## APPENDIX 4E AND PRELIMINARY FINAL REPORT FOR THE YEAR ENDED 30 JUNE 2023

## COMMENTARY ON RESULTS

#### **Financial results**

FFI Holdings Limited (the Company) has reported a net profit before tax of \$2.33 million for the year ended 30 June 2023. The results are in line with previously notified profit guidance.

The net profit before tax for the previous corresponding period was \$1.63 million.

The expected improvement in the result reflects the success of a number of initiatives the Company undertook during the year to improve profitability and address the issues that negatively impacted profit in recent times.

All the improvements were achieved in the last half of the financial year. The Company's management team is continuing to focus on these initiatives and the profit results are expected to continue to improve during the next financial year.

The result was achieved on revenue of \$46.8 million, up 25.8% on the previous corresponding year.

The Company continues to be in a very strong financial position with net assets of \$44.2 million (representing net tangible asset backing of \$4.05 per share).

#### **Food operations**

The year under review, particularly the first half, proved to be an extremely difficult trading period for the Company. Significant increases in many of the Company's major input costs, including raw materials, freight and labour, negatively impacted the Company's profit margins.

During the year the Company's management team continued to work with suppliers and customers in order to improve profit margins and minimise the effects from supply chain disruptions.

Despite the difficult market conditions sales revenue from the Company's food operations increased by 26.3% to \$45.4 million.

#### **Property Investment**

The Company has continued to enjoy strong growth in earnings from property investments. Rent received from the Company's investment properties increased by 8.7% to \$1.36 million for the year.

During the year under review the Company commenced development of a further 2,620 square meters of the vacant land held for investment purposes. As at 30 June 2023 the capital invested in the new development totalled \$0.45 million. The development will be completed early in the 2024 financial year and the final cost is expected to be approximately \$0.6 million. The annualised rental income from the new development will be \$0.14 million and will commence in August 2023.

The asset values for the Company's investment properties as at 30 June 2023 of \$20.9 million, excluding the cost incurred during the year on the new property development referred to above, remain unchanged from the valuations used in the 30 June 2022 annual accounts.

## Dividend

Directors have resolved to pay a final dividend of 10.0 cents per share, fully franked.

The Directors are aware of the importance many shareholder place on dividend returns and will remain focused on returning to dividend growth.

## APPENDIX 4E AND PRELIMINARY FINAL REPORT FOR THE YEAR ENDED 30 JUNE 2023

# Outlook

The Company's management team remains focused on addressing the issues that have affected profit margins and managing the supply chain challenges that the industry has experienced in recent years.

The Company's growth strategy remains unchanged. Driving growth by leveraging off its diverse manufacturing capabilities and customer network, whilst maintaining a competitive cost base for its operations, should enhance shareholder returns from food operations. In addition, the Company's long term strategy of maximising the capital value of its property investments and generating a cash flow from this valuable asset continues to progress well.
