ANNOUNCEMENT

Drilling Commenced on Significant Molybdenum Anomaly identified by the UltraFine Soil Survey

Highway Project in South Australia

ASX Release – 3rd November 2023

Taiton Resources Limited (“T88”, “Taiton” or “the company”) is pleased to provide an update on its activities at the Highway Project (Figure 1) in the Gawler Craton of South Australia. Following the approval of the updated Environment Protection and Rehabilitation (EPEPR) from the Department of Mines and Energy in South Australia, drill rigs have arrived on site for our second drilling program at Merino Prospect.

Figure 1: Location of Taiton South Australian projects. The pink dot represents the location of the Merino prospect and the current location of the drilling program. Green dots represent mines with IOCG deposits.

ANNOUNCEMENT

The drilling program has commenced and there are no issues with drilling conditions. Drill samples will be dispatched to the laboratories in batches when collected.

The aim of the program is to test the Ultrafine soil anomaly as shown in Figure 2. The results of the UltraFine Soil Survey were released on the 26th of September 2023.

ANNOUNCEMENT

Executive Director Noel Ong commented:

“The second drilling program will help Taiton test what is a very compelling soil anomaly. The search for a Molybdenum deposit continues at Highway and we are now working through the datasets to understand the mineralising system at Highway.

As we drill this program, our team has been looking at the regional aspect of what else is on the table for Taiton.”

This announcement has been approved for release by the Executive Directors.

ANNOUNCEMENT

COMPETENT PERSON STATEMENT

The information in this report that relates to exploration results and geological data for the Highway Project is based on information generated and compiled by Shane Tomlinson, who is a member of the Australian Institute of Geoscientists (AIG).

Shane Tomlinson has sufficient experience that is relevant to the styles of mineralisation and types of deposits under consideration and to the activities being undertaken to qualify as Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves".

FORWARD LOOKING INFORMATION:

This announcement contains forward-looking statements. Wherever possible, words such as "intends", "expects", "scheduled", "estimates", "anticipates", "believes", and similar expressions or statements that certain actions, events or results "may", "could", "would", "might" or "will" be taken, occur or be achieved, have been used to identify these forward-looking statements.

Although the forward-looking statements contained in this announcement reflect management's current beliefs based upon information currently available to management and based upon what management believes to be reasonable assumptions, Taiton cannot be certain that actual results will be consistent with these forward-looking statements. A number of factors could cause events and achievements to differ materially from the results expressed or implied in the forward-looking statements. These factors should be considered carefully and prospective investors should not place undue reliance on the forward-looking statements.

ANNOUNCEMENT

Forward-looking statements necessarily involve significant known and unknown risks, assumptions and uncertainties that may cause actual results, events, prospects and opportunities to differ materially from those expressed or implied by such forward-looking statements. Although Taiton has attempted to identify important risks and factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors and risks that cause actions, events or results not to be anticipated, estimated or intended, including those risk factors discussed in Taiton's public filings.

There can be no assurance that the forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, prospective investors should not place undue reliance on forward-looking statements. Any forward-looking statements are made as of the date of this announcement, and Taiton assumes no obligation to update or revise them to reflect new events or circumstances, unless otherwise required by law.

About Taiton Resources Limited

Taiton Resources Limited (ASX: T88) is an early-stage mineral exploration and development company with a portfolio of projects across South Australia and Western Australia, comprising the following:

- (a) **Highway Project** – total land holding of 2,930 sq km, located in South Australia,
- (b) **Lake Barlee Project** – total land holding of 668.7 sq km, located in Western Australia; and
- (c) **Challenger West Project** – total land holding of 997 sq km, located in South Australia.
