Highlights

- Eramet SA has selected K2fly's Resource Disclosure Solution
- 3-year contract with a Total Contract Value (TCV) of AU\$564k and Annual Recurring Revenue (ARR) of AU\$152k
- Contract to cover Eramet's 5 reporting operations and 4 commodities
- Eramet is a French-owned multi-national mining and metallurgy player listed on the Euronext

K2fly Limited (K2F, K2fly or the Company) (ASX: K2F), is a leading provider of Resource Governance solutions for 'net positive impact' in Environmental, Social and Governance (ESG) compliance, disclosure, and technical assurance. We focus on the operations of mining and asset intensive industries through our platform-based SaaS cloud solutions.

The Company is delighted to announce that Eramet SA (Eramet), a French-owned multi-national mining and metallurgy player operating across 5 continents that is publicly listed on the Euronext Paris exchange, has selected K2fly's Resource Disclosure solution. Eramet has mining operations in Gabon (manganese), Indonesia (nickel), Argentina (lithium), Senegal (mineral sands) and New Caledonia (nickel).

The 3-year agreement with K2fly will generate ARR (inclusive of hosting) of AU\$152k* (US\$103k). The contract has variable implementation fees which are estimated to be AU\$106k* (US\$72k), bringing TCV to AU\$564k* (US\$381k). K2fly's solution will be utilised across 5 reporting operations and 4 commodities within Eramet.

The Resource Disclosure solution is part of K2fly's Resource Governance Platform and will be used to fulfil reporting and disclosure obligations within the Eramet group as a publicly listed company.

Nic Pollock CEO of K2fly said "We are delighted to sign our first contract with Eramet for our Resource Disclosure solution. From our early interactions it was very clear that K2fly and Eramet share deep values associated with ESG and mining. Eramet are our fourth French global resources customer in what is a growing prospective region for K2fly. K2F is hopeful that the successful implementation of Resource Disclosure and the developing relationship with Eramet will lead to future opportunities for additional software sales."

About Eramet

Eramet transforms the Earth's mineral resources to provide sustainable and responsible solutions to the growth of the industry and to the challenges of the energy transition.

Its employees are committed to this through their civic and contributory approach in all the countries where the mining and metallurgical group is present.

Manganese, nickel, mineral sands, lithium, and cobalt: Eramet recovers and develops metals that are essential to the construction of a more sustainable world.

As a privileged partner of its industrial clients, Eramet contributes to making robust and resistant infrastructures and constructions, more efficient means of mobility, safer health tools and more efficient telecommunications devices.

Fully committed to the era of metals, Eramet's ambition is to become a reference for the responsible transformation of the Earth's mineral resources for living well together.
