8common CEO, Andrew Bond said “FY2023 and in particular the recent quarter has been momentous for 8common as we posted record operating results across the board. More importantly, we recorded positive operating and group net cash-flow as the business works towards profitability. Whilst it remains premature to be able to give forecasts, the \$12.4 million in contracts closed during FY23 and robust pipeline places the Company in a very encouraging position.”

Financial and operational review

The Company delivered quarterly transaction and recurring SaaS revenue of \$935k, up 12% Quarter on Quarter (QoQ). Total revenue for 4Q FY23 of \$2.9 million, up 87% QoQ as the Company continues to execute on the implementation of the GovERP program.

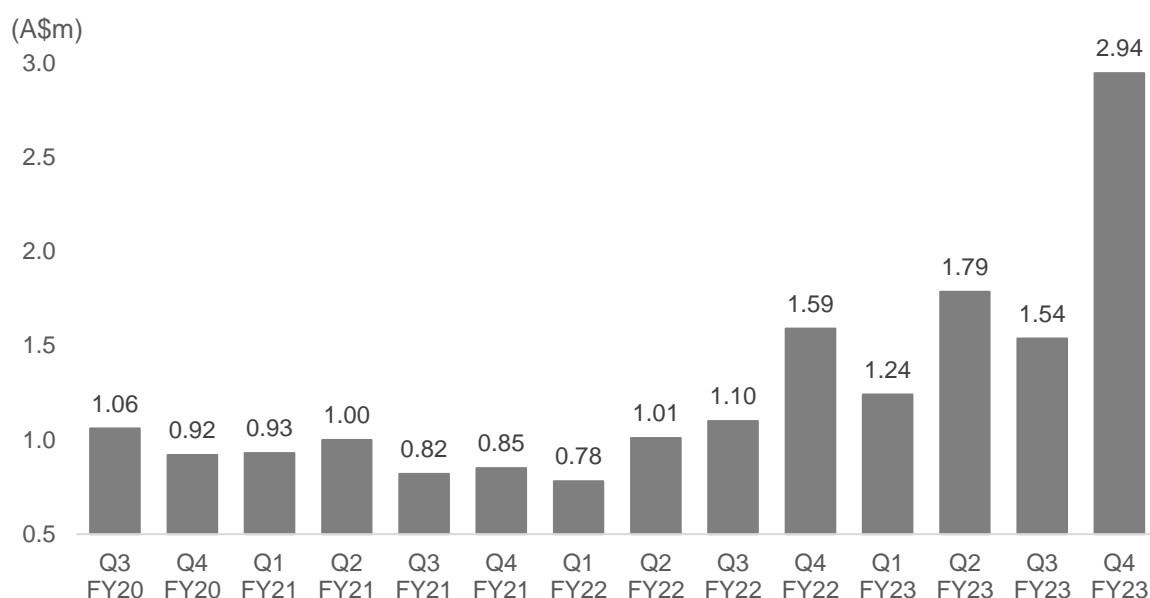

ARPU for the June quarter was \$24.29, up 21% QoQ, reflecting an increase in products per users and a growing Federal Government user base.

Within the broader ARPU figure, Federal Government ARPU ended at \$56.41 for the quarter, up 20% QoQ. With a growing number of agencies and users to be onboarded under the GovERP work package, average ARPU is expected to continue to increase in coming quarters thus driving further revenue increases.

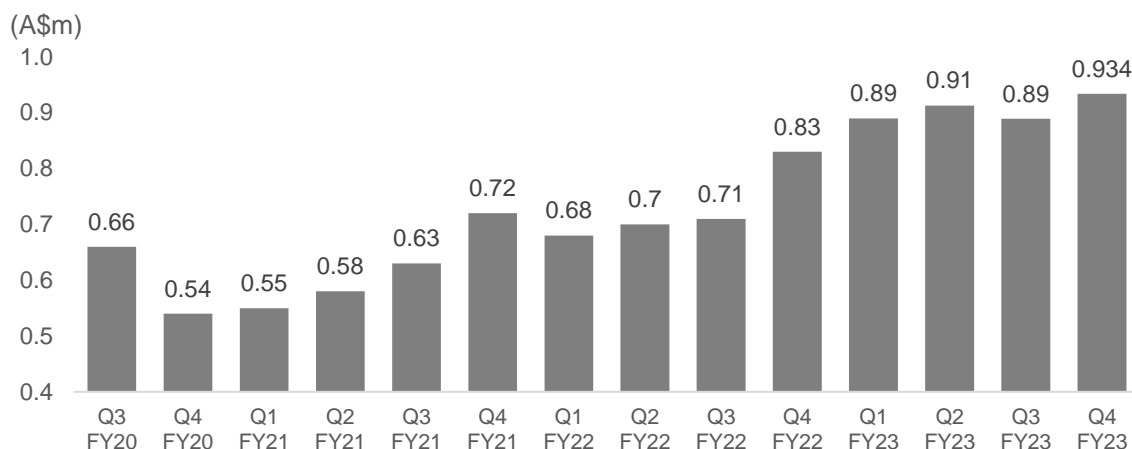

Net cash inflow from operations for 4Q FY23 was \$167k as the Company was operational cashflow positive for the quarter. Well executed investments into staff and infrastructure have resulted in record new and renewal contract wins of \$12.4 million TCV during the financial year. The contract wins and strong pipeline should extend the growing profile of transaction and recurring SaaS revenue and cashflow.

The roll-out of CardHero with Life Without Barriers and Westhaven continues to progress. CardHero continues to receive inbound enquiries from not-for-profits, corporates and government agencies seeking a solution for their fund distribution requirements. CardHero contributed \$39k to recurring SaaS and transaction revenue during the quarter.

The contracts will see over 6,000 users migrate to the GovERP template which provides a unified solution for the whole of Government Travel and Expense management requirements.

The company continues to focus on costs and expenses. Staff, administration, and corporate costs were \$2.84m for the quarter, up from \$2.15m in the prior quarter. The increase in corporate cost reflects the costs associated with partners who are involved in the on-boarding of entities under the GovERP program as well as partners conducting the Phase 0. The company has also invested into cyber security and infrastructure initiatives in FY23 to provide for an increase in system usage driven by the GovERP go-lives.

Payments to the Directors of the entity, comprising of salaries and fees for Executive and Non-Executive Director, totalled \$92k during the quarter (see section 6 of the Appendix 4C). No other payments were made to any related parties or their associates of the entity.

The company increased its cash balance by \$156k has a strong cash position of \$1.8 million as at 30 June 2023 with no further capital requirements anticipated.

Cash Flow performance

Outlook

The Company continues to expand its presence amongst government, not for profit and large enterprises. As more entities progress through the on-boarding phase of Expense8 and into Live Users under the GovERP program, we anticipate user numbers to continue to grow in coming quarters. The growth of users on our platforms is anticipated to increase our ARPU over FY24 and beyond, delivering material revenue growth for the Company and driving profitability and further positive cash flows for the group. Furthermore, our partner program is expected to fuel our growth as we are seeing an influx of new prospects entering the pipeline through our partners, including both Government prospects and non-Government prospects (both Australian and International).
