Project Portfolio

With projects in Canada and Serbia, Balkan Mining is poised to meet the global lithium demand in two of the world's largest markets.

Balkan Mining is focused on the exploration of highly prospective lithium projects across Canada and Serbia. The advancement of these projects to support the electric vehicle revolution by building a global supply of lithium for the North American & European markets.

Canadian Lithium Opportunity

Significant lithium portfolio covering ~140km² with projects located in highly prospective regions of Ontario & Quebec.

Interests in ~120km² in Northwestern Ontario and ~22km² in Quebec

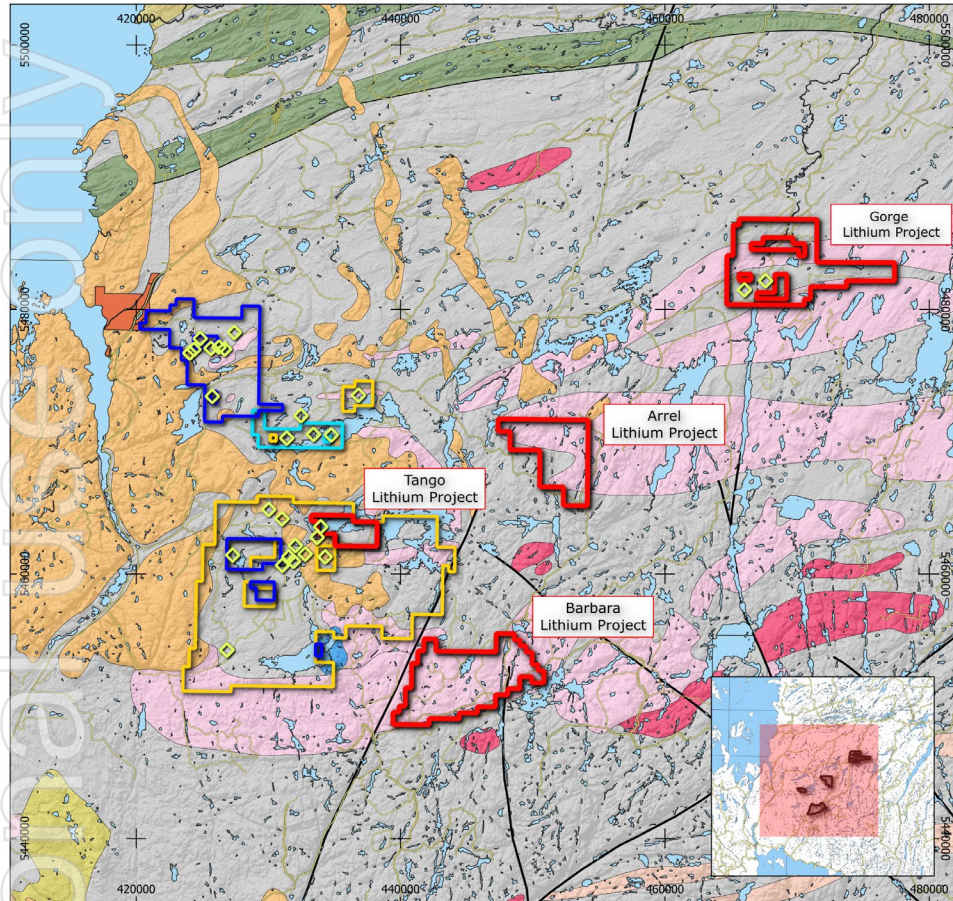

Lithium first discovered by the Ontario Lithium Company in 1956

Gorge Project is fully permitted and drill ready

Ontario Lithium Portfolio

In total, Balkan Mining has interests in ~120km² in Ontario, a Tier 1 jurisdiction, proximity to infrastructure. Portfolio is largely underexplored, supported by recent work programs.

Ontario projects in 40km proximity

Region is well located to infrastructure

Thunder Bay is an established mining district

Gorge Project

MAP DATE 2023-08-10
GORGE LITHIUM PROJECT
TOPOGRAPHIC MAP
Balkan Mining and Minerals Limited
ONTARIO

Final drill planning and mobilisation activities underway. Being designed to systematically test outcropping targets at Koshman & Nelson. Drilling to be stepped out to test the presence of spodumene pegmatites at the depth across 2.6km of identified prospective trend strike identified from the Company's recent soil sampling program.¹

Farm-in secured in July 2022, with additional claims added in November 2022

Channel sampling returned 1.8m at 3.75% Li₂O and 6.8% from rock chip samples²

Permitted and drill ready

1. Refer ASX announcement 19 July 2023. 2. Refer ASX announcements dated 28 September 2022 & 16 December 2022

Gorge Project

Map showing target prioritisation

Strong Soil Assay Results defined targets at Gorge Lithium Project.

Identified ~2.6 km of trend strike prospective for lithium bearing pegmatites¹

A total of 651 samples were collected covering an area of 5 km²

Drilling contractor appointed, final planning and mobilisation underway

¹. Refer ASX announcement 19 July 2023

Ontario Lithium Projects

BMM's Ontario Projects Location Map

The wider project area is home to Rock Tech Lithium Inc's Georgia Lake project (TSX-V: RCK), Separation Rapids Lithium (TSX: AVL) and Seymour Lake Lithium Project (ASX: GT1). The portfolio comprises four exploration projects covering together over 120 km² of prospective ground.

The Arrel Project, covers 27.1 km² or 2.71 kha between the Gorge and Tango projects. It is along the same trend as Gorge and Tango.

The Tango Project was Balkan's second project (under option) in Canada. It covers 8.64 km² or 864 ha to the southwest of the Arrel project.

The Barbara Project is located in the central portion of the Barbara Lake Area and encompasses the southwestern part of Georgia Lake covering a further ~42km²

Corvette N/NW Projects

Corvette North & Northwest Projects Location Map

Projects are located in northern Quebec within the central parts of the La Grande Greenstone Belt in the James Bay Region of Quebec

Projects represents an entry to Quebec

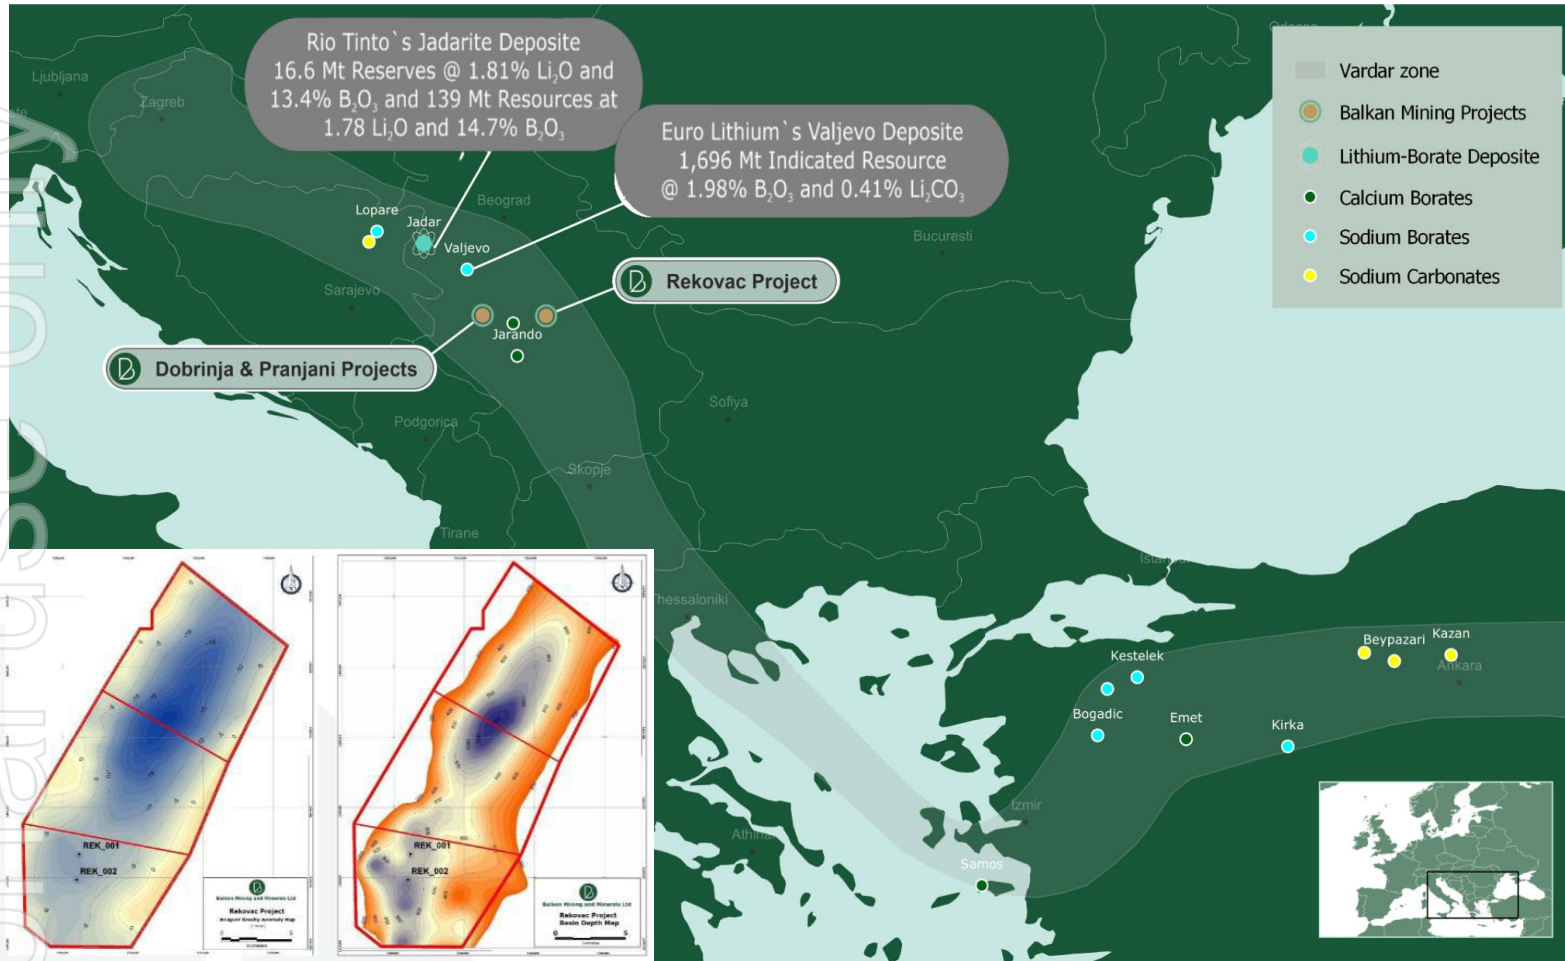

Proximal to notable existing lithium deposits

Plan underway for surface exploration program

Serbian Asset Portfolio

Rekovac project exhibits a very similar geological setting to a number of lithium-boron deposits along the Vardar zone.

Rekovac project land area comprises of 273km²

First drilled in 2020, included 2 diamond holes (1,238m)

Target remains open along strike as well at depth

Rekovac project terrain corrected Complete Bouguer gravity image contoured at 1m Gal (left) and computed basin depth image contoured at 50m (right).
