Managing Director Steven Turner said: “The previous quarter saw the completion of an extensive refocus for the Company, having in a very short period of time built an impressive portfolio of high quality copper-nickel and PGM assets in Quebec, Canada, including a name change to reflect this strategic shift. This last quarter has seen the Company marketing this change, meeting existing and new investors ahead of an exciting and busy programme for 2023.”

CANADA

Horden Lake

Horden Lake has become the Company’s flagship investment. The project is located 140km north of Matagami in northwest Quebec, close to the recently upgraded James Bay Highway, linking Matagami to the La Grande Hydroelectric Dam, benefiting from HV power lines and fibre optic cable. The road runs within 10km of the property.

The deposit was discovered in the 1960s by INCO, when infrastructure in the region was non-existent, and benefits from 52,000m of drilling, with the most recent being in 2012. On November 14th the Company released the pit constrained JORC compliant mineral resource estimate of 27.8 Mt of 1.49% CuEq (0.3% CuEq Open Pit cut-off and 1.12% CuEq Underground cut-off applied), with 55% currently classified in the Indicated Resource category and 45% in the Inferred Category. *

Cautionary Statements

*There is a lower level of geological confidence associated with Inferred mineral resources and there is no certainty that further exploration work will result in the determination of Indicated mineral resources.

The resource estimate does not include all the Au, nor any of the significant Co and Ag known to exist within the deposit. The planned drilling programme for 2023 will look to better define these various additional metals for inclusion in an updated MRE later in the year as well as extract core for the purpose of an extensive metallurgical testing ahead of a pre-feasibility study expected to be released in 2024. During the quarter, the Company received the required permits to support the planned drilling programme. Discussions are ongoing with drilling contractors and the the programme is expected to commence in the coming months.

Belleterre-Angliers Greenstone Belt (BAGB)

Geophysical and drill programme planning has continued for the exciting, high grade nickel-copper-PGM exploration project at BAGB, with a continued focus on the untested VTEM targets and deeper feeder systems that have yet to drilled. It is intended to advance this project later in 2023.

SPAIN

San Finx tin and tungsten project

On 1 February, the Company announced that it had been awarded the water permit for the San Finx tin and tungsten mine. This permit is critical to allow the restart of development at the mine, and follows extensive technical work including the successful trialling of the approved treatment process.

Santa Comba tungsten and tin project

On 28 March, the Company announced that the Department of Mines in Galicia had taken the decision to cancel the seven mining concessions at Santa Comba, along with their eight extension areas, due to a perceived lack of sufficient mining activity, specifically within the Mina Carmen underground mine area. These mining concessions were otherwise due to expire in 2068. The Company believes that it has remained compliant with the terms of the underground mining permit and is reviewing its options regarding challenging the decision. The Company's San Finx tin and tungsten project in Galicia is unaffected by this decision.

CORPORATE

Discussions are advancing regarding the securing of third-party investment in the Spanish operations, allowing the Company to focus on the Canadian portfolio, in line with its stated strategic refocus.

Pivotal's cash position as at 31 March 2023 was \$2.394m.

About Pivotal Metals

Pivotal Metals Limited (ASX:PVT) is an explorer and developer of world-class mineral deposits. Pivotal holds the recently acquired flagship Horden Lake property, which contains a large JORC compliant resource of copper, nickel, palladium and gold with further upside to come following work in 2023 to incorporate known occurrences of silver and cobalt. Horden Lake is complemented by a battery metals exploration portfolio in Canada located within the prolific Belleterre-Angliers Greenstone Belt comprised of the Midrim, Laforce, Alotta and Lorraine high-grade nickel copper PGM sulphide projects in Quebec. The combination of these projects offers significant upside for the Company shareholders in a supportive mining jurisdiction as modern economies look to transition to renewables.

Pivotal also owns the San Finx tungsten and tin development project in Spain.

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
