PORTFOLIO COMMENTARY

The Portfolio was up 0.5% for the month, on a gross basis, after investment management fees and brokerage but before performance fees and corporate expenses, compared to a decline of 0.7% for the All Ordinaries Accumulation Index.

The largest contributors to performance were Coventry Group Ltd (CYG) (+0.5%), BCI Minerals Ltd (BCI) (+0.4%) and Joyce Corporation Ltd (JYC) (+0.4%). These were partially offset by A2B Australia Ltd (A2B) (-0.5%) and Yellow Brick Road Holdings Ltd (YBR) (-0.3%).

August is the most important month of the year as the majority of our portfolio companies release their full year accounts. This provides us an opportunity to analyse the operational and financial performance of our investments and allows the market to focus on fundamentals rather than speculating on possibilities, which is what typically occurs in between reporting periods.

Overall, the operational and financial results reported by our companies were within our expectations and an improvement on the previous year. Those companies that had demonstrated consistent earnings growth over the previous years continued on that trajectory. Encouragingly, a number of companies that have been dealing with legacy issues have put those behind them, and look set to reward us with improved operating and financial performance going forward. We continue to uncover a number of interesting opportunities in the market with which to deploy our existing cash as well as the dividends we expect to receive over the next two months.

Before the next monthly NTA announcement, we intend to provide an update that will discuss in more detail the recent reported results of our largest investments.

DIVIDENDS

SNC's FY23 final dividend of 2.75cps will be paid on 8 November 2023. The Board anticipates paying an interim dividend for FY24 of 2.75cps, provided the Company has sufficient profit reserves, franking credits and it is within prudent business practice.
