DANODAN-Fiji Opportunity

- Fiji Hemp Bill passed in July 2022, legalising low THC (<1%) hemp growing and processing The Fiji Islands
- As the only foreign company licensed to operate in the kava industry The Calmer Co. can access first mover advantage in low-cost Industrial Hemp processing in The Fiji islands
- Danodan's patented technology produces utilizes low CBD Industrial Hemp to produce liquid dispersible concentrates
- Utilizing this technology for both kava and CBD rich hemp will form the basis of a high value concentrate sales channel
- Hemp Fiber is a biproduct of the production process and can be further "up-cycled" to new consumer products for animal health or to replace single use plastics, now banned in Fiji.
- Retail presence in the USA for Danodan is expanding, e.g. MOMs Organic Market (PA, ND, DJ, DC) , New Season (OR), Natures Harvest (OR) and New Leaf Markets (CA)
- Potential for launch of CBD consumer products in Australia and the Pacific is being explored with partner companies.
