Q2 2023 Quarterly Report

Pivotal Metals Limited (ASX:PVT) ('Pivotal' or the 'Company') is pleased to provide its Appendix 5B cash flow statement for the quarter ended 30 June 2023, along with the following operational summary.

Investment Highlights

HORDEN LAKE COPPER-NICKEL-PGM

- Orilling permits extended to 31 March 2024 to allow for delayed 8,000m drilling campaign. Delays due to extensive and ongoing forest fires in Canada over the summer period.
- Post quarter end, appointment of Eddy Canova to position of Executive, Operations
 Officer to manage the exploration programmes at Horden Lake and Belleterre Angliers Greenstone Belt (BAGB).

SAN FINX TIN-TUNGSTEN

SANTA COMBA TIN-TUNGSTEN

 Appeal commenced to overturn the decision by the Department of Mines in Galicia to cancel the mining concessions at Santa Comba.

CORPORATE

- O Completion of a A\$4 million placement comprising:
 - 61.4m flow through share issued at a 58.5% premium to Pivotal's last closing price of A\$0.04 on 10 May 2023 to fund the drilling and metallurgical test programme at Horden Lake and the survey work at BAGB, and
 - 5.4m private placement shares issued at a 18.8% discount to the last closing price on 10 May 2023 to fund working capital.
 - For every two placement shares one free attaching option was granted, expiring two years from the date of grant, with an exercise price of A\$0.065.
- Pivotal's cash position at 30 June 2023 was \$5.535m

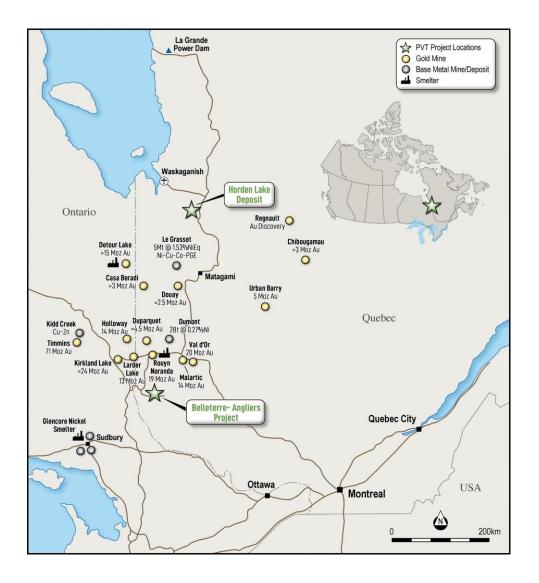

Managing Director Steven Turner said: "The Company has continued the strategic shift to Canada through the sale of San Finx, leaving all shareholder value in the exciting Quebec portfolio of battery metals. In parallel, Pivotal has planned an active programme of drilling and exploration work underpinned by the successful flow through share placement and the recent appointment of Eddy Canova as the Company's head of operations in Quebec."

Canadian Portfolio

Horden Lake is an advanced exploration project containing a JORC compliant pit constrained resource of 27.8Mt at a 1.49% CuEq¹. The resource estimate does not include all of the Au, nor any of the significant Co and Ag known to exist within the deposit. The planned drilling programme for 2023/24 will look to better define these various additional metals for inclusion in an updated MRE and provide a bulk sample for detailed metallurgical test work in advance of a maiden PFS for the project.

Belleterre-Angliers Greenstone Belt ('BAGB') is a high impact exploration project that has exceptional near surface grades of nickel, copper and PGMs, potentially indicative of a large deeper system. A review of EM anomalies below 300m from recent VTEM surveys has identified 20 high priority targets never previously explored. These targets will be the focus of a survey programme scheduled for later in 2023.

¹ See ASX announcement dated 16 November 2022 "JORC Compliant Mineral Resource Estimate at Horden Lake Deposit (Quebec), delivers an outstanding 27.8Mt at 1.49% CuEq". The Company confirms that it is not aware of any new information or data that materially affects the information included in the relevant market announcement and that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed.

The extensive Quebec forest fires have resulted in the Company rescheduling the order of its activities with an immediate focus on BAGB, noting that a winter drill programme at Horden Lake would avail the Company of significant costs savings given the use of a temporary land access track as opposed to the use of helicopters to complete the planned 8,000m programme.

Belleterre-Angliers Greenstone Belt (BAGB)

Geophysical and drill programme planning has continued for the exciting, high-grade nickel-copper-PGM exploration project at BAGB, with a continued focus on the 20 deeper untested VTEM targets indicative of a possible that have yet to drilled. It is intended to advance this project later in 2023 using MT surveys that can penetrate below 1,000m.

SPAIN

San Finx tin and tungsten project

On 20 July 2023 the Company announced that it has sold Tungsten San Finx S.L. ('TSFx'), the 100% owner of the San Finx tin and tungsten mine. The exit from San Finx will ensure that shareholder funds will be dedicated to the highly attractive Canadian portfolio of battery metal projects. The sale was executed with Metáis Estratéxicos, S.L. ("MESL") with an effective date of 30 June 2023. It should be noted that Pivotal has to date made no consideration payments to Valoriza Mineria S.L.U. ('Valoriza' the previous owner) under the sale agreement dated 27 December 2021, incurring only working capital expenditure. MESL will assume the obligations payable to Valoriza ('Valoriza Consideration') and in addition pay Pivotal a 3% royalty on sales, capped at US\$1m, commencing in the quarter following the satisfaction in full of the Valoriza Consideration. This consideration, in addition to €150,000 paid upfront, results in a total effective consideration payable of €1.15m to the Company, the majority of which is deferred until after production.

Santa Comba tungsten and tin project

The Company has commenced the appeal against the decision on 28 March by the Department of Mines in Galicia to cancel the seven mining concessions at Santa Comba, along with their eight extension areas.

CORPORATE

On 16 May, the Company announced that it had secured A\$3.9m in commitments to fund the planned Quebec exploration programme, utilising the flow-through shares provision under Canadian tax law. The 61.4 million flow through units (FT Unit) were placed at A\$0.0634/unit, representing a 58.5% premium to Pivotal's last closing price of A\$0.04 on 10 May 2023 and an 84.3% premium to the 15-day VWAP of A\$0.0344. Every FT Unit consisted of one flow-through-share and for every two flow-through shares a free attaching option. Each attaching option is unquoted and expires two years from the date of grant, with an exercise price of A\$0.065.

A further A\$0.2m was also secured through the private placement of 5.3 million shares at A\$0.0325/share for corporate overheads and working capital to sophisticated and professional investors, representing an 18.8% discount to the last closing price on 10 May 2023 and a 5.5% discount to the 15-day VWAP. For every two placement shares there was one free attaching option. Each option is unquoted and expire two years from the date of grant and has an exercise price of A\$0.065.

On 25 July 2023, post the quarter end, the Company announced the appointment of Eddy Canova as the Executive Operations Officer to manage the ongoing exploration and development programmes at Horden Lake and BAGB. Mr. Canova is a professional senior geologist (OGQ (403)-PGeo) with extensive experience of advancing exploration projects both in Quebec and internationally from inception, through various study stages, as well as mine development and operations. Mr. Canova is a multilingual Quebec resident, fluent in French and English, and brings experience of working closely with the First Nations. He is a graduate of McGill University with a Bachelor of Science in Geology with specialisation in Economic Geology and is qualified to act as the Company's Qualified Person under both Australian and Quebec reporting standards.

Pivotal's cash position as at 30 June 2023 was \$5.535m.

About Pivotal Metals

Pivotal Metals Limited (ASX:PVT) is an explorer and developer of world-class mineral deposits. Pivotal holds the recently acquired flagship Horden Lake property, which contains a large JORC compliant resource of copper, nickel, palladium and gold with further upside to come following work in 2023 to incorporate known occurrences of silver and cobalt. Horden Lake is complemented by a battery metals exploration portfolio in Canada located within the prolific Belleterre-Angliers Greenstone Belt comprised of the Midrim, Laforce, Alotta and Lorraine high-grade nickel copper PGM sulphide projects in Quebec. The combination of these projects offers significant upside for the Company shareholders in a supportive mining jurisdiction as modern economies look to transition to renewables.

Pivotal also owns the San Finx tungsten and tin development project in Spain.
