Appointment of Chief Executive Officer

Oceana Lithium Limited (ASX: OCN, “Oceana” or “Company”) is pleased to announce the appointment of Mr Caue Araujo as Chief Executive Officer, effective from 11 September 2023.

Caue is a qualified Australian-Brazilian geologist and an experienced mining industry professional. Following his early training with Vale in Brazil his subsequent roles have included General Manager of SRK Consulting Brazil, Regional Director of Investment and Business Planning at Hatch for Australia and Asia and more recently Global General Manager – Mine Finance with mining industry advisory group Palaris Australia. He has a strong aptitude for the technical and economic evaluation of mineral resource projects, having been involved in the development of numerous projects during his career working with finance providers and equity investors including emerging lithium miners and mine gate concentrate producers.

Caue is a member of the Australasian Institute of Mining & Metallurgy (AusIMM), the Australian Institute of Company Directors (AICD) and has an MBA (Project Management, Business and Finance) from Ibmecc University, Brazil. Through his diverse experience, Caue has refined his abilities to lead and manage multi-disciplinary teams. He is well acquainted with the key chemical companies, battery producers and EV manufacturers’ supply chain and their requirements to secure environmentally responsible long-term sources of lithium supply.

Chairman, Gino Vitale commented:

“Oceana is delighted to have attracted Caue Araujo as CEO at this stage of the Company’s development. Caue brings both critical minerals industry experience, broader corporate leadership skills and extensive international experience, and will be based in Perth. The Board and I look forward to working closely with Caue to create shareholder value through continued development of Oceana’s exploration assets and value accretive project expansion opportunities.

Details of Mr Araujo’s compensation package are set out in the Annexure.

With the appointment of a new CEO, Mr Vitale will resume his role as the Company’s non-executive Chairman in October after a brief handover.

This release has been authorised by the Board of Oceana Lithium Ltd.

ABOUT OCEANA LITHIUM

Oceana Lithium Limited (ASX: OCN) is a mineral exploration and development company with advanced and early-stage lithium exploration projects in prime mining jurisdictions in Brazil, Canada and the Northern Territory, Australia.

Oceana's Chief Executive is Brazilian born and educated Caue Araujo who has wide industry experience in mining project development, including critical minerals. Having had his early training as a geologist with Vale in Brazil, Caue has a practical understanding of local operating conditions including social and cultural sensitivities and corporate and compliance challenges that must be respected to successfully operate in Brazil. The Company's exploration effort is led and co-ordinated by Senior Exploration Geologist James Abson, with experienced in-country geologists Renato Braz Suez, heading up the team in Brazil, and Uwe Naeher in Canada. Non-Executive Director Simon Mottram, a widely experienced geologist resident in Brazil who is also fluent in Portuguese, provides additional local knowledge and support to the Company's Brazil exploration team. Non-Executive Director Dr Qingtao Zeng provides oversight of the Company's exploration effort at the Napperby project in the Northern Territory. The Board is rounded out by Chair Mr Gino Vitale who has over 30 years of international mining, project development and corporate management experience across a number of commodities.

With the acquisition of an option to acquire the Monaro Lithium Project in James Bay, Québec (refer ASX announcement of 5 July, 2023), Oceana is uniquely placed to provide shareholders with significant exploration upside in three Tier 1 jurisdictions, with exposure to two very attractive lithium projects that are strategically located in Brazil and Canada to potentially feed the growing North American battery metal and EV markets, as well as exposure to a high-quality lithium-rare earths exploration play in Australia.
