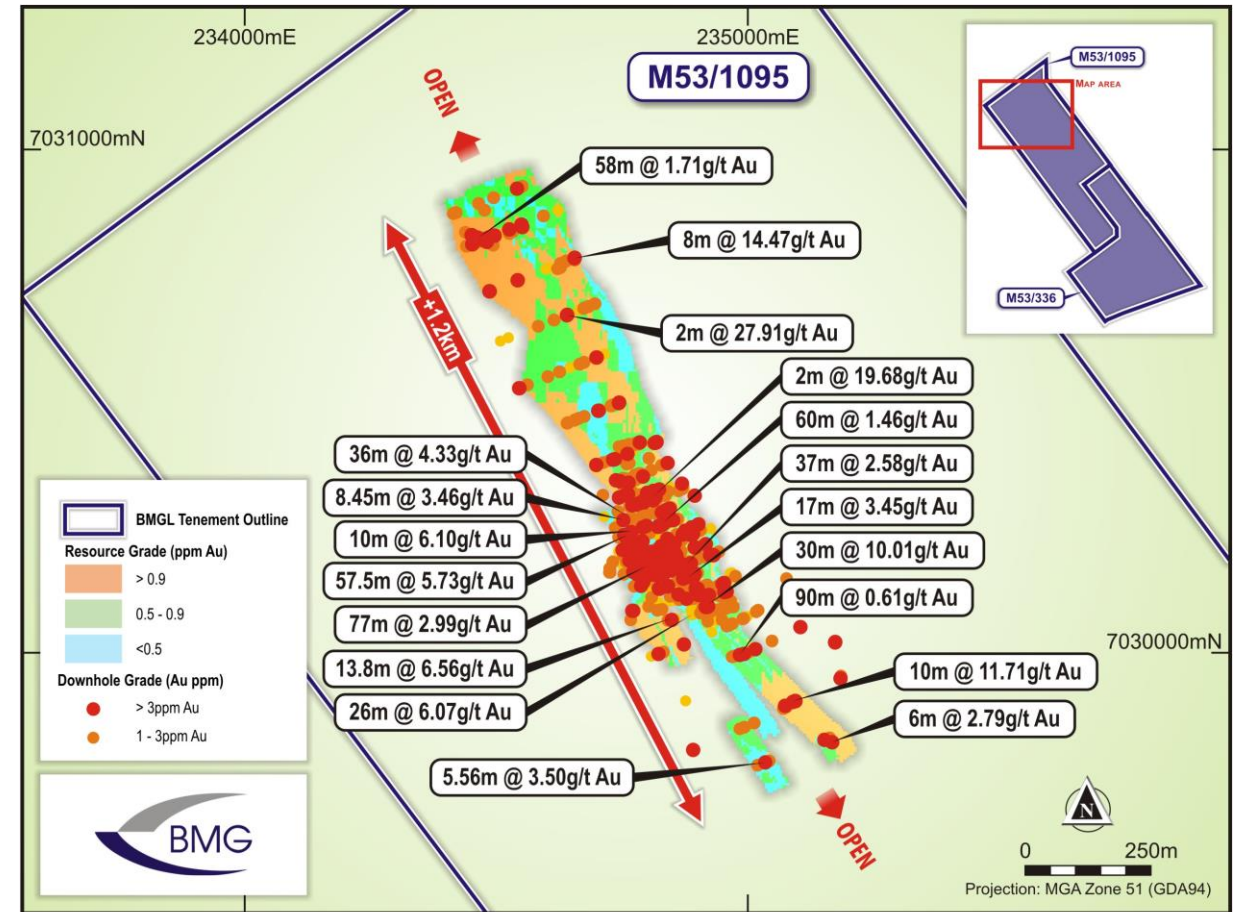

Delivering outstanding value with the drill bit

Maiden Mineral Resource Estimate – Capital Deposit

- 1.2km+ strike as part of 6.5km greenstone total strike length within Abercromby mining leases
- Maiden Mineral Resource **11.1Mt @ 1.45g/t for 518Koz Au**
- Extensive data set with 105 RC and DD holes utilised for resource estimation

JORC 2012 Resource Classification

- **518koz** resource estimate is a sub-set of the **global resource estimate of 670koz**
- Open pit area (notionally to 200mbs with 0.4g/t cut-off): 354koz @ 1.17g/t (c. 70% of resource)
- Underground (notionally 200mbs to 500mbs with 1.25g/t cut-off): 165koz @ 3.09g/t (c. 30% of resource)
- c.70% Indicated (353koz)/ c.30% Inferred (165koz)
- **c.70% in Oxide/ Transitional zone to 200mbs (354koz)**

Planview of Mineral Resource Estimate for the Capital Deposit

Maiden Resource Estimate, Capital Deposit

Global Resource Block Model

- Orthographic view of global resource block model
- Blocks greater than 0g/t for 670koz
- Mineralisation is not closed off – remains open along strike and at depth
- Scope to further enhance the resource with additional drilling

Global resource block model for Capital, coloured by grade

Resource Classification

- ## Favourable Metallurgy

- 7

Maiden Resource Estimate is just the beginning

Capital Deposit

- Mineralisation remains open at depth and along strike
- Multiple historic high-grade intersections reported outside the resource envelope support potential for resource extension
- Sporadic historical drilling at Capital North intersected thick intervals of high-grade gold, including:
 - **58m @ 1.71g/t Au from 77m** (95WJVP274)
 - **8m @ 14.47g/t Au from 114m** (96CJVP024)
 - **2m @ 27.9g/t Au from 27m** (95WJVP280)

Pipeline of regional targets

- Drill testing of southern SAM targets has highlights at least three highly prospective, large anomalous gold zones
 - **Capital South – 1,700m, incl. 4m @ 1.14g/t Au** (22ABAC117)
 - **Archer – 1,400m, incl. 4m @ 3.58g/t Au** (22ABAC061)
 - **Barrack – 250m+, incl 4m @ 1.46g/t Au** (22ABAC014)
- Extensive supergene mineralisation hints at possible repetitions of Capital

Abercromby – WA's newest gold resource

Continuing to leverage value with the drill bit while progressing studies to fast track project development

Drilling in 2023

- Preparation underway for 2023 drilling program:
 - Infill drilling targeting strategic parts of the Inferred resource to upgrade confidence levels to Indicated
 - Expansion drilling to test for continuity of mineralisation at depth and along strike at the Capital Deposit
 - Exploration drilling to test the extent of mineralisation associated with the large regional gold-anomalous zones to the south of the Capital Deposit

Development studies

- Optimisation of processing parameters planned as BMG moves closer to economic evaluation and potential exploitation of the deposit
- GR Engineering and other consultants engaged in preparation for development studies to fast-track approval process ahead of potential development and exploitation of the project

Three 100% owned WA gold and lithium projects in Tier 1 mining jurisdiction

Abercromby Project

- High grade gold project in Tier 1 location with significant development potential
- Maiden Mineral Resource at the Capital Deposit
- Oxide and fresh gold mineralisation confirmed along +1.2km strike
- Further large, anomalous, regional targets to the South

Invincible Project

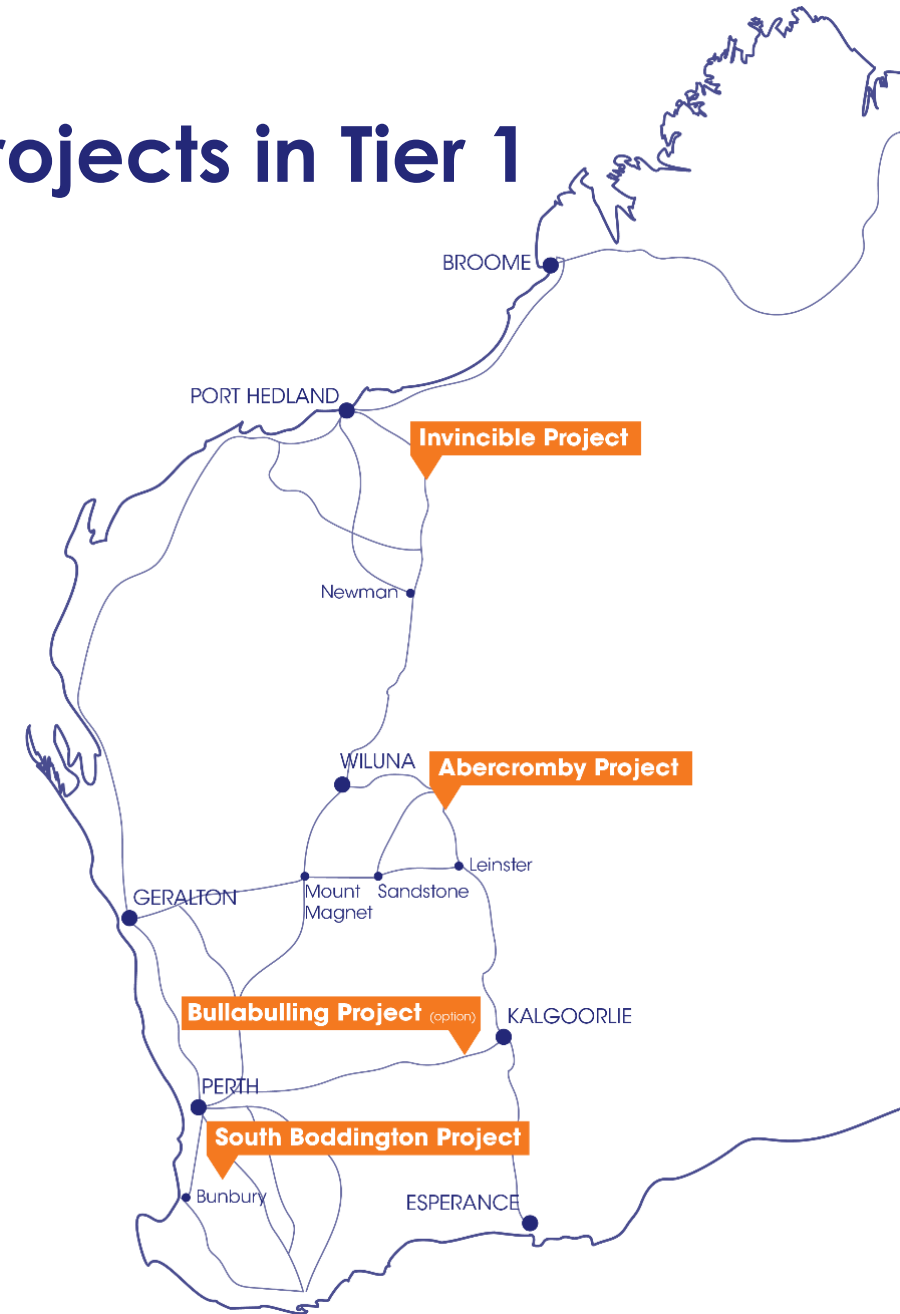

- +12.5km eastern extension of Warrawoona Shear Zone which hosts the growing 1.5m oz Au resource of Calidus Resources (ASX:CAI)
- Multiple high-priority gold targets identified
- Li pegmatite potential currently being assessed

South Boddington Project

- Under explored ground along strike from the giant Boddington deposit (+40m oz Au deposit) – Exploration Licences granted and under application

Bullabulling Project – Under Option

- Highly prospective Lithium/ Gold project currently under review via Option agreement until mid-June 2023

Why invest?

Three WA Gold Projects

Three 100% owned gold and lithium projects in exciting regions of Western Australia

Advanced Exploration

Two projects in world-class gold regions have high-grade gold confirmed by drilling and/or mining – Abercromby and South Boddington

Delivering outstanding results with the drill bit

Three major drill programs at Abercromby deliver Maiden Resource with strong growth potential and a pipeline of regional targets

Attractive EV

EV attractive relative to advanced exploration to date, providing strong valuation leverage to resource definition and further exploration success
