

# AI-POWERED SAAS PLATFORM FOR LIFELONG LEARNING

Market Update Q3, 2023

Internal use only

# SaaS Revenues, Average Customer Value and Total SaaS Customers all Increase in Q3

## Q3 2023 Highlights

**\$1.88m**

▲ 11%

Platform SaaS ARR

**\$8,121**

▲ 18%

Av Customer Value pa

**231**

▲ 6

SaaS customers

**3.5m**

▲ 6%

Total users

- Platform SaaS ARR grew 11% vs pcp, as average annual customer value improved by 18% vs pcp driven by both organic platform expansion and AI credit consumption.
- Total subscriptions grew to 231 customers with a weighting to higher value customers.
- **Net operating cash outflows fell by 36%** vs pcp as the cost optimisation program showed positive results.

The **AI Assistant has shown good client adoption in Q3**. Most customer are still using free credit in their trial period and this may start to convert to cash credits in the coming quarters. AI credit consumption will become an important component in our strategy to further improve average customer value which increased 18% this period to \$8,121pa.

Our 'AI Course Builder' includes a number of new features and is scheduled for release by the end of 2023.

# Solid SaaS Revenue Growth Every Quarter

SaaS ARR (AUD \$million)

- SaaS ARR continued its reliable quarterly growth, increasing 11% vs pcp to \$1.88m end of Q3.
- AI was a key driver of increases in both total customer numbers and customer value pa in Q3.
- AI credit consumption is in its early stages with most customers using their trial credits during Q3.
- The Course Builder feature is the upcoming tool to drive AI consumption credits and it is scheduled for release before the end of 2023.

# AI Assistant to Drive New Credit Based Revenue Stream
