#### **Market Release**

15 November 2023

Serko's unaudited financial results for the six months to 30 September 2023 Revenue growth and operational leverage underpin strong financial results

#### **SUMMARY FINANCIAL RESULTS**<sup>1,2</sup>

- Total income of \$36.3m, up 87%
- Online bookings 2.5 million, up 26%
- Completed room nights on Booking.com for Business of 1.3m, up 192%
- EBITDAF loss of \$0.8 million, a 96% improvement
- Net loss after tax of \$7.2 million, a 64% improvement
- Average monthly cash burn of \$0.6 million, an 84% improvement
- Increase to FY24 guidance for total income to \$67 million \$74 million

All dollar amounts are New Zealand dollars, unless stated otherwise.

Serko Limited (NZX & ASX: SKO) today released its financial results for the six months to 30 September 2023, with total income up 87% to \$36.3 million, reflecting high revenue growth across managed and unmanaged travel.

Serko Chief Executive and Co-Founder, Darrin Grafton, said: "The first-half result reflects our focus on maximising growth from the travel recovery, materially growing revenue under the Booking.com for Business partnership and putting Serko on a clear path to profitability. We are executing according to our plans and are now strengthening the depth of our capability and building a scaled and globally competitive business.

"The first-half result also benefitted from a higher Average Revenue Per Booking, favourable foreign exchange rates and higher-than-expected business travel volumes in Australasia."

Higher revenue and limited cost growth in the period has led to an 84% reduction in average monthly cash burn from \$3.6m in 1H23 to \$0.6 million in 1H24.

EBITDAF losses were \$0.8m, down from a \$16.9 million EBITDAF loss, a 96% improvement.

#### **UNMANAGED TRAVEL**

Mr Grafton said: "The results being delivered under the Booking.com partnership reflect the continued focus of Serko and Booking.com teams and encouraging levels of customer demand.

"Completed room nights on Booking.com for Business rose 192% to 1.3 million from 454,000 in 1H23. When compared with 2H23, completed room nights on Booking.com for Business rose 22% in 1H24.

"Active customers using the Booking.com for Business platform have continued to increase, up 61% to approximately 176,000. Average Revenue per Completed Room Night was in line with 1H23 and up 12% on 2H23.

<sup>&</sup>lt;sup>1</sup> Comparative numbers are for the prior comparative period (1H23) unless otherwise stated.

<sup>&</sup>lt;sup>2</sup> See notes to this release for definitions of non-GAAP financial measures used throughout this release.

"During the half, content and servicing from CWT within our Zeno technology platform went live in the Booking.com for Business offering, increasing travel options and reducing friction for businesses.

"We are now focused on implementing further scaling strategies with Booking.com alongside the delivery of new features."

#### **MANAGED TRAVEL**

Mr Grafton said: "Online bookings were up 14% in Australasia to two million, the result of continued strong growth and increased market share. Rio Tinto, one of the largest corporate travel accounts in Australia, went live on Zeno during the half via American Express Global Business Travel.

"We continue to see future growth in Australasia underpinned by high rates of customer retention.

"In North America, we are developing the market and delivering to our partners. We are executing on our plans including taking steps to activate additional customers, increasing the depth of our capability and undertaking targeted product development."

#### **OUTLOOK**

Business travel demand is demonstrating resilience and Serko continues to anticipate revenue growth over the medium to long term.

Considering the growth in the first half, and second half seasonality, Serko revises its anticipated total income for the FY24 year upwards from \$63 million - \$70 million to \$67 million - \$74 million. Serko affirms its total spend guidance of \$86 million - \$90 million for FY24 and anticipates tracking towards the lower end of this spend range.

Serko is well capitalised with cash on hand of \$84.3 million (as at 30 September 2023), declining cash burn and no debt. Serko continues to be open to organic and inorganic investments and will consider opportunities that would advance strategic objectives.

Macroeconomic and geopolitical factors continue to be uncertain, which may impact future performance, including in the short term. Factors that could impact results include currency fluctuations, the impact of regional conflicts and changes in hotel room rates.

Serko retains its aspiration of \$100 million in total income in FY25. Serko remains committed to achieving positive cashflow for the FY25 financial year with appropriate cash reserves on hand at the point of breakeven.

#### Important notes

Non-GAAP (generally accepted accounting practices) financial measures do not have standardised meanings prescribed by GAAP and therefore may not be comparable to similar financial information presented by other entities. The non-GAAP financial information included in this release has not been subject to review by the auditors.

Non-GAAP measures are used by management to monitor the business and are considered useful to provide information to investors to assess business performance. Reconciliation of non-GAAP to GAAP measures can be found in the Financial Statements and Investor Presentation.

- Active customers (unmanaged) is a non-GAAP measure comprising the number of customers who have made a booking in the preceding 12-month period.
- Average Revenue Per Booking (ARPB) is a non-GAAP measure. Serko uses this as a useful indicator of the
  revenue value per travel booking. ARPB for travel-related revenue is calculated as travel-related revenue
  divided by the total number of online bookings.
- ARPCRN or Average Revenue per Completed Room Night is a non-GAAP measure comprising the gross unmanaged supplier commissions revenue per completed room night.
- Cash on hand is a non-GAAP measure comprising cash and short term investments.
- Completed room nights is a non-GAAP measure comprising the number of revenue generating unmanaged hotel room nights which have been booked and the traveller has completed the stay at the hotel.
- **EBITDAF** is a non-GAAP measure representing Earnings Before the deduction of costs relating to Interest, Taxation, Depreciation, Amortisation, Foreign Currency (Gains)/Losses and Fair value measurement.
- **Headcount** is a non-GAAP measure comprising the number of employees (excluding casual workers) and contractors employed on the last day of the period.
- Online Bookings is a non-GAAP measure comprising the number of travel bookings made using Serko's Zeno and Serko Online platforms.
- Operating expenses is a non-GAAP measure comprising expenses excluding costs relating to taxation, interest, finance expenses and foreign exchange gains and losses.
- Product design and development expenditure is a non-GAAP measure representing the internal and
  external costs related to the design, development and maintenance of Serko's platforms, including costs
  within operating expenses and amortisation. It excludes capitalised development costs.
- Total spend is a non-GAAP measure comprising operating expenses and capitalised development costs. It
  excludes depreciation and amortisation.
- Total travel bookings include both online and offline bookings. Offline bookings are system automated bookings.
- Underlying cash flow is a non-GAAP measure comprising cash flows excluding movements between cash
  and short term investments, cash flows related to capital raises and unusual items from a timing
  perspective.

#### Notes to the Financial Statements

For the six months ended 30 September 2023

## BASIS OF PREPARATION AND ACCOUNTING POLICIES

The unaudited interim consolidated financial statements ('Interim Financial Statements') of Serko Limited ('the Company') and subsidiaries ('the Group') were authorised for issue in accordance with a Board resolution.

#### a) Corporate Information

The Company is a limited liability company domiciled and incorporated in New Zealand under the Companies Act 1993 and is listed on the New Zealand Stock Exchange (NZX) and the Australian Securities Exchange (ASX) as an ASX Foreign Exempt Listing. Its registered office is at Unit 14d, 125 The Strand, Parnell, Auckland. The Interim Financial Statements have been prepared in accordance with the requirements of the Financial Markets Conduct Act 2013 and the Financial Reporting Act 2013.

The Group provides online business travel booking software solutions and is headquartered in Auckland, New Zealand.

#### b) Basis of preparation

These Interim Financial Statements have been prepared in accordance with generally accepted accounting practice in New Zealand (NZ GAAP) and comply with NZ IAS 34 Interim Financial Reporting. The unaudited interim financial statements have been prepared using the going concern assumption and are presented in thousands of New Zealand Dollars. The Company is a profit-oriented entity.

#### c) Accounting policies and disclosures

The Interim Financial Statements have been prepared using the same accounting policies and methods of computation as, and should be read in conjunction with, the financial statements and related notes included in the Group's annual report for the financial year ended 31 March 2023.

#### d) Sales tax

The Income Statement and the Statement of Cash Flows have been prepared so that all components are stated exclusive of sales tax, except where sales tax is not recoverable. All items in the Statement of Financial Position are stated net of sales tax with the exception of trade receivables and trade payables, which include sales tax payable. Sales tax includes Goods and Services Tax.

## e) Application of new and revised standards, amendments and interpretations.

There are no new revised or amended IFRS Standards that have a material impact on the Group for the period. The accounting policies adopted are consistent with the prior period.

#### **5 DERIVATIVE FINANCIAL INSTRUMENTS**

The Group uses derivatives in the form of forward exchange contracts (FECs) to reduce the risk that movements in the exchange rate will affect the Group's New Zealand dollar cash flows. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

The following table presents the Group's foreign currency forward exchange contracts measured at fair value:

	6 months Unaudited	6 months Unaudited	12 months Audited

Contractual amounts of forward exchange contracts outstanding were as follows:			
Foreign currency forward exchange contracts	55,927	23,530	38,806

Derivative financial instruments have been determined to be within level 2 of the fair value hierarchy. Foreign currency forward exchange contracts have been fair valued using published market foreign exchange rates and contract forward rates discounted at a rate that reflects the credit risk of the counterparties.

#### **9 LEASE LIABILITIES**

#### Recognition and measurement of The Group's leasing activities

The Group leases property for fixed periods of between one and six years and some include extension options. These extension options are usually at the discretion of The Group and are included in the measurement of the lease asset if management intends to exercise the extension.

Lease liabilities include the net present value of fixed payments less any lease incentives receivable. The lease payments are discounted using the lessee's incremental borrowing rate, being the rate that the lessee would have to pay to borrow the funds necessary to obtain an asset of similar value in a similar economic environment with similar terms and conditions.

The amortisation of the discount applied on recognition of the lease liability is recognised as interest expense in the income statement.

Key movements relating to lease balances are presented below.

# 1H FY24 Highlights

# Strong progress and delivery on growth plans

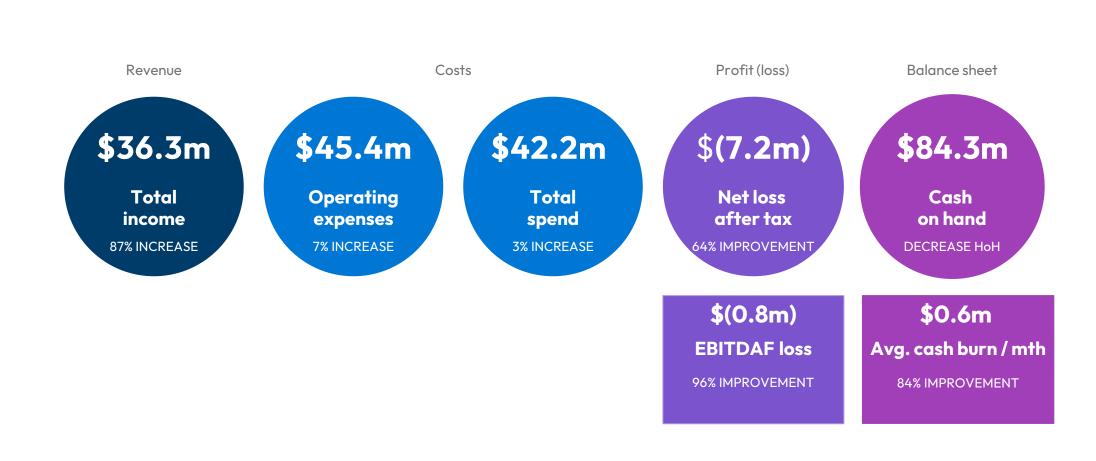

Maximise recovery, deliver unmanaged revenue growth Winning in chosen markets Global scale and operational leverage

Building globallycompetitive business

FY23

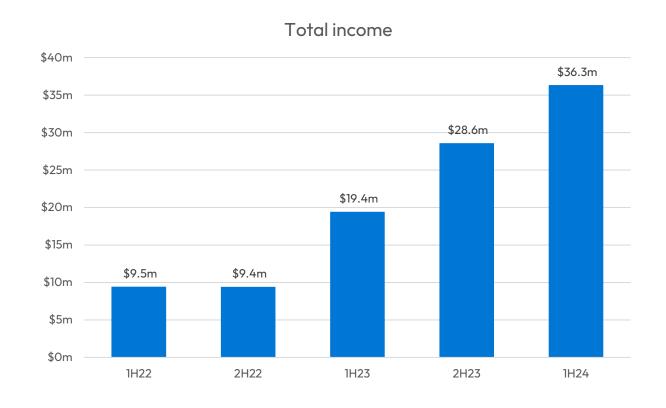

FY24

# 1H FY24: Revenue growth and operational leverage

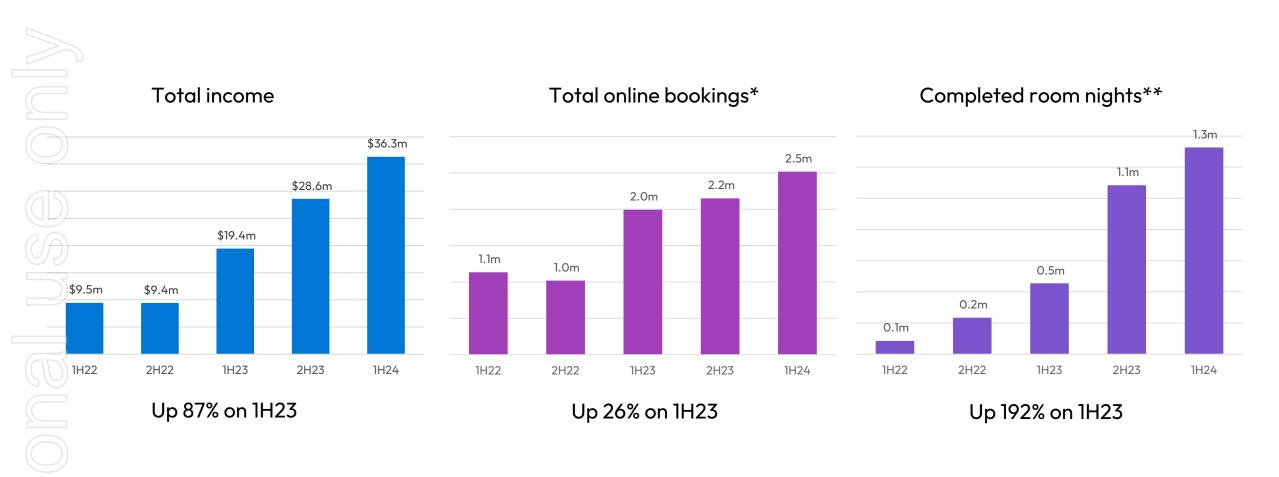

# Growth from unmanaged and managed travel

- Total 1H24 income of \$36.3m, up 87% on 1H23 and up 27% on 2H23
- Growth driven by progress of Booking.com for Business and increased volumes in Australasia
- First-half benefitted from higher ARPB, favorable foreign exchange rates and higher-thanexpected business travel volumes in Australasia

# Focus on delivering sustainable growth

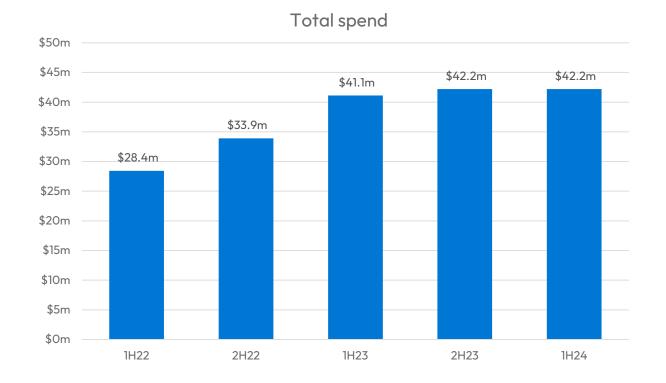

<sup>\*</sup> Total online booking figures include both unmanaged and managed bookings.

<sup>\*\*</sup>Completed room nights only relate to revenue generating unmanaged travel bookings.

# Increasing benefits from cost discipline

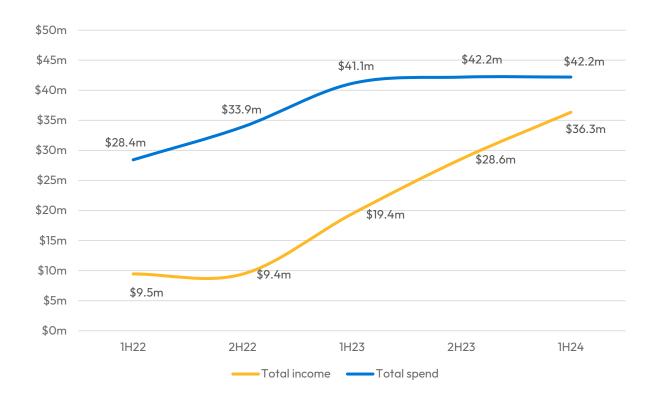

Total spend of \$42.2m for 1H24

 Total spend growth was up 3% on 1H23 and in line with 2H23

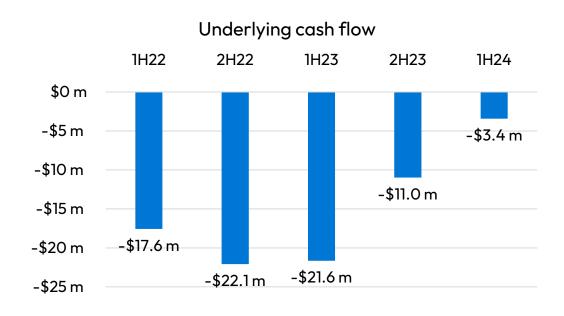

## Total income growth exceeded cost growth

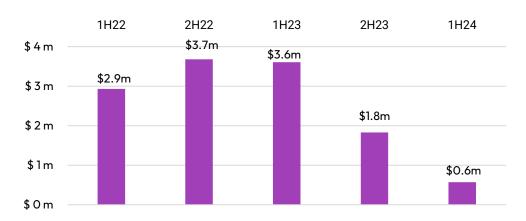

Total spend as a percentage of total income decreased from 212% in 1H23 to 116% in 1H24

# Reduction in underlying average monthly cash burn

#### Underlying average monthly cash burn\*

<sup>\*</sup> Underlying cash burn is adjusted for one-off items such as net funds from capital raise and payments made in 2H23, that ordinarily would have been paid in 2H22 and relate to FY22.

# **Strategic Priorities**

# Progress against our strategic goals

3yr Strategic Goals

#### Customer success

Deliver an exceptional customer experience (CX) through experimentationdriven development

#### Unmanaged revenue

Establish significant market share in unmanaged travel market

#### Managed revenue

Consistently grow market share in global managed travel market through TMC partnerships and inorganic growth

#### **Marketplace** and content

Commercialise the connected trip experience through an open platform

#### **Culture**

# 2. Unmanaged revenue

Continued delivery with Booking.com

# 2. Unmanaged revenue

#### Phase 3: Scaling

- We are now focused on implementing our scaling strategies with Booking.com alongside the delivery of new features.
- Scaling initiatives include bringing more of the features found in our Zeno platform into Booking.com for Business, along with new product offerings. These are supported by the strong technology foundations in place. Further product enhancements are scheduled to be released in the second half.
- During the half, content and servicing from CWT within the Zeno technology platform went live in the Booking for Business offering.
- We entered into a five-year agreement with Booking Holdings in October 2019 and will
  undertake formal renewal discussions at the appropriate time. We will keep the market
  appropriately informed.

# 3. Managed revenue

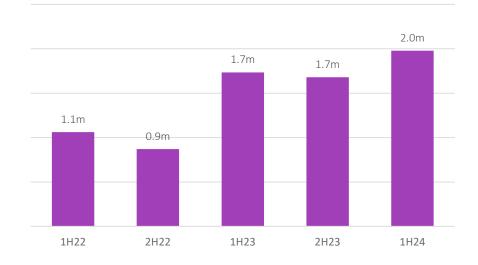

#### Australasia

- Online bookings were up 14% in Australia and New Zealand to 2 million, the result of continued strong growth and increased market share
- Driven by increased transaction volumes in Australasia and new customer wins. Rio Tinto, one of the largest corporate travel accounts in Australia went live on Zeno during the half via American Express Global Business Travel

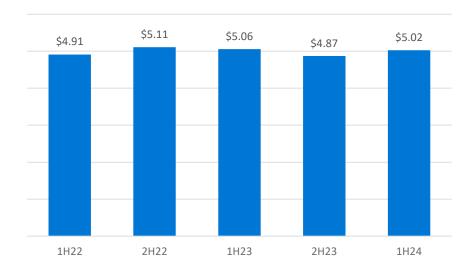

#### North America

- In North America, we continue to develop the market and deliver to our partners
- We are executing on our plans to increase customer activations and acquisitions, capability and targeted product development

#### Australasia Online bookings (millions)

Australasia ARPB

## Revenue analysis

- Continued growth in the Booking for Business partnership drove an increase in revenue in the Supplier Commissions category and in the Europe and Other geography
- Recovery in travel volumes and market share gains drove increases in Travel platform revenue in the Australia and New Zealand geographies
- ARPB grew driven by the increased proportion of Booking.com for Business transactions
- ARPCRN was in line with 1H23 but up on FY23

## Operating expenses

 Third party direct costs increased broadly in line with increased online travel booking volumes

 Amortisation has increased reflecting a higher proportion of intangibles being amortised over three years rather than five years

#### Note: A further breakdown of Operating Expenses can be found in Note 3 of the interim financial statements.

### **Balance** sheet

- Serko's balance sheet remains strong with cash and short term investments of \$84.3 million and no debt
- Receivables grew driven by increased revenue
- Payables declined relative to 30
   September 2022 due to the repayment in 2H23 noted in the Underlying Cash Flow. Payables declined relative to 31
   March 2023 reflecting the seasonal profile of payables

# Outlook

## Outlook

Considering the growth in the first half, and second half seasonality, Serko revises its anticipated total income for the FY24 year upwards from \$63 million - \$70 million to \$67 million - \$74 million. Serko affirms its total spend guidance of \$86 million - \$90 million for FY24 and anticipates tracking towards the lower end of this spend range.

Serko is well capitalised with cash on hand of \$84.3 million (as at 30 September 2023), declining cash burn and no debt. Serko continues to be open to organic and inorganic investments and will consider opportunities that would advance strategic objectives.

Macroeconomic and geopolitical factors continue to be uncertain, which may impact future performance, including in the short term. Factors that could impact results include currency fluctuations, the impact of regional conflicts and changes in hotel room rates.

Serko retains its aspiration of \$100 million in total income in FY25. Serko remains committed to achieving positive cashflow for the FY25 financial year with appropriate cash reserves on hand at the point of breakeven.

## **Definitions**

Non-GAAP (generally accepted accounting practices) financial measures do not have standardised meanings prescribed by GAAP and therefore may not be comparable to similar financial information presented by other entities. Non-GAAP measures are used by management to monitor the business and are considered useful to provide information to investors to assess business performance. Reconciliation of non-GAAP financial measures to GAAP measures can be found within the Annual Report and throughout this Investor Presentation.

- Active customers (unmanaged) is a non-GAAP measure comprising the number of customers who have made a booking in the preceding 12-month period.
- Average Revenue Per Booking (ARPB) is a non-GAAP measure. Serko uses this as a useful indicator of the revenue value per travel booking. ARPB for travel-related revenue is calculated as travel-related revenue divided by the total number of online bookings.
- ARPCRN or Average Revenue per Completed Room Night is a non-GAAP measure comprising the gross unmanaged supplier commissions revenue per completed room night.
- · Cash on hand is a non-GAAP measure comprising cash and short term investments.
- Completed room nights is a non-GAAP measure comprising the number of revenue generating unmanaged hotel room nights which have been booked and the
  traveller has completed the stay at the hotel.
- **EBITDAF** is a non-GAAP measure representing Earnings Before the deduction of costs relating to Interest, Taxation, Depreciation, Amortisation, Foreign Currency (Gains)/Losses and Fair value measurement.
- Headcount is a non-GAAP measure comprising the number of employees (excluding casual workers) and contractors employed on the last day of the period.
- Online Bookings is a non-GAAP measure comprising the number of travel bookings made using Serko's Zeno and Serko Online platforms.
- **Operating expenses** is a non-GAAP measure comprising expenses excluding costs relating to taxation, interest, finance expenses and foreign exchange gains and losses.
- **Product design and development expenditure** is a non-GAAP measure representing the internal and external costs related to the design, development and maintenance of Serko's platforms, including costs within operating expenses and amortisation. It excludes capitalised development costs.
