K2fly Limited (K2F, K2fly or the Company) (ASX: K2F), is a leading provider of Resource Governance solutions for 'net positive impact' in Environmental, Social and Governance (ESG) compliance, disclosure, and technical assurance. We focus on the operations of mining and asset intensive industries through our platform-based SaaS cloud solutions. K2fly is pleased to provide commentary regarding its activities for the March quarter, Q3 FY2023.

Nic Pollock CEO of K2fly said "Q3 was a flat quarter for new contract sales on the back of a record Q2 of \$1.52m new ARR. The strong deal flow in Q2 was impetus for strong revenue growth in Q3 of 19% from last quarter and 35% pcp. The Company delivered significantly in milestone project "go lives" with majors such as BHP and Rio Tinto.

Revenue growth coupled with cost control supports the Company's focus on achieving operating cash breakeven. The go live for of our Ground Disturbance solution in a large and complex operation in the Pilbara is our biggest single project to date and a significant milestone for K2fly. This project creates a template for which other resource industry players can use K2fly systems to demonstrate sector leadership in Land Management and Natural Resource Governance. We are extremely proud of this milestone and the collaboration between K2fly and the client's team.

Managing a reconciliation plan to actual is a real challenge for the resource industry and is critical to managing performance. We are very pleased to offer a commercial off the shelf (COTS) solution which addresses this critical industry challenge. We currently have 18 customers of K2fly's RCubed or Resource Disclosure solution which can now leverage this important module. The module is also attracting new customers as a standalone entry offering.

Total Contract Value (TCV) - Quarterly

Revenue and Cash Receipts:

Revenue during the quarter was up 19% over Q2 FY2023 at \$3.4m and up 35% over Q3 FY2022. Revenue was up in the quarter due to the acquisition of new contracts in the preceding quarter and the achievement of implementation milestones.

Cash Receipts from Customers are up 21% at the end of Q3 on a year to date basis, up 24% at \$3.6m in Q3 over Q2 FY2023 and up 100% compared to Q3 FY2022.

Note: the timing and collection of Cash Receipts throughout the year vary by month and quarter and are historically concentrated in the June quarter due to anniversary dates of annual contracts. Cash receipts are also influenced by timing of implementation fees against project milestones on individual contracts and payment terms. For this reason, cash receipts are best compared to the same quarter in the prior year.
