Boom of the Biotech - Nov 2023

ASX: AUA

Approved for release by the Board of Audeara Limited.

Internal use only

Disclaimer | Important information

November 2023

This presentation has been prepared by Audeara Limited ACN 604 368 443 (Company) for the sole purpose of providing the Recipient with general information only.

This presentation does not purport to be complete, nor does it contain all the information that a prospective investor may require in connection with an investment in the Company. Specifically, this presentation does not purport to contain all of the information a recipient of this presentation requires to make an informed assessment of the Company's assets and liabilities, financial position and performance, profits, losses and prospects.

This presentation is not a prospectus, product disclosure statement, pathfinder document or any other disclosure document or other offering document or contract under Australian law or any other law.

This presentation does not constitute an invitation or offer by the Company for the purchase or subscription of Shares or other securities and nothing in this presentation should be construed as either an offer to sell or a solicitation of an offer to buy securities in the Company.

Furthermore, this document does not advertise any such invitation or offer and does not constitute financial product advice or advice relating to investment matters.

Audera

Hardware and software solutions for the hearing industry

The Audeara difference

Audeara headphones use a hearing check algorithm[^] to tailor sound to a user's unique hearing profile.

Sound is clearer, not louder by only amplifying frequencies the user can't hear as well.

The listener experiences clearer sound while connecting to the moments that bring them joy – whether that's watching a favourite TV show, listening to music or FaceTiming with family.

[^] Not for the purpose of medical diagnosis.

Who is Audeara for?

Audeara is for people of all hearing abilities. The primary end users of our products are people who are seeking solutions in an audiology clinic setting who fit into these groups:

People with a hearing loss, who aren't ready for hearing aids

Wanting to hear the TV better and/or alleviate household tension due to loud volume

Current hearing aid or cochlear implant wearers

Seeking a device for entertainment

Clients | Audiology clinics

The PROBLEM for audiology clinics

45%

of self declared hearing impaired adopt hearing aids*

35%

of hearing impaired people who visit a clinic **leave empty handed***

10 Years

Average time hearing aid users wait before getting help for hearing loss[^]

Audeara's SOLUTION for audiology clinics

- ✓ **Additional revenue stream**
As an Assistive Listening Device (ALD), Audeara provides clinics with an additional revenue stream.
- ✓ **Increase customer conversion**
Clinics who recommend Audeara increase customer conversion rates and reduce the time to client's first purchase for customers who aren't ready to commit to hearing aids.
- ✓ **Increase lifetime value**
Audeara increases the lifetime value of their clients, by providing a solution **on the way to** or **as well as** a hearing aid. We **never** position ourselves **instead of** a hearing aid.

Board Members

Dr. James Fielding
CEO and Managing Director

Dr Fielding completed dual bachelor's degrees in business management and Biomedical Science at University of Queensland (UQ).

After working in finance and public relations in New York, Dr Fielding commenced a Bachelor of Medicine/Bachelor Surgery, earning a scholarship for UQ's Medical Leadership Program.

James left full time clinical medicine to focus on Audeara.

Dr Fielding was appointed to the Audeara Board 23 February 2015.

David Trimboli
Non-Executive Chairman

Mr Trimboli helped launch Audeara in 2015. He has 10 years experience with the international commodity trading and asset management company, Glencore International AG, as a senior coal trader.

David has since established two Switzerland and Australia based investments, the latter being Seefeld Investments Pty Ltd.

Mr Trimboli was appointed to the Board 27 August 2015.

Dr. Elaine Saunders
Non-Executive Director

Dr Saunders is a Biomedical Engineer, Audiological Scientist, business-woman, author, speaker and professional director.

She co-founded and led two award-winning companies which changed the hearing industry: Blamey Saunders hears, and Dynamic Hearing Pty Ltd. Elaine now leads Bingarra Scale-Up Solutions, specialising in helping businesses through growth.

Dr Saunders was appointed to the Audeara Board 1 January 2022.

Bill Peng
Executive Director

Mr Peng has extensive experience in the electronics industry, including the production of electronic materials, components, and semi-product through to finished products.

Bill brings extensive business experience across operational, supply chain management, product development and international sales, particularly in the Asia Pacific Region.

Mr Peng was appointed to the Audeara Board 5 August 2022.
