8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
Answer: The Company expects expenditure in the December quarter to be materially reduced from previous quarters given the conclusion of the initial Bynoe drilling campaigns. The Company therefore expects net operating cash flows to be higher in the December quarter than previous quarters	
8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
Answer: The Board is aware of the current cash position and will take the appropriate steps when required, whether that be raising equity capital or other strategic solutions. Based on a history of successful past capital raises (through a placement in 2022 and an IPO in 2021), the Board is confident such steps will be successful.	

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: Yes. The Board believes its current plan for the business is appropriate and sufficiently resourced at the present time. Further steps will be taken at the appropriate time to ensure the business is adequately funded to meet its key objectives.

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.
