“

For the fifth consecutive quarter, each of the geographic regions achieved positive operating cashflows. Importantly for our shareholders, FDV Group achieved our third consecutive quarter of positive operating cashflows, which include our holding company costs.

In the first half of 2023, we worked hard - in what were challenging economic conditions - to ensure all the geographic regions were operating sustainably. This quarter's EBITDA results demonstrate the enhanced earnings profile of the regions, in particular for MENA Marketplaces Group (MMG).

We have achieved stronger growth than we have all year across 360 LATAM, MMG and FDV Asia, and have seen improvements from Zameen in Pakistan. We are focused on building on this momentum into the final quarter of year and beyond.
