

FY23 Result

Bravura Solutions Limited (ASX:BVS) (Bravura) has today announced its full-year results for the period ended 30 June

FY23 Operating results

- Achieved guidance across all metrics with a significant closing cash balance
- Results impacted by revenue headwinds and cost increases
- Total revenue declined 6.4% in FY23 vs the pcp, driven by:
 - Wealth Management: Less project work and upgrades 0
 - o Funds Administration: Ending of FA contract previously communicated
 - Operating expenses rose from \$221.3m to \$257.7m in FY23 driven by:
 - o Increased head count as a result of meeting customer obligations and anticipated wins in pipeline that did not materialise.
 - o Increase in overhead costs.
 - Costs associated with cloud migration.
 - Operating EBITDA declined \$53.4m, from \$45.3m in the pcp to (\$8.1m).
- Impairment and Non-recurring items of \$257.7m¹
- Adjusted NPAT of (\$23.1m) represents a \$48.8m decline vs the pcp figure of \$25.7m
- No dividend was declared for FY23, per the Board's decision to suspend dividends until the company returns to generating significant free cash flow

Turnaround Plan

- Bravura's trading performance has driven the requirement and urgency for change. This has resulted in a new CEO, Chair and refreshed board joining Bravura in 2HFY23
- Bravura Solutions remains a strong business with market leading technology, world class customers and talented staff. FY23 was a year of underperformance and great disappointment for shareholders, and the Company acknowledges it will take time to rebuild trust.
- Following the \$80m capital raised in March, the business is well capitalised. Furthermore, cash burn has reduced in Q4 following tighter expense focus by management.
- The Organisational Change Program, communicated during 1HFY23, will be completed ahead of schedule, by June 2024
 - o Total expected annualised savings \$40m
 - Cost to achieve: \$27.8m
 - o Full year impact in FY25

Commenting on the group performance, Mr Russell, Group Chief Executive Officer said:

"Bravura remains a very good business with great technology customers and people. We are fully committed to rebuilding trust and value to shareholders and customers."

Outlook

- Our plan is to achieve positive Cash EBITDA run rate by the end of FY24 with a cash burn of \$30-35m in FY24. Including circa \$24m of restructuring costs.
- Bravura is now well capitalised and has the leadership capability to implement the change required to restore
 value for shareholders and customers
 - We will present a 3 year strategic plan in late October 2023 which will outline a strategic pathway for improved earnings performance, profitability and product and customer focus. We will also provide FY24 guidance at that time.
