## About SensOre

SensOre aims to become the top performing minerals targeting company in the world through the deployment of AI and machine learning (ML) technologies, specifically its Discriminant Predictive Targeting® (DPT®) workflow. SensOre collects all available geological information in a terrane and places it in a multidimensional hypercube or data cube. SensOre's big data approach allows DPT predictive analytics to accurately predict known endowment and generate targets for further discovery.

The SensOre Group has built a tenement portfolio of highly prospective, wholly-owned and joint ventured technology metals tenement packages located in Western Australia. As the capacity of SensOre's AI technologies expand to new terranes and a broader range of commodities, the Company anticipates that new targets will be identified and acquired in Australia and internationally.

SensOre's DPT technology has been developed over many years and involves the application of new computer assisted statistical approaches and ML techniques across the workflow of mineral exploration. The workflow includes data acquisition, data processing, ML training, ML prediction and analysis through DPT. SensOre has acquired numerous data sets and used these to generate mineral system targets. Targets have been analysed and vetted by SensOre's experienced exploration geoscientists. Publicly available data in the form of geophysics, surface geochemical, drilling and geological layers and derivatives have been compiled into a massive data cube covering much of Western Australia. SensOre believes that the combination of big data and ML techniques will provide the next generation of exploration discovery.

## 2.2 Eligibility and Application

Participation in the SPP is entirely voluntary. The offer is open to all shareholders registered as holders of the fully paid ordinary shares of the Company as at 7.00pm (AET) on 10 May 2023 and whose address on the Company's share register is in Australia or New Zealand.

Australian and New Zealand shareholders, together with are each an "eligible shareholder" and may participate in this offer. The Company has determined that it is not practical for shareholders with registered addresses in other jurisdictions to participate in the SPP.

Regardless of the number of shares held already, each eligible shareholder is entitled to apply for a permitted tranche of new shares in the Company pursuant to the SPP and as specified on the Application Form to a maximum of \$30,000 (120,000 shares).

The law prescribes the shareholder may only subscribe for up to a maximum of \$30,000 worth of shares, even if the shareholder receives more than one offer under the SPP – for example, as a consequence of having more than one shareholding under separate share accounts. A joint holding is considered to be a single registered holding for the purposes of the SPP and is entitled to subscribe for up to a maximum of \$30,000 worth of shares in those registered names even if an eligible shareholder separately receives an offer.

An eligible shareholder who holds shares as custodian (as defined by ASIC Corporations (Share and Interest Purchase Plans) Instrument 2019/547) may on behalf of more than one beneficiary be eligible to apply for a maximum of \$30,000 worth of shares for each beneficiary, subject to satisfying certain requirements. Custodians wishing to apply for new shares on behalf of more than one beneficiary should contact the share registry and request a custodian certificate and schedule.

The Company reserves the absolute right, without showing cause, to reject any application where it considers the maximum application limit or any other term of the SPP has not been fully complied with.

The offer is non-renounceable and so cannot be transferred to a third-party to participate in the SPP. Only eligible shareholders may accept an offer under the SPP. The Application Form has pre-printed details including name as recorded on the register. The name of the registered shareholder on the Application Form cannot be changed.

The SPP is anticipated to close at 5.00pm (AET) on 7 June 2023, although the Company reserves the absolute right, without showing cause, to change the Closing Date of the SPP. No late applications will be accepted.

As the SPP is on a 'first come first accepted' basis, the Closing Date may well be earlier than specified and particularly so if applications have been received for the maximum number of new shares able to be issued under the ASX Listing Rules.

The Issue Date is anticipated to be 13 June 2023, although the Company reserves the absolute right, without showing cause, to change the Issue Date of the SPP. A holding statement on confirmation of issue setting out the number of new shares allocated in respect each application will be sent shortly thereafter, and the Company will then promptly apply for them to be quoted on the official list of the ASX.

## 2.4 Offer Oversubscribed, Modified, Suspended or Cancelled

Although the SPP is offered on a 'first come first accepted' basis, if applications so received for new shares under the SPP exceed the number proposed to be issued under the SPP, the Company reserves the right to scale-back any application as it, in its absolute discretion without showing cause, sees fit. The Company may also accept oversubscriptions at its discretion, subject to compliance with the ASX Listing Rules. The Company reserves the right at its absolute discretion, without showing cause, to cancel or suspend or modify the SPP at any time. If the SPP is cancelled, all application monies received will be returned without interest or handling charges.
