ASX:
S3N

QUARTERLY ACTIVITIES REPORT TO 30 JUNE 2023

SensOre (ASX: S3N) aims to become the top performing global minerals technology company through deployment of big data, artificial intelligence (AI)/machine learning technologies and geoscience expertise

Highlights

- **Record quarterly invoices \$1.89m** (revenue from sales and grants) in Q4 FY2023
- **Total revenue and grants increased 80% year-on-year to \$7.02m** (based on invoices for financial year 2023) when compared to combined SensOre-Intrepid 2022 performance of \$3.89m.
- **Operating cashflow positive for the quarter** - excluding one-off items such as technology investment (\$0.39m) and non-recurring exploration expenditure (\$0.21m)
- **Total Contract Value (TCV) has increased to \$3.13m** up from \$2.50m in Q3 with several long-term software contracts being renewed
- Software and services significant milestones achieved:
 - Commercial sales of new products Cauchy Downward Continuation (CDC), Simclust and AGLADS
 - Significant inbound interest coincident with positive global developments in Artificial Intelligence
 - Advances in utilising natural language processing on continental-scale geological meta data
- Exploration gathering momentum:
 - **Lithium targets** – ramping up of joint-venture fieldwork and negotiation of final lithium targets in collaboration with Deutsche Rohstoff AG
 - **EIS Funding** – successful in applications for \$0.35m from the Exploration Incentive Scheme (EIS) WA to fund drilling on Auralia (nickel) and Moonera (copper)
- Corporate – completed capital raising \$1.00m, SPP \$0.95m (SPP \$0.55m and \$0.40m shortfall placement).
- Cash balance at 30 June 2023 \$1.88m

CEO Richard Taylor commented:

“The team at SensOre are extremely encouraged by the performance of the group across all business segments this quarter and financial year. Operationally we reported another record quarter for invoices, an increase of 67% versus the prior quarter. TCV increased 25% compared to Q3 FY2023. Importantly for a high growth company, we achieved positive operating cashflow this reporting period.

We continued to see strong demand from existing and new clients for our technology, with sales of key geochemistry and geophysics tools accelerating in the June quarter. Our Lithium targeting with Deutsche Rohstoff is ramping up and we expect this to be a key focus area next year. Post the capital raise in the June quarter we are poised for another transformative year of growth across Technology Products, Services and Exploration.”

¹ SensOre completed the acquisition of Intrepid Geophysics on 10 August 2023 and FY23 revenue is compared to FY22 on a combined basis.

Quarterly Report

SensOre (ASX:S3N) is pleased to present its quarterly activities report for the period ending June 2023.

Figure 1: SensOre deployed technology on client and joint-venture projects across Australia in the June Quarter

Contracts and Financial Results

Invoices raised during the quarter were \$1.89m, an increase of 67% over the prior quarter. Cash receipts from customers and grants during the quarter were \$1.51m, an increase of 46% from Q3 FY2023. Operational cashflow was positive for the quarter excluding one-off capital costs. The June quarter is historically strong for sales revenue. Billings, and subsequently cash receipts, vary month-by-month and quarter-by-quarter due to the anniversary dates of key contracts and the timing of services revenue in reaching project milestones. With closing trade receivables of \$1.08m at the end of the quarter, cash receipts related to this will be received next quarter.

Total Contract Value (TCV) increased 25% compared to Q3 FY2023, on a net basis after depletion, with TCV of \$3.13m this quarter compared to \$2.50m previous quarter. TCV is the remaining value of current contracts. It depletes monthly, as the remaining term of the contract reduces. Several larger software renewals for 3-year periods contributed to the increase.

Figure 2: SensOre Financials by Quarter

Technology

SensOre's technology applies advances in AI and machine learning to large geoscience datasets to increase discovery performance, reduce exploration costs and minimise both the environmental footprint of exploration.

Productisation of Key Products

SensOre continued customer trials of its data platform solution for client engagements and a broader customer base to deliver seamless continental geoscience data. The commercial rollout continued at a measured pace as new learnings from client interaction and feedback were assimilated into the data layers in the platform.

SensOre accelerated sales of key geochemistry and geophysics services through proprietary innovation tools including SimClust, AGLADS, Moksha 2.5D and Cauchy Downward Continuation (CDC) in the June quarter.

Services

SensOre works with several exploration and mining companies to offer AI-enhanced products and services. In doing so, SensOre aims to renew exploration pipelines and optimise exploration and discovery for its clients and partners.

SensOre completed several projects for major and mid-tier mining groups, the content of which is confidential at this stage. There was a significant increase in business development activity in the quarter.

Exploration

SensOre has built a tenement portfolio of wholly owned and joint ventured SensOre Group projects in Western Australia. SensOre adopts a 'project generator' model, acquiring and exploring targets and, where required, amplifying its reach by sharing exploration costs through joint ventures.¹

Safety and environment

SensOre conducted field exploration activity with no reportable ESG related incidents in the quarter.

Lithium targets

SensOre and Venture Minerals entered a farm-in agreement on Golden Grove North, as announced to the ASX on 12 May 2023. SensOre initiated early, first-pass, field activities at Gecko North, Golden Grove North, Montague, Kalgoorlie South and Bowgarder Well, as part of SensOre's Exploration AI Ventures collaboration with Deutsche Rohstoff. Further field evaluation was advanced on early-stage targets generated by ML and AI targeting technology to validate the targets and determine economic potential and progress to acquisition. Initial results are positive with pegmatites located; analytical results of field samples are pending.

In New South Wales, SensOre neared completion of the NSW government grant project for new AI/ML approaches to geochemistry and radiometric data to improve lithium and critical minerals exploration effectiveness, undertaking test field work at Stelar Metals' (ASX:SLB) Trident Project near Broken Hill. Field activities included airborne geophysical acquisition and surface geochemical sampling.

Other targets

SensOre relinquished several projects as part of its review of first pass greenfield exploration. Although key geological area selection criteria were met, the projects did not meet technical and economic Key Decision Points

¹ The Company's wholly owned and joint venture tenements remain in good standing at quarter-end. As outlined in this announcement including Annexure 1, SensOre disposed of several tenements during the quarter. Further details regarding SensOre Group tenements, including project locations, are set out in Annexure 1. Refer to the Independent Technical Assessment Report (ITAR) (Appendix A to the SensOre Prospectus released by ASX on 9 February 2022) for further SensOre Group project information. Other than as announced to the ASX in this and previous quarterly reports SensOre confirms that it is not aware of any new information or data that materially affects the SensOre Group project information included in the ITAR.

(KDPs) and were removed from the portfolio. This approach of rapid testing of targets and a focus on demonstrated fertility and economic results is industry best practice and fundamental to SensOre's exploration portfolio management approach.

Corporate

Placement and Share Purchase Plan (SPP)

During the June 2023 quarter the Company successfully raised A\$1.00m via a placement and an additional A\$0.55m in the Share Purchase Plan (SPP).

SPP shortfall of A\$0.40m has been placed with an exploration services provider, which enable SensOre to utilise government EIS funds and meet minimum expenditure requirements on a number of early-stage and large scale exciting projects.

Finance

Cash at bank at 30 June 2023 was A\$1.88m, including term deposits of A\$0.07m being held as security over the Company's office leases in the form of bank guarantees. SensOre Group (inclusive Intrepid Geophysics) received \$1.87m in R&D refund from FY 2022 and anticipates similar in Q2 FY23 based on the Company's R&D plan. In the prior quarter the Company entered into an R&D refund debt finance facility for \$0.32m to assist with smoothing cashflows until the refund is received.

Use of IPO funds

In section 7.1.3 of the Prospectus, the Company provided a proposed use of funds statement based on a target subscription of \$10.0 million. The table below shows an amended use of funds based on the actual gross proceeds raised from the IPO (as foreshadowed in section 7.1.3 of the Prospectus) and the amount of funds expended from the date of admission to the ASX to quarter-end, being 11 February 2022 to 30 June 2023. The funds raised during the IPO have been fully utilised and new capital was raised in Q4 FY 2023:

	Allocated amounts A\$	Utilised amounts A\$	Comments
Sources of funds			
Existing cash reserves	1,578,856	1,578,856	
Gross proceeds from IPO	7,484,255	7,484,255	
Anticipated R&D Tax incentive refunds	1,800,912	1,867,317	
Uses of funds			
Net exploration expenditure	(4,314,794)	(3,662,703)	
Technology & Services	(3,518,890)	(3,602,997)	Fully utilised
Corporate administration	(1,830,649)	(2,532,216)	Fully utilised
Expenses of the offer	(996,055)	(1,014,300)	Fully utilised
Working capital	(203,635)	267,290	
Funds outstanding	-	385,501	

Other

The Appendix 5B for the quarter ended 30 June 2023 provides an overview of the Company's financial activities. Exploration expenditure (including both capitalised and non-capitalised exploration expenditure) totalled \$0.21m. Technology development costs of \$1.185m were incurred in relation to development of the technology platform

including a one-off investment of \$0.39m, further costs were attributed to the continued expansion of the Company's Data Cube. Other cash outflows included corporate staff costs of \$0.36m and corporate and administration costs of \$0.36m offset by receipts from clients and grants of \$1.51m.

Payments to related parties of SensOre included in cash flows from operating activities amounted to \$0.159m as per item 6.1 of Appendix 5B. No payments were made to associates of related parties. Non-executive director elected to replace cash director fees with performance rights for a period, as a result no director fees were paid during the quarter ended 30 June 2023.

Capital structure

The Company's capital structure as at quarter end is set out below:

Class	Number
Fully paid ordinary shares ¹	77,778,588
Broker Options ¹	2,068,410
Advisor Options ¹	2,000,000
Performance Rights ²	6,498,251

- For further information see Pre quotation disclosure announced to the ASX 9 February 2022.
As announced during the quarter, the Company issued 4,000,000 ordinary shares under the recent placement, raising \$1.00m. In addition, the Company issued 2,194,000 ordinary shares under the Share Placement Plan, raising \$0.548m. The Share Purchase Plan shortfall of 1,600,000 ordinary shares was placed with an exploration services provider for services to be rendered.
- In accordance with its Long-Term Incentive Plan, the Company intends to offer performance rights to executives and employees with an effective grant date of 1 March 2023. It is expected that approximately 2,259,252 performance rights will be issued under the plan to eligible participants following the 2023 AGM.

Upcoming Activity and Milestones¹

SensOre has a busy period of activity ahead across its Technology, Services and Exploration divisions, as summarised below:

Technology	Period
SensOre Data platform commercial	Q3 CY23
Data platform expansion (NT, QLD)	Q4 CY23
Data platform expansion remaining states (VIC, TAS)	Q2 CY24
Services	
Barton Gold, Central Gawler Au Phase 2	Q3 CY23
Multiple commodity and multi-client targeting in Western Australia	Q4 CY23
NSW lithium field tests results	Q3 CY23
Exploration	
Lithium drilling WA (EXAI Deutsche Rohstoff)	Q4 CY23
Auralia (Chalice JV) drilling (nickel)	Q3 CY23
Moonera results (copper)	Q4 CY23

- Activities and milestones as well as corresponding periods are subject to change.

This announcement was approved and authorised for release by the Board of Directors of SensOre Ltd.

About SensOre

SensOre aims to become the top performing minerals targeting company in the world through the deployment of AI and machine learning (ML) technologies, specifically its Discriminant Predictive Targeting® (DPT®) workflow. SensOre collects all available geological information in a terrane and places it in a multidimensional hypercube or data cube. SensOre's big data approach allows DPT predictive analytics to accurately predict known endowment and generate targets for further discovery.

The SensOre Group has built a tenement portfolio of highly prospective, wholly-owned and joint ventured technology metals tenement packages located in Western Australia. As the capacity of SensOre's AI technologies expand to new terranes and a broader range of commodities, the Company anticipates that new targets will be identified and acquired in Australia and internationally.

SensOre's DPT technology has been developed over many years and involves the application of new computer assisted statistical approaches and ML techniques across the workflow of mineral exploration. The workflow includes data acquisition, data processing, ML training, ML prediction and analysis through DPT. SensOre has acquired numerous data sets and used these to generate mineral system targets. Targets have been analysed and vetted by SensOre's experienced exploration geoscientists. Publicly available data in the form of geophysics, surface geochemical, drilling and geological layers and derivatives have been compiled into a massive data cube covering much of Western Australia. SensOre believes that the combination of big data and ML techniques will provide the next generation of exploration discovery.

Competent person's statement

The information in this announcement that relates to Exploration Results and Mineral Resources is based on information compiled by Robert Rowe, a Competent Person who is a Member of The Australasian Institute of Mining and Metallurgy (AusIMM) and is a Registered Professional Geoscientist in the field of Mineral Exploration with the Australian Institute of Geoscientists. Mr Rowe is a full-time employee and the Chief Operating Officer of SensOre. Mr Rowe has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the *Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves*. Mr Rowe consents to the inclusion in this announcement of the matters based on his information in the form and context in which it appears.

Forward-looking statements

This announcement contains or may contain certain 'forward-looking statements' and comments about future events, including in relation to SensOre's business, plans and strategies and expected trends in the industry in which SensOre currently operates. Forward-looking statements involve inherent risks, assumptions and uncertainties, both general and specific, and there is a risk that such predictions, forecasts, projections and other forward-looking statements will not be achieved. Forward looking statements are based on SensOre's good faith assumptions as to the financial, market, regulatory and other relevant environments that will exist and affect the Company's business and operations in the future. A number of important factors could cause SensOre's actual results to differ materially from the plans, objectives, expectations, estimates, targets and intentions expressed in such forward-looking statements, and many of these factors are beyond SensOre's control. Forward-looking statements may prove to be incorrect, and circumstances may change, and the contents of this announcement may become outdated as a result. SensOre does not give any assurance that the assumptions will prove to be correct. Readers should note that any past performance is given for illustrative purposes only and should not be relied on as (and is not) an indication of the Company's views on its future financial performance or condition. Past performance of the Company cannot be relied on as an indicator of (and provides no guidance as to) future performance including future share price performance. Except as required by law or regulation, SensOre undertakes no obligation to provide any additional or updated information whether as a result of new information, future events or results or otherwise. Nothing in this announcement should be construed as either an offer to sell or a solicitation to buy or sell SensOre securities.

For personal use only

Mining exploration entity or oil and gas exploration entity quarterly cash flow report

Note: if any amounts are shown in items 6.1 or 6.2, your quarterly activity report must include a description of, and an explanation for, such payments.

Payments to related parties and their associates are wages, salaries and associated superannuation for executive directors of the Company.

No other payments were made to related parties.

7.	1.9 Financing facilities <i>Note: the term "facility" includes all forms of financing arrangements available to the entity.</i>	Total facility amount at quarter end \$'000	Amount drawn at quarter end \$'000
	1.10 <i>Add notes as necessary for an understanding of the sources of finance available to the entity.</i>		
7.1	Loan facilities	320	320
7.2	Credit standby arrangements	-	-
7.3	Other (please specify)	-	-
7.4	Total financing facilities	320	320
7.5	Unused financing facilities available at quarter end		-
7.6	<p>Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.</p> <p>Repayment of borrowings stated in item 3.6 above relates to repayment of insurance premium funding and payment of the Company's operating lease obligations on its corporate offices. These borrowings don't represent a 'financing facility available' to SensOre and are therefore not included in items 7.1, 7.2 or 7.3 above.</p> <p>On 24 February 2023, SensOre Ltd executed an R&D Tax Incentive financing arrangement with the RH Capital Finance Co. LLC for \$320,000. The amount of \$320,000 was drawn-down from this facility on 1 March 2023. The facility has a minimum term of at least 91 days, post this period the term will be the earlier of SensOre Ltd deciding to repay the facility or the June 2023 R&D Tax Incentive claim being finalised and funds received from the Australian Taxation Office, as part of the lodgement of SensOre Ltd 2023 Income Tax Return. Interest rate on the facility will be 16% per annum with a \$500 establishment fee.</p>

Mining exploration entity or oil and gas exploration entity quarterly cash flow report

8.	1.11 Estimated cash available for future operating activities	\$/000
8.1	Net cash from / (used in) operating activities (item 1.9)	(616)
8.2	Payments for exploration & evaluation classified as investing activities (item 2.1(d))	(5)
8.3	Total relevant outgoings (item 8.1 + item 8.2)	(621)
8.4	Cash and cash equivalents at quarter end (item 4.6)	1,881
8.5	Unused finance facilities available at quarter end (item 7.5)	-
8.6	Total available funding (item 8.4 + item 8.5)	1,881
8.7	Estimated quarters of funding available (item 8.6 divided by item 8.3)	3.0
	<i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i>	
8.8	If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1	Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
	Answer:	
	SensOre group expects to continue to have the current level of net operating cash flows.	
8.8.2	Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
	Answer:	
	During the June 2023 quarter the Company successfully raised A\$1.00 million via a placement and an additional A\$0.55 million in the Share Purchase Plan (SPP). As disclosed in the quarterly activities report for 30 June 2023, the recent quarterly sales revenue has been impacted by seasonality and timing of payments. The June and September quarters are historically the strongest for sales revenue, the company also has trade receivables of \$1.08 million at 30 June 2023, with cash receipts to be received in the next quarter. The Company also has ability to finance more of its expected R&D Tax Incentive refund, having financed \$0.320m to date, with an R&D Tax Incentive refund anticipated to similar to prior year of \$1.87m.	
8.8.3	Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?	
	Answer:	
	The Company expects to be able to continue its operations and to meet its business objectives.	
	<i>Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.</i>	

1.12 Compliance statement

- 2 This statement gives a true and fair view of the matters disclosed.

Date: 28 July 2023

Authorised by: By the Disclosure Committee

(Name of body or officer authorising release – see note 4)

1.13 Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
