\$1.55 MILLION CAPITAL RAISING TO UNDERPIN EXPLORATION AT MONTAGUE GOLD PROJECT, WA

Strongly supported equity raising to support Gateway's ongoing step-change exploration strategy

HIGHLIGHTS

- **\$1.55 million placement underpinned by existing major shareholders, including the Company's largest shareholder, Kerry Harmanis, as well as Gateway Directors.**
- **Funds to be used to progress Gateway's strategy of exploring for step-change discoveries at the 526koz Montague Gold Project in WA.**
- **Exploration to continue with ongoing soil geochemical sampling program and heritage surveys, laying the foundations for the next phase of air-core and RC drilling.**

Gateway Mining Limited (ASX: GML) (**Gateway** or **Company**) is pleased to advise that it has received firm commitments for a capital raising of \$1.55 million (before costs) (**Placement**) to institutional, professional and sophisticated investors to underpin the next phase of exploration at its flagship 526koz Montague Gold Project in Western Australia.

The Placement was strongly supported by both existing major shareholders, including the company's largest shareholder Kerry Harmanis, and new investors.

The Placement was also supported by Gateway Directors, who have committed to a collective \$114,600, subject to shareholder approval.

Gateway's Managing Director, Mr Mark Cossom, said:

"I would like to take this opportunity to thank the investors who supported this capital raising, particularly our loyal shareholders including our major shareholder, Kerry Harmanis. Given the volatility currently being experienced in equity markets, this is a great result which puts the Company in a strong position to advance exploration at Montague while restricting dilution as far as possible.

"Our focus this year has been on targeting step-change discovery and growth opportunities and, with a deep drilling program recently completed and several new highly prospective shallow target zones identified, we believe we have made significant progress towards that objective.

"We are now eagerly awaiting assay results from the recent deep diamond drilling and we are gearing up for a new phase of RC and air-core drilling at several compelling new targets such as Plymouth North, Duplex and the new geochemical anomalies at Montague North. Against the backdrop of a buoyant gold market, the next few months should be an exciting and active period for Gateway!"

- (n) **(Change in exercise price):** There will be no change to the exercise price of the Options or the number of Shares over which the Options are exercisable in the event of the Company making a pro-rata issue of Shares or other securities to the holders of Shares in the Company (other than a bonus issue).
