Bob Alexander
Chairman,
Non-Executive Director

“Whilst our performance in FY23 was robust, we believe we can do more as a business to penetrate the large addressable market for our products and we have taken decisive action to increase our ability to capture that upside.”

Letter from the Chairman

Dear Shareholders,

On behalf of your Board of Directors, I am pleased to present Skyfii’s annual report for the financial year ending 30 June 2023 (FY23). This is my first annual report as Chair of Skyfii and I am excited by the opportunities ahead for our business.

During FY23 the Company continued to grow its customer footprint, securing over \$15.8 million in new Total Contract Value via a range of contracts with quality customers such as London Heathrow Airport, JFK International Airport, The Hajj and many more. Our ability to evolve our solution offering to provide valuable operational data analytics to help drive operating efficiencies, improve people throughput and increase revenue opportunities for our clients continues to drive increased demand for our technology.

Our FY23 financial performance was in line with the bottom end of our guidance range, delivering a positive EBITDA in the second half of the financial year, with approximately \$1 million in cash inflow from operations (before interest and tax) for the full year. This compared to an outflow of \$1.8 million in the prior year. We exited FY23 with Annualised Recurring Revenue (ARR) of \$17 million.

Whilst our performance in FY23 was robust, we believe we can do more as a business to penetrate the large addressable market for our products and we have taken decisive action to increase our ability to capture that upside. During the year, we refreshed our Board, undertook a strategic review and implemented a plan to ensure that we have the right people, skill sets and organisational discipline to fast-track the growth of our Company and deliver improved shareholder returns.

For personal use only

Strategic Review

During the financial year, the Board undertook a strategic review implementing an operating model transformation to take advantage of the opportunities in our core verticals of travel hubs, quick service retail (QSR), retail and commercial property. We also reviewed our internal business to reset our operating costs and achieve greater efficiencies to generate improved and sustainable positive cash flows. The strategic review will continue to ensure we have the right people, in the right regions, targeting the right opportunities in our core end verticals to execute on the large global market opportunities for our solutions. Our initiatives to drive a more focused cost base will ensure these endeavours can be ultimately funded from internal cashflow. The combination of these initiatives will drive ARR growth in FY24 delivering operating leverage to generate earnings and sustainable free cash flow.

CEO Transition

As part of the strategic review process, the Board identified that the timing was right to transition the leadership of Skyfii to an individual with the expertise to execute the identified strategy and business transformation. As a result, Wayne Arthur decided to step down as CEO and as a member of the Board of Directors. On behalf of the Board, I would like to

thank Wayne for successfully leading Skyfii from the start-up phase, a successful IPO and a period of significant growth to scale to a company that currently engages with over 15,000 venues across 35 countries.

As part of the transition process, the Board has appointed Antony Karp as interim CEO. Antony brings a wealth of experience to our Company. His critical skills in business transformation, senior executive experience, leadership and knowledge of our business will allow us to fast-track the implementation of our strategic review and execute on capturing the significant growth opportunities within the markets our Company operates in. Whilst an excellent CEO candidate, in the interest of good governance, the Board has commenced an external search, which will include Antony.

Board Refresh

As Skyfii continues to grow our global footprint, the strengthening of the Company's Board ensures the right skill set, diversity of experience and corporate governance capabilities are in place to successfully execute our strategy. The appointment of Mark Devadason as a non-executive Director early in FY23 delivered a diverse background in banking, finance and sustainability. Mark's skill set complements our other non-executive director Kirsty Rankin, who brings a deep skillset in data driven marketing and

For personal use only

scaling businesses globally. The Board is further enhanced by executive director, John Rankin, whose vast experience of our business and customers ensure we retain the right balance of executive and non-executive experience.

I was honoured to be appointed to the Chair in December 2022 when the Company's long-term Chair, Andrew Johnson announced his intention to retire. On behalf of the Board and all of Skyfii, I would like to thank Andrew for his commitment and dedication to our Company. I would also like to take this opportunity to thank Sue O'Malley, who stepped down as a non-executive director at the 2022 AGM for her contribution as well.

Listening to our shareholders

At the past two Annual General Meetings, over 25% of the votes cast were against the resolution to adopt the remuneration report. The Board has listened to our shareholders and during FY23 engaged an external remuneration specialist to review the Company's executive remuneration framework. The review includes a benchmarking analysis against our local and global peers as well as a review of Skyfii's short-term and long-term incentive plan. The report is well advanced and is anticipated to be completed and proposed to the Board of Skyfii by the end of the calendar year. Furthermore, I would like to highlight that the non-cash share-based expense of \$2.6 million in FY23 relates to the employee share plan and employee option grants from the 2018 to 2022 calendar years. The granting of shares and options and expensing of these amounts under these plans is now largely complete, with an amount of \$100k to be expensed in the 2024 year.

With no executive share options granted to the executive team since December 2020, and the planned realignment of our remuneration structure, we will ensure that our management team are incentivised and rewarded in line with the Company's financial performance.

Outlook

The Board is confident that the strategic review will position Skyfii to be on track to achieve its goals and benefit from the significant pipeline of growth opportunities ahead. With a growing global footprint and significant addressable market, the Company is well-positioned to deliver its financial and operational objectives.

Looking ahead, Skyfii's priorities for FY24 include:

- Conversion of over \$35 million pipeline in qualified stage deals;
- Deliver operating cost savings in FY24 through transformation initiatives to drive sustainable free cash flow from the second half of FY24;
- Continue to invest in new product development, including AI capabilities;
- Accelerate marketing investments to drive improved conversion and increase market share; and
- Fast-track delivery of our digital-first product initiatives to drive ARR growth and operating leverage to generate substantial earnings and sustainable free cash flow.

We look forward to executing our focused strategy and achieving our growth ambitions while delivering value to our shareholders, customers, and partners.

I would like to take this opportunity to thank all of the staff at Skyfii for your dedication and hard work during FY23 and my fellow board members. Finally, I would like to thank our shareholders for your continued support, and I look forward to updating you on the progress of our business throughout the coming year.

Yours faithfully,

Bob Alexander
Chairman, Non-Executive Director

Review of Operations

Our Mission

Skyfii helps organisations activate the power of their data through technology & human ingenuity, to find new ways to optimise the spaces where we live, work, shop, travel & play.

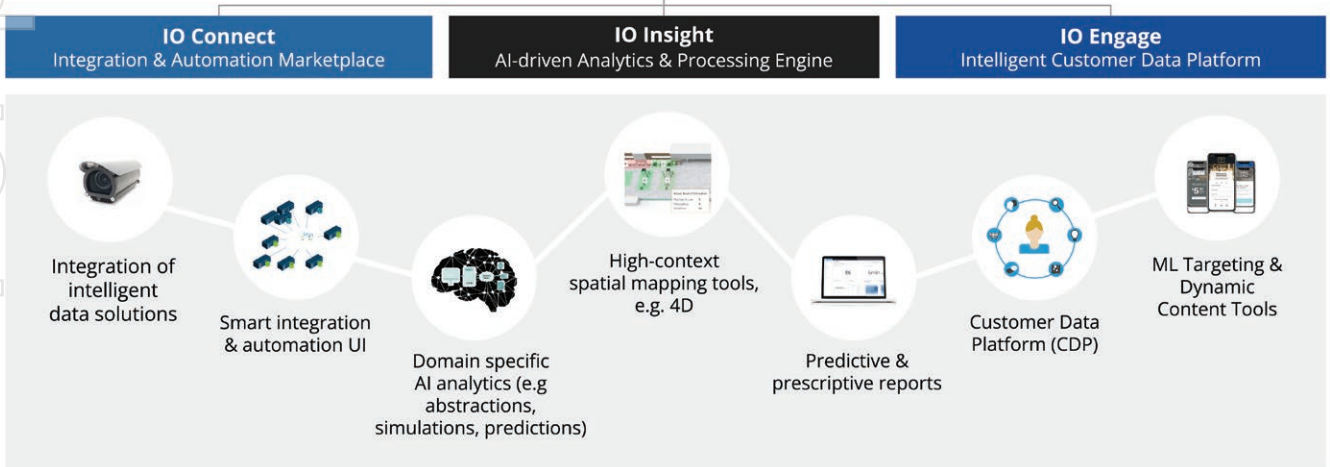

Our Vision

To be the world's most trusted partner for responsibly using technology and data to positively measure, manage and influence relationships between people, and the places they visit.

Skyfii's cloud hosted data platform unifies your data points on one proprietary platform to give you the insights needed to solve the complex challenges of your present and future. Venues around the world benefit from the data and insights we collect, analyse and action to help the performance of our customers' operations.

Enabling the Future of Intelligent Places

The Platform

Our success as a business and the success of our customers is based on the following principles:

1. Right Data

More data does not always mean better outcomes.

Knowing what to look for and what to ignore is key. As practitioners of data, we start every customer engagement by identifying the right datasets to help solve the problem at hand.

Skyfii IO supports data collection and analysis from a growing number of data sources, many of which are already present within physical spaces today. This consolidation of data provides venues with the ability to build a holistic view of the visitor experience and the factors that influence it. The scope, scale and integrity of our data allows our customers to maximise their client engagement and satisfaction.

2. Intelligent Technology

The sheer volume and variety of data means that humans could not process it all on their own. We harness the power of machine learning and Artificial Intelligence, combined with intelligent devices to generate value from data faster.

Our SaaS cloud-based solution, the IO Platform, helps venues gather and visualise data, in order to measure, predict, and influence customer behaviour, thereby creating better experiences for their visitors and customers.

- **IO Connect** automates the collection, storage and processing of data from a wide variety of sources including; WiFi, Cameras, Video Analytics, CCTV, LiDAR, CRM systems, Surveys, BLE / Mobile Apps, Weather, POS / Sales, Point of Sale systems, & ERP / Accounting and Airport systems
 - **IO Insights** automates the reporting of data collected in real time providing tangible insights such as visitor counts, dwell time metrics, traffic flow analysis and sales conversion
 - **IO Engage** provides marketing and alerting tools to deliver & automate communications and content across a number of channels including; Email, SMS, Mobile Push, WiFi Captive Portal and OOH Digital Screens
 - **IO Labs** is a research and innovation environment where Skyfii's data science & strategy teams build the products of tomorrow and support more custom client needs
- Our **SaaS** product offering is modular, thereby allowing our customers the flexibility to 'start small' and grow with us.

3. Experienced and Highly Skilled Team

To interpret data correctly, you need access to best-in-class domain knowledge and analytical skills. Skyfii has a team of expert data scientists, engineers, and industry experts to guide and support our customers.

Our business offers more than just data. Skyfii's expert data scientists, strategists, and marketers develop customised solutions designed around your venue's unique needs. We service our customers in the following areas:

- Digital and Data Strategy
 - Data Science
 - Digital Marketing
 - Customer Success

Our people and technology ensure that our solutions are customised to allow physical venues to optimise the experience of the venue for their customers. We have assembled a highly experienced team in the fields of technology, machine learning, data, security, marketing, commercial and property. From the Board and Executive level through development, engineering, operations and accounts, we've built an ambitious, progressive, and agile culture.

Automation and Artificial Intelligence

We continue to develop our product foundations to deliver more efficiency and automation in user report configurability, integration of external hardware and systems and advanced customer data management capabilities. Skyfii is also expanding its data diversification capabilities to include:

- Airline operations to enable more airports solutions;
- Lower cost sensors to more efficiently scale across large portfolios;
- Data Management Platforms (DMP) solutions to support advertising revenue; and
- Social, survey and sentiment data sources.

Skyfii has been researching and developing AI solutions for venue operators for over six years. We utilise AI to develop new computer vision software for cameras and will continue to explore the use of AI for target verticals and new use cases. These AI solutions will enable Skyfii to drive revenue growth and reduce operating costs while improving health, safety and security. These initiatives will also allow Skyfii to accelerate ARR growth through more secure and efficient onboarding of customers via digital and physical data sets.

Security & Compliance

Data security and privacy continues to be at the core of our business and a top business priority. To prove our commitment to continuously evolving our security posture and capabilities, we have advanced our security initiatives to include:

- The design of a new Trust Center for building and maintaining customer trust through transparency
- Conducted an independent assessment for meeting the requirements of BS EN ISO/IEC 27001
- Achieved compliance with the Cloud Security Alliance STAR Level 1
- Expanded our cyber threat intelligence capabilities
- Implementing zero trust policies and a zero trust architecture to reduce the attack surface

We will continue to take all the necessary steps to ensure that security is embedded in our products and invest in people, processes and technologies required to protect our business. With the growing emergence of cyber threats across the world, we continue to advance our capabilities to protect against emerging security threats and the most advanced threat actors.

A persistent people centric security culture program is used to influence positive behavior across our entire organisation and we are constantly updating training methods to reflect the changing threat landscape.

In addition, we recognise that the obligations on Skyfii as a service provider represents more than just a commercial relationship

and extends to our ethical commitment pertaining to dealing with people's personal information. Skyfii products are centred around consumers and hence, privacy enabling features are embedded into our products.

Expanding our customer base across key verticals

During the financial year, Skyfii continued its strong track record of winning new customers and renewing contracts with existing customers across our key verticals.

Some notable contracts and partnerships converted during FY23 included:

Travel Hubs

Our queue management and passenger flow solutions allow airports to gain a complete view of passenger's movement through their venue, from curbside all the way to the gate, delivering insights that enhance the passenger experience and create efficiency in airport operations improving throughput.

During the financial year, the strong momentum in the airport continued with over \$8 million in new contracts secured. Some notable contracts included: JFK Airport (US), Aberdeen Airport (UK), Nashville International Airport (US), Istanbul International Airport (EMEA), London Heathrow Airport (UK), Detroit Metro International Airport (US), Newark International Airport (US).

Quick Service Retail (QSR)

Our solutions for the QSR market focuses upon service delivery & efficiency analysis and includes areas such as restaurant monitoring, drive thru optimisation and customer sentiment & satisfaction activities. The QSR vertical provides the opportunity for global scale and is an area that is growing in focus for Skyfii. Some notable contracts included:

Some notable contracts included: Nandos (UK), Nandos (UAE), Nandos (South Africa), Umoyo (South Africa) and McDonalds (UAE)

Retail and Commercial Property

Our traditional vertical of Retail and Commercial Property continues to deliver a strong pipeline of growth opportunities. Skyfii maintains a market leading position in the deployment of WiFi and and People Counting technologies for the purpose of collecting and analysing meaningful data with regards to operational performance. Our international recognised captive portal (Guest WiFi) remains the leading source of customer data for the retail property sector. Combined with our feature rich data insights and marketing tools, our customers are empowered to deliver targeted marketing and communication campaigns, triggered in real-time via email, SMS and in-app messaging.

Some notable contracts included: The Hajj (EMEA), The Oasis (APAC), Erina Fair Shopping Centre (APAC); Dapto Mall (APAC), National Gallery of Australia (APAC), Ashfield Mall (APAC), Central Park Mall (APAC), Victoria & Alfred Waterfront (South Africa), Rockefeller Centre NY (USA), Taubman Properties (USA).

Stadia

Skyfii's solutions allow sporting stadiums across the globe to optimise staffing, security, and operations to meet demand and improve customer experiences. Our people counting and data analytic tools proactively manage congestion by detecting when queue times cross a threshold and alert staff as to when queues need attention or redirection. Skyfii can also harness data gathered from fans during events to provide advertisers and sponsors an increase in their reach and frequency through retargeting after an event.

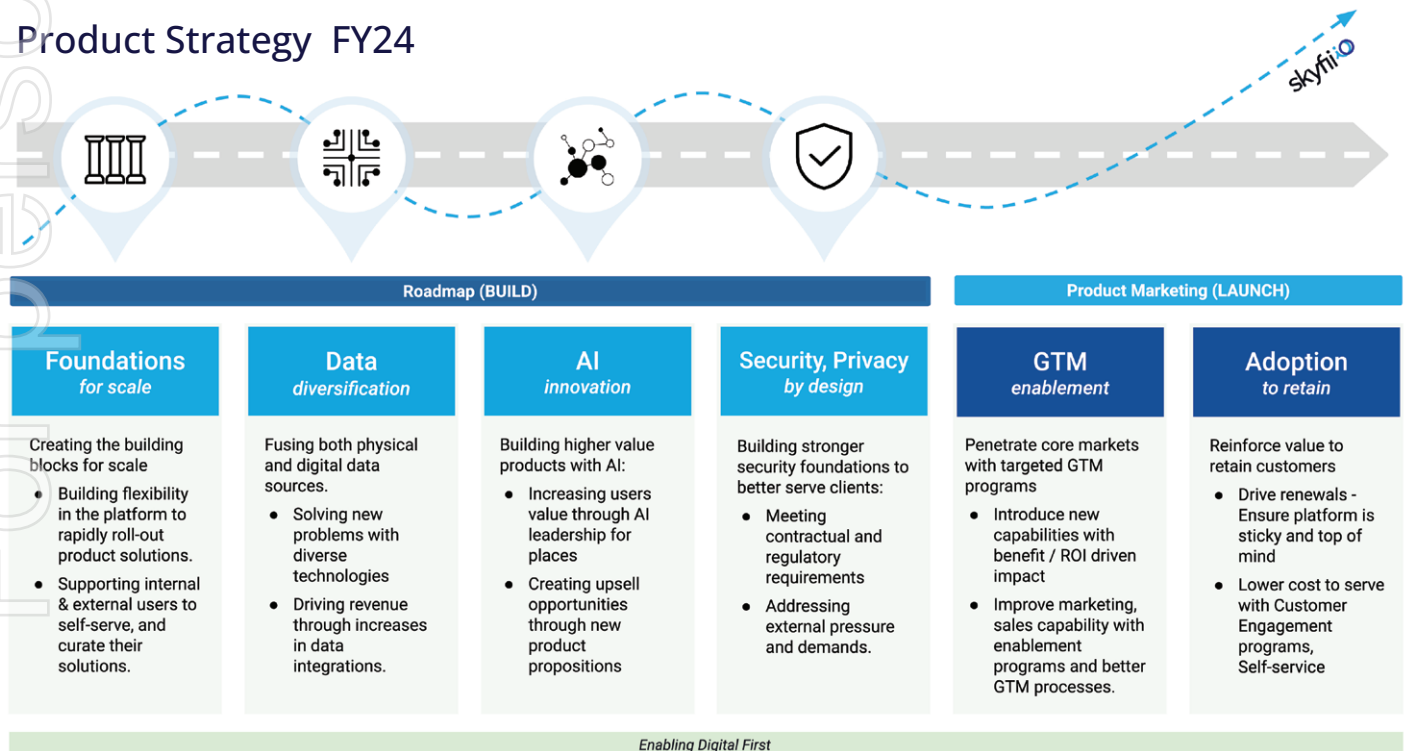

Some notable contracts executed in FY23 include Wembley Stadium London.

Product Strategy

Our product strategy for FY24 will focus on tools that take advantage of the flexible underlying data model to rapidly integrate and leverage a variety of data sources. Our AI models significantly benefit from having access to data points from multiple sources, leading to the development of new AI capabilities. In addition to multiple data points powering better algorithms, they also enable us to shift our pricing from a fixed linear model relative to singular data sources, to compound pricing that can grow over the lifetime of the customer.

This is further enhanced by our digital-first strategy, which enables customers to onboard faster with their digital data sources like loyalty, POS, social and Apps to address the typically longer sales and deployment cycles with physical data sources. We are investing more into product marketing to take our story to market, ensure good growth in new customers, and to also ensure we retain and upsell existing customers on new capabilities.

Product Strategy FY24

Overview of Financial Performance

Skyfii is a fast-growing business with a track record of delivering strong revenue growth which is a reflection of the growing adoption of our product and services. In FY23 the Company delivered total operating revenues of \$23.5 million. Recurring revenues for FY23 were \$15.9 million, representing a 9% increase compared to PCP. Skyfii exited FY23 with an Annualised Recurring Revenue of \$17 million. The strong growth and ongoing momentum place the Company in a solid financial position as FY24 begins.

Our product gross margin was 74% during FY23, while gross margin including cost of sales, account management, project and service delivery costs was 56% in FY23, compared to 58% in FY22.

FY23 EBITDA was a loss of \$1.67 million, however, Skyfii delivered positive underlying EBITDA of \$6k in the second half of the financial year, in line with guidance.

FY23 cash receipts were \$27.1 million up 15% versus FY22 levels of \$23.7m. FY23 net operating inflow was \$0.95 million driven by the uplift in cash receipts and working capital improvements.

Our churn rate remains low at less than 6% which reflects the strong client engagement and adoption of our technology.

We are entering FY24 with an operating model transformation and a restructure of our cost base, which will deliver greater efficiencies to generate improved and sustainable cash flows from 2HFY24.

Annual Performance Summary

	FY20	YoY	FY21	YoY	FY22	YoY	FY23	PCP
Total Operating Revenue	\$13.5m	+44%	\$15.9m	+18%	\$23.6m	+49%	\$23.5m	0%
Recurring Revenue	\$8.8m	+72%	\$11.3m	+27%	\$14.6m	+30%	\$15.9m	+9%
ARR	\$10.0m	+67%	\$14.0m	+40%	\$16.0m	+14%	\$17.0m	+6%
True Gross Margin¹	66%	-	64%	-	58%	-	56%	-
Churn	2%	-	4%	-	4%	-	6%	-

¹ True Gross Margin is inclusive of both cost of sales and project delivery team labour costs.

Deep and Strong Pipeline

Our 12 month rolling qualified pipeline remains very strong at approximately \$35 million¹. Currently, we have approximately \$4.6 million sitting in the final stages of contract negotiation² and committed³ and then a larger pool of just over \$4.6 million worth of deals in the client evaluation⁴ stage that are one stage back from being contracted. We note that these figures represent the rolling sales pipeline over the coming 12 months and not Total Contract Value (TCV), meaning specifically that these dollar amounts will fall into the following 12 months, if fully converted. It is also worth noting that:

- Approximately 66% of the opportunities in our 12 month rolling pipeline are deals in our international markets, so it is pleasing to see the offshore investments continuing to pay off
- We have successfully converted \$15.8 million in new contract (TCV) in FY23
- Finally, our core verticals of airports and retail properties make up around 71% of our qualified pipeline as at 30 June 2023, which is pleasing given our focus on core verticals

Capital Position

The Company maintained a strong balance sheet with a \$3.8 million cash balance as at 30 June 2023 (\$5.1 million at 30 June 2022).

The Company has maintained a loan facility of \$1.8 million from Export Finance Australia. The loan facility is a rolling 12-month agreement, with the next renewal date scheduled for 29 September 2023. Interest on the loan facility is payable quarterly, with a total annual interest rate of 10.39% on funds drawn down and 1.5% on funds undrawn. Under the terms of the facility, repayment of the loan amount is due within six months post the date of the drawdown. In the event of the facility's expiration, repayment of the loan amount is due within six months from the expiry date. The financial covenants include a minimum of \$3 million cash at bank balance including the loan facility and is assessed at the end of each quarter. The Company also has a short-term facility of \$250k. Both facilities are assisting with the cash management of large capital works projects in the international markets.

Skyfii has, and will continue, to engage with a range of stakeholders to ensure the Company retains its capital flexibility and security to execute upon its stated growth initiatives and broader corporate strategy.

¹ As at 31 August 2023

² Contract Negotiation - sales have firmed up pricing and issued it to the customer, the customer has provided an indication that they wish to proceed and we are in the process of negotiating the final commercial terms

³ Committed - the customer has committed to the commercial terms in writing but is not ready to be invoiced yet

⁴ Client Evaluation - a proof of concept, the customer understands the value proposition of the offering and is expressing interest to proceed but requires more time to evaluate or requires internal budget approval on the proposal before proceeding any further

12-Month Rolling Pipeline

Outlook

Specific areas of focus for Skyfii throughout FY24 include:

- Focus on core high-margin, high-growth verticals, specifically airports, stadiums, retail and quick-service restaurants
- Conversion of over \$35 million pipeline in qualified stage deals
- Deliver operating cost savings in FY24 through delivery of transformation initiatives to deliver sustainable free cash flow from 2H FY24
- Continued investment in new product development as outlined above, including strengthening our AI capabilities
- Accelerate marketing investments to improve conversion rates and increase market share
- Fast track delivery of our digital-first product initiatives to drive ARR growth in FY24 with operating leverage to generate substantial earnings and sustainable free cash flow

Directors' Report

Your Directors submit the financial report of Skyfii Limited (**Skyfii** or **the Company**) for the year ended 30 June 2023. In order to comply with the provisions of the Corporations Act 2001, the Directors report as follows.

Directors

The names and particulars of the Directors of the Company during or since the end of the financial year (**Directors**) are:

Name, independence status and qualifications

Experience, interests in shares, special responsibilities and other directorships

Robert (Bob) Alexander

*Independent Non-Executive
Chairperson from 31 December
2022*

*Independent Non-Executive
Director (appointed 1 July 2022)*

BComm(Merit).

- Mr Bob Alexander is an experienced "C" suite executive and ASX listed company director, having held several Non-Executive Director roles in the technology solution, intellectual property and digital media and advertising industries. Bob was a Non-Executive Director and Chairman of the Audit & Risk Committee for former ASX-listed software company, The Citadel Group Limited, as well as Xenith IP Group Limited and QMS Media Limited.
- Bob started his career with Ernst and Young and has worked both internationally and in Australia throughout his career, in the media, entertainment, publishing, professional services, fintech and not for profit sectors. He was a Chartered Accountant for over 30 years.
- Member (Chairperson) of the Remuneration and Nomination Sub-Committee and a member of the Audit and Risk Sub-Committee.
- Holds a relevant interest in 509,250 shares.
- No other listed company directorships.

Kirsty Rankin

*Independent
Non-Executive Director
(appointed 23 August 2021)*

BComm (Merit), MAICD

- Ms Rankin is an entrepreneur and visionary business leader with a track record of creating and executing innovative loyalty, customer engagement & marketing strategies that propel business results. She was the co-CEO of Pinpoint Pty Ltd, a 500 FTE Loyalty/Marketing company in Asia Pacific and led the company from start up to exit in 2014 with the acquisition of Pinpoint by Mastercard. Post acquisition she moved into a senior global executive role at Mastercard based in the US, where she created, delivered and managed innovative, state-of-the-art data driven products and services for merchants, banks, acquirers, and consumers. Her deep expertise in data driven insights, digital transformation, loyalty, customer engagement and new product development extends across multiple industries, organisations and geographies. She has a strong understanding of governance to balance the interests of stakeholders and significant expertise in data governance including data security, privacy, integrity, and database management. Her global network of contacts spans some of the largest, most innovative banks, fin tech companies and merchants.
- Member (Chairperson) of the Strategy Sub-Committee and a member of the Remuneration and Nomination Sub-Committee.
- Holds a relevant interest in 139,089 shares.
- Independent non-executive director for Flight Centre Travel Group (ASX:FLT)

Mark Devadason

*Independent
Non-Executive Director
(appointed 1 July 2022)*

B.Soc.Sci., MAICD

- Mr Devadason has more than 30 years of international banking and leadership experience across corporate, private banking and broad-based sustainability work. Mark is also a Non-Executive Director of Melbourne based mutual bank, Bank First and an executive coach and mentor with Stephenson Mansell Group.
- Member (Chairperson) of the Audit and Risk Sub-Committee and a member of the Remuneration and Nomination Sub-Committee.
- Holds a relevant interest of 135,000 shares.
- No other listed company directorships.

Name, independence status and qualifications

Experience, interests in shares, special responsibilities and other directorships

Wayne Arthur

*Chief Executive Officer/
Executive Director
(appointed 20 November 2014)*

BComm, GAICD

Mr Arthur, a co-founder of Skyfii, built a long standing career in the outdoor media sector in senior managerial roles for companies such as Titan Media Group, EYE Corp and Amity Media. His experience in these roles has spanned three international markets. Wayne serves as Skyfii's CEO and Executive Director and his responsibilities include setting and delivering Company strategy, leading International expansion, sourcing and leading negotiations on Company acquisitions, investor and shareholder relations, fund raising and leading our global executive team. Wayne has been permanently based in the United States since 2018 and is committed to leading the Company's growth in this region. Wayne is currently an attendee of the Harvard Business School OPM program and is due to graduate in 2023

- Member of the Audit and Risk Sub-Committee and member of the Strategy Sub-Committee.
- Holds a relevant interest in 18,651,213 shares and 9,582,160 EOP options.
- No other listed company directorships.

John Rankin

*Chief Operating Officer/
Executive Director
(appointed 23 August 2021)*

BBus, MBA, GAICD

• Mr Rankin, is Chief Operating Officer of the Company, having joined Skyfii in 2016. John has over 18 years' experience in the media and property industry, ten of which were spent in senior and executive leadership positions. Prior to joining Skyfii, John worked at GPT Group where he held two Director-level positions. Before GPT, John spent five years in the United Kingdom at out-of-home media company, oOh Media, as General Manager.

- Member of the Strategy Sub-Committee.
- Holds a relevant interest in 8,920,006 shares and 9,479,352 EOP options.
- No other listed company directorships

Koreen White

*Company Secretary
(appointed 4 August 2017)*

BBus(Acc), CPA Australia

• Ms White, has over 20 years' experience in listed and unlisted, Australian and US-based corporate entities having worked across the technology, media and telecommunications (TMT) sector.

- Holds a relevant interest in 5,691,395 shares and 1,867,377 EOP options.

Andrew Johnson

*Independent
Non-Executive Chairman
(resigned 31 December 2022)*

Susan O'Malley

*Independent
Non-Executive Chairman
(resigned 15 November 2022)*

Directors' Report continued

Meetings of Directors

During the financial year, 14 meetings of Directors were held. Other matters arising during the year were resolved by circulating resolutions. The following persons were Directors of the Company during the financial year, with attendance to meetings of Directors as follows:

	Directors' Meetings		Audit and Risk Sub-Committee Meetings		Nomination and Remuneration Sub-Committee Meetings	
	Eligible to attend	Attended	Eligible to attend	Attended	Eligible to attend	Attended
Robert Alexander	14	14	3	3	6	6
Kirsty Rankin	14	14	-	-	7	7
Mark Devadason	14	14	3	3	7	7
Wayne Arthur	14	14	3	2	-	-
John Rankin	14	14	-	-	-	-
Andrew Johnson	6	6	1	1	2	2
Susan O'Malley	5	5	1	1	2	2

Principal activities

The principal activity of the Group during the financial year was the provision of data analytics services.

Review of operations

The consolidated entity's loss attributable to equity holders of the Company, after providing for income tax, amounted to \$10,542,247 (2022 loss: \$11,087,809). Refer to the commentary in the Review of Operations.

Dividends paid or recommended

In respect of the financial year ended 30 June 2023, there have been no dividends paid or provided for (2022: nil).

Significant changes in state of affairs

There are no significant changes in the state of affairs of the parent entity occurred during the financial year.

Subsequent events

On 9 August 2023, the Company announced a CEO transition with Mr Wayne Arthur stepping down as CEO and Mr Antony Karp appointed as Interim CEO. The Board is undertaking a process to identify a full-time CEO, including both internal and external candidates.

There are no other matters or circumstances that have arisen since 30 June 2023 that have significantly affected, or may significantly affect:

- the Group's operations in future financial years, or
- the results of those operations in future financial years, or
- the Group's state of affairs in future financial affairs.

Future developments

Disclosure of information regarding likely developments in the operations of the consolidated entity in future financial years and the expected results of those operations is likely to result in unreasonable prejudice to the Company. Accordingly, this information has not been disclosed in this report.

Environmental regulations

The Group's operations are not involved in any activities that have a marked influence on the environment. As such, the Directors are not aware of any material issues affecting the Group or its compliance with the relevant environment agencies or regulatory authorities.

Indemnification of officers and auditors

During the financial year, the Company paid premiums based on normal commercial terms and conditions to insure all directors, officers and employees of the Group against claims brought against the individual while performing services for the Group. The premium paid has not been disclosed as it is subject to the confidentiality provisions of the insurance policy. Except as noted below, the Company has not otherwise, during or since the financial year, except to the extent permitted by law, indemnified or agreed to indemnify an officer or auditor of the Company or of any related body corporate against a liability incurred as such an officer or auditor.

The Company has previously entered into a Deed of Indemnity, Insurance and Access with each of its current Directors. The purpose of the Deed is to:

- confirm the indemnity provided by the Company in favour of Directors under the Company's Constitution;
- include an obligation upon the Company to maintain adequate Directors and Officers liability insurance; and
- confirm the right of access to certain documents under the Corporations Act.

Non-audit services

Amounts paid or payable to the auditor for non-audit services provided during the year by the auditor amounted to \$8,000 (2022: \$7,500).

The Directors are satisfied that the provision of non-audit services in the form of tax compliance services, during the year, by the auditor (or another person or firm on the auditors' behalf) is compatible with the general standard of independence for auditors imposed by the Corporations Act.

The Directors are of the opinion that the services as disclosed in Note 21 to the financial statements do not compromise the external auditor's independence, based on advice received from the Audit and Risk Committee, for the following reasons:

- all non-audit services have been reviewed and approved to ensure that they do not impact the integrity and objectivity of the auditor; and
- none of the services undermine the general principles relating to auditor independence as set out in Code of Conduct APES 110 Code of Ethics for Professional Accountants issued by the Accounting Professional & Ethical Standards Board, including reviewing or auditing the auditors own work, acting in a management or decision making capacity for the Company, acting as advocate for the Company or jointly sharing economic risks and rewards.

Officers of the Company who are former audit partners of Hall Chadwick

There are no officers of the Company who are former audit partners of Hall Chadwick.

Auditor's Independence Declaration

The auditor's independence declaration is included on page 24 of this report and forms part of the Directors' Report for the year ended 30 June 2023.

Proceedings on behalf of Company

No person has applied for leave of Court to bring proceedings on behalf of the Group or intervene in any proceedings to which the Group is a party for the purpose of taking responsibility on behalf of the Group for all or any part of those proceedings. The Group was not a party to any such proceedings during the year.

Remuneration report

The Remuneration Report, which has been audited, details the nature and amount of remuneration for each Director and the Executives.

Key management personnel (**KMP**) include: the following persons who were Directors of Skyfii Limited during the financial year:

- Robert Alexander – Non-Executive Chairperson
- Kirsty Rankin – Non-Executive Director
- Mark Devadason – Non-Executive Director
- Wayne Arthur – Chief Executive Officer & Executive Director
- John Rankin – Chief Operating Officer & Executive Director
- Andrew Johnson – Non-Executive Chairperson (resigned 31 December 2022)
- Susan O'Malley – Non-Executive Director (resigned 15 November 2022)

The following persons also had the authority and responsibility for planning, directing and controlling the major activities of the Group, directly or indirectly, during the financial year:

- Koreen White – Finance Director and Company Secretary

Remuneration policy

The performance of the Group depends upon the quality of its directors and executives. The Group recognises the need to attract, motivate and retain highly skilled directors and executives.

The Board of Directors, through its Nomination and Remuneration Committee, accepts responsibility for determining and reviewing remuneration arrangements for the Directors and Executives. The Nomination and Remuneration Committee assesses the appropriateness of the nature and amount of remuneration of Directors and Executives on a periodic basis. This is done with reference to relevant employment market conditions, giving due consideration to the overall profitability and financial resources of the Group, with the objective of ensuring maximum stakeholder benefit from the retention of a high quality Board and executive team.

Non-Executive Director remuneration

Fees and payments to Non-Executive Directors reflect the demands which are made of the Directors in fulfilling their responsibilities. Non-Executive Director fees are reviewed annually by the Board. The constitution of the Company provides that the Non-Executive Directors of the Company are entitled to such remuneration, as determined by the Board, which must not exceed in aggregate the maximum amount determined by the Company in a general meeting. On 3 December 2012, a general meeting was held with shareholders approving a maximum aggregate remuneration of \$500,000. The Board of Directors are of the view that the value remains sufficient. Annual Non- Executive Directors' fees currently agreed to be paid by the Company are \$352,372 inclusive of superannuation.

Executive and Executive Director remuneration

Fixed remuneration consists of base remuneration (which is calculated on a total cost basis and includes any fringe benefits tax charges related to employee benefits), as well as employer contributions to superannuation funds.

Executive and Executive Director remuneration levels are reviewed annually by the Nomination and Remuneration Committee through a process that considers the overall performance of the Group. Executive Directors are not paid any director fees in addition to their fixed remuneration as Executives.

Performance based remuneration

Performance based remuneration, which may take the form of cash or equity based bonuses, is at the discretion of the Nomination and Remuneration Committee.

personnel

1. Remuneration of Directors and Executives

Remuneration shown below relates to the period in which the Director or Executive was a member of key management personnel. Amounts below have either been paid out or accrued in the period.

Loans to Directors and KMP

The following loan balances are outstanding at the reporting date in relation to remuneration arrangements with Executive Directors and KMP in respect of shares issued under the Employee Share Plan (ESP) and the Executive Option Plan (EOP).

As the ESP and EOP are considered in substance to be an option, the ESP and EOP shares issued and corresponding loan receivable are not recognised by the Group in its financial statements. The ESP shares will not be considered issued to participants until the corresponding loan has been repaid, at which time there will be an increase in the issued capital and increase in cash. Further information relating to the ESP and EOP is set out in Note 24 to the financial statements.

Corporate Governance Statement

The Company's Board of Directors is responsible for the Corporate Governance of the Company and its controlled entities. The Board guides and monitors the business and affairs of the group on behalf of the shareholders by whom they are elected and to whom they are accountable. The governance practices adopted by the Company are structured with reference to the 4th Edition of the ASX Corporate Governance Council's Principles and Recommendations (ASX CGPR).

The Board is committed to improving its corporate governance practices and embracing the principles published by the ASX Corporate Governance Council, however the Board is of the view that the adoption of the practices and principles should be considered in line with the size, stage and nature of the business and the industry in which it operates.

The Board aims to achieve all of the Principles and Recommendations in stages as the Company grows and its circumstances change over time.

The information provided below summarises how the Company presently complies with the ASX CGPR, and how it intends to comply with each of the current Principles and Recommendations going forward. This statement is current as 30 June 2023 and has been approved by the Board of Directors of the Company.

Principle 1 – Lay solid foundations for management and oversight

The Company has adopted a Board Charter clearly setting out the respective roles and responsibilities of the Board and management. The Board Charter is available on the Company's website, www.skyfii.io.

The key responsibilities of the Board include:

- (a) setting the long-term strategy and annual business plan including objectives and milestones to be achieved;
- (b) monitoring the performance of the Company against the financial objectives and operational goals set by the Board and reviewing the implementation of Board approved strategies;
- (c) assessing the appropriateness of the skill sets and the levels of experience of the members of the Board, individually and as a whole and selecting new members to join the Board when a vacancy exists;
- (d) appointing, removing and determining the terms of engagement of the Directors, Chief Executive Officer and Company Secretary;
- (e) overseeing the delegation of authority for the day to day management of the Company;
- (f) ensuring that the risk management systems, financial reporting and information systems, personnel, policies and procedures are all operating efficiently and effectively by establishing a framework of internal controls and compliance;
- (g) approving the capital structure and major funding requirements of the Company;

- (h) approving the Company's half year and full year reports to the shareholders, ASX and ASIC; and
- (i) Ensuring that recruitment, retention, termination, remuneration, performance review and succession planning policies and procedures are in place and complied with.

The Company has established a Nomination and Remuneration Committee to identify and make recommendations to the Board for the appointment of new Board candidates, having regard to their skills, experience and expertise. The Committee is currently comprised of three independent Directors, Mr Alexander, Mr Devadason and Ms Rankin. The Board requires this Committee to undertake appropriate checks on potential Board candidates. The number of times the Nomination and Remuneration Committee met, and the attendance at those meetings, is set out in the Directors' Report. The Nomination and Remuneration Committee Charter is available on the Company's website, www.skyfii.io.

All Directors and senior executives have entered into written appointment agreements with the Company, setting out the terms and conditions of their appointment.

Under the Board Charter, each Director's performance is assessed when standing for re-election. Before each Annual General Meeting, the Chairperson of the Board assesses the performance of any Director standing for re-election and the Board will determine their recommendation to shareholders on the re-election of the Director (in the absence of the Director involved). The Board (excluding the Chairperson), will conduct the review of the Chairperson.

Under the Board Charter, senior executives' performance will be considered by the Nomination and Remuneration Committee on at least an annual basis. The Chairperson is responsible for ensuring these meetings take place.

A formal Board performance evaluation was not undertaken during the 2023 financial year, however the Board have commenced a formal performance evaluation which is expected to be completed in the 2024 financial year.

The Company Secretary is accountable directly to the Board, through the Chairperson, on all matters to do with the proper functioning of the Board. The Board Charter sets out the Company Secretary's responsibilities, which include:

- (a) committee papers;
- (b) ensuring the business at Board and sub-committee meetings is accurately captured in the minutes;
- (c) monitoring and ensuring the Board and sub-committee policy and procedures are followed; and
- (d) advising the Board and its committees on governance matters.

The Company has established a Strategy Sub-committee to provide recommendations to the Board. These recommendations would be aimed at driving profitability, focus and execution of the Company's goals. The Committee is currently comprised of two independent Directors, Ms Rankin and Mr Alexander and two executive Directors, Mr Arthur and Mr Rankin. Ms Rankin acts as chairperson.

Corporate Governance Statement continued

The Board has established a Diversity Policy, which recognises diversity to encompass ethnicity, gender, sexual orientation, age, physical abilities, family status, religious beliefs or other ideologies, and is committed to creating and maintaining an inclusive and collaborative workforce. The Company understands that encouraging diversity is not just a socially responsible necessity, but that it is essential to the Company's continued growth and vital to a successful future.

Given the size and nature of the Company, the Board determined not to establish measurable objectives for achieving diversity for the 2023 financial year. Establishing measurable objectives for achieving diversity will be reconsidered on an annual basis.

As at 30 June 2023, the proportion of women employed by the Group was as follows:

- Board of Directors: 20%
- Senior Executive positions: 29%
- Total Group workforce: 21%

The Diversity Policy is available on the Company's website, www.skyfii.io.

Principle 2 – Structure the board to add value

The Nomination and Remuneration Committee has the authority and power to exercise the roles and responsibilities granted to it under the Nomination and Remuneration Committee Charter.

The Committee is comprised of three independent Directors, Mr Alexander, Mr Devadason and Ms Rankin. Mr Alexander acts as chairperson. The Board regularly assesses the independence of each Director in light of the interests disclosed by them. That assessment is made at each Board meeting in relation to matters under consideration at the meeting, at least annually at, or around the time that the Board considers candidates for election to the Board, and each independent Director is required to provide the Board with all relevant information for this purpose. If the Board determines that a Director's independent status has changed, that determination will be disclosed to the market in a timely fashion.

A majority of the Board (comprising the Chairperson of the Board, Mr Alexander, Mr Devadason and Ms Rankin) are considered to be independent Directors. Mr Arthur, Managing Director and CEO, and a major founding shareholder of the Company and Mr Rankin, COO, are not considered to be independent Directors.

Under the Board Charter, the Directors are expected to participate in any induction or orientation programs on appointment, and any continuing education or training arranged for them. The Company Secretary assists in organising and facilitating the induction and professional development of Directors.

Principle 3 – Instil a culture of acting lawfully, ethically and responsibly

The Board has adopted a Code of Conduct which sets out the values, commitments, ethical standards of conduct expected of the Company's business and people, taking into account the Company's legal and other obligations to its stakeholders. This Code of Conduct

is the foundation and basis for which the Company culture is built upon. Furthermore, the Code of Conduct applies to all Directors, as well as all officers, employees, contractors, consultants and other persons that act on behalf of the Company. The Code of Conduct is available on the Company's website, www.skyfii.io.

Principle 4 – Safeguard integrity in corporate reporting

The Board has established an Audit and Risk Committee. This Committee is responsible for, amongst other things, appointing the Company's external auditors and overseeing the integrity of the Company's financial reporting systems and financial statements. The Company has adopted an Audit and Risk Committee Charter which is available on the Company's website, www.skyfii.io.

The number of times the Audit and Risk Committee met, and the attendance at those meetings, is set out in the Directors' Report.

The Committee is comprised of two independent Directors, Mr Devadason and Mr Alexander, as well as executive Director, Mr Arthur. Mr Devadason acts as Chairperson.

The Board has implemented a process to receive written assurances from its Chief Operating Officer and Finance Director that the declarations that will be provided under section 295A of the Corporations Act 2001 (Cth) are founded on a system of risk management and internal control and that the system is operating in all material respects in relation to financial reporting risks. The Board seeks these assurances prior to approving the annual financial statements for all half year and full year results that follow.

Representatives from the Company's external auditor, Hall Chadwick, are present at the Annual General Meeting to answer questions that shareholders might have about the scope and conduct of the audit, the preparation and content of the auditor's report, the accounting policies adopted by the Company and the independence of the auditor.

The Company has adopted a formal Disclosure and Communication Policy, where there is an express requirement that the external auditor will attend the Annual General Meeting and be available to answer questions about the conduct of the audit and the preparation and content of the auditor's report.

Principle 5 – Make timely and balanced disclosure

The Company ensures that it complies with the requirements of ASX listing rules and the Corporations Act in providing information to shareholders. Consistent with the Board's commitment to improving its disclosure policy, the Board has adopted a Disclosure and Communication Policy, which sets out the Company's commitment to the objective of promoting investor confidence and the rights of shareholders by:

- (a) complying with the continuous disclosure obligations imposed by law;
- (b) ensuring that company announcements are presented in a factual, clear and balanced way;
- (c) ensuring that all shareholders have equal and timely access to material information concerning the Company; and

(d) communicating effectively with shareholders and making it easy for shareholders to participate in general meetings.

The Disclosure and Communication Policy is available on the Company's website, www.skyfii.io.

Principle 6 – Respect the rights of security holders

The Company recognises the rights of its shareholders and other interested stakeholders to have easy access to balanced, understandable and timely information concerning the operations of the Company. Information concerning the Company and its governance practices are made available on its website and addressed in detail in each year's Annual Report.

The Board has adopted a Disclosure and Communication Policy which supports its commitment to effective communication with its shareholders. In addition, the Company intends to communicate with its shareholders:

- (a) by making timely market announcements;
- (b) by posting relevant information on to its website;
- (c) by inviting shareholders to make direct inquiries to the Company; and
- (d) through the use of general meetings.

The Board encourages participation of shareholders at the Annual General Meeting or any other shareholder meetings to ensure a high level of accountability and identification with the Company's strategy and goals.

The Company's shareholders may elect to receive information from the Company and its registry electronically. Otherwise, the Company and its registry will communicate by post with shareholders who have not elected to receive information electronically.

Principle 7 – Recognise and manage risk

The Board has established an Audit and Risk Committee to ensure the Company has an effective risk management system in place and to manage key risk areas.

The Company's Audit and Risk Committee is comprised of two independent Directors, Mr Devadason and Mr Alexander as well as executive Director, Mr Arthur. Mr Devadason acts as Chairperson.

The Company has adopted an Audit and Risk Committee Charter which is available on the Company's website, www.skyfii.io.

Under the Board Charter, the Board ensures that the Company has in place an appropriate risk management framework. A risk management framework was developed during the 2015 financial year by the Audit and Risk Committee, and approved by the Board. The Board will review, at least annually, the Company's risk management framework in order to satisfy itself that it continues to be sound. A risk review was undertaken as part of the Company's interim and end of financial year reporting periods.

The Audit and Risk Committee is responsible for ensuring that the Company has appropriate internal audit systems and controls in place, and for overseeing the effectiveness of these internal controls. The Committee is also responsible for conducting investigations of breaches or potential breaches of these internal controls.

Principle 8 – Remunerate fairly and responsibly

The Company's Nomination and Remuneration Committee is responsible for developing, reviewing and making recommendations on:

- (a) the remuneration framework for Directors, including the process by which any pool of Directors fees approved by security holders is allocated to Directors;
- (b) the remuneration packages to be awarded to senior executives;
- (c) equity based remuneration plans for senior executives and other employees; and
- (d) superannuation arrangements for Directors, senior executives and other employees.

The Company's remuneration policy is disclosed in the Directors' Report. The policy has been set out to ensure that the performance of Directors, key executives and staff reflect each person's accountabilities, duties and their level of performance, and to ensure that remuneration is competitive in attracting, motivating and retaining staff of the highest quality. The Company can confirm there are no pay gaps based on gender. A program of regular performance appraisals and objective setting for key executives and staff is in place. These annual reviews take into account individual and company performance, market movements and expert advice, if required.

The Constitution permits Directors, senior executives and other officers of the Company to trade in Company shares as long as they comply with the Company's Share Trading Policy. The Share Trading Policy is a code that is designed to minimise the potential for intentional and unintentional insider trading violations. The Company's Share Trading Policy is available on the Company's website, www.skyfii.io.

Directors must notify the Chairman of the Board, before they buy or sell shares in the Company. The details of the share trading must be given to the Company Secretary who must lodge such details of such changes with the ASX.

Senior executives must give prior notice to the Chief Executive Officer, while other officers must notify the Company Secretary, before trading in the Company shares and details of all such transactions must be given, in writing, to the Company Secretary within 5 business days.

Any changes in substantial shareholding of the Directors, senior executives or other officers must be reported to the ASX within two (2) business days of such trading. The policy also recommends that trading in the Company shares only occur in certain trading windows.

Notes to the financial statements

For the year ended 30 June 2023

1. Reporting entity

Skyfii Limited (the Company) is a company domiciled in Australia. The address of the Company's registered office and principal place of business is 5 Ward Avenue Potts Point NSW 2011. The consolidated financial statements of the Company as at and for the year ended 30 June 2023 comprise the Company and its subsidiaries (together referred to as the Group and individually as Group entities). The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards. The separate financial statements of the parent entity, Skyfii Limited, have not been presented within this financial report as permitted by the Corporations Act 2001. The financial statements were authorised for issue on 30 August 2023 by the Directors of the Company.

2. Basis of preparation

(a) Compliance with International Financial Reporting Standards

These general purpose financial statements have been prepared in accordance with the Corporations Act 2001, Australian Accounting Standards and Interpretations of the Australian Accounting Standards Board and International Financial Reporting Standards as issued by the International Accounting Standards Board. Material accounting policies adopted in the preparation of these financial statements are presented below and have been consistently applied unless stated otherwise.

(b) Historical cost convention

The consolidated financial statements have been prepared on the historical cost basis unless otherwise stated in the notes. Except for the cash flow information, the financial statements have been prepared on an accrual basis, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

(c) Functional and presentation currency

These consolidated financial statements are presented in Australian dollars, which is the Company's functional currency.

(d) Critical accounting estimates

The preparation of financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 3(x).

(e) Going concern

The financial statements of the Group have been prepared on a going concern basis, which contemplates the continuation of normal business operations and the realisation of assets and settlement of liabilities in the normal course of business. The Group continues to be in the research, development and commercialisation stage of its data analytics technology and services.

During the year ended 30 June 2023 the Group incurred a loss after tax of \$10,542,247 of which \$6,784,368 are non-cash transactions including depreciation, amortisation and share based payments.

At 30 June 2023, the Group had a surplus in net assets of \$7,061,073.

The Company has maintained a loan facility of \$1.8 million from Export Finance Australia. The loan facility is a rolling 12-month agreement, with the next renewal date scheduled for 29 September 2023. Interest on the loan facility is payable quarterly, with a total annual interest rate of 10.39% on funds drawn down and 1.5% on funds undrawn. Under the terms of the facility, repayment of the loan amount is due within six months post the date of the drawdown. In the event of the facility's expiration, repayment of the loan amount is due within six months from the expiry date. The financial covenants include a minimum of \$3 million cash at bank balance including the loan facility and is assessed at the end of each quarter. The Company also has a short-term facility of \$250k. Both facilities are assisting with the cash management of large capital works projects in the international markets.

Management have prepared cash flow projections that support the Group's ability to continue as a going concern.

The Directors of the Company consider that the cash flow projections and assumptions are achievable, and in the longer term, significant revenues will continue to be generated from the commercialisation of intellectual property, and accordingly, the Group will be able to continue as a going concern.

Skyfii has, and will continue, to engage with a range of stakeholders to ensure the Company retains its capital flexibility and security to execute upon its stated growth initiatives and broader corporate strategy.

In the event that the Group cannot continue as a going concern, it may not be able to realise its assets and settle its liabilities in the normal course of operations and at the amounts stated in the financial statements.

3. Significant accounting policies

(a) Principles of consolidation

The consolidated financial statements incorporate all of the assets, liabilities and results of Skyfii Limited and all its subsidiaries. Subsidiaries are all entities over which the Group has control. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. A list of the subsidiaries is provided in Note 27.

The assets, liabilities and results of all subsidiaries are fully consolidated into the financial statements of the Group from the date on which control is obtained by the Group. The consolidation of a subsidiary is discontinued from the date that control ceases. Intercompany transactions, balances and unrealised gains or losses on transactions between group entities are fully eliminated on consolidation. Accounting policies of subsidiaries have been changed and adjustments made where necessary to ensure uniformity of the accounting policies adopted by the Group.

Equity interests in a subsidiary not attributable, directly or indirectly, to the Group are presented as "non-controlling interests".

Notes to the financial statements continued

For the year ended 30 June 2023

The Group initially recognises non-controlling interests that are present ownership interests in subsidiaries and are entitled to a proportionate share of the subsidiary's net assets on liquidation at either fair value or at the non-controlling interests' proportionate share of the subsidiary's net assets. Subsequent to initial recognition, non-controlling interests are attributed their share of profit or loss and each component of other comprehensive income. Non-controlling interests are shown separately within the equity section of the statement of financial position and statement of profit or loss and other comprehensive income.

The consolidated financial statements have been prepared using reverse acquisition accounting. In reverse acquisition accounting, the cost of the business combination is deemed to have been incurred by the legal subsidiary Skyfii Group Pty Ltd (the acquirer for accounting purposes) in the form of equity instruments issued to the owners of the legal parent, Skyfii Limited (the acquiree for accounting purposes).

(b) Business combinations

Business combinations occur where an acquirer obtains control over one or more businesses.

A business combination is accounted for by applying the acquisition method, unless it is a combination involving entities or businesses under common control. The business combination will be accounted for from the date that control is attained, whereby the fair value of the identifiable assets acquired, and liabilities (including contingent liabilities) assumed is recognised (subject to certain limited exceptions).

When measuring the consideration transferred in the business combination, any asset or liability resulting from a contingent consideration arrangement is also included. Subsequent to initial recognition, contingent consideration classified as equity is not remeasured and its subsequent settlement is accounted for within equity. Contingent consideration classified as an asset or liability is remeasured each reporting period to fair value, recognising any change to fair value in profit or loss, unless the change in value can be identified as existing at acquisition date.

All transaction costs incurred in relation to the business combination are expensed to the statement of profit or loss and other comprehensive income.

The acquisition of a business may result in the recognition of goodwill or a gain from a bargain purchase.

(c) Goodwill

Goodwill is carried at cost, less any accumulated impairment losses. Goodwill is calculated as the excess of the sum of:

- (i) the consideration transferred at fair value;
- (ii) any non-controlling interest (determined under either the fair value or proportionate interest method); and
- (iii) the acquisition date fair value of any previously held equity interest; over the acquisition date fair value of any identifiable assets acquired and liabilities assumed.

The acquisition date fair value of the consideration transferred for a business combination plus the acquisition date fair value of any previously held equity interest shall form the cost of the investment in the separate financial statements.

Changes in the Group's ownership interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

When the Group loses control of a subsidiary, a gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (ie reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable Accounting Standards). The fair value of any investment retained in the former subsidiary at the date when control is lost, is regarded as the fair value on initial recognition for subsequent accounting under AASB 139: Financial Instruments: Recognition and Measurement, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

The amount of goodwill recognised on acquisition of each subsidiary in which the Group holds less than 100% interest will depend on the method adopted in measuring the non-controlling interest. The Group can elect in most circumstances to measure the non-controlling interest in the acquiree, either at fair value (full goodwill method) or at the non-controlling interest's proportionate share of the subsidiary's identifiable net assets (proportionate interest method). In such circumstances, the Group determines which method to adopt for each acquisition and this is stated in the respective note to the financial statements disclosing the business combination.

Under the full goodwill method, the fair value of the non-controlling interest is determined using valuation techniques which make the maximum use of market information where available.

Goodwill on acquisition of subsidiaries is included in intangible assets. Goodwill on acquisition of associates is included in investments in associates.

Goodwill is tested for impairment annually and is allocated to the Group's cash-generating units or groups of cash-generating units, representing the lowest level at which goodwill is monitored and not larger than an operating segment. Gains and losses on the disposal of an entity include the carrying amount of goodwill related to the entity disposed of.

Changes in the ownership interests in a subsidiary that do not result in a loss of control are accounted for as equity transactions and do not affect the carrying amounts of goodwill.

(d) Income tax

The income tax expense or revenue for the period is the tax payable on the current period's taxable income based on the applicable tax rate for each jurisdiction adjusted by changes in deferred tax assets

and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the Company's subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax is not recognised for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss;
- temporary differences related to investments in subsidiaries, associates and jointly controlled entities to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- taxable temporary differences arising on the initial recognition of goodwill.

The measurement of deferred tax reflects the tax consequences that would follow the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax liabilities and assets will be realised simultaneously.

A deferred tax asset is recognised for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

In determining the amount of current and deferred tax, the Group takes into account the impact of uncertain tax positions and whether additional taxes and interest may be due. This assessment relies on estimates and assumptions and may involve a series of judgements about future events. New information may become available that causes the Group to change its judgement regarding the adequacy of existing tax liabilities; such changes to tax liabilities will impact the tax expense in the period that such a determination is made.

The Company and its wholly-owned Australian resident entities are part of a tax consolidated group. As a consequence, all members of the tax consolidated group are taxed as a single entity.

Skyfii Limited became the head entity within the tax consolidated group on 20 November 2014 (previously Skyfii Group Pty Ltd).

Where the Group receives the Australian Government's R&D tax incentive, the Group accounts for the refundable tax offset under AASB 112. Funds are received as a rebate through the parent company's income tax return and disclosed as such in Note 7.

Notes to the financial statements continued

For the year ended 30 June 2023

(e) Inventories

Inventories are measured at the lower of cost and net realisable value. Costs of inventories are determined on a first-in, first-out basis. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

(f) Fixed Assets

Fixed Assets are stated at historical cost less depreciation, amortisation and impairment losses. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

The carrying amount of fixed assets is reviewed annually to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the asset's employment and subsequent disposal. The expected net cash flows have not been discounted in determining recoverable amounts.

Depreciation of all fixed assets is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful lives, as follows:

- Office and computer equipment: 3 – 10 years.
- Infrastructure as a Service equipment: 3 – 5 years.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains or losses are recognised in the profit and loss in the period in which they arise. When revalued assets are sold, amounts included in the revaluation surplus relating to that asset are transferred to retained earnings.

(g) Intangibles

Software development

Costs relating to research and development of new software products are expensed as incurred until technological feasibility has been established. Costs incurred in developing new software are recognised as intangible assets only when technological feasibility studies identify that it is probable that the project will deliver future economic benefits and these benefits can be measured reliably. The expenditure capitalised comprises all directly attributable costs, including costs of materials, services, licenses and direct labour.

Capitalised development costs have a finite useful life and are carried at cost, less accumulated amortisation and impairment losses. Amortisation is calculated on a systematic basis, based on the future economic benefits over the useful life of the project as follows: Year 1: 0%; Year 2: 40%; Year 3: 40%; Year 4: 20%.

Customer contracts

Customer contracts acquired are carried at their fair value at date of acquisition, less accumulated amortisation. They are amortised on a straight-line basis over the period of their expected benefit, being their finite useful life between three and six years.

Brand Names & Trademarks

Brand Names and Trademarks acquired are carried at their fair value at date of acquisition, less accumulated amortisation. They are amortised on a straight-line basis over the period of their expected benefit, being their finite useful life between five and seven years.

Software

Software acquired are carried at their fair value at date of acquisition, less accumulated amortisation. They are amortised on a straight-line basis over the period of their expected benefit, being their finite useful life of up to five years.

Customer relationships

Customer relationships acquired are carried at their fair value at date of acquisition, less accumulated amortisation. They are amortised on a straight line basis over the period of their expected benefit, being their finite useful life of ten years.

Patents

Patents acquired are carried at their fair value at date of acquisition, less accumulated amortisation. They are amortised on a straight line basis over the period of their expected benefit, being their finite useful life of five years.

(h) Employee benefits

Short-term obligations

Employee benefits that are expected to be settled within 12 months have been measured at the amounts expected to be paid when the liabilities are settled, plus related on-costs.

The liability for annual leave is recognised in the provision for employee benefits. All other short-term employee benefit obligations are presented as payables

Short term incentive plans

The Group recognises a liability and an expense for bonuses payable under short term incentive plans. Short term incentive plans are based on the achievement of targeted performance levels that may be set at the beginning of each financial year.

The Group recognises a liability to pay out short term incentives when contractually obliged, based on the achievement of the stated performance levels, or where there is a past practice that has created a constructive obligation.

Other long-term employee benefit obligations

Employee benefits payable later than 12 months have been measured at the present value of the estimated future cash outflows to be made for those benefits. In determining the liability, consideration is given to employee wage increases and the probability that the employee may satisfy any vesting requirements. Those cash flows are discounted using market yields on national government bonds with terms to maturity that match the expected timing of cash flows attributable to employee benefits.

(i) Borrowing costs

All borrowing costs are recognised in profit and loss in the period in which they are incurred.

(j) Provisions

Provisions are recognised when the Group has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured. Provisions recognised, represent the best estimate of the amounts required to settle the obligation at reporting date.

(k) Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts.

(l) Trade and other payables

These amounts represent liabilities for goods and services provided to the Group at the end of financial year which are unpaid. The amounts are unsecured and are payable as and when they are due. Trade and other payables are presented as current liabilities unless payment is not due within 12 months from the reporting date.

(m) Revenue recognition

The Group recognises revenue in accordance with AASB 15: Revenue from Contracts with Customers. Revenue is recognised when (or as) the control of goods or services is transferred to the customer for the amount expected to be entitled.

Recurring SaaS revenue is recognised over time, for the duration of the contracted term. The transaction price is determined in the contract and revenue is recognised to the extent that each performance obligation has been satisfied.

Non-recurring revenue including hardware, installation and setup costs is recognised at a point in time when control of the goods or services is transferred to the customer. This is also the case for project-based revenue.

In the case where products and services are sold as a package, such as a design and build, separate revenue elements are identified, unbundled and recognised as each performance obligation is satisfied.

All revenue is stated exclusive of the amount of goods and services tax (GST).

(n) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Tax Office (ATO). In these circumstances, the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to the ATO is included with other receivables or payables in the statement of financial position.

Cash flows are presented in the cash flow statement on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows included in receipts from customers or payments to suppliers.

(o) Foreign currency transactions and balances

Functional and presentation currency

The functional currency of each of the Group entities is measured using the currency of the primary economic environment in which that entity operates. The consolidated financial statements are presented in Australian dollars, which is the parent entity's functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into functional currency using the exchange rates prevailing at the date of the transaction. Foreign currency monetary items are translated at the period-end exchange rate. Non-monetary items measured at historical cost continue to be carried at the exchange rate at the date of the transaction. Non-monetary items measured at fair value are reported at the exchange rate at the date when fair values were determined.

Exchange differences arising on the translation of monetary items are recognised in the profit or loss, except where deferred in equity as a qualifying cash flow or net investment hedge.

Exchange differences arising on the translation of non-monetary items are recognised directly in other comprehensive income to the extent that the underlying gain or loss is recognised in other comprehensive income, otherwise the exchange difference is recognised in profit or loss.

Group companies

The financial results and position of foreign operations whose functional currency is different from the Group's presentation currency is translated as follows:

- Assets and liabilities are translated at year end exchange rates prevailing at that reporting date.
- Income and expenses are translated at average exchange rates for the year.
- Retained earnings are translated at the exchange rates prevailing at the date of the transaction. Exchange differences arising on translation of foreign operations with functional currencies other

Notes to the financial statements continued

For the year ended 30 June 2023

than the Australian dollar are recognised in other comprehensive income and included in the foreign currency translation reserve in the statement of financial position. The cumulative amount of these differences is reclassified into profit or loss in the period in which the operation is disposed of.

(p) Earnings per share

Basic earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Company, excluding any costs of servicing equity other than ordinary shares
- by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year.

Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares, and
- the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

(q) Financial instruments

Initial recognition and measurement

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions to the instrument. For financial assets, this is the date that the Group commits itself to either the purchase or sale of the asset (i.e. trade date accounting is adopted).

Financial instruments (except for trade receivables) are initially measured at fair value plus transaction costs, except where the instrument is classified "at fair value through profit or loss", in which case transaction costs are expensed to profit or loss immediately. Where available, quoted prices in an active market are used to determine fair value. In other circumstances, valuation techniques are adopted.

Trade receivables are initially measured at the transaction price if the trade receivables do not contain a significant financing component or if the practical expedient was applied as specified in AASB 15.63.

Classification and subsequent measurement

Financial liabilities

Financial instruments are subsequently measured at:

- amortised cost; or
- fair value through profit or loss.

A financial liability is measured at fair value through profit and loss if the financial liability is:

- a contingent consideration of an acquirer in a business combination to which AASB 3: Business Combinations applies;
- held for trading; or
- initially designated as at fair value through profit or loss.

All other financial liabilities are subsequently measured at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest expense in profit or loss over the relevant period. The effective interest rate is the internal rate of return of the financial asset or liability. That is, it is the rate that exactly discounts the estimated future cash flows through the expected life of the instrument to the net carrying amount at initial recognition.

A financial liability is held for trading if:

- it is incurred for the purpose of repurchasing or repaying in the near term;
- part of a portfolio where there is an actual pattern of short-term profit taking; or
- a derivative financial instrument (except for a derivative that is in a financial guarantee contract or a derivative that is in an effective hedging relationship).

Any gains or losses arising on changes in fair value are recognised in profit or loss to the extent that they are not part of a designated hedging relationship.

The change in fair value of the financial liability attributable to changes in the issuer's credit risk is taken to other comprehensive income and are not subsequently reclassified to profit or loss. Instead, they are transferred to retained earnings upon derecognition of the financial liability. If taking the change in credit risk in other comprehensive income enlarges or creates an accounting mismatch, then these gains or losses should be taken to profit or loss rather than other comprehensive income.

A financial liability cannot be reclassified.

Financial guarantee contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the terms of a debt instrument.

Financial guarantee contracts are initially measured at fair value (and if not designated as at fair value through profit or loss and do not arise from a transfer of a financial asset) and subsequently measured at the higher of:

- the amount of loss allowance determined in accordance with AASB 9.3.25.3; and
- the amount initially recognised less the accumulative amount of income recognised in accordance with the revenue recognition policies.

Financial assets

Financial assets are subsequently measured at:

- amortised cost;
- fair value through other comprehensive income; or
- fair value through profit or loss.

Measurement is on the basis of two primary criteria:

- the contractual cash flow characteristics of the financial asset; and
- the business model for managing the financial assets.

A financial asset that meets the following conditions is subsequently measured at amortised cost:

- the financial asset is managed solely to collect contractual cash flows; and
- the contractual terms within the financial asset give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding on specified dates.

A financial asset that meets the following conditions is subsequently measured at fair value through other comprehensive income:

- the contractual terms within the financial asset give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding on specified dates;
- the business model for managing the financial assets comprises both contractual cash flows collection and the selling of the financial asset.

By default, all other financial assets that do not meet the measurement conditions of amortised cost and fair value through other comprehensive income are subsequently measured at fair value through profit or loss.

The Group initially designates a financial instrument as measured at fair value through profit or loss if:

- it eliminates or significantly reduces a measurement or recognition inconsistency (often referred to as “accounting mismatch”) that would otherwise arise from measuring assets or liabilities or recognising the gains and losses on them on different bases;
- it is in accordance with the documented risk management or investment strategy, and information about the groupings were documented appropriately, so that the performance of the financial liability that was part of a group of financial liabilities or financial assets can be managed and evaluated consistently on a fair value basis;
- it is a hybrid contract that contains an embedded derivative that significantly modifies the cash flows otherwise required by the contract.

The initial designation of the financial instruments to measure at fair value through profit or loss is a one-time option on initial classification and is irrevocable until the financial asset is derecognised.

Equity instruments

At initial recognition, as long as the equity instrument is not held for trading and not a contingent consideration recognised by an acquirer in a business combination to which AASB 3: Business Combinations applies, the Group made an irrevocable election to measure any subsequent changes in fair value of the equity instruments in other comprehensive income, while the dividend revenue received on underlying equity instruments investment will still be recognised in profit or loss.

Regular way purchases and sales of financial assets are recognised and derecognised at settlement date in accordance with the Group’s accounting policy.

Derecognition

Derecognition refers to the removal of a previously recognised financial asset or financial liability from the statement of financial position.

Derecognition of financial liabilities

A liability is derecognised when it is extinguished (ie when the obligation in the contract is discharged, cancelled or expires). An exchange of an existing financial liability for a new one with substantially modified terms, or a substantial modification to the terms of a financial liability is treated as an extinguishment of the existing liability and recognition of a new financial liability.

The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

Derecognition of financial assets

A financial asset is derecognised when the holder’s contractual rights to its cash flows expires, or the asset is transferred in such a way that all the risks and rewards of ownership are substantially transferred.

All of the following criteria need to be satisfied for derecognition of a financial asset:

- the right to receive cash flows from the asset has expired or been transferred;
- all risk and rewards of ownership of the asset have been substantially transferred; and
- the Group no longer controls the asset (i.e. the Group has no practical ability to make a unilateral decision to sell the asset to a third party).

On derecognition of a financial asset measured at amortised cost, the difference between the asset’s carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

On derecognition of a debt instrument classified as at fair value through other comprehensive income, the cumulative gain or loss previously accumulated in the investment revaluation reserve is reclassified to profit or loss.

On derecognition of an investment in equity which was elected to be classified under fair value through other comprehensive income, the cumulative gain or loss previously accumulated in the investment revaluation reserve is not reclassified to profit or loss but is transferred to retained earnings.

Impairment

The Group recognises a loss allowance for expected credit losses on:

- financial assets that are measured at amortised cost or fair value through other comprehensive income;
- lease receivables;
- contract assets (eg amounts due from customers under construction contracts);
- loan commitments that are not measured at fair value through profit or loss; and
- financial guarantee contracts that are not measured at fair value through profit or loss.

Notes to the financial statements continued

For the year ended 30 June 2023

Loss allowance is not recognised for:

- financial assets measured at fair value through profit or loss; or
- equity instruments measured at fair value through other comprehensive income.

Expected credit losses are the probability-weighted estimate of credit losses over the expected life of a financial instrument. A credit loss is the difference between all contractual cash flows that are due and all cash flows expected to be received, all discounted at the original effective interest rate of the financial instrument.

The Group uses the following approaches to impairment, as applicable under AASB 9: Financial Instruments:

- the general approach, and
- the simplified approach

General approach

Under the general approach, at each reporting period, the Group assesses whether the financial instruments are credit-impaired, and if:

- the credit risk of the financial instrument has increased significantly since initial recognition, the Group measures the loss allowance of the financial instruments at an amount equal to the lifetime expected credit losses; or
- there is no significant increase in credit risk since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses.

Simplified approach

The simplified approach does not require tracking of changes in credit risk at every reporting period, but instead requires the recognition of lifetime expected credit loss at all times. This approach is applicable to:

- trade receivables or contract assets that result from transactions within the scope of AASB 15: Revenue from Contracts with Customers and which do not contain a significant financing component; and
- lease receivables.

In measuring the expected credit loss, a provision matrix for trade receivables was used, taking into consideration various data to get to an expected credit loss (ie diversity of customer base, appropriate groupings of historical loss experience, etc).

Recognition of expected credit losses in financial statements

At each reporting date, the Group recognises the movement in the loss allowance as an impairment gain or loss in the statement of profit or loss and other comprehensive income.

The carrying amount of financial assets measured at amortised cost includes the loss allowance relating to that asset.

Assets measured through other comprehensive income are recognised at fair value, with changes in fair value recognised in other comprehensive income. Amounts in relation to change in credit risk are transferred from other comprehensive income to profit or loss at every reporting period.

For financial assets that are unrecognised (eg loan commitments yet to be drawn, financial guarantees), a provision for loss allowance is created in the statement of financial position to recognise the loss allowance.

(r) Impairment of assets

At the end of each reporting date, the Group reviews the carrying values of its tangible and intangible assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the asset's carrying value. Any excess of the asset's carrying value over its recoverable amount is recognised immediately in the profit or loss.

Impairment testing is performed annually for goodwill and intangible assets with indefinite lives.

Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash generating unit to which the asset belongs.

(s) Leases

The Group as lessee

At inception of a contract, the Group assesses if the contract contains or is a lease. If there is a lease present, a right-of-use asset and a corresponding lease liability is recognised by the Group where the Group is a lessee. However, all contracts that are classified as short-term leases (lease with remaining lease term of 12 months or less) and leases of low value assets are recognised as an operating expense on a straight-line basis over the term of the lease.

Initially the lease liability is measured at the present value of the lease payments still to be paid at commencement date. The lease payments are discounted at the interest rate implicit in the lease. If this rate cannot be readily determined, the Group uses the incremental borrowing rate.

Lease payments included in the measurement of the lease liability are as follows:

- fixed lease payments less any lease incentives;
- variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- the amount expected to be payable by the lessee under residual value guarantees
- the exercise price of purchase options, if the lessee is reasonably certain to exercise the options;
- lease payments under extension options if lessee is reasonably certain to exercise the options; and
- payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease.

The right-of-use assets comprise the initial measurement of the corresponding lease liability as mentioned above, any lease payments made at or before the commencement date as well as any initial direct costs. The subsequent measurement of the right-of-use assets is at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated over the lease term or useful life of the underlying asset whichever is the shortest.

Where a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Group anticipates to exercise a purchase option, the specific asset is depreciated over the useful life of the underlying asset.

(t) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision makers. These include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly corporate assets (primarily the Company's headquarters), head office expenses, and income tax assets and liabilities. The chief operating decision makers has been identified as the Board of Directors.

(u) Comparative figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

Where the Group has retrospectively applied an accounting policy, made a retrospective restatement or reclassified items in its financial statements, an additional statement of financial position as at the beginning of the earliest comparative period will be disclosed.

(v) Contributed equity

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares, are shown in equity as a deduction, net of tax, from the proceeds.

(w) Government Grants

Government grants are recognised at fair value where there is reasonable assurance that the grant will be received and all grant conditions will be met. Grants relating to expense items are recognised against the expense over the periods necessary to match the grant to the costs to the compensating expense. This includes the JobKeeper wage subsidy in Australia as well as the SBA forgivable loan in the United States.

(x) Critical accounting estimates and judgments

The directors evaluate estimates and judgements incorporated into the financial report based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Group. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and judgements that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

Impairment of intangible assets

The Group assesses impairment at each reporting date by evaluating conditions specific to the Group that may lead to impairment of assets. Where an impairment trigger exists, the recoverable amount of the asset is determined. Value-in-use calculations are performed in assessing recoverable amounts which incorporate a number of key estimates.

Should the software development expenditure not meet the requirements set out in Note 3(f), an impairment loss would be recognised up to the maximum carrying value of intangible assets at 30 June 2023 of \$12,134,806.

R&D tax incentive

In prior periods, the Group qualified for the R&D tax incentive offset. However, in FY23 as the Group's total revenue has exceeded the \$20 million ATO threshold, this resulted in the Company no longer being eligible to receive the R&D tax incentive as a cash payment.

Provision for Impairment of Trade Receivables

Collectability of trade receivables is reviewed on an ongoing basis. Debts which are known to be uncollectable are written off by reducing the carrying amount directly. A provision for impairment of trade receivables is raised when there is objective evidence that the group will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation and default or delinquency in payments are considered indicators that the trade receivable may be impaired. The amount of the impairment allowance is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. Cash flows relating to short-term receivables are not discounted if the effect of discounting is immaterial.

(y) New and amended accounting policies adopted by the Group

There is no new and amended accounting policies adopted by the Group in the current financial year.

Notes to the financial statements continued

For the year ended 30 June 2023

4. Operating segments

The Group operates predominantly in three geographical segments, being the development and commercialisation of data analytics, marketing and advertising services to its customers in APAC, Americas and EMEA. The Group has identified its operating segments based on the internal reports that are reviewed and used by the Board of Directors (chief operating decision makers) in assessing performance and determining the allocation of resources.

(d) Deferred tax liabilities			
Deferred tax liabilities		-	-
Franking credits			
Franking credits available at the reporting date based on a tax rate of 25% (2022:25%)		-	-

The amount of deductible temporary differences and unused tax losses for which no deferred tax assets have been brought to account in the period are as follows:

- temporary differences: \$4,361,277 (2022: \$3,949,189)
- tax losses: operating losses \$22,169,945 (2022: \$14,417,410)
- tax losses: capital losses \$16,911 (2022: \$16,911)

The benefits of the above temporary differences and unused tax losses will only be realised if the conditions for deductibility set out in Note 3(c) occur. These amounts have no expiry date.

Skyfii Limited and its wholly-owned Australian entities elected to form an income tax consolidated group as of 20 November 2014. The accounting policy on implementation of the income tax consolidation legislation is set out in Note 3(c).

8. Cash and cash equivalents

	2023 \$	2022 \$
Current		
Cash at bank and on hand	3,788,281	5,122,538
Total cash and cash equivalents	3,788,281	5,122,538

9. Trade and other receivables

	2023 \$	2022 \$
Current		
Trade receivables	3,891,240	4,153,633
Provision for expected credit losses	(62,398)	(62,398)
Net trade receivables	3,828,842	4,091,235
Other debtors	871,864	1,655,801
Total current trade and other receivables	4,700,706	5,747,036

(a) Expected credit losses

The Group applies the simplified approach to providing for expected credit losses prescribed by AASB 9, which permits the use of the lifetime expected loss provision for all trade receivables. To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics and the days past due. The loss allowance provision as at 30 June 2023 has been determined as follows; the expected credit losses also incorporates forward looking information.

2023	Current	>30 days	>60 days	>90 days	Total
Expected loss rate	0%	0%	0%	34%	2%
Gross carrying amount	\$3,337,739	\$338,415	\$31,806	\$183,280	\$3,891,240
Loss allowing provision	\$0	\$0	\$0	\$62,398	\$62,398
2022	Current	>30 days	>60 days	>90 days	Total
Expected loss rate	0%	0%	10%	12%	2%
Gross carrying amount	\$3,185,022	\$368,685	\$372,443	\$227,483	\$4,153,633
Loss allowing provision	\$0	\$0	\$36,126	\$26,272	\$62,398

Trade receivables balance includes some customers with extended payment terms of over 90 days as well as a few customers with a history of late payment. In both cases the company expects to receive all payments in full or have been paid after the reporting period.

Balance at June 30 2023	5,274,038	821,669	1,572,568	1,192,401	3,152,308	121,821	-	12,134,806

The group's intangible assets have been assessed as one cash generating unit due to the interconnected way the company's products and services are sold and supplied to its customers. Services are commonly bundled and sold together as an all-inclusive package. Accordingly, these assets are not deemed to generate individually separate cash inflows and outflows.

The recoverable amount of the intangible assets is determined based on value-in-use calculations. Value-in-use is calculated based on the present value of cash flow projections over a five year period with the period extending beyond five years extrapolated using an estimated growth rate. The cash flows are discounted using the yield of five year weighted average cost of capital (WACC) at the beginning of the budget period.

The following key assumptions were used in the value-in-use calculations:

	Growth Rate	Discount Rate
Revenue: Year 1	15.0%	25.0%
Revenue: Years 2-3	20.0%	25.0%

These cashflow projections use historical weighted average growth rates to project revenue. Costs are calculated taking into account historical gross margins as well as estimated weighted average inflation rates over the period, which are consistent with inflation rates applicable to the group. Discount rates are pre-tax and are adjusted to incorporate risks associated with a particular segment.

Sensitivity analysis

The following tables illustrates sensitivities to the Group's exposures to changes in key assumptions used in the cash flow projections:

Lower case	Growth Rate	Discount Rate
Revenue: Year 1	10.0%	25.0%
Revenue: Years 2-5	15.0%	25.0%
Upper case	Growth Rate	Discount Rate
Revenue: Year 1	20.0%	25.0%
Revenue: Years 2-5	30.0%	25.0%

The sensitivity analysis conducted by management indicates that under the lower case scenario there is headroom between the present value of future cash flows and the carrying value of the intangible assets.

14. Trade and other payables

	2023 \$	2022 \$
Current		
Trade payables	4,139,921	4,154,859
Sundry payables	406,339	236,672
Total trade and other payables	4,546,261	4,391,531

15. Borrowings

	2023 \$	2022 \$
Current		
Borrowings	2,064,096	884,345
Total borrowings	2,064,096	884,345

The Company has maintained a loan facility of \$1.8 million from Export Finance Australia. The loan facility is a rolling 12-month agreement, with the next renewal date scheduled for 29 September 2023. Interest on the loan facility is payable quarterly, with a total annual interest rate of 10.39% on funds drawn down and 1.5% on funds undrawn. Under the terms of the facility, repayment of the loan amount is due within six months post the date of the drawdown. In the event of the facility's expiration, repayment of the loan amount is due within six months from the expiry date. The financial covenants include a minimum of \$3 million cash at bank balance including the loan facility and is assessed at the end of each quarter. The current drawdown value is \$1,800,000 and \$13,000 is the accrued interest expense. In addition to the \$1.8 million loan, there was a 15- day short term loan provided to assist with the cash management of large capital works projects. The current drawdown value is \$250,000 and \$1,096 is the accrued interest expense.

16. Provisions

	2023 \$	2022 \$
Current		
Employee benefits	1,460,228	1,249,805
Non-current		
Employee benefits	497,785	389,311
Total provisions	1,958,014	1,639,116

17. Contract liabilities

	2023 \$	2022 \$
Current		
Contract liabilities	6,191,739	4,230,788
Non-current		
Contract liabilities	1,248,468	750,858
Total contract liabilities	7,440,207	4,981,646

Contract liabilities, previously disclosed as deferred revenues, arise when the company has received advance payments from customers for goods or services. Upon the delivery or performance of these goods or services and in accordance with AASB 15: Revenue from Contracts with Customers, see notes to financial statements section, Note 3 (m) Revenue Recognition, the value will be recognised in the profit and loss statement once performance obligations have been satisfied. This liability is effectively a non-cash liability, given that the advance payments are non-refundable, unless stipulated under exceptional contractual conditions.

Notes to the financial statements continued

For the year ended 30 June 2023

(b) Ordinary shares

Ordinary shares have the right to receive dividends as declared, and, in the event of winding up the Company, to participate in the proceeds from the sale of all surplus assets in proportion to the number of and amounts paid up on shares held. Ordinary shares entitle their holder to one vote, either in person or by proxy, at a meeting of the Company.

(c) Employee Share Plan (ESP)

Information relating to the Employee Share Plan, including details of shares issued under the plan, is set out in Note 24.

(d) Options over unissued ordinary shares

The Company granted the following options to senior executives, convertible into the same number of ordinary shares in the Company. The Executive Option Plan (EOP) was approved by shareholders on 28 November 2018 and refreshed on 23 November 2021 with a ten-year expiry date from date of issue. The fair value of the options over the shares is recognised as an employee benefit expense with a corresponding increase in equity. The fair value is measured and recognised at the respective grant dates. Options granted under the EOP in the year are as follows:

Number of options	Grant date	Option consideration	Expiry date	Exercise price per option
23,206,018	1 December 2020	\$0.00	1 December 2030	\$0.01
5,620,532	6 August 2020	\$0.00	6 August 2021	\$0.01
20,712,421	25 November 2019	\$0.00	25 November 2029	\$0.01
1,892,282	21 January 2019	\$0.00	21 January 2029	\$0.01
16,943,289	28 December 2018	\$0.00	28 December 2028	\$0.01
47,799	13 October 2022	\$0.00	13 October 2032	\$0.01

The fair value at grant date is determined using the Black-Scholes option pricing model that takes into account the exercise price, the term of the options, the impact of dilution, the non-tradeable nature of the options, the share price at grant date, expected price volatility of the underlying shares, the expected dividend yield and the risk-free interest rate for the term of the options.

19. Equity – reserves

(a) Movements

	2023 \$	2022 \$
Share based payment reserve movements		
Balance at the beginning of the year	9,900,012	7,225,513
Share based payment expense	1,879,783	2,674,499
Balance at the end of the year	11,779,795	9,900,012
Share option reserve movements		
Balance at the beginning of the year	51,424	691,666
Share option expense	-	(640,242)
Balance at the end of the year	51,424	51,424
Foreign currency translation reserve movements		
Balance at the beginning of the year	(905,597)	(257,674)
Currency translation differences arising during the year	(8,096)	(647,923)
Balance at the end of the year	(913,693)	(905,597)
Total reserves	10,917,526	9,045,839

(b) Nature and purpose of reserves

Share based payments reserve

The share based payments reserve represents the value of the ESP & EOP share grants to employees under the Company's Share Plans.

Share option reserve

The share option reserve represents the fair value of options granted over unissued ordinary shares in the Company.

Foreign currency translation reserve

The foreign currency translation reserve records exchange differences arising on translation of foreign controlled subsidiaries.

Notes to the financial statements continued

For the year ended 30 June 2023

20. Financial risk management

Financial risk management objectives

The Group's activities expose it to a variety of financial risks: market risk (including currency risk), credit risk and liquidity risk.

The Board of Directors has overall responsibility for the establishment and oversight of the risk management framework. Risk management policies are established to identify and analyse the risks faced by the Group to set appropriate risk limits and controls, and to monitor risks and adhere to limits. Risk management is carried out by senior executives under policies approved by the Board of Directors. These policies include identification and analysis of the risk exposure of the Group and appropriate procedures, controls and risk limits. Finance identifies, evaluates and hedges financial risks within the Group's operating units.

The Group holds the following financial instruments:

	Note	2023 \$	2022 \$
Financial Assets			
Cash and cash equivalents	8	3,788,281	5,122,538
Trade and other receivables	9	4,700,706	5,747,036
R&D tax incentive receivable		-	935,564
Total financial assets		8,488,986	11,805,138
Financial Liabilities			
Trade and other payables	14	4,546,261	4,391,531
Borrowings	15	2,064,096	884,345
Total financial liabilities		6,610,357	5,275,876

The carrying value of the assets and liabilities disclosed in the table above closely approximates or equals their fair value. The carrying amounts of trade receivables and trade and other payables are assumed to approximate their fair values due to their short-term nature.

(a) Market risk

Foreign currency risk

Foreign currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Foreign currency is translated using the average exchange rates at the dates of transactions each month and at the end of each month the balance sheet is restated using the end of month spot rate. To minimise risk, the Group's policy is, when available, to hold a natural hedge on any foreign currency, being that any receipts paid to the Group will be held in the same foreign currency and then later used to settle any expenditure in those foreign entities.

Interest rate risk

The Group is not exposed to any significant interest rate risk, given the level of borrowings drawn down at balance date.

(b) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Group's receivables from customers.

Other credit risk arises from cash and cash equivalents, deposits with banks and other financial institutions, security deposits, other receivables and GST receivable from the ATO.

The maximum exposure to credit risk at the reporting date to recognised financial assets is the carrying amount, net of any provisions for impairment of those assets, as disclosed in the statement of financial position and notes to the financial statements. The Group does not hold any collateral.

Credit risk is managed by a risk assessment process for all customers and counterparties, which takes into account past experience. A doubtful debt provision of \$62,398 has been recognised during the financial year (2022: \$62,398).

(c) Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach to managing liquidity is to ensure, where possible, that it will always have sufficient liquidity to meet its liabilities when due.

Ultimate responsibility for liquidity management rests with the Directors. The Group ensures that, where possible, it has sufficient cash on demand to meet expected net cash outflows, including the servicing of financial obligations; this excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters.

The Group manages liquidity risk by maintaining adequate cash reserves by continuously monitoring actual and forecast cash flows and matching the maturity profiles of financial assets and liabilities.

Financing arrangements

The Company has maintained a loan facility of \$1.8 million from Export Finance Australia. The loan facility is a rolling 12-month agreement, with the next renewal date scheduled for 29 September 2023. Interest on the loan facility is payable quarterly, with a total annual interest rate of 10.39% on funds drawn down and 1.5% on funds undrawn. Under the terms of the facility, repayment of the loan amount is due within six months post the date of the drawdown. In the event of the facility's expiration, repayment of the loan amount is due within six months from the expiry date. The financial covenants include a minimum of \$3 million cash at bank balance including the loan facility and is assessed at the end of each quarter. The current drawdown value is \$1,800,000 and \$13,000 is the accrued interest expense. In addition to the \$1.8 million loan, there was a 15- day short term loan provided to assist with the cash management of large capital works projects. The current drawdown value is \$250,000 and \$1,096 is the accrued interest expense.

Maturities of financial liabilities

The following table details the Group's remaining contractual maturity for its financial instrument liabilities. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the financial liabilities are required to be paid. The table includes both interest and principal cash flows disclosed as remaining contractual maturities and therefore these totals may differ from their carrying amount in the statement of financial position.

	1 year or less \$	1 to 2 years \$	2 to 5 years \$	Over 5 years \$
FY 2023				
Non-derivatives				
Trade and other payables	4,546,261	-	-	-
Borrowings	2,064,096	-	-	-
Total	6,610,357	-	-	-
FY 2022				
Non-derivatives				
Trade and other payables	4,391,531	-	-	-
Borrowings	884,345	-	-	-
Total	5,275,876	-	-	-

Trade and other payables are payable as and when they are due. The cash flows in the maturity analysis above are not expected to occur significantly earlier than disclosed.

(d) Capital management

The Board's aim is to maintain a strong capital base so as to maintain investor, creditor and market confidence to sustain future development of the business and increase shareholder value. The Board ensures the Group has sufficient capital as required for working capital purposes. There were no changes to the Group's approach to capital management during the year. The Group is not subject to externally imposed capital requirements.

Notes to the financial statements continued

For the year ended 30 June 2023

21. Remuneration of auditors

During the year, the following fees were accrued or paid for services provided by the auditor of the parent entity, its related practices and non-related audit firms:

	2023 \$	2022 \$
Hall Chadwick		
Audit and review of financial reports	108,000	98,584
Tax compliance services	8,000	7,500
Total	116,000	106,084

22. Contingent liabilities

There are no other contingent liabilities as at 30 June 2023 (30 June 2022: nil).

23. Commitments for expenditure

There are no commitments for expenditure as at 30 June 2023 (30 June 2022: nil).

24. Share based payments

(a) Employee Share Plan (ESP)

During the year ended 30 June 2016, the Company established a share based payment plan, the Employee Share Plan (ESP) to assist the Company in retaining and attracting current and future employees by providing them with the opportunity to own shares in the Company. The plan was refreshed at the 2018 AGM on 29 November 2018 and again at the 2021 AGM on 23 November 2021.

The key terms of the ESP are as follows:

- the Board may invite a person who is employed or engaged by or holds an office with the Group (whether on a full or part-time basis) and who is declared by the Board to be eligible to participate in the ESP from time to time (Eligible Employee) to apply for fully paid ordinary shares under the plan from time to time (ESP Shares);
- invitations to apply for ESP Shares are to be made on the basis of the market price per share defined as the volume weighted average price at which the Company's shares have traded during the 30 days immediately preceding the date of the invitation;
- invitations to apply for ESP Shares under the ESP will be made on a basis determined by the Board (including as to the conditionality on the achievement of any key performance indicators) and notified to Eligible Employees in the invitation, or if no such determination is made by the Board, on the basis that ESP Shares will be subject to a 3 year vesting period, with:
 - 33% of ESP Shares applied for vesting on the date that is the first anniversary of the issue date of the ESP Shares;
 - 33% of ESP Shares applied for vesting on the date that is the second anniversary of the issue date of the ESP Shares; and
 - 34% of ESP Shares applied for vesting on the date that is the third anniversary of the issue date of the ESP Shares.

- Eligible Employees who accept an invitation (ESP Participants) may be offered an interest free loan from the Company to finance the whole of the purchase of the ESP Shares they are invited to apply for (ESP Loan). ESP Loans will have a term of 5 years and become repayable in full on the earlier of:
 - the fifth anniversary of the issue date of the ESP Shares; and
 - if the ESP Participant ceases to be an Eligible Employee, either:
 - the fifth anniversary of the issue date of the ESP Shares, if the Eligible Employee is a good leaver (as defined in the ESP); or
 - that date of cessation, if the Eligible Employee is a bad leaver (as defined in the ESP).
 - if the ESP Participant does not repay the outstanding ESP Loan, or it notifies the Company that it cannot, then such number of ESP Shares that equal by value (using the price at which the ESP Shares were issued) the outstanding amount of the ESP Loan will become the subject of a buy-back notice from the Company which the ESP Participant must accept. The buy-back of such number of ESP Shares will be considered full and final satisfaction of the ESP Loan and the Company will not have any further recourse against the ESP Participant;
 - any dividends received by the ESP Participant whilst the whole or part of the ESP Loan remains outstanding must be applied to the repayment of the ESP Loan;
 - the maximum number of ESP Shares for which invitations may be issued under the ESP together with the number of ESP Shares still to be issued in respect of already accepted invitations and that have already been issued in response to invitations in the previous 5 years (but disregarding ESP Shares that are or were issued following invitations to non-residents, that did not require a disclosure document under the Corporations Act, or that were issued under a disclosure document under the Corporations Act) must not exceed 10% of the total number of ordinary shares on issue in the Company at the time the invitations are made;
 - in the event of a corporate reconstruction, the Board will adjust, subject to the Listing Rules (if applicable), any one or more of the maximum number of shares that may be issued under the ESP (if applicable), the subscription price, the buy-back price and the number of ESP Shares to be vested at any future vesting date (if applicable), as it deems appropriate so that the benefits conferred on ESP Participants after a corporate reconstruction are the same as the benefits enjoyed by the ESP Participants before the corporate reconstruction. On conferring the benefit of any corporate reconstruction, any fractional entitlements to shares will be rounded down to the nearest whole share;
- ESP Participants will continue to have the right to participate in dividends paid by the Company despite some or all of their ESP Shares not having vested yet or being subject to an ESP Loan. If an ESP Loan has been made to the ESP Participant, then any dividend due must first be applied to reducing any outstanding ESP Loan amount applicable to the ESP Shares on which the dividend is paid;
- ESP Shares which have not vested and/or are subject to repayment of the ESP Loan will be restricted (escrowed) from trading;
- the Company may buy-back at the issue price any ESP Shares which:
 - have not vested, or are incapable of vesting at any time (including as a result of the ESP Participant failing to meet any key performance indicators on which vesting of ESP Shares is conditional); or
 - remain in escrow and/or are the subject of an ESP Loan, on the occurrence of:
 - the ESP Participant ceasing to be an Eligible Employee (unless the Board, in its sole and absolute discretion determines otherwise, subject to any conditions that it may apply, including the repayment of any outstanding ESP Loan); or
 - the expiration of the term of the ESP Loan.
- any bonus securities issued in relation to ESP Shares which remain unvested or are subject to an ESP Loan which becomes repayable in full will be the subject of a buy-back by the Company at the issue price for no consideration;
- on the death or permanent disability of an ESP Participant, all ESP Shares held by the ESP Participant or their estate will immediately vest subject to the repayment of any outstanding ESP Loan by the curator, executor or nominated beneficiary(ies) (as the case may be) within 30 days of their appointment (or such longer period as the Company in its discretion may allow). Failing such repayment, the Company will buy-back all ESP Shares in respect of which there is an outstanding ESP Loan;
- the rules of the ESP and any amendment to the rules of the ESP must be in accordance with the Listing Rules and the Corporations Act;
- if, while the Company's shares are traded on the ASX or any other stock exchange, there is any inconsistency between the terms of the ESP and the Listing Rules, the Listing Rules will prevail; and
- the ESP is governed by the laws of the State of New South Wales, Australia.

Notes to the financial statements continued

For the year ended 30 June 2023

(b) ESP share grants

Set out below are summaries of ESP shares granted and issued under the plan:

Grant date	Issue price	Balance at start of year	Granted/ issued	Converted to ordinary shares	Forfeited / cancelled	Balance at end of year	Balance of vested ESP shares	Balance of unvested ESP shares
FY 2023								
13-Oct-22	\$0.046	-	1,000,000	-	-	1,000,000	250,000	750,000

(c) Executive Option Plan (EOP)

During the financial year ended 30 June 2019, the Company established a share based option plan, the Executive Option Plan (**EOP**) seeks to closely align the interest of eligible senior executives participating in the EOP (**Executive Participants**) with those of investors and to ensure that the EOP Participants are motivated and rewarded for performance, shareholder return and compensated for remuneration in lieu of cash payments in line with the economic value created. The plan was refreshed at the 2021 AGM on 23 November 2021.

The options under the EOP (**EOP Options**) will entitle their holder to receive ordinary shares in the capital of the Company (**EOP Shares**) upon satisfaction of certain vesting conditions as determined by the Board from time to time. The key terms of the EOP are as follows:

EOP Options provide an opportunity to acquire EOP Shares subject to the payment of the exercise price set at the time of the grant of the EOP Options (Exercise Price) and EOP Participants can continue to hold the EOP Options after they have vested.

EOP Options will vest upon notification by the Company that the EOP Options have vested.

EOP Options enable the participant to gain the benefit of any excess of the Share price over the Exercise Price paid. In the event the Share price is equal to or below the Exercise Price, the EOP Options would be of no value.

In order for the EOP Options to vest, the Vesting Conditions set out in the invitation, or otherwise determined by the Board, for the grant of the EOP Options must have been satisfied. In addition, at the time of vesting, a participant must not have engaged in serious and wilful misconduct, wilful disobedience, gross negligence or incompetence, insubordination, disqualification under Part 2D.6 of the Corporations Act 2001 (Cth), a serious breach of an employment agreement and behaviour which damages the business or reputation of the Company (**Proscribed Conduct**)

If the participant engages in Proscribed Conduct, then the EOP Options will be forfeited.

The EOP Options will not be quoted nor will they carry an entitlement to dividends or a right to vote at General Meetings of the Company.

The invitation to participate in the EOP will specify the number of EOP Options to be granted. If Vesting Conditions are not met, then unvested EOP Options will be forfeited. If the relevant targets are achieved, the EOP Options will vest and may be exercised, by payment of the Exercise Price. This can be done at any time up to ten years after the grant of the EOP Options.

(d) EOP share grants

Set out below are summaries of EOP shares granted and issued under the plan:

Grant date	Issue price	Balance at start of year	Granted/ issued	Exercised	Forfeited / cancelled	Balance at end of year	Balance of vested EOP shares	Balance of unvested EOP shares

Notes to the financial statements continued

For the year ended 30 June 2023

All Eligible Employees who accepted an offer of ESP and EOP shares were given an interest free loan from the Company to finance the whole of the purchase of the ESP shares they were invited to apply for (ESP and EOP Loan).

The ESP and EOP Loans are provided to participants on a non-recourse basis and upon vesting must be repaid in order to remove trading restrictions on vested ESP and EOP shares. The term of the ESP is five years and EOP Loan is ten years; however, participants may forfeit their ESP and EOP shares if they do not repay the ESP and EOP Loan or leave the Company. As the ESP and EOP removes the risk to participants from decreases in the share price by limiting the maximum loan amount repayable to the value of the ESP and EOP shares disposed and waiving the ESP and EOP Loan should the participant forfeit their ESP and EOP shares, whilst still allowing participants the rewards of any increase in share price, the Company has effectively granted the participants an option to the ESP and EOP shares due to the ESP and EOP loans being non-recourse. As such, this arrangement is accounted for under AASB 2.

The assessed weighted average fair value at grant date of the effective share options granted during the financial year is \$0.022 per option (2022: \$0.099). Options were priced using a Black-Scholes option pricing model that takes into account the exercise price, the term of the option, the impact of dilution, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk-free interest rate for the term of the option. The expected volatility of the Company's shares is based on the historical volatility of the Company's shares and other ASX listed companies considered to be comparable to Skyfii Limited.

The model inputs for the share option grants outstanding during the year ended 30 June 2023 include:

- Weighted average exercise price: various 30 day VWAP at time of issue
- Weighted average life of the option: 5-10 years
- Expected share price volatility: 61-80%
- Risk-free interest rate: 0.24-0.74%

(e) Other share based payments

No other share based payments were issued in 2023 or 2022.

25. Related parties

(a) Parent and ultimate controlling party

Skyfii Limited became the parent and ultimate controlling party of the Group on 20 November 2014. Prior to that date the parent and ultimate controlling party of the Group was Skyfii Group Pty Ltd.

(b) Subsidiaries

Interests in subsidiaries are set out in Note 27.

(c) Key management personnel compensation

	2023 \$	2022 \$
Short-term employee benefits, including contractor fees	1,402,398	1,753,949
Share based employee benefits	-	-
Other long term benefits	109,359	94,826
Total benefits	1,511,757	1,848,775

Short-term employee benefits

These amounts include fees and benefits paid to Directors as well as all salary, paid leave benefits and fringe benefits awarded to other KMP.

Share based employee benefits

These amounts represent the expense related to ordinary shares issued in lieu of payments as measured by the fair value of the shares issued or liabilities extinguished.

Further information in relation to KMP remuneration can be found in the Remuneration Report.

(d) Payable transactions with directors and key management personnel

There were no payable transactions or outstanding balances relating to director and/or key management personnel and entities over which they have control or significant influence.

Other payable transactions with directors and key management personnel

At 30 June 2023 the payable balance outstanding with directors and key management personnel relating to expense reimbursements for supplier payments and business expenses was \$nil (2022: \$nil).

Other receivable transactions with directors and key management personnel

At 30 June 2023, the net receivable balance outstanding with directors and key management personnel relating to employee debit and credit card advances utilised for the sole purpose of supplier payments and business expenses was \$14,070 (2021: \$17,303).

The terms and conditions of the transactions with these entities were no more favourable than those available, or which might reasonably be expected to be available, on similar transactions to non-key management personnel related entities on an arm's length basis.

Notes to the financial statements continued

For the year ended 30 June 2023

Loss attributable to the ordinary equity holders of the Company used in calculating basic EPS	(10,542,247)	(11,087,809)

31. Prior Year Acquisition of CrowdVision Inc

On 6 April 2021, the Company acquired CrowdVision Inc and its subsidiaries. During year the Company finalised the settlement with a total enterprise value of \$6,341,719 made up of cash consideration of \$1,167,000 and shares issued of \$5,174,719 issued on completion on 23 July 2021.

CrowdVision is a leading AI and machine learning video analytics and insights company based in North America and the United Kingdom. The company provides automated pedestrian analytics and insights that enables infrastructure operators like airports, transport hubs, retail malls, convention centres and theme parks to act decisively to increase efficiency and profitability, both in the moment and in the future, whilst improving their customers' experience. The CrowdVision real-time analytics platform processes live video input from commercial off the shelf cameras and live LiDAR streams, both of which detect pedestrian movements automatically using sophisticated artificial intelligence and machine learning techniques. CrowdVision outputs live data about everything from passenger and visitor flows, queue management and wait times to processing times, occupancies, social distancing and asset utilization. Live dashboards reveal actionable insights to improve real-time operations, while accumulated historical data provides evidence for planning and investment decisions.

As part of the completion of the CrowdVision acquisition a total of \$3.1m in non-recurring payments were required to settle CrowdVision's legacy net debts (including aged payables). The \$3.1m cost was offset against the total purchase price paid to the vendors of CrowdVision. However, under the accounting standards, these payments were required to be classified as cash outflows from operating activities. The outflows of \$3.1m have to date been settled/paid as follows: \$1.3m in Q4 FY21, \$1.3m in Q1 FY22, \$220k in Q2 FY22, \$210k in Q3 FY22 and \$70k in Q4 FY22.

The acquired trademarks, software, customer relationships, customer contracts and patents have been determined to have useful lives of 7 years, 5 years, 10 years, 6 years and 5 years respectively. The below fair values are recognised in the financial statements in respect of the CrowdVision acquisition.

	Fair Value \$

Tax Payable	(123,000)
Other Creditors	(1,558,000)
Net assets acquired and liabilities assumed	6,341,719

Directors' Declaration

In the Directors' opinion

- the attached financial statements and notes thereto comply with the Corporations Act 2001, the Accounting Standards, the Corporations Regulations 2001 and other mandatory professional reporting requirements;
- the attached financial statements and notes thereto comply with International Financial Reporting Standards as issued by the International Accounting Standards Board as described in Note 2 to the financial statements;
- the attached financial statements and notes thereto give a true and fair view of the consolidated entity's financial position as at 30 June 2023 and of its performance for the year ended on that date; and
- there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

The Directors have been given the declarations required by section 259A of the Corporations Act 2001.

Signed in accordance with a resolution of directors made pursuant to section 295(5) of the Corporations Act 2001.

On behalf of the Directors

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF
SKYFII LIMITED

Opinion

We have audited the financial report of Skyfii Limited and its Controlled Entities (the Group), which comprises the consolidated statement of financial position as at 30 June 2023, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, notes to the consolidated financial statements including a summary of significant accounting policies and other explanatory information, and the directors' declaration.

In our opinion the accompanying financial report of the Skyfii Limited and Controlled Entities is in accordance with the *Corporations Act 2001*, including:

- a. giving a true and fair view of the Group's financial position as at 30 June 2023 and of its performance for the year then ended; and
- b. complying with Australian Accounting Standards and the *Corporations Regulations 2001*

Basis of Opinion

We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance about whether the financial report is free from material misstatement. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110: *Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF SKYFII LIMITED

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report for the year ended 30 June 2023. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matter

How Our Audit Addressed the Key Audit Matter

Revenue recognition

Refer to Accounting policy Note 3(m) and Note 5

The Group has the following revenue streams:

- Recurring SaaS revenue is recognised over time for the duration of the contracted term.
- Non-recurring revenue including hardware, installation and setup costs recognised at a point in time when performance obligations are met.

Revenue recognition is a key audit matter as significant judgement is required by the Group in applying AASB 15 "Revenue from Contracts with Customers", such as interpreting the contractual terms including performance obligations and assessing the allocation of revenue over time.

- We developed an understanding of relevant internal controls and processes in the revenue transaction cycle;
- We obtained and reviewed a sample of contracts, considering the terms and conditions, performance obligations of these arrangements and assessing the accounting treatment in accordance with AASB 15;
- We verified management's calculation for deferred revenue;
- We assessed the adequacy of the Group's disclosures in respect to revenue recognition in accordance with AASB 15.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF SKYFII LIMITED

Key Audit Matter	How Our Audit Addressed the Key Audit Matter
------------------	--

Carrying Value of Intangible Assets

Refer to Note 13 '*Intangible Assets*' \$12,134,806; Accounting Policy Note 3(g) and Note 3(x) '*Critical Accounting Estimates and Judgements*'

The carrying value of intangible assets is a key audit matter as:

- The carrying value of intangible assets represents approximately 50% of the Group's total assets.
- There is a significant level of judgement when considering management's assessment of the carrying value of intangible assets.

Our procedures included, amongst others, the following:

- We assessed management's determination of the Group's capitalisation of software development expenditure based on our understanding of the nature of the Group's operations and consideration of the factors in AASB 138 "Intangible Assets".
- We verified a sample of software development expenditure capitalised during the year to supporting documentation.
- We checked the amortisation calculation for all intangible assets and verified that the calculation was in accordance with the group's accounting policy.
- We assessed whether there were any impairment indicators for intangible assets with a finite useful life.
- With the assistance of Hall Chadwick's valuation specialists, we assessed the recoverability of the carrying value of all intangible assets by reviewing the client's discounted cash flow model.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF SKYFII LIMITED

Information Other than the Financial report and Auditor's Report Thereon

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2023, but does not include the financial report and our auditor's report thereon. Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon. In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report, or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF SKYFII LIMITED

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the director's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial report. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, amongst other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.
