# Disclaimer & Forward-Looking Statements

This presentation (**Presentation**) has been prepared by SensOre Ltd. ACN 637 198 531 (**SensOre** or the **Company**), is current at the date of this Presentation and contains information in a summary form and should be read in conjunction with SensOre's other periodic announcements available at [sensore.com](http://sensore.com). The information presented should not be used for any purpose other than gaining general knowledge of the Company. The presentation is not a recommendation to invest in SensOre and the information presented does not purport to include all information that a person may require in order to decide to invest in SensOre. To the maximum extent permitted by law, each SensOre Party (SensOre or any of its respective directors, officers, employees, affiliates, partners, consultants, agents, representatives or advisers (including, without limitation, advisers and their related bodies corporate, shareholders or affiliates, and any of their respective officers, directors, employees, affiliates, partners, representatives, consultants, agents or advisers)) expressly disclaims any and all liability (whether direct, indirect, consequential or contingent), including, without limitation, any liability arising out of fault or negligence on the part of any person, for any loss, expenses, damages or costs arising from the use of information contained in this Presentation including representations or warranties or in relation to the accuracy or completeness of the information, statements, opinions or matters, express or implied, contained in, arising out of or derived from, or for omissions from, this Presentation including, without limitation, any financial information, any estimates, projections, forecasts or forward-looking statements and any other derived financial information. Anyone proposing to rely on or use such information should independently verify and check the accuracy, completeness, reliability and suitability of the information and should obtain independent and specific advice from appropriate professionals or experts. Nothing in this Presentation should be construed as either an offer to sell or a solicitation to buy or sell SensOre's securities.

## **Future performance and forward-looking statements**

This Presentation contains or may contain certain 'forward-looking statements' and comments about future events, including in relation to SensOre's business, plans and strategies and expected trends in the industry in which SensOre currently operates. Forward-looking statements can generally be identified by the use of words such as 'expect', 'anticipate', 'estimate', 'intend', 'believe', 'guidance', 'should', 'could', 'may', 'will', 'predict', 'plan' and other similar expressions. Indications of, and guidance or outlook regarding, future performance are also forward-looking statements. Forward-looking statements involve inherent risks, assumptions and uncertainties, both general and specific, and there is a risk that such predictions, forecasts, projections and other forward-looking statements will not be achieved. Forward looking statements are based on SensOre's good faith assumptions as to the financial, market, regulatory and other relevant environments that will exist and affect the Company's business and operations in the future. A number of important factors could cause SensOre's actual results to differ materially from the plans, objectives, expectations, estimates, targets and intentions expressed in such forward-looking statements, and many of these factors are beyond SensOre's control. Forward-looking statements may prove to be incorrect, and circumstances may change, and the contents of this Presentation may become outdated as a result. SensOre does not give any assurance that the assumptions will prove to be correct. Readers should note that any past performance is given for illustrative purposes only and should not be relied on as (and is not) an indication of the Company's views on its future financial performance or condition. Past performance of the Company cannot be relied on as an indicator of (and provides no guidance as to) future performance including future share price performance. Except as required by law or regulation, SensOre undertakes no obligation to provide any additional or updated information whether as a result of new information, future events or results or otherwise.

## **Competent Person's Statement**

Information in this Presentation that relates to exploration targets, exploration results and mineralisation is based on and fairly reflects information compiled by and conclusions derived by Mr Robert Rowe, who is a member of The Australasian Institute of Mining and Metallurgy (AusIMM) and a Registered Professional Geoscientist (RPG) in the field of Mineral Exploration with the Australian Institute of Geoscientists (AIG). Mr Rowe is a full-time employee and Chief Operating Officer of SensOre. Mr Rowe has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (JORC Code). Mr Rowe consents to the inclusion in this Presentation of the matters based on his information in the form and context in which it appears.

## **Authorisation**

This Presentation has been authorised for release by the SensOre Disclosure Committee.

# Board and Executive Team

## Board

**Robert Peck AM**  
Non-Executive Chairman  
*Founder Peckvonhartel Architects*

**Richard Taylor**  
Executive Director & CEO  
*Senior mining executive*

**Anthony O'Sullivan**  
Non-Executive Director  
*Geologist &  
CDO The Metals Company*

**Robbie Rowe**  
Executive Director & COO  
*Former VP Exploration Barrick*

**Adrian Manger**  
Non-Executive Director  
*Chairman Pampa Metals*

**Nic Limb**  
Non-Executive Director  
*Chairman ASX miners & explorers*

## Technology Team

### SensOre

**Alf Eggo**  
Chief Technology Officer  
*Former Rio Tinto Research*

**Dr Jing Chen**  
Senior Geochemist  
*Specialist Mineral Systems*

**Matthew Rowe**  
Technical Geologist  
*Specialist Archean gold*

**Dr Dane Burkett**  
Principal Geochemist  
& Software Developer  
*Former Olympus Asia-Pacific*

### Intrepid

**Des FitzGerald**  
Director  
*Intrepid Geophysics*

**Jeff Keetley**  
Geologist / Geophysicist  
*Intrepid Geophysics*

## Global demand for critical minerals is being driven by:

The growing global population which is projected to reach 9.7 billion in 2050 and 10.4 billion by 2100<sup>1</sup>

The increasing standard of living across the globe leading to similar energy demand for 6bn people living in emerging regions<sup>2</sup>

The transition to renewable energies will require minerals supply to expand 1000% to meet 2030 demand<sup>3</sup>

<sup>1</sup> Source: <https://ourworldindata.org/future-population-growth>

<sup>2</sup> Statistical Review of World Energy 2020 © BP p.l.c. 2020

<sup>3</sup> Source: IEA analysis based on S&P Global; Bloomberg NEF; Benchmark Mineral Intelligence

# Global Battery and Minerals Supply

A report published by the International Energy Agency (IEA) concludes the industry need to expand global battery and minerals supply by 1000% to meet 2030 demand.

This will require an additional<sup>1</sup>:

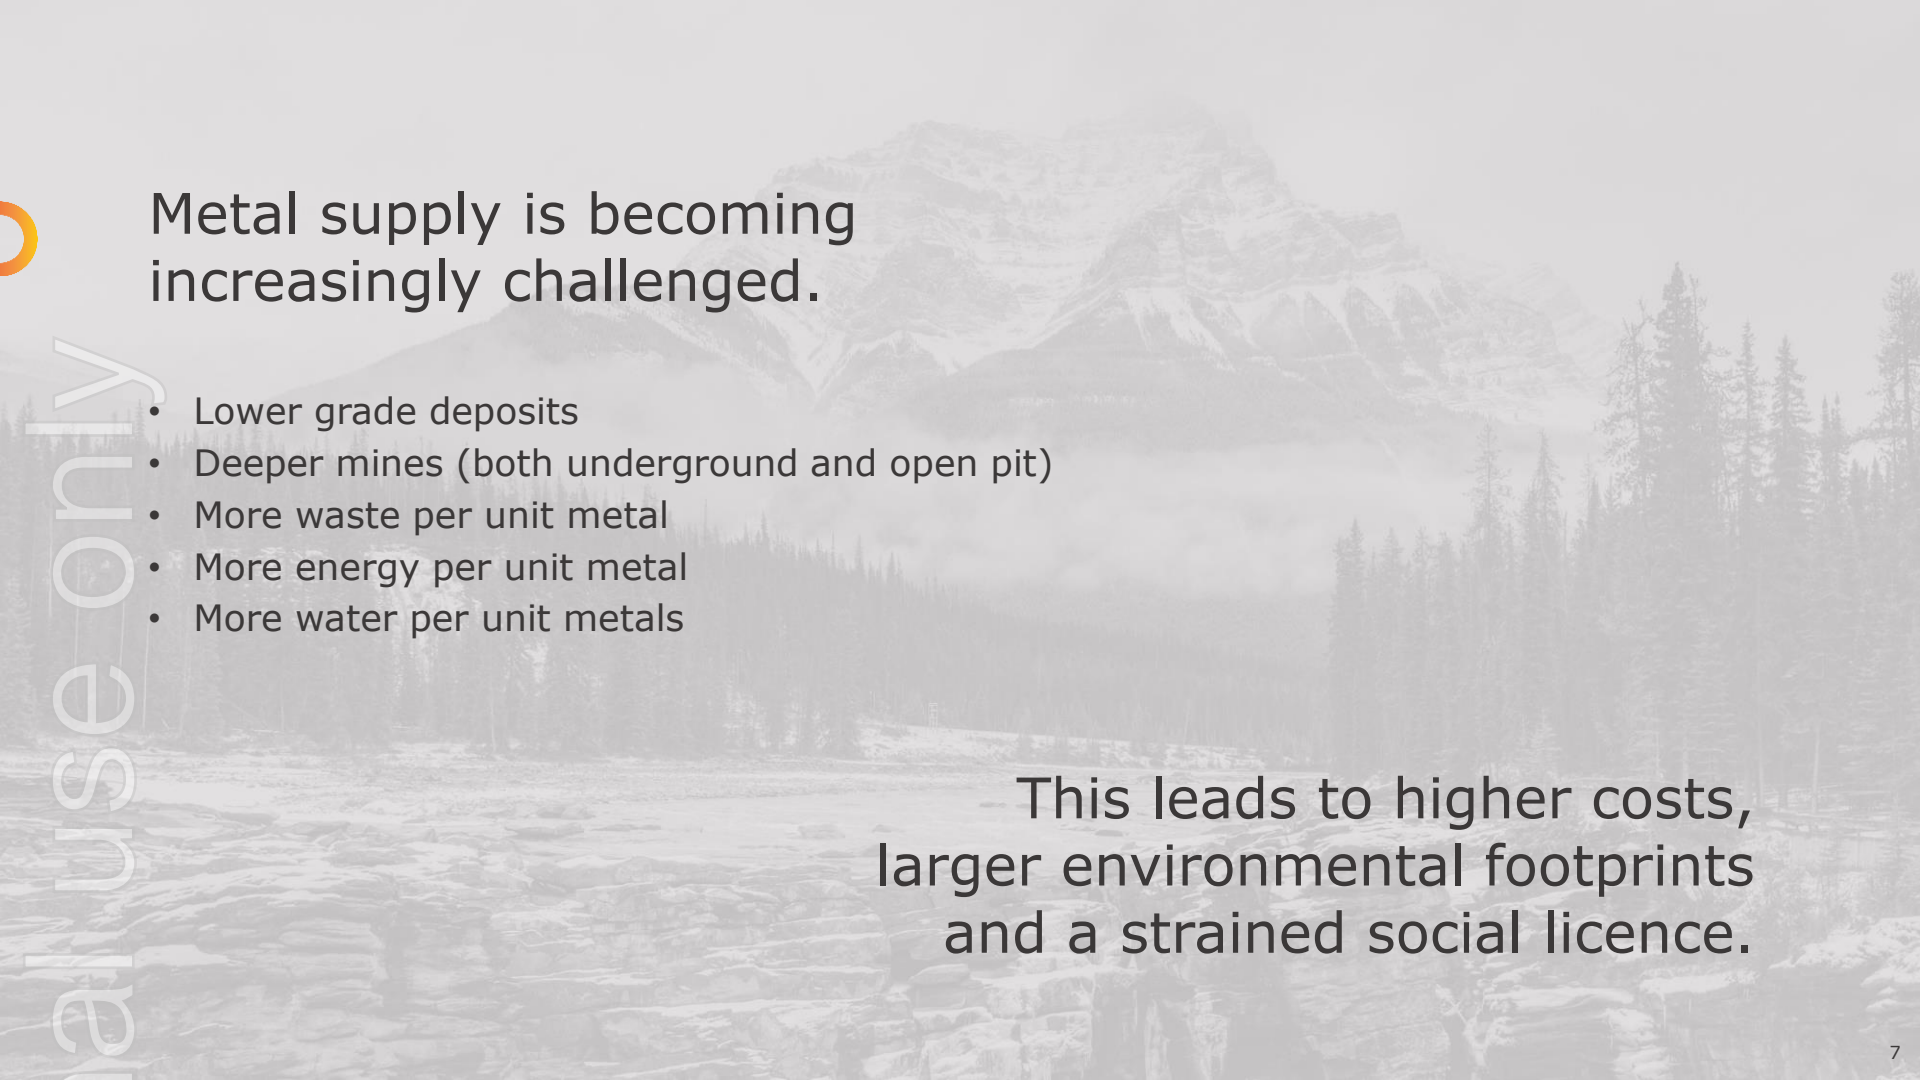

<sup>1</sup> Source: IEA analysis based on S&P Global; Bloomberg NEF; Benchmark Mineral Intelligence

The world is transitioning away from carbon based energy sources. But the mineral market does not have a discovery pipeline to support it.

Critical minerals will drive the decarbonisation and electrification of global industries.

## Metal supply is becoming increasingly challenged.

- Lower grade deposits
- Deeper mines (both underground and open pit)
- More waste per unit metal
- More energy per unit metal
- More water per unit metals

This leads to higher costs, larger environmental footprints and a strained social licence.

# Mineral exploration demand is large and growing in key markets

- Annual Discovery spend \$11.6B a year
- Significant increases required to scale resources 10x

## Market size & opportunity

\$1.3B

\$1.2B

\$1.9B

Australia  
Multi-commodity boom

SensOre is well placed in the main mining markets

SensOre's transformative platform is using data, machine learning and decision making tools to improve mineral discovery success.

We're empowering industry to deliver on mineral demand by showing them the right places to drill.

AEM 2.5D Geo-electric section

AEM 1D LEI Geo-electric section

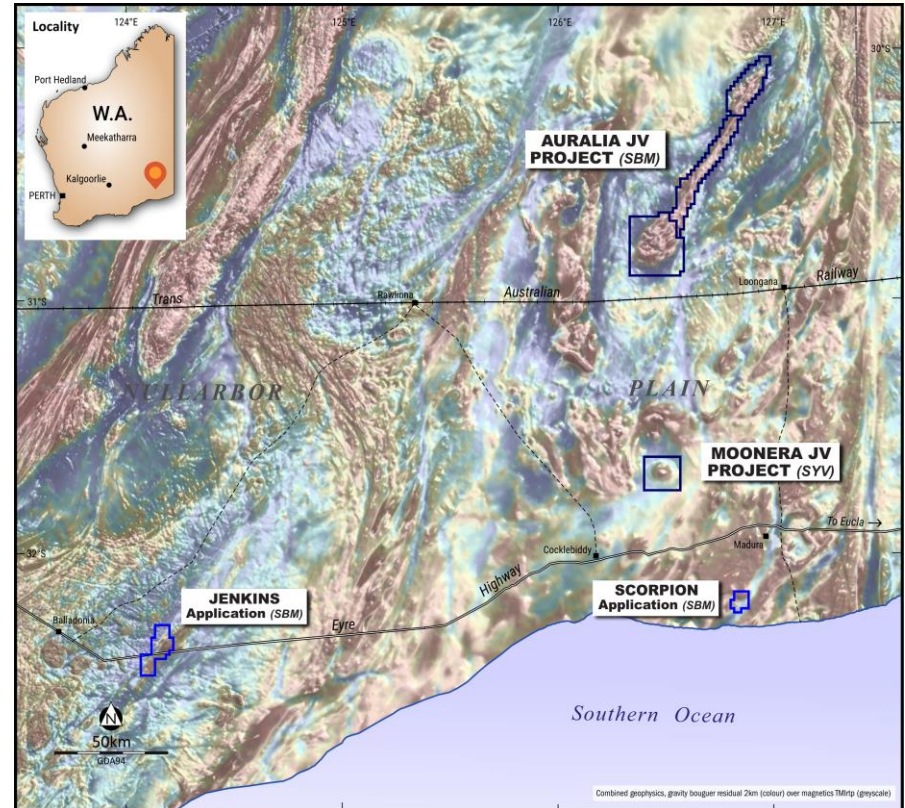

# Lithium WA – 100% SensOre and Deutsche Rohstoff JV

- SensOre stands to benefit from Deutsche Rohstoff as a partner through agreed targeting, acquisition and geological consulting fees for a minimum of eight accepted lithium targets, worth \$125,000 per target for a total of \$1 million
- Initial participating interests:
  - SensOre 30%
  - Deutsche Rohstoff 70%
- Preliminary exploration budget of \$4 million
  - SensOre \$1.2 million
  - Deutsche Rohstoff \$2.8 million
- Separately SensOre has 100% owned targets at Boo Boo Well and Nunyerry

# Multiple battery minerals opportunities generated

- SensOre technology has identified high potential nickel and battery minerals targets in WA
- Four targets acquired by SensOre
- Global training dataset used to inform machine learning system
- Thousands of layers of data informing decision-making
- High value targets needed to fill exploration pipeline for battery minerals
- Moving quickly to generate value from SensOre's proprietary data sets

# Financial Year Actuals and June Estimates

SensOre has completed significant investment in automation and software development

Addition of Intrepid Geophysics applications has expanded cross-selling opportunities

New products such as Cauchy Downward Continuation and 2.5D Full Waveform AEM have seen growing demand

SensOre aims to become the top performing minerals targeting company in the world through deployment of AI technologies

**Rolling up exciting mining technology businesses**

**Highly experienced technology development & exploration team**

**Supporting partners build their battery & critical minerals portfolio**

**Fast growing, well regarded technology stack**

**Advancing global strategic partnerships**

**Developing SaaS platform to expand client services potential**

**International growth across pipeline USA, Australia & Africa**

**Forefront of reducing exploration's environmental footprint**

**Disrupting conventional exploration**
