The Company believes this non-IFRS and operational measure is useful in monitoring and understanding the Group's business and they should not be considered in isolation nor as a substitute for IFRS measures.*

*Ordinary shares*

Ordinary shares entitle the holder to participate in dividends, when declared and the proceeds on the winding up of the Company in proportion to the number of and amounts paid on the shares held. The fully paid ordinary shares have no par value and the Company does not have a limited amount of authorised capital.

On a show of hands every member present at a meeting in person or by proxy shall have one vote and upon a poll each share shall have one vote.

*Share buy-back*

There is no current on-market share buy-back.

*Capital risk management*

The Group's objectives when managing capital is to safeguard its ability to continue as a going concern, so that it can provide returns for shareholders and benefits for other stakeholders and to maintain an optimum capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

The Group would look to raise capital when an opportunity to invest in a business or company was seen as value adding relative to the current company's share price at the time of the investment.

**Note 10. Contingent liabilities**

Deposits under non-current assets are refundable collateral held on application of the Visa issuing licence and Currency Cloud float. The conditions in place for the deposits are relating to a) the Visa partnership; b) the Currency Cloud float; and c) Visa collateral.

Programs managed under the Novatti Visa licence requires Novatti clients to maintain 6 days float in accounts held by Novatti for the client. Where a client's business model fails, their float is held by Novatti and is used to settle outstanding card payments. In the unlikely event that the client funds fall short of clearing their outstanding Visa settlements, the cash on deposit will be used for the shortfall. The Currency Cloud float enables expedient payments. Where the client does not forward the balance of the funds for cross-border payments, Novatti is at risk of the unpaid balance of that transaction.

The consolidated entity had no other contingent liabilities as at 30 June 2023 and 30 June 2022.

**Note 11. Events after the reporting period**

No matter or circumstance has arisen since 30 June 2023 that has significantly affected, or may significantly affect the consolidated entity's operations, the results of those operations, or the consolidated entity's state of affairs in future financial years.
