This represents another key milestone in the Mad Paws journey to cash flow break-even, first outlined 12 months ago, and validates our decisions to pursue sustainable growth strategies. To achieve this result in the current economic climate is a testament to the Mad Paws platform and its increasingly prominent position in the Australian pet market."

Group Operating EBITDA

Mad Paws announces that it has achieved its first month of positive Group Operating EBITDA, which includes all trading and corporate costs, for September 2023 as the Company continues to

make strong progress towards achieving a maintainable cash flow break-even position. This positive result is the culmination of increased demand for Mad Paws services and several operational initiatives undertaken in the previous financial year focused on driving margin improvements, improving marketing efficiencies and reducing the Mad Paws cost base.

The achievement of this key milestone provides for a strong foundation as the Group continues to grow its share of the Australian pet market and expand its core product and service offering. Mad Paws is committed to achieving cash flow break-even and the continued improvements in Operating EBITDA alongside a low capex profile and favourable working capital dynamics keep us on track with our stated goals.
