DLT MARCH Q1 FY2023 QUARTERLY REPORT

Revised Business Model Confirmed Through Key Metrics Continuing to Move Positively Towards Operating Cash Breakeven

HIGHLIGHTS

- **Revenue from continuing operations** A\$1.473m in the March quarter, Q1 FY2023, down 8% on Q4 FY2022 and up 10% on Q1 FY2022; due to January being a seasonally low month (project revenue) as well as a negative 3% impact from foreign exchange
- **Cash receipts from customers** A\$1.694m in Q1 FY2023, down 0.1% on Q4 FY2022 and down 6% on Q1 FY2022
- **Net cash used in operating activities**; almost at breakeven, was A\$62k in Q1 FY2023, down 58% on Q4 FY2022 and down 53% on Q1 FY2022; sustained through flat cash receipts and another quarter of good cost management, positioning DLT on a continued pathway to achieve breakeven
- **Annual Recurring Revenue (ARR)** was A\$2.764m at the end of the March quarter, up 15% on Q4 FY2022 and up 110% on Q1 FY2022 due to new contracts being signed; ARR accounted for 39% of total revenue in the quarter
- **Total contract value (TCV)** was A\$4.896m at the end of the March quarter, up 0.4% on Q4 FY2022 and up 63% on Q1 FY2022; remained flat despite new contracts being signed due to existing contract depletion (run-off)
- **Two material contracts** announced:
 - Vedanta Zinc International – Black Mountain Mining (Pty) Ltd in South Africa (TCV A\$281k and ARR of A\$211k), 2-year contract (16 months remaining)
 - AngloGold Ashanti – Sunrise Dam Gold Mine in Western Australia (TCV A\$307k and ARR of A\$154k), 2-year contract
- **Revised integrated business model confirmed** - first sale of AI software solution (Strayos), delivering more value and increasing opportunities from existing and new customers (announced post quarter end; TCV/ARR not financially material to the Company)
- **Board changes** following the strategic exit of former substantial investors, Delta Drone SA
 - Appointment of Mr David Morton as Independent Non-Executive Director, an experienced technology company Director
 - Retirement of Non-Executive Directors, Mr Christian Viguié and Mr Nicolas Clerc (with effect from 30 April 2023)
- **Cash balance** of A\$2.843m at 31 March 2023, an increase of A\$0.589m over the end of the December quarter (A\$2.254m); A\$0.814m was received from escrow relating to the divestment of ParaZero in Q1 2022

26 April 2023 – Delta Drone International Limited or DLT (ASX: DLT), a Drone based data systems provider, is pleased to provide the business update for the quarter ending 31 March 2023 (Q1 FY2023), along with its Appendix 4C quarterly cash flow report.

Delta Drone International CEO Christopher Clark said: “We have again demonstrated strong ARR growth this quarter of 15% at A\$2.8m. This places us on a valuation basis compared to our market capitalisation of only 1.8x before even considering ‘other’ revenues, which include non-contracted reoccurring revenues of A\$1.452m annualised, based on this quarter of A\$0.363m.

Looking ahead, we remain confident that the revised business model and growing track record will continue to deliver further value.

During this quarter, we seized the opportunity to accomplish a few strategic initiatives:

- **Landing of our first Strayos customer** – Artificial Intelligence (AI) applications have immense scope and benefit within our business, as drones can inherently deliver visual data more frequently and at higher resolutions, when compared to traditional satellite and aircraft solutions. Our partnership with Strayos, combined with our on-site drone data contracts, delivers immediate cost-saving and safety benefits to current and potentially new customers.
- **Appointment of Non-Executive Director, David Morton** – with the exit of our legacy shareholder, Delta Drone SA (France), it has created the opportunity for the Company to redefine its identify, go-to-market plan, as well as capital and investment strategy. We look forward to leveraging David's financial knowledge, as well as his corporate governance experience.

Operating Cash Breakeven is within sight: Operational efficiencies, compounded with improved operating margins for the quarter, resulted in a net cash burn of circa \$20k per month. We are only a couple of new contracts away from achieving our breakeven goal and considering our overall cash position of \$2.8M, this gives the business a considerable runway."

1. FINANCIAL OVERVIEW

Revenue from continuing operations (unaudited) for the March quarter Q1 FY2023 was A\$1.473m, down 8% on Q4 FY2022 and up 10% on Q1 FY2022 due to lower project revenue in Q1 and January being a seasonal low month, as well a coming off a very strong December quarter for project revenue.

Revenue from continuing operations is presented excluding revenue from ParaZero in Q1 FY2022 (in line with accounting standards), which was divested in early 2022.

Contracted recurring revenue increased slightly to 39% of total revenue from the December quarter, given the timing of commencement of new contracts.

Growing the ARR component of overall revenue is a focus of the Company when tendering its services. Non-ARR revenue is an important (indicative) metric to the Company's prospective revenue pipeline, leading to potential new contract wins, as customers generally conduct ad-hoc projects or proof-of-concept trials before signing on for long-term agreements. Australian operations accounted for 29% of group revenue in the quarter (32% in Q4 FY2022).

Revenue definitions by type:

(A) Revenue legally contracted and recurring: revenue from legal contracts with minimum original terms of 12 months, subject to normal termination provisions per each contract. The TCV and ARR measures set out in the section below contain only this type of contract.

(B) Revenue likely to re-occur: revenue which management have a reasonable expectation will reoccur in the future either because it has been historically demonstrated to re-occur or because we hold rolling short term purchase orders or legal contracts which are less than 12 months in original length.

(C) Revenue one-off: revenue which does not meet the above definitions (these are typically one-off short projects)

Cash receipts from customers for the March quarter, totalled A\$1.694m, a 0.1% decrease on Q4 FY2022 and down 6% on Q1 FY2022. Historic figures shown in the charts below for Q1 FY2022 and prior, include cash receipts from ParaZero.

Note: differences between quarterly cash receipts and revenue may occur due to the 1) cash collection cycle and 2) revenue recognition on contracts and projects including anniversary dates of when contracts started.

Net cash used in operating activities was A\$62k in Q1 FY2023, down 58% on Q4 FY2022 and down 53% on Q1 FY2022, sustained through flat cash receipts and another quarter of good cost management. This positions DLT on a continued pathway to achieve operating cash breakeven.

TCV and ARR

Annual Recurring Revenue (ARR) is A\$2.764m at the end of the Q1 FY2023, up 15% on Q4 FY2022 and up 110% on Q1 FY2022 due to new contracts being signed (see Material Contracts Section); ARR accounted for 39% of total revenue in the quarter. Individual contracts are subject to normal termination provisions.

ARR grew in the quarter due to signing of new material contracts, in particular, Vedanta Zinc – Black Mountain Mining and AngloGold Ashanti – Sunrise Dam Mine.

Total contract value (TCV) is A\$4.896m at the end of the March quarter, up 0.4% on Q4 FY2022 and up 63% on Q1 FY2022. TCV grew in the quarter for the reasons noted in the ARR comments above, less existing contract depletion (run-off) in the quarter.

Note: TCV is the total value of all remaining contracts (only contracts that had a minimum of 12 months original duration are included) and is net of monthly contract depletion (i.e. the revenue remaining to be collected until end of contract life). Key contracts can be found in recent investor presentations. ARR and TCV may be impacted by exchange rate fluctuations.

2. COMMERCIAL UPDATE

Business model

DLT revised its business model late in calendar 2022 to an integrated solutions focused model. This was confirmed with first sale of partnered AI software solution (Strayos), delivering more value and increasing opportunities from existing and new customers (announced post quarter end, see ASX announcement [5 April 2023](#)). The TCV/ARR from this first sale is not individually financially material to the Company.

For further information about DLT's software partnership with Strayos, see ASX announcement [14 November 2022](#).

Material contracts signed during the period

Vedanta Zinc International – Black Mountain Mining (Pty) Ltd in South Africa

A 2 year contract (16 months remaining) expiring 31 May 2024 was signed with Black Mountain Mining (PTY) Ltd in South Africa (owned by mining giant Vedanta Limited) for surveying services. The contract had a TCV of A\$281k and ARR of A\$211k. See ASX announcement [31 January 2023](#).

AngloGold Ashanti – Sunrise Dam Gold Mine

A 2-year contract was signed with AngloGold Ashanti in Western Australia for drone surveying services. The contract had a TCV of A\$307k and ARR of A\$154k. See ASX announcement [27 February 2023](#).

Other contracts and agreements – individually not material

Bayer (Pty) Ltd in South Africa

A once-off purchase order from Bayer (Pty) Ltd was signed to deliver drone training, hardware and consulting services to be used for crop trial monitoring by Bayer's agronomists. The purchase order has a value of AU\$243k (ZAR2.966m) and was signed post quarter end.

2. CORPORATE

Board changes

Following the strategic exit of former substantial investors, Delta Drone SA, Non-Executive Directors Mr Christian Viguié and Mr Nicolas Clerc will retire from the Board, with effect from 30 April 2023.

The Company is pleased to have appointed Mr David Morton as an Independent Non-Executive Director. David brings extensive experience as Chairman and Director of ASX listed and unlisted technology companies operating with global footprints where he has demonstrated his ability to lead building organisational structure, culture and drive top line growth through enterprise level agreements and undertake business combinations and M&A. See ASX announcement [29 March 2023](#).

Market engagement

- **Other:** Visit Delta Drone's website under [News & Events](#) to read on 'flytnow' an interview CEO Chris Clark gave to NestGen about 'The Impact of Drones in Mining: How Autonomy and AI are Transforming the Industry'.

Upcoming events

- **Coffee Microcaps Conference:** DLT will present at the upcoming conference to be held in Sydney on Thursday 27 April (Metcalf Auditorium, State Library of NSW, 1 Shakespeare Place). Registration can be made via the 'Coffee Microcaps' website.
- **Annual General Meeting (AGM):** The Company will hold its AGM on Thursday 25 May 2023 at 9:00 am (WST). The Notice of Meeting (NOM) was released on Friday 21 April 2023.

Cash: The cash balance at 31 March 2023 was A\$2.843m, an increase of A\$0.589m over the end of the December quarter (A\$2.254m).

During the quarter, the Company received A\$0.814m from escrow relating to the divestment of ParaZero in calendar Q1 2020 (see ASX announcement [7 March 2023](#)).

3. APPENDIX 4C

Cash receipts from customers of A\$1.694m in Q1 FY2023 were down 0.1% on Q4 FY2022. Total payments for operating activities were A\$1.785m in Q1 FY2023, down 3% on Q4 FY2022. The resulting net cash flow from operating activities was favourable to the last quarter at A\$0.062m outflow (Quarter 4, A\$0.149m outflow). These metrics show continued good progress toward our cash breakeven goal as we continue to drive revenue growth and control overheads and corporate costs.

As foreshadowed in the Q4 FY 2022 quarterly report, the loan facility from Delta Drone SA has been terminated by mutual consent and is no longer included in section 7 of the Appendix 4C.

As per item 6 of the attached Appendix 4C cash flow report for the quarter, payments to related parties and their associates of A\$134k comprised of:

- Chris Clark: A\$61k for director fees and A\$18k paid to a related-party
- Paul Williamson: A\$55k for CFO services provided under his executive agreement, noting that Paul is not being paid additional fees for his director duties.

This announcement has been authorised for release by the Board of Delta Drone International Limited.
