INTRODUCTION

The Board of The Market Herald Limited is pleased to present the financial results for the Group for the financial year ended 30 June 2023.

The Group experienced a year of strong revenue growth following the acquisition of Gumtree Australia and related entities Autotrader Australia and Carsguide in October 2022. Total revenues for the year increased by 217% to \$81,616,368 (30 June 2022: \$25,778,718).

The strategic importance of Gumtree Group to the TMH Group is evident in these results. Gumtree is Australia's leading classifieds platform for buying, selling, and finding a wide range of products and services including cars, jobs, furniture, and pets. Both Carsguide and Autotrader have leading positions in the segments they operate in. Over 6.5 million Australians connect each and every month using the three Gumtree Group platforms.

RETURNING TO PROFITABILITY

Over the past 12 months the Group has focused on refining its strategy, its operations and pathways to future growth with profitability being its primary focus.

The Group has successfully delivered on these initiatives with total EBITDA from continuing operations to increase by \$13.9 million to \$12.0 million (from negative \$1.9 million in 2022) and Profit before Tax to grow by \$8.9 million to \$6.0 million in 2023 (from negative \$2.9 million in 2022).

This turnaround is testament to the strategy endorsed by the Board and its new management team.

This has been a fundamentally important year for the Group which has prioritised business activities on achieving profitability.

Principal activities

The Market Herald Limited is a group of businesses with three main offerings, each having a leading role in their relevant segments:

1) Digital classifieds:

We operate one of the largest classifieds businesses in Australia with a powerful portfolio of complimentary brands: Gumtree, Carsguide and Autotrader ("Gumtree Group").

- Gumtree is the largest and oldest iconic Australian online horizontal marketplace with over 500 million pageviews per month. Annual listed GMV amounts to AUD 40 billion.⁽¹⁾
- CarsGuide is Australia's largest Auto Editorial website featuring new car reviews, news and advice. Offering rich and relevant content for 2.0 million monthly car buyers, CarsGuide is also home to 70,000+ live listings on our dedicated dealer classifieds marketplace.
- Autotrader is the dedicated classifieds marketplace that puts Australian car buyers first. Connecting 0.6 million prospective car buyers each month with Australian dealers, Autotrader delivers transparent listings, dealership locations and advanced research tools.

Gumtree, Carsguide, and Autotrader is a highly attractive marketplace ecosystem with highly complementary brands, reaching 1 in 3 Australians each month. Total monthly unique users amount to 6.5 million.

2) Digital business and news communities:

We operate one of the largest digital business and news communities in Australia and Canada, reaching a combined audience of 3 million investors on platform with over 52 million pageviews per month (45 million in Australia and 7 million in Canada).

3) Digital Investor Relations and Consulting:

The Market Herald Limited serves affluent audiences in each of our markets. To help our clients effectively engage with this audience, we launched Advisir, a digital strategy consulting business.

Operating and financial review

The Board of The Market Herald Limited is pleased to present the financial results for the Group for the financial year ending 30 June 2023. The Group experienced a year of strong revenue growth following the acquisition of Gumtree AU Pty Ltd and its subsidiaries Carsguide Autotrader Media Solutions Pty Ltd and Gumtree IP AUS Holding Ltd ("Gumtree Group") in October 2022. Total revenues for the year increased by 217% to \$81,616,368 (30 June 2022: \$25,778,718).

The strategic importance of Gumtree Group to the TMH Group is evident in these results. Gumtree is Australia's leading classifieds platform for buying, selling, and finding a wide range of products and services including cars, jobs, furniture, and pets. Both Carsguide and Autotrader have leading positions in the segments they operate in. Over 6.5 million Australians connect each and every month using the three Gumtree Group platforms.

"Returning to profitability"

The continuing operations of the Group performed well in the year end 30 June 2023 with a significant part of total profitability coming from the newly acquired businesses. In the year ended 30 June 2022 the classifieds business performance was still impacted by the COVID related restrictions, which have largely ended. In the year ended 30 June 2023 the total business has seen the first effects of challenging macroeconomic conditions which impacted consumer sentiment and advertising demand.

Over the past 12 months the Group has focused on refining its strategy, its operations and pathways to future growth with profitability being its primary focus.

The Group has successfully delivered on these initiatives with total EBITDA from continuing operations to increase by \$13.9 million to \$12.0 million (from negative \$1.9 million in 2022) and Profit before Tax to grow by \$8.9 million to \$6.0 million in 2023 (from negative \$2.9 million in 2022). These results include the one-off expenses associated with the acquisition of the Gumtree Group, with the Takeovers Panel process and with the restructuring of the discontinued operations.

This turnaround is testament to the strategy endorsed by the Board and its new management team.

Other key milestones of The Market Herald Limited in FY2023 include:

- Completed a comprehensive evaluation of its business units after which management decided to discontinue long-term underperforming and loss-making activities;
- Successfully refinanced the vendor loan note with Adevinta through a new facility with the Commonwealth Bank of Australia ("CBA"); and
- Appointed a new management team with in-depth knowledge of Classifieds and Capital Markets.

This has been a fundamentally important year for the Group which has prioritised business activities on achieving profitability.

(3) Discontinued operations relate to the Subscribacar activity which was discontinued during the year following the strategic review.

Shareholders can find further information on the financial results in the "2023 Financial Results" discussion section of this Directors Report.

For the financial year ended 30 June 2023, cash receipts from customers was \$100,027,974 for the year, representing a growth of 257% from the previous year (30 June 2022: \$28,036,383).

Dividend

As the Group continues to progress its strategy, it will continue to invest operating cashflows into strategic growth, and the Board has elected not to declare a dividend in relation to the 2023 financial year (30 June 2022: \$Nil).

It is the intention of the Board to profitably grow and expand the business, and to ensure shareholders benefit from that growth and expansion through capital growth in valuation of The Market Herald Limited's share price, and availability of returns for distribution. To this end, the Board will continue to update shareholders on its strategic progress and look forward to welcoming those of you who can join us at the 2023 Annual General Meeting, details of which will shortly be announced.

Key risks identified and mitigating actions

Risk: Significant decline in new listings

Significant decline in new listings on our Classifieds sites posted by businesses and consumers, would result in a disparity between buyers and seller's expectations. This could as a result impact our overall financial performance and growth.

Mitigating action:

Incremental investments in marketing activities (e.g. Paid and Search Engine Optimisation) to increase total volume of listings on our platforms. Further investments in our product and technology to improve user experience.

Risk: Prolonged website downtime or system failure

If any of the Group's websites experience a downtime or systems failures for a prolonged period, the business may not be able to provide its services which would have a negative impact on revenue and customer perception.

Mitigating action:

The Group continues to invest in technology to strengthen the platform and prepare for long-term growth.

Significant changes in the state of affairs

During the year, the Group acquired Gumtree AU Pty Ltd and its subsidiaries Carsguide Autotrader Media Solutions Pty Ltd and Gumtree IP AUS Holding Ltd ("Gumtree Group"). The acquisition of the Gumtree Group represents a significant change in the state of affairs of the Company, and its financial statements reflect the impact of this transaction.

There have been no other significant changes in the Group's state of affairs during the course of the year ended 30 June 2023.

Review of financial condition

The Group remains well-capitalised with cash and cash equivalents of \$12,677,020, an increase of 166% from the previous year (30 June 2022: \$4,768,749) and financial assets of \$8,097,034 (30 June 2022: \$10,649,864) as at 30 June 2023.

Significant events after the balance date

The Company progressed a comprehensive evaluation of its business units in FY2023. Following this strategic review, the management team decided to discontinue the Subscribcar activity. Following years of underperformance without a clear turn-around plan the Company is winding down these operations.

On 4 July 2023 the Company entered into a deed of cross guarantee arrangement with its subsidiaries Gumtree AU Pty Ltd and Carsguide Autotrader Media Solutions Pty Ltd. Relief under this deed will be applicable from financial year ending 30 June 2024.

No other matters or circumstances have arisen since 30 June 2023 that have significantly affected or may significantly affect:

- the Group's operations in future financial years; or
- the results of those operations in future financial years; or
- the Group's state of affairs in future financial years.

Likely developments and expected results of operations

Likely developments in the operations of the Group and the expected results of those operations in future financial years have not been included in this report as the inclusion of such information is likely to result in unreasonable prejudice to the Group.

Environmental regulation

The Group is not subject to any particular or specific environmental regulation in any of the jurisdictions in which it operates and therefore is not required to present further details in relation to environmental regulation.

Remuneration Report (Audited)

The Group's remuneration policy is structured for the purpose of motivating executive directors and senior management to pursue the long-term growth and success of the Group and demonstrating a clear relationship between executive directors' and senior management's performance and remuneration.

The Board sets the level and structure of remuneration for executive directors and senior management, for the purpose of balancing the Group's competing interests of attracting and retaining executive directors and senior management and not paying excessive remuneration.

Executive directors' remuneration is structured to reflect short and long-term performance objectives appropriate to the Group's circumstances and goals. Executive directors' and senior management's remuneration packages involve a balance between fixed and incentive pay, reflecting short and long-term performance objectives appropriate to the Group's circumstances and goals.

The remuneration structures take into account the capability and experience of the key management personnel and the Group's performance including:

- the successful implementation of new revenue streams for development into operations;
- the Group's earnings;
- the growth in share price and delivering enhancement of shareholder value; and
- the amount of incentives within each key management person's remuneration.

At the 2022 Annual General Meeting of Shareholders held on 28th November 2022, 99.99% of the shareholders of The Market Herald Limited voted to adopt the 2022 Remuneration Report by ordinary resolution passed by way of show of hands.

Executive remuneration

Principles of remuneration

Remuneration packages include a mix of fixed and variable remuneration and short and long-term performance-based incentives.

Fixed remuneration

Fixed remuneration consists of base remuneration as well as employer contributions to superannuation funds, as required by law. Remuneration levels are reviewed annually by the Board through a process that considers individual performance and overall performance of the Group.

Performance linked remuneration

Performance linked remuneration includes short-term and long-term incentives and is designed both to reward key management personnel for meeting or exceeding

their financial and personal objectives and to keep the Group competitive in the marketplace.

The long-term incentive ('LTI') has been provided as options over ordinary shares of the Company that were issued when the Company completed its listing on the Australian Securities Exchange ('ASX') in September 2016.

Short-term incentive bonus

Remuneration for certain individuals is directly linked to the performance of the Group. A portion of cash bonus and incentive payments are dependent on defined revenue and earnings targets being met. The remaining portion of cash bonus and incentive payments are paid to key management personnel at the discretion of the Board based on individual performance for the year. The full Board reviews and confirms the cash incentive to be paid to each individual. Discretionary payments thus provide the Board with flexibility to reward individual performance.

Long-term incentive

Options are issued at the discretion of the Board and provides for key management personnel to receive varying numbers of options for no consideration. The actual number of options issued depends on the seniority and responsibility of the executive concerned.

For executive options, the performance conditions and vesting periods of the options are set so as to provide a realistic incentive to each executive and to reflect the executive's contribution to the Group and enhancement of value for all shareholders.

No options were issued during the 2023 financial year (nil in 2022 financial year).

Use of remuneration consultants

During the financial year, the Group did not engage any remuneration consultants (nil in 2022 financial year).

Consequences of performance on shareholder wealth

The Board considers that the most effective way to increase shareholder wealth is to increase revenue and profits through existing channels and the development of new revenue streams through website enhancements, product development and possible strategic partnerships.

The Board considers that the Group's LTI schemes incentivise key management personnel to successfully develop new revenue streams by providing rewards that are directly correlated to delivering value to shareholders through share price appreciation.

The factors that are considered relevant to affect total shareholder returns as required to be disclosed by the *Corporations Act 2001* are summarised in the following table.

	2023	2022	2021	2020	2019
Revenue from continuing operations (\$000's)	81,616	25,779	23,001	12,035	4,252
Net profit/(loss) after tax (\$000's)	4,352	(4,621)	10,837	(348)	(35)
EBITDA from continuing operations (\$000's)	12,014	(1,885)	15,760	3,512	258
Share price at year-end (\$'s)	0.275	0.39	0.61	0.18	0.175
Basic earnings per share (cents)	1.61	(2.39)	5.71	(0.22)	(0.03)

No dividend was paid during the 2023 financial year (nil in 2022 financial year).

(2) Nil fees for the year ended 2022.

Non-executive directors

Total remuneration for all non-executive directors was set at \$400,000 per annum (approved 22 April 2016). The levels of fees set were based on a review involving reference to fees paid to other non-executive directors of comparable companies at the time. Directors' fees are paid monthly in arrears. Members of the board of directors are entitled to performance-related remuneration. Directors' fees cover all main board activities. Additional services provided outside of board duties attract a separate daily rate agreed by the full Board. There is no board retirement scheme and there is currently no intention to establish such a scheme.

Annual directors' fees currently agreed to be paid by the Company are \$60,000 to the Chairman and \$36,000 to the other non-executive directors. Superannuation payments (if applicable) are not included in these amounts.

Analysis of bonuses included in remuneration

Short-term incentive cash bonuses were awarded and paid as remuneration in the year ended 30 June 2023 as follows:

Ms Twila Jensen's contract includes a cash bonus component for FY2023 that is dependent on the completion of the restructuring of the Stockhouse and Perth operations in the period, with a total achievable amount of \$125,000 that was fully achieved. Ms Jensen's contract also includes a portion for FY2024 that is dependent on the achievement of revenue, EBITDA and the percentage of equity-settled contracts entered by the group. Total achievable amount is \$600,000 in FY24.

Mr Tommy Logtenberg's contract includes an incentive bonus of \$125,000 for FY2023 that is set by the Board based on their absolute discretion, of which the total amount was fully achieved. Mr Logtenberg is also entitled to the Annual Variable Incentive (AVI) Scheme, where he is eligible for corporate bonus calculated at 25% of his annual base salary (maximum payment \$125,000). Total amount achieved in FY2023 was \$73,898.

In addition, Mr Logtenberg was also awarded \$250,000 cash bonus for his role in the sale of Gumtree Group during the year.

There are no other contracts in place that includes a STI.

Remuneration Report (Audited) (continued)**Share-based compensation****Performance Rights**

On 5 May 2023, Mr Tommy Logtenberg was provided with an incentive plan with the following details:

- Number of performance rights: 1,449,275
- Grant date: 2 August 2023
- Vesting date: The performance rights will vest 12 months from the date of the successful refinancing of the Gumtree Vendor Loan Note. This event has occurred during the year.
- Expiration date: 12 months from vesting date

Vesting conditions:

- Subject to the successful refinancing of the Gumtree Vendor Loan Note and repayment of monies owed to Adevinia; and
- Remaining employed, or otherwise engaged, by the

Company or one of its subsidiaries for a continuous period up to and including the Vesting Date.

The Board resolution was completed on 2 August 2023 therefore the fair value of the performance rights was deemed to be \$463,768 based on the share price at that date, with \$54,636 recognised as share-based payment expense in the current year.

The number of performance rights granted was determined having regard to the satisfaction of performance measures as described above. The performance rights vest based on the provision of service over the vesting period whereby the executive becomes beneficially entitled to the performance right on vesting date. The performance rights are held by the holder as from the vesting date. There has not been any alteration to the terms or conditions of the grant since the grant date. There are no amounts paid or payable by the recipient in relation to the granting of such performance rights.

Other transactions and balances with KMP and their related parties

Details and terms and conditions of other transactions and balances with KMP and their related parties:

As of 30 June 2023, the interest receivable balance owing from Mr Jagdip Sangha is nil (30 June 2022: \$75,287). This is in relation to the drawdown of the limited recourse loan facility of \$1,500,000 on 27 December 2019 which attracts an interest rate of 2% per annum. The purpose of the loan is to fund the acquisition of shares in The Market Herald Limited. The loan can be repaid at any time but Mr Jagdip Sangha must repay any amount outstanding to the Group on the earlier to occur of the following:

- Five years of the first draw-down date under the loan facility;
- 30 days of termination of employment; or
- Seven days after the provision of written notice of the Group following the occurrence of an event of default

During the year, at the Company's request the loan and interest accrued has been repaid by Mr Jagdip Sangha through the return of shares.

On 14 September 2022 the Company completed a rights issue in which Capital Investment Partners Pty Ltd were the underwriters. Total underwriting fees paid by the Company was \$954,342.

On 26 March 2023 the Company completed a rights issue of which Capital Investment Partners received \$43,225 as part of the sub-underwriters fees.

Capital Investment Partners Pty Ltd is controlled by Mr Gavin Argyle.

Notes to the Consolidated Financial Statements for the Year Ended 30 June 2023

1. Corporation information

The consolidated financial report of The Market Herald Limited (the "Company") and its controlled entities (collectively referred to as the "Group") for the year ended 30 June 2023 was authorised for issue in accordance with a resolution of the directors on 22 September 2023.

The Market Herald Limited is a for-profit company limited by shares incorporated in Australia whose shares are publicly traded on the Australian Securities Exchange. The Group is principally engaged in the provision of digital

classifieds, maintaining digital business communities, producing digital business news and providing digital investor relations and consulting services. The Group's principal place of business is in Perth, Western Australia, Australia. Further information on the nature of the operations and principal activities of the Group is provided in the directors' report. Information on the Group's structure is provided in Note 34. Information on other related party relationships of the Group is provided in Note 31.

2. Significant accounting policies

2.1 Basis of preparation

The financial report is a general purpose financial report, which has been prepared in accordance with the requirements of the Corporations Act 2001, Australian Accounting Standards and other authoritative pronouncements of the Australian Accounting Standards Board.

The financial report has been prepared on an accrual basis and is based on historical costs except for certain financial assets measured at fair value.

The financial report is presented in Australian dollars (AUD).

(a) *Compliance with International Financial Reporting Standards*

The consolidated financial statements of The Market Herald Limited also comply with the International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

(b) *New or amended Accounting Standards and Interpretations adopted*

The Group has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

2.2 Basis of consolidation and accounting policies applied

Generally, there is a presumption that a majority of voting rights results in control. To support this presumption, and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and

circumstances in assessing whether it has power over an investee, including:

- the contractual arrangement(s) with the other vote holders of the investee;
- rights arising from other contractual arrangements; and
- the Group's voting rights and potential voting rights.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it derecognises the related assets (including goodwill), liabilities, non-controlling interest and other components of equity while any resultant gain or loss is recognised in profit or loss. Any investment retained is recognised at fair value.

(a) *Foreign currency translation*

Functional and presentation currency

The functional currency of each entity in the Group is determined with reference to the currency of the primary economic environment in which the Company operates ("the functional currency"). The financial statements are presented in Australian dollars, which is also the Company's functional currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates

2. Significant accounting policies (continued)

2.2 Basis of consolidation and accounting policies applied (continued)

(a) Foreign currency translation (continued)

Transactions and balances (continued)

at the dates of the transaction. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognised in profit or loss.

(b) Plant and equipment

All plant and equipment is stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Repairs and maintenance are charged to the profit or loss during the reporting period in which they are incurred.

Depreciation is calculated over the estimated useful life of the asset as follows

	Method	Depreciation rate
Plant and equipment	Reducing Balance	7%-50%
Motor Vehicles	Straight Line	20%
Leasehold improvements	Reducing Balance	33%

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss.

(c) Impairment of non-financial assets

Non-financial assets are tested for impairment whenever events or changes in circumstances indicate that their carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value (less costs of disposal) and value in use.

For the purposes of assessing impairment, assets are grouped together at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets that suffered impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

(d) Discontinued operations

A discontinued operation is a component of the Group that has been disposed of or is classified as held for sale and that represents a separate major line of business or geographical area of operations,

is part of a single co-ordinated plan to dispose of such a line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale. The results of discontinued operations are presented separately on the face of the statement of profit or loss and other comprehensive income.

(e) Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less; that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(f) Trade and other receivables

The Group classifies receivables as financial assets at amortised cost if both of the following conditions are met: -

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Trade receivables that do not contain significant financing component are initially recognised at the transaction price determined under the revenue policy. Other receivables are initially measured at fair value less transaction costs. Receivables at amortised cost are subsequently measured using the effective interest (EIR) method, less an allowance for expected credit losses. The Group has applied the simplified approach to measuring expected credit losses, which uses a lifetime expected loss allowance. To measure the expected credit losses, trade receivables have been grouped based on days overdue. The Group considered a financial asset in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancement held by the Group. A receivable is written off when there is no reasonable expectation of recovering the contractual cash flow.

(g) Intangible assets

Software development

Research costs are expensed as incurred. Development expenditures on an individual project are recognised as an intangible asset when the Group can demonstrate:

- the technical feasibility of completing the intangible asset so that the asset will be available for use or sale;
- its intention to complete and its ability and intention to use or sell the asset;
- how the asset will generate future economic benefits;
- the availability of resources to complete the asset; and
- the ability to measure reliably the expenditure during development.

2. Significant accounting policies (continued)

2.2 Basis of consolidation and accounting policies applied (continued)

(g) Intangible assets (continued)

Software development (continued)

Following initial recognition of the development expenditure as an asset, the asset is carried at cost less any accumulated amortisation and accumulated impairment losses. Amortisation of development cost is based on a straight-line method over a 3-10 year period and matched to the future economic benefits over the useful life of the project. The amortisation period and amortisation method of intangible assets are reviewed at least at each balance date.

Goodwill

Goodwill arises on the acquisition of a business. Goodwill is not amortised. Instead, goodwill is tested annually for impairment, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses. Impairment losses on goodwill are taken to profit or loss and are not subsequently reversed.

Brands

Brands acquired in business combination are not amortised. Instead, brands are tested annually for impairment, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses. Impairment losses on trademark are taken to profit or loss and are not subsequently reversed.

Trademarks

Trademark is not amortised. Instead, trademark is tested annually for impairment, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses. Impairment losses on trademark are taken to profit or loss and are not subsequently reversed.

Customer relationship

Customer relationship acquired in a business combination are amortised on a straight-line basis over the period of their expected benefit, being their finite life of 1.25 years.

(h) Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Where the Group expects some or all of a provision to be reimbursed, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain.

If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time

value of money and, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

(i) Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of the services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those services.

Classified revenue

All revenues related to fees for listing items and also to feature the listing are generally recognised at the point in time of the classifieds listing.

Dealer sales revenue

Software and website subscription services revenue is earned from fees that give customers access to software and website applications. These revenues are recognised over time as they are delivered and consumed concurrently over the contractual term.

Advertising revenue

Revenue from advertising arrangements (including "pay per view" advertising arrangements) where an advertisement is running for a period of time on the site is recognised as over time because the customer simultaneously receives the benefits provided by the entity's performance as the entity performs its obligations.

Investor relations revenue

Revenue from investor relations services and advertisements is recognised in accordance with the nature of the service and the terms of the agreement with the customer.

Revenue is recognised over time when the service or advertisement is for a specific period of time and does not involve individual performance obligations. For example, services and advertisements with contractual terms spanning a fixed period will be recognised over that period on a straight-line basis, reflecting the continuous provision of services.

Revenue is recognised at a point in time when there are specific performance obligations associated with the service or advertisement. For instance, revenue from a sponsored email campaign sent to a database of verified opt-in email recipients will be recognised at the point in time when the email is sent and delivered to the recipients.

(j) Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Group performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

(k) Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the taxation

2.2 Basis of consolidation and accounting policies applied (continued)

(k) Goods and services tax (GST) (continued)

authority. In this case it is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the taxation authority is included with other receivables or payables in the statement of financial position.

Cash flows are presented in the Consolidated Statement of Cash Flows on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the taxation authority, are presented as operating cash flows.

(l) Trade and other payables

These amounts represent liabilities for goods or services provided to the Company prior to the end of the financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

(m) Income tax

Current tax

Current tax is calculated by reference to the amount of income taxes payable or recoverable in respect of the taxable profit or tax loss for the period. It is calculated using tax rates and tax laws that have been enacted or substantively enacted by reporting date. Current tax for current and prior periods is recognised as a liability (or asset) to the extent that it is unpaid (or refundable).

The Group records its best estimate of these items based upon the latest information available and management's interpretation of enacted tax laws. Whilst the Group believes it has adequately provided for the outcome of these matters based on the most probable outcome, future results may include favourable or unfavourable adjustments as assessments are made, or resolved.

Deferred tax

Deferred tax is provided using the full liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is

reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

(n) Contributed equity

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

(o) Employee benefits

Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits and annual leave expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled.

Long service leave

The liability for long service leave is recognised and measured using the projected unit credit valuation method up to the reporting date. Consideration is given to the expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on high quality corporate bonds with terms to maturity and currencies.

Superannuation

Contributions made by the Group to employee superannuation funds, which are defined contribution plans, are charged as an expense when incurred.

(p) Equity Investments

Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instrument)

Upon initial recognition, the Group elected to classify irrevocably its equity investments as equity instruments designated at fair value through OCI. The classification is determined on an instrument-by-instrument basis. Gains and losses on these financial assets are never recycled to profit or loss.

Dividends are recognised as other income in the statement of profit or loss when the right of payment has been established. Equity instruments

2.2 Basis of consolidation and accounting policies applied (continued)

(p) *Equity Investments (continued)*

designated at fair value through OCI are not subject to impairment assessment.

The Group's investments were irrevocably designated at fair value through OCI as the Group considers these investments to be strategic in nature and contribute towards facilitating a trusted relationship with the customer.

Financial assets at fair value through profit or loss

Financial assets not measured at amortised cost or at fair value through other comprehensive income are classified as financial assets at fair value through profit or loss. Typically, such financial assets will be either: (i) held for trading, where they are acquired for the purpose of selling in the short-term with an intention of making a profit, or a derivative; or (ii) designated as such upon initial recognition where permitted. Fair value movements are recognised in profit or loss.

(q) *Financial liabilities*

Financial liabilities are classified, at initial recognition, as payables. All financial liabilities are recognised initially at fair value. The Group's financial liabilities include trade and other payables.

They are subsequently measured at amortised cost using the effective interest method. A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

(r) *Fair value measurement*

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The carrying amount of financial assets and financial liabilities approximate their fair values. For financial instruments carried at fair value, the Company uses various methods in estimating fair value. The methods comprise:

Level 1 – the fair value is calculated using quoted prices in an active market.

Level 2 – the fair value is estimated using inputs other than quoted prices included in the Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices).

Level 3 – the fair value is estimated using inputs for the asset or liability that are not based on observable market data.

(s) *Dividends*

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the Company, on or before the end of the reporting period but not distributed at balance date.

(t) *Share-based payments*

The Company provides benefits to individuals acting as, and providing services similar to

employees (including Directors) of the Company in the form of share based payment transactions, whereby individuals render services in exchange for shares or rights over shares ('equity settled transactions').

The cost of these equity settled transactions with employees is measured by reference to the fair value at the date at which they are granted. The fair value is determined by using the Binomial valuation model.

In valuing equity settled transactions no account is taken of any performance conditions, other than conditions linked to the value of the shares of The Market Herald Limited ('market conditions').

The cost of the equity settled transactions is recognised, together with a corresponding increase in equity, over the period in which the performance conditions are fulfilled, ending on the date on which the relevant employees become fully entitled to the award ('vesting date').

The cumulative expense recognised for equity settled transactions at each reporting date until vesting date reflects (i) the extent to which the vesting period has expired and (ii) the number of awards that, in the opinion of the Directors of the Company, will ultimately vest. This opinion is formed based on the best available information at balance date. No adjustment is made for the likelihood of the market performance conditions being met as the effect of these conditions is included in the determination of fair value at grant date. The statement of comprehensive income charge or credit for a period represents the movement in cumulative expense recognised at the beginning and end of the period.

No expense is recognised for awards that do not ultimately vest, except for awards where vesting is conditional upon a market condition.

Where the terms of an equity settled award are modified, as a minimum an expense is recognised as if the terms had not been modified. In addition, an expense is recognised for any increase in the value of the transaction as a result of the modification, as measured at the date of the modification.

The cost of equity-settled transactions with non-employees is measured by reference to the fair value of goods and services received unless this cannot be measured reliably, in which case the cost is measured by reference to the fair value of the equity instruments granted.

The dilutive effect, if any, of outstanding options is reflected in the computation of earnings/(loss) per share (see note 23).

(u) *Earnings per share*

Basic earnings/loss per share is calculated as net profit or loss attributable to members of the Company, adjusted to exclude any costs of servicing equity (other than dividends), divided by the weighted average number of ordinary shares of the Company, adjusted for any bonus element.

Diluted earnings/loss per share is calculated as net profit or loss attributable to members of the

Company, adjusted for:

- costs of servicing equity (other than dividends);
- the after-tax effect of dividends and interest associated with dilutive potential ordinary shares that have been recognised as expenses;
- other non-discretionary changes in revenues or expenses during the period that would result from the dilution of potential ordinary shares; and
- divided by the weighted average number of ordinary shares and dilutive potential ordinary shares, adjusted for any bonus element.

(v) Borrowings

Loans and borrowings are initially recognised at the fair value of the consideration received, net of transaction costs. They are subsequently measured at amortised cost during the effective interest method.

(w) Finance costs

Finance costs are expensed in the period in which they are incurred.

(x) Leases

Group as a lessee

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identifiable asset for a period of time in exchange for consideration.

Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e. the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Unless the Group is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognised right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term, as follows:

- Property lease 5 years

Lease liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments

of penalties for terminating a lease, if the lease term reflects the Group exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognised as expense in the period on which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

Leases of low-value assets

The lease of low-value assets recognition exemption to leases of office equipment that are considered of low value. Lease payments on short-term lease and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

(y) Business combinations

The acquisition method of accounting is used to account for business combinations regardless of whether equity instruments or other assets are acquired. The consideration transferred is the sum of the acquisition-date fair values of the assets transferred, equity instruments issued or liabilities incurred by the acquirer to former owners of the acquiree and the amount of any non-controlling interest in the acquiree. All acquisition costs are expensed as incurred to profit or loss.

On the acquisition of a business, the Group assesses the financial assets acquired and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic conditions, the Group's operating or accounting policies and other pertinent conditions in existence at the acquisition-date. Where the business combination is achieved in stages, the Group remeasures its previously held equity interest in the acquiree at the acquisition-date fair value and the difference between the fair value and the previous carrying amount is recognised in profit or loss.

Contingent consideration to be transferred by the acquirer is recognised at the acquisition-date fair value. Subsequent changes in the fair value of the contingent consideration classified as an asset or liability is recognised in profit or loss. Contingent consideration classified as equity is not remeasured and its subsequent settlement is accounted for within equity.

The difference between the acquisition-date fair value of assets acquired, liabilities assumed and any non-controlling interest in the acquiree and the fair value of the consideration transferred and the fair value of any pre-existing investment in the acquiree is recognised as goodwill. If the consideration transferred and the pre-existing fair value is less than the fair value of the identifiable

2.2 Basis of consolidation and accounting policies applied (continued)

(y) Business combinations (continued)

net assets acquired, being a bargain purchase to the acquirer, the difference is recognised as a gain directly in profit or loss by the acquirer on the acquisition-date, but only after a reassessment of the identification and measurement of the net assets acquired, the non-controlling interest in the acquiree, if any, the consideration transferred and the acquirer's previously held equity interest in the acquirer.

Business combinations are initially accounted for on a provisional basis. The acquirer retrospectively adjusts the provisional amounts recognised and also recognises additional assets or liabilities during the measurement period, based on new information obtained about the facts and circumstances that existed at the acquisition-date. The measurement period ends on either the earlier of (i) 12 months from the date of the acquisition or (ii) when the acquirer receives all the information possible to determine fair value.

(z) AASB Interpretation 23 Uncertainty over Income Tax Treatment

The Interpretation addresses the accounting for income taxes when tax treatments involve uncertainty that affects the application of IAS 12 Income Taxes. It does not apply to taxes or levies outside the scope of IAS 12, nor does it specifically include requirements relating to interest and penalties associated with uncertain tax treatments. The Interpretation specifically addresses the following:

- Whether an entity considers uncertain tax treatments separately.
- The assumptions an entity makes about the examination of tax treatments by taxation authorities.
- How an entity determines taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates.
- How an entity considers changes in facts and circumstances.

An entity has to determine whether to consider each uncertain tax treatment separately or together with one or more other uncertain tax treatments. The approach that better predicts the resolution of the uncertainty needs to be followed. The Group applies significant judgement in identifying uncertainties over income tax treatments. Since the Group operates in a complex multinational environment, it assessed whether the Interpretation had an impact on its consolidated financial statements. Upon adoption of the Interpretation, the Group considered whether it had any uncertain tax positions, particularly those relating to transfer pricing. The Company's and the subsidiaries' tax filings in different jurisdictions and the taxation authorities may challenge those tax treatments. The interpretation did not have an impact on the consolidated financial statements of the Group.

(aa) Significant accounting judgements estimates and assumptions

The directors made estimates and judgements during the preparation of these financial statements regarding assumptions about current and future events affecting transactions and balances.

These estimates and judgements are based on the best information available at the time of preparing the financial statements, however as additional information is known then the actual results may differ from the estimates.

The significant estimates and assumptions made have been described below.

Key judgements

Revenue from contracts with customers

Allocation of the transaction price to multiple performance obligations – the transaction price is allocated to performance obligations based on a relative standard alone selling price basis using the standard list price for individual services.

Key estimates

Business combinations

As discussed in note 2.2 (y), business combinations are initially accounted for on a provisional basis. The fair value of assets acquired, liabilities and contingent liabilities assumed are initially estimated by the Group taking into consideration all available information at the reporting date. Fair value adjustments on the finalisation of the business combination accounting is retrospective, where applicable, to the period the combination occurred and may have an impact on the assets and liabilities, depreciation and amortisation reported.

Impairment of non-financial assets

The Group assess at each reporting date whether there are any indications that an asset or CGU may be impaired. Indicators that were considered but not limited to are such as whether there have been significant changes with an adverse effect on the entity have occurred during the year or will occur in subsequent years in the technological, market economic or legal environment in which the entity operates. Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is higher of its fair value less costs of disposal and its value in use. The value in use calculation is based on a discounted cash flow model. The cash flows are derived from the budget for the next five years and do not include significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the discounted cash flow model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes. Variations to expected future cash flows, and timing thereof, could result in significant changes in the recoverable amount, which in turn could impact future financial results.

Allowance for expected credit losses

The allowance for expected credit losses assessment requires a degree of estimation and

judgement. The most relevant category applicable to the Group is the trade receivables where the ECL calculation is calculated based on the lifetime ECL using a provision matrix, grouped based on days overdue. The ECL assumptions include historical observed default rates and has incorporated forward looking assumptions. Further details of

the accounting policy on ECLs of the Group's trade receivables is disclosed in note 11.

Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the statement of financial position cannot be measured based on quoted prices in active markets, their fair value is measured using the relevant valuation technique. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility.

3. Segment information

Identification of reportable operating segments

For management purposes the Group is organised into four operating segments, which includes the operation of the Australian classified business, being "Gumtree", the Australian digital community and the Market Herald websites, being "The Market Herald" segment, Canadian digital community, being "Stockhouse" segment, and car leasing business, being "Subscribacar segment". All significant operating decisions are based upon analysis of the Group as four segments. These operating segments are based on the internal reports that are reviewed and used by the Board of Directors (who are identified as the Chief Operating Decision Maker ('CODM')) in assessing performance and in determining the allocation of resources. There is no aggregation of operating segments.

The CODM reviews EBITDA (earnings before interest, tax, depreciation and amortisation). The accounting policies adopted for internal reporting to the CODM are consistent with those adopted in the financial statements.

Intersegment receivables, payables and loans

Intersegment loans are initially recognised at the consideration received. Intersegment loans receivable and loans payable that earn or incur non-market interest are not adjusted to fair value based on market interest rates. Intersegment loans are eliminated on consolidation.

Tax consolidation legislation

The Market Herald Limited and its wholly-owned Australian controlled entities implemented the tax consolidation legislation as of 12 September 2016.

The Market Herald Limited is the head entity of the tax consolidated group. Members of the tax consolidated group have entered into a tax sharing agreement that provides for the allocation of income tax liabilities between the entities should the head entity default on its tax payment obligations. No amounts have been recognised in the financial statements in respect of this agreement on the basis that the possibility of default is remote.

The Group has applied the separate taxpayer within a group approach in determining the appropriate amount of current taxes and deferred taxes to allocate to members of the tax consolidated group.

In addition to its own current and deferred tax amounts, The Market Herald Limited also recognises the current tax liabilities (or assets) and the deferred tax assets arising from unused tax losses and unused tax credits assumed from controlled entities in the tax consolidated group.

Members of the tax consolidated group have entered into a tax funding agreement. Under the funding agreement, the funding amount for each Member shall be determined as the Member's appropriate share of the Group liabilities and/or Group assets recognised for the period in accordance with the 'separate taxpayer with a group' approach, adjusting appropriately for transactions between Members.

9. Discontinued operations**Description**

The Company progressed a comprehensive evaluation of its business units in FY2023. Following this strategic review, the management team decided to discontinue the Subscribacar activity. Following years of underperformance without a clear turn-around plan the Company is winding down these operations.

Trade receivables are amounts due from customers for services performed in the ordinary course of business. Trade receivables are generally due for settlement within 30 days and are non-interest bearing. They are presented as current assets unless collection is not expected for more than 12 months after the reporting date. Collectability of trade receivables is reviewed on an ongoing basis. The Group's impairment and other accounting policies for trade receivables are outlined in Note 2.2(f).

A credit loss arises when the Group does not expect an amount to be paid in full by considering the due date, amount, and recent sales experience.

Set out below is the movement in the allowance for expected credit losses account for trade receivables:

15. Intangibles (continued)

Trademarks and goodwill acquired through business combinations have been allocated to "Stockhouse Publishing Limited" cash-generating unit. The recoverable amount of the Group's intangibles has been determined by a value-in-use calculation using a discounted cash flow model, based on a 5-year projection period together with a terminal value approved by management. Key assumptions are those to which the recoverable amount of an asset or cash-generating units is most sensitive.

The following key assumptions were used in the discounted cash flow model for Stockhouse Publishing Ltd:

- 13.86% pre-tax discount rate (30 June 2022: 20.4%);
- 4% per annum projected revenue growth rate (30 June 2022: 15%);
- 2.5% cash flow growth rate for terminal value (30 June 2022: 2.5%);
- 4% per annum increase in operating costs and overheads (30 June 2022: 15%).

The discount rate of 13.86% pre-tax reflects management's estimate of the time value of money and the Group's weighted average cost of capital adjusted for the division, the risk free rate and the volatility of the share price relative to market movements. Management believes the projected 4% revenue growth rate is reasonable, based on the current growth rate. There were no other key assumptions for Stockhouse Publishing Ltd. Based on the above, the recoverable amount of Stockhouse Publishing Ltd exceeded the carrying amount by \$9,010,192.

Sensitivity

As disclosed in note 2, judgements and estimates in respect of impairment testing of non-financial assets have been made. Should these judgements and estimates not occur the resulting non-financial asset carrying amount may decrease. The sensitivities are as follows:

- Revenue growth would need to decrease to negative 14.1% for Stockhouse Publishing Ltd before intangibles would need to be impaired, with all other assumptions remaining constant.
- The pre-tax discount rate would be required to increase to 19.2% for Stockhouse Publishing Ltd before intangibles would need to be impaired, with all other assumptions remaining constant.

16. Business Combinations

On 4 October 2022, the Group acquired 100% of the shares in Gumtree AU Pty Ltd and its subsidiaries Carsguide Autotrader Media Solutions Pty Ltd and Gumtree IP AUS Holding Ltd ("Gumtree Group") from Adevinta Oak Holdings B.V.

The acquisition was initially funded by a vendor loan of approximately USD\$44.7 million (AUD\$68.76 million) and a 2:5 entitlement raise of AUD\$26.6 million (before costs). The vendor loan has a term ending 31 May 2023 and 8% interest per annum. At 16 January 2023, the interest rate increased to 9.5% interest per annum effective 1 April 2023 and 10% per annum effective 1 May 2023.

Subsequent to this, a completion adjustment of USD\$3,122,352 was determined based on working capital adjustments, reducing the total consideration from USD\$60.9million (AUD\$93.7million) to USD\$57.8 million (AUD\$89.0million), and reducing the repayment of the vendor loan to USD\$41.6million.

The repayment of the vendor loan was subsequently settled through cash repayment of AUD\$16.6million and refinancing of the loan through Commonwealth Bank of Australia ("CBA") on 26 May 2023 of AUD\$46million. The settlement also resulted in AUD\$1.3million realised foreign exchange gain on total repayment to Adevinta.

The acquired business contributed revenues of \$64,952,483 and profit before tax of \$17,485,418, to the Group for the period from 4 October 2022 to 31 December 2022. If the acquisition occurred on 1 July 2022 the full year contributions would have been revenues of \$86,107,292. Profit before tax is not disclosed due to different reporting structure of the previous owner.

The following table summarises the consideration paid and the amounts of the assets acquired and liabilities assumed recognised at the acquisition date.

(c) Capital risk management

For the purpose of the Group's capital management, capital includes issued capital and retained earnings attributable to the equity holders of the parent. The primary objectives of the Group when managing its capital are to safeguard its ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders and to maintain a capital structure balancing the interests of all shareholders.

The Board considers capital management initiatives that are in the best interests of the Group and shareholders from time to time, including undertaking capital raisings, share buy-backs, capital reductions and the payment of dividends.

The Group has a debt facility with National Bank of Canada and the Commonwealth Bank of Australia. Please refer to note 28 for further information.

	(9,225,938)	(8,442,880)

Share based payment reserve

The share-based payments reserve is used to recognise the value of equity-settled share-based payments provided to employees, including key management personnel, as part of their remuneration. Refer to Note 25 for further details of these plans.

Distribution reserve

The reserve represents the distribution paid to shareholders of Report Card in relation to the Group reorganisation in 2016 and upon the listing of The Market Herald Limited.

Fair value reserves of financial assets at FVOCI

The reserve represents the unrealised gains and losses arising from changes in the fair value of these assets and are recognised in equity in the period in which they arise.

Foreign currency reserve

The reserve is used to recognise exchange differences arising from the translation of the financial statements of foreign operations to Australian dollars. It is also used to recognise gains and losses on hedges of the net investments in foreign operations.

23. Earnings/(loss) per share (EPS)

Basic EPS is calculated by dividing the profit/(loss) for the year attributable to ordinary equity holders of the Group by the weighted average number of ordinary shares on issue during the year.

Diluted EPS is calculated by dividing the profit/(loss) attributable to ordinary equity holders of the Group by the weighted average number of ordinary shares on issue during the year plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares.

The following table reflects the income and share data used in the basic and diluted EPS computations:

This was settled in the current year at the Company's request and the loan plus interest accrued repaid.

The options issued to directors and other key management personnel during the year was Nil (2022: Nil).

The weighted average remaining contractual life for share-based payment options outstanding at 30 June 2023 was nil (2022: 1.97 years).

Performance Rights

On 5 May 2023, Mr Tommy Logtenberg was provided with an incentive plan with the following details:

- Number of performance rights: 1,449,275
- Grant date: 2 August 2023

- Vesting date: The performance rights will vest 12 months from the date of the successful refinancing of the Gumtree Vendor Loan Note. This event has occurred during the year.

- Expiration date: 12 months from vesting date

Vesting conditions:

- Subject to the successful refinancing of the Gumtree Vendor Loan Note and repayment of monies owed to Adevinia; and
- Remaining employed, or otherwise engaged, by the Company or one of its subsidiaries for a continuous period up to and including the Vesting Date.

The Board resolution was completed on 2 August 2023 therefore the fair value of the performance rights was deemed to be \$463,768 based on the share price at that date, with \$54,636 recognised as share-based payments expense in the current year.

26. Financial risk management

The Group's principal financial instruments comprise receivables, payables, equity investments, and cash and cash equivalents which arise directly from its operations.

The Group manages its exposure to key financial risks in accordance with the Group's financial risk management policy. The objective of the policy is to support the delivery of the Group's financial targets whilst protecting future financial security.

The main risks arising from the Group's financial instruments are interest rate risk, equity price risk, liquidity risk and credit risk. The Group's senior management is directed by the Board that advises on financial risks and the appropriate financial risk governance framework for the Group. The Group's senior management provides assurance to the Board that the Group's financial risk activities are governed by appropriate policies and procedures that financial risks are identified, measured and managed in accordance with the Group's policies and risk objectives. The Board reviews and agrees policies for managing each of these risks and they are summarised below.

Risk exposures and responses

Interest rate risk

The Group's main interest rate risk arises from long-term borrowings. Borrowings obtained at variable rates expose the Group to interest rate risk.

The Group's bank loans outstanding, totalling \$48,557,151 (2022: \$7,557,071), are principal and interest payment loans. For term loan held by Report Card Media Canada Ltd, a subsidiary of the Group, monthly cash outlays of approximately \$42,000 (2022: \$24,000) per month are required to service the interest payments. For term loan held by Gumtree AU Pty Ltd, a subsidiary of the Group, quarterly payments of approximately \$680,000 (2022: nil) are required to service the interest payments.

An official increase/decrease in interest rates of 100 (2022: 100) basis points would have an adverse/favourable effect on profit before tax of \$284,480 (2022: \$75,571) per annum. The percentage change is based on the expected volatility of interest rates using market data and analysts forecasts. In addition, minimum principal repayments of \$8,217,868 (2022: \$2,177,700) are due during the year ending 30 June 2024 (2022: 30 June 2023).

Equity price risk

The Group's listed equity instruments are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Group manages the equity price risk through diversification and by placing limits on individual and total equity instruments. Reports on the equity portfolio are submitted to the Group's senior management on a regular basis. The Group's Board of Directors reviews and approves all equity investment decisions.

At balance date, the exposure to the listed equity investments represents the carrying value of the investments as disclosed in note 17. The Group determined that an overall increase/(decrease) of 10% could have an impact of approximately \$722,712 increase/(decrease) on the equity attributable to the Group.

Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily in relation to trade receivables and contract assets) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments.

Customer credit risk is managed by the Group's established policy, procedures and control relating to customer credit risk management. Credit quality of the customer is assessed based on the customer's financial position, past working experience with the customer (if any) and any other applicable factors. Individual credit limits are defined in accordance with this assessment. Outstanding customer receivables are regularly monitored and followed up accordingly.

An impairment analysis of trade receivables and contract assets is performed at each reporting date using a provision matrix to measure expected credit losses at Note 11. The contract assets relate to unbilled work in progress and have substantially the same risk characteristics as the trade receivables for the same types of contracts. The expected credit loss is based on the lifetime expected credit loss, grouped based on shared credit risk characteristics and the days overdue, and assumptions made to allocate an overall expected credit loss rate. These assumptions include historical collection rates and has incorporated forward looking assumptions.

The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in Note 10, 11, 12 and 13. The credit risk on liquid funds and security deposits is limited because the counterparties are banks with high credit-ratings assigned by international credit rating agencies. The Group has a concentration of credit risk as all cash and cash equivalents are held with the one counterparty. The Group does not hold collateral as security.

Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and funding to ensure that the Group can meet its obligations when due. The Group manages liquidity risk by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

The Group holds the majority of its assets as financial assets and trade receivables with customers who have had no payment issues in the past and hence, does not have any material liquidity risk at the reporting date.

Remaining contractual maturities

The following tables detail the Group's remaining contractual maturity for its financial instrument liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the financial liabilities are required to be paid. The tables includes both interest and principal cash flows disclosed as remaining contractual maturities and therefore these totals may differ from their carrying value in the statement of financial position.

The cash flows in the maturity analysis above are not expected to occur significantly earlier than contractually disclosed above.

27. Fair value measurement**Fair value hierarchy**

The following tables detail the Group's assets and liabilities, measured or disclosed at fair value, using a three level hierarchy, based on the lowest level of input that is significant to the entire fair value measurement, being:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3: Unobservable inputs for the asset or liability

The following table provides the fair value measurement hierarchy of the Group's assets as at 30 June 2023.

	Total \$	Fair value measurement using Quoted prices in active markets (Level 1) \$	Significant observable inputs (Level 2) \$	Significant unobservable inputs (Level 3) \$

27. Fair value measurement (continued)

The following table provides the fair value measurement hierarchy of the Group's assets as at 30 June 2022.

	Total	Fair value measurement using		
		Quoted prices in active markets (Level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)
	\$	\$	\$	\$
Assets				
Ordinary shares at fair value through other comprehensive income (Note 17)	871,547	871,547	-	-
Ordinary shares at fair value through profit or loss (Note 17)	5,984,925	5,984,925	-	-
Options and debentures at fair value through profit or loss (Note 17)	3,793,392	32,664	3,760,728	-
	10,649,864	6,889,136	3,760,728	-

Assets and liabilities held for sale are measured at fair value on a non-recurring basis.

There were no transfers between levels during the financial year.

The carrying amounts of trade and other receivables and trade and other payables are assumed to approximate their fair values due to their short-term nature.

The fair value of financial liabilities is estimated by discounting the remaining contractual maturities at the current market interest rate that is available for similar financial liabilities.

Valuation techniques for fair value measurements categorised within level 2

In the absence of an active market for an identical asset or liability, the Group selects and uses one or more valuation techniques to measure the fair value of the asset or liability. The Group selects a valuation technique that is appropriate in the circumstances and for which sufficient data is available to measure fair value. The availability of sufficient and relevant data primarily depends on the specific characteristics of the asset or liability being measured.

Valuation of investments in private companies are based on fair value calculated using the going concern valuation approach using either the market or cost methodology.

Valuation of options and convertible debenture investments are based on fair value calculated using the Black Scholes option pricing model or an integrated valuation model.

28. Interest bearing liabilities

Term loan (b)	37,943,791	-
	37,943,791	-
Total interest bearing liabilities	48,557,151	7,557,071

The weighted average interest rate for the financial year is 6.51% (30 June 2022: 4.63%).

- (a) The loan repayments consist of monthly interest only during each of the first six (6) months, followed by straight-line amortisation over the subsequent sixty-six (66) months by way of blended payments of principal and interest.

As at 30 June 2023, there was an increase in the Ratio of interest-bearing debt to EBITDA in Report Card Media Canada Ltd and its controlled entities which resulted in a breach of the debt covenants. As a result, the loan can be called upon for immediate repayment by the bank. The bank has not called on the loan as at the date of signing of these financial statements. As at the date of signing of these financial statements, all loan repayments have been made in accordance with the loan agreement and there are no overdue repayments.

Financing arrangements

At 30 June 2023, the facility limit has been reached, and there is no unused facility limit remaining.

Assets pledged as security

This loan is secured by first-ranking charge on all of the present and after-acquired personal property of the borrower (Report Card Media Canada Ltd) and each of its subsidiaries.

- (b) The loan has a term of 3 years and loan repayment involves making payments every quarter that cover both interest and capital, subject to Gross Leverage Ratio (GLR) as at relevant Calculation Date.

No quarterly repayment will be required if the GLR is less than 1.25x. If the GLR is 1.25x or higher, a quarterly payment of \$1,000,000 is necessary until the GLR drops below 1.25x. If the GLR is 1.75x or higher, a quarterly payment of \$1,500,000 is required until the GLR falls below 1.75x.

Interest is payable every quarter, and calculated as the average BBSY bid rate plus an applicable margin of between 1.9% - 2.2% per annum depending on gross leverage ratio, with half the interest risk hedged via an interest rate swap with CBA.

Financing arrangements

At 30 June 2023, the facility limit has been reached, and there is no unused facility limit remaining.

Assets pledged as security

This loan is secured by first-ranking general security interest over the borrower, Gumtree AU Pty Ltd, and its subsidiaries. The loan is also secured by a fixed charge over all shares and a floating charge over all other assets of the parent entity, The Market Herald Limited and its subsidiaries Report Card Pty Ltd and 708Placements Pty Ltd.

29. Commitments and contingencies

(a) Commitments

The Group had no commitments as at 30 June 2023 and 30 June 2022.

(b) Contingent liabilities

The Group's current processes do not permit 'real time' scrutiny and moderation of postings on its website from its Members. It can be, and has been, the case that some postings contain defamatory material or material that may otherwise give rise to legal claims. In instances where this has occurred, the Group has moved as quickly as practicable to remove such material.

Nonetheless a number of legal actions have been commenced against the Group based on information posted on its website. In a majority of instances, legal claims have involved a party seeking access to information in the possession of the Group in relation to the person who has posted the material, where the intention is to proceed against the poster of material and not the Group. At the date of this report, a number of requests have been made to the Group either directly by

the party impacted or by the order of the court to provide identity of postings on its website. The Group is working through these requests and in the Directors opinion that there is no material exposure to the Group arising from these various actual and pending claims.

There have been other instances, occurring less frequently, where the Group is the direct target of a legal complaint. To date, these matters have all been resolved without the commencement of formal legal proceedings against the Group.

There is a risk, however, that if in the future the Group is the direct target of a legal action, this may lead to a ruling from a court which may find that the Group has liability for material posted on its website. Were this to occur, then the Group's exposure to legal liability and potential damages would be significantly increased.

Bank guarantees

At 30 June 2023, the Group has \$0.8 million in bank guarantees. The guarantees are provided to the landlords of the Group's office premises in Perth and Sydney and are secured with term deposits.

30. Events after balance sheet date

The Company progressed a comprehensive evaluation of its business units in FY2023. Following this strategic review, the management team decided to discontinue the Subscribacar activity. Following years of underperformance without a clear turn-around plan the Company is winding down these operations.

On 4 July 2023 the Company entered into a deed of cross guarantee arrangement with its subsidiaries Gumtree AU Pty Ltd and Carsguide Autotrade Media Solutions Pty Ltd.

Relief under this deed will be applicable from financial year ending 30 June 2024.

Apart from the matter noted above, no other matters or circumstances have arisen since 30 June 2023 that have significantly affected or may significantly affect:

- The Group's operations in future financial years; or
- The results of those operations in future financial years; or
- The Group's state of affairs in future financial years.

31. Related party disclosures

The Group's main related parties are as follows:

a. Key management personnel

Any person(s) having authority and responsibility for planning, directing and controlling the activities of the Group, directly or indirectly, including any director (whether executive or otherwise) of the Parent entity, is considered key management personnel.

For details of disclosures relating to key management personnel, refer to the Remuneration Report.

b. Other related parties

Other related parties include close family members of key management personnel and entities that are controlled or jointly controlled by those key management personnel, individually or collectively with their close family members.

c. Transactions with related parties

Transactions between related parties are on normal commercial terms and conditions no more favourable than those available to other parties unless otherwise stated.

The following transactions occurred with related parties:

As of 30 June 2023, the interest receivable balance owing from Mr Jagdip Sangha is nil (30 June 2022: \$75,287). This is in relation to the drawdown of the limited recourse loan facility of \$1,500,000 on 27 December 2019 which attracts an interest rate of 2% per annum. The purpose of the loan is to fund the acquisition of shares in The Market Herald Limited. The loan can be repaid at any time but Mr Jagdip Sangha must repay any amount outstanding to the Group on the earlier to occur of the following:

- Five years of the first draw-down date under the loan facility;
- 30 days of termination of employment; or
- Seven days after the provision of written notice of the Group following the occurrence of an event of default

31. Related party disclosures (continued)

During the year at the Company's request the loan and interest accrued has been repaid by Mr Jagdip Sangha through the return of shares.

On 14 September 2022 the Company completed a rights issue in which Capital Investment Partners Pty Ltd were the underwriters. Total underwriting fees paid by the Company was \$954,342.

On 26 March 2023 the Company completed a rights issue of which Capital Investment Partners received \$43,225 as part of the sub-underwriters fees.

Capital Investment Partners Pty Ltd is controlled by Mr Gavin Argyle.

There is no outstanding balance receivable or payable to related parties at reporting date.

d) Key management personnel compensation

The totals of remuneration paid to key management personnel (KMP) of the Group during the year are as follows:

Consolidated	2023 \$	2022 \$
Short-term employee benefits	1,461,841	1,322,923
Post-employment benefits	62,947	23,568

**INDEPENDENT AUDITOR'S REPORT
TO THE MEMBERS OF
THE MARKET HERALD LIMITED**

Opinion

We have audited the financial report of The Market Herald Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 30 June 2023, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the Corporations Act 2001, including:

- (i) Giving a true and fair view of the Group's financial position as at 30 June 2023 and of its financial performance for the year then ended; and
- (ii) Complying with Australian Accounting Standards and the Corporations Regulations 2001.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the Corporations Act 2001, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matter	How our audit addressed this matter
Revenue, contract assets and contract liabilities Refer to Note 4, 12 and 21 in the financial statements	
<p>As disclosed in the consolidated statement of profit or loss and other comprehensive income, the Group has recognised revenue of \$81,616,368 for the year ended 30 June 2023. In addition, as disclosed in the consolidated statement of financial position, the Group had contract assets of \$5,786,185 and contract liabilities of \$3,341,600 as at 30 June 2023. We determined revenue recognition to be a key audit matter due to the following:</p> <ul style="list-style-type: none"> The balances are material to the Group and there are risks associated with management judgements relating to the identification of contracts and performance obligations, determination of the transaction price and the timing of revenue recognition; and Revenue recognition is a presumed fraud risk under the Australian Auditing Standards. 	<p>Our audit procedures included:</p> <ul style="list-style-type: none"> Assessing the Group's revenue recognition policies for compliance with accounting standards; On a sample basis, agreeing revenue transactions to supporting documentation to assess whether the revenue recognition criteria were met; On a sample of customer contracts, checking that performance obligations have not been satisfied at year end and testing the mathematical accuracy of the contract liabilities balance as at 30 June 2023; On a sample basis, checking forecasted unbilled revenue to subsequent payment, ensuring performance obligations were satisfied before year end and testing the mathematical accuracy of contract assets balance as at 30 June 2023; Testing a sample of revenue transactions before and after the reporting date to assess whether revenue is recognised in the correct financial period; and Assessing the disclosures in the financial statements.
Impairment of intangibles Refer to Note 15 in the financial statements	
<p>As disclosed in the consolidated statement of financial position, the Group had trademarks of \$21,945,667 and goodwill of \$3,922,634 as at 30 June 2023 arising from the acquisition of Stockhouse Publishing Limited in a prior financial period.</p> <p>We determined this area to be a key audit matter due to the size of the intangibles balance, the requirement to test goodwill annually for impairment and because management's assessment of the recoverable amount of the applicable cash generating unit (CGU) determined on a value-in-use basis involves significant judgements and estimation about the future underlying cash flows of the CGU and the discount rate applied.</p>	<p>Our audit procedures included:</p> <ul style="list-style-type: none"> Assessing the methodology used by management to prepare the value in use model by comparison to the requirements of accounting standards; Challenging the reasonableness of key assumptions used by management in the value in use model to determine the CGU's recoverable amount; Checking the mathematical accuracy of the value in use model and comparing input data to supporting evidence; Evaluating the sensitivity of the key assumptions used in the value in use model; and Assessing the disclosures in the financial statements.

Business Combination – Acquisition of Gumtree AU Pty Ltd and its subsidiaries	
Refer to Note 16 in the financial statements	
<p>On 4 October 2022, the Group acquired 100% of the shares in Gumtree AU Pty Ltd and its subsidiaries Carsguide Autotrader Media Solutions Pty Ltd and Gumtree IP AUS Holding Ltd.</p> <p>The transaction was treated as a business combination in accordance with AASB 3 <i>Business Combinations</i>. The provisional purchase price allocation has resulted in intangible assets of \$98,490,724 being recognised.</p> <p>This was considered a key audit matter because the accounting for the transaction is complex and involves significant judgments. These include the recognition and valuation of consideration paid and the determination of the fair value of the assets acquired and liabilities assumed.</p>	<p>Our audit procedures included:</p> <ul style="list-style-type: none"> • Obtaining the purchase agreement and other associated documents to obtain an understanding of the transaction and the related accounting considerations; • Determination that the acquisition met the definition of a business in accordance with Accounting Standards; • Assessing management's determination of the acquisition date, fair value of consideration paid, assets acquired and liabilities assumed; and • Assessing the appropriateness of disclosures in the financial statements.

Other Information

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2023 but does not include the financial report and the auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at: https://www.auasb.gov.au/auditors_responsibilities/ar1.pdf. This description forms part of our auditor's report.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in the directors' report for the year ended 30 June 2023.

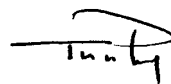

In our opinion, the Remuneration Report of The Market Herald Limited, for the year ended 30 June 2023, complies with section 300A of the Corporations Act 2001.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the Corporations Act 2001. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
